

○ EDUCATION

1. Do you agree or disagree with the following statement?

Schools should be responsible for teaching students moral values.

State your opinion and explain why.

Agree

1) because this kind of lesson can be useful for the future of students and society

2) If they do not learn moral values in the school they never can learn and as a result they will have various kinds of problem in relationship with different people

Agree

1) first, the future of the country is depend on its students and they should have appropriate ethical features to able manage and perform tasks.

2) second, suitable moral traits help to build a good personality that can transfer science to next generation and make them eager to learn, otherwise schooling remains fruitless

Disagree

1) academic centers such as schools are not accountable for teaching moral issues because students in schools just pay attention to academic lessons rather than moral values as their main purpose for studying and reading.

2) moral values deeply connected to parents first responsibility. Parents should be careful to set a good example for their children following their parents' moral duties in daily life. So they know each other better how to behave and react to teach moral values.

موافق

مدرسه به عنوان یک جامعه نمونه فرصت خوبی برای تدریس اخلاقیاتی مانند احترام به حقوق دیگران و آزادی بیان هست. بچه های بیشتر وقتشون رو تو مدرسه صرف می کنن و به همین دلیل زمان کافی برای انتقال مفاهیم اخلاقی وجود داره. معلم ها در مقایسه با والدین صلاحیت بیشتری برای تعلیم مفاهیم اخلاقی دارن

مخالف

ارزش های اخلاقی خانواده های مختلف باهم فرق میکنه. تاثیر پذیری کودکان از والدینشون بیشتره پس بهتره والدین اخلاقیات رو تعلیم بدن

2. Do you prefer to take a course taught by younger teachers or older teachers?

To endorse the view that prefers young teachers:

1. Younger teachers are mostly in line with novel educational methods presented and spark productive debates about the issue in the class. These discussions help students to have a better understanding about the issue.

2. Younger teachers graduated recently and they can comprehend problems of students better and are more sympathetic towards the them.

To endorse the view that prefers older teachers:

1. Most of the old teachers have a wider academic social circle and can provide a better link with someone expert in a field, if the student wants to narrow his studies in a particular subject.

2. Older teachers have a great deal of experience about how to teach a specific course and they can convey the material in a more organized way.

Younger teachers:

—Not a long time has passed since they were students, sitting behind the desk in the four walls of the classroom. They have a better understanding of how it feels to be a student and can identify deeply with students feeling misplaced in the linear, logical school environment, easing the possible pain that the student may endure during the class.

—Younger teachers are acquainted with the modern and most effective teaching strategies and are well-equipped with abilities of this kind. On the other hand, their older counterparts have an inflated view in their own abilities and their complacency and smug attitude do not allow them to learn something new.

—Inexperienced teachers are full of passion and put their heart and soul on their duties to make a great name for themselves. Older and seasoned ones, on the contrary, have a lukewarm and apathetic attitude toward the class, given the nature of an aged human.

3. At one high school, more of its students than ever before have been caught cheating on their homework assignments. For example, many students have asked other students to provide them with answers for assignments. The school is considering making a change to help decrease the number of students who cheat on homework. Which one of the following actions do you think will be most effective and why?

_Asking parents to monitor their children as they do their homework and confirm that their children have not cheated

_Increasing the penalty for cheating

_Asking teachers to create homework assignments that will make it more difficult for students to cheat

(3)

1) To begin with, it is crystal clear that should instructors design sophisticated class assignments, pupils may have to think deeply by their own and utilize their intellectual ability, leaving no time for cheating. To delineate, getting assistance from others is going to be a waste of time since given schoolwork is so intricate to deal with. Therefore, students should throw themselves into the tasks and read various educational references so as to broaden their knowledge. In this vein, their mind will be flourished to a great extent, and as time goes by, innovative ideas will come up to their heads so that they can eventually accomplish their homework high and dry.

2) Moreover, educators deliberately set assignments tough in order to create a kind of competition between pupils, so students will cease cheating since they feel an urge to get excellent grades. To elucidate on, students, feeling a heated rivalry in school, will realize that the harder they study by their own and autonomously, the greater their marks will become at the end of the semester, and the more successful they may be in the near future. Therefore, instructors are actually contributing to pupils by giving them complicated schoolwork; indeed, they will learn to solve complex problems without asking others to give a hand since they are willing to be among the straight-A students in the classroom. Consequently, this tried-and-tested method can create a competitive atmosphere for them to thrive exceedingly.

3) Imposing hard assignment, all the students will face unsolvable homework for all that forces them to analyze the

questions and answer them by themselves. Cheating in the class occurs when other classmates are assured of their knowledgeable classmates. To be more specific, when all the pupils are in the same level, there is no reason to cheat and get others' assistance. As a result, each of the class members make their hard effort to find a solution for the questions. Not only do students boost their productivity in this way, but they also rely on themselves instead of others.

4. Do you agree or disagree with the following statement:

It's the best way for teachers to help students become more interested in a subject by explaining how this subject can help students live better outside the school.

(Disagree)

1- To begin with, the difficulty of some academic subjects can hinder pupils from getting interested in them regardless of how useful those modules can be in real life, so this method is not the best approach instructors can adopt. To be more specific, some real-life applications of various lessons is beyond the intellectual ability of youngsters, and by bringing them up, they may feel immense disappointment since they cannot figure out how these matters may be utilized in real world. Therefore, educators teaching in every corner of the globe should implement other effective techniques if they want to achieve satisfactory results.

2- Moreover, it is crystal clear that there are so many subjects that appear to be useless in day-to-day life; thus, informing pupils of their usage can have negative impact on their fondness for these courses, and cannot be the most perfect action accomplished by instructors. For instance, mastering in history and being cognizant of landmark events happened during different eras may not be a determining factor for those whose major is Biomedical Engineering, so being aware of this fact that none of the explained matters about non-related subjects can contribute to them in real-life situations, students may show little interest in learning them.

3- Life outside the school is often complex, so talking about the real world as an example of lecture will make students reluctant instead of helping them to comprehend the subject. In fact, educational materials are designed in an oversimplified manner to help students understand it. The reason is simple: the simpler the lecture to understand, the more attractive the lectures will be. Therefore, by talking about irrelevant subject in real life, it is possible that student become bored and repulsive.

4- Due to specific nature of some subjects intangible to be used in real life, teachers cannot make them interesting for students to learn. In fact, among various topics students learn during their education, those abstract ones, cannot be realized in daily life application. In this way, visualizing application of these kinds of subjects, students would not make a good connection with them and understand the concepts, as well. Therefore, teachers cannot make a sensible picture of the role of some subjects in organizing a better life for students.

5. The government wants to fund one of the following areas to improve children's education. Which one do you think is better? Why?

- hire more teachers to teach in a small class
- make preschool education before kindergarten mandatory
- provide some training courses so that teachers can be more professional

گزینه انتخابی: ۳

1) Training sessions funded by governors are essentially needed to help instructors learn about innovative class management skills so as to enhance the pupils' concentration and performance in the class. It goes without saying that teaching is not merely about giving lengthy lectures or hefty assignments. Indeed, educators must be able to control the present students, who are totally different from pupils in the past, in order to create a quiet atmosphere during teaching. By doing so, children will be more focused on their lessons, and their performance in various subjects may be meliorated to a great extent. Thus, novel managing dexterities taught in training modules can have a positive

influence on youngsters' education.

2) Training meetings established by politicians are required to assist mentors in learning about brand-new teaching strategies which will encourage pupils to put so much effort in grasping information given in the class. To delineate, these courses are particularly designed to inform teachers on modern methods of teaching, which are really significant because of the ever-changing world where we live. By utilizing these techniques, such as using projectors instead of white-boards, students can profoundly understand lessons taught by instructors and be motivated to study more than before since they may become interested in up-to-date approaches.

3) Firstly, some teachers have been hired without any specific teaching knowledge, so the government can increase the quality of education by funding a program in which tutors can be taught again. To be more specific, in recent years, a lot of graduated students from universities have not found any job. Since it was the responsibility of the government to hire all educated people, and also because the lack of enough teachers in schools, the government decided to hire these job seekers in order to solve both problems. although these recruits were educated in their field, they did not how to transfer their knowledge to pupils. Therefore, the government can adopt some courses for them to so that they overcome this paucity of skills and quality of teaching increases.

4) Secondly, although experienced teachers are familiar with the concepts of teaching, due to the drastic changes in children behavior in recent years, they need to refresh their skills; therefore, the government should support teachers to spend new educational courses. In fact, children's behavior is gradually shifting according to technological advancements in this days. Consequently, in the course of time, experienced tutors will not be able to comprehend their students because the materials they have learned in the time of their hiring is revolutionized. Therefore, if these teachers keep going on with the old methods, the quality of education will plunge drastically. To avoid this, the government should ask teachers to enroll in modern teaching courses to make them familiar with new methods of teaching. Thus, the government can handle the mischievous technologically progressed students' problem by teaching new methods to experienced teachers.

5) Improving teachers' profession leads to high expansion of their knowledge cycle which, in turn, affect children's education. To be more specific, teachers convey their knowledge, specifically parts of which, to their students. The more they become skillful and knowledgeable, the more the children would learn their courses.

6) in today's complex world, in order to keep pace with the latest technology, teachers need to modernize their teaching styles, and this achievement can obtain by officials' monetary support to training courses for teachers, thereby getting better school children's education.

7) Another noteworthy point is that when teachers be trained courses by government, they will be encouraged to improve their job; also, they will detect children's ability easily.

6.Do you agree or disagree with the following statement. Parents today are more involved in their children s education than were parents in the past. Use specific reasons and examples to support your answer.

Since modern parents usually have academic qualifications and university credentials, they find themselves academically competent and play a significant role in their children's academic career. Needless to say, parental intervention and supervision in the process of education, requires parents to have at least basic information about educational system, school curriculum, and syllabus. Today's parents are acquainted with aforementioned subjects to a great extent as they have experienced them during their school years. This information encourages parents to monitor their kids' educational status and keep a tab on their children during their study. Our forefathers, on the other hand, were mostly illiterate or received rudimentary village schooling. Their lack of information could not allow them to be of great help for their children.

In today's competitive life, school grades have become the status symbol for families. This, in turn, has increased parents' role in children's academic activities compared to the past. It is quite normal that present-day parents try to embellish and exaggerate the academic achievements of their children. They are under impression that these academic qualifications will stand their family in a good stead and bring glory to their home. This mindset and compulsive urge to show off and brag has involved parents in their kids' academic performance more than ever before. Whether it puts kids under immense pressure or helps them to climb the ladder of success, parental supervision has become an integral part of studying period.

The new educational methods and strategies emphasize on parental involvement in the process of nurturing aptitudes and identifying latent talents. This measure has engaged both parents in the kid's school activities. It is often seen that most educational environments make it mandatory for parents to take a regular part in "teacher-parents association" to discuss students' performance. What's more, being an active member in class' social media group has highlighted parents' significance in children's school activities. Obviously, the lack of these requirements and technologies in previous generation did not give parents a chance to play a key role in educational process.

7. Do you agree or disagree with the following statement?

To improve the quality of education, universities should spend more money on salaries for university professors.

Supporting professors financially

-Giving professors handsome remuneration will propel them to take the ownership of their profession without any economic concern. The exorbitant costs of living from education and healthcare to food and accommodation have made people to adopt the second or third job, and professors are not an exception. It is often seen that teaching staff in universities dedicate their research time on the weekend to giving lectures or working on their new start-up to meet their family's expenditures. More often than not, they are apathetic and indifferent toward their students' academic performances. To reverse this negative trend, university instructors should feel financially secured. When offered fat salaries, professors will no longer have monetary concerns, devoting into cutting-edge research fervently and impart state-of-the-art knowledge to their students enthusiastically.

Professor should be given astronomical pay packet to equip their laboratories and fund their students to research with a high level of freedom. Sad but true, financial resources is the key factor when it comes to taking steps toward progression and development. The same logic applies to an educational environment. Researchers and students need to have world-class equipment and laboratories to conduct a successful research and experiment in the fields of

technology and science. They also need to be patronized financially to climb the ladder of success in other areas such as history and literature. This money cannot be easily gained from university as it requires boring and lengthy bureaucratic procedures. In the case of giving professors generous paycheck, they can supply these needs on their own, without having to queue up for receiving funds from the university.

Agree

1. By increasing the amount of teachers' income, they may be more motivated to teach pupils. To be more specific, their incentive can be augmented exceedingly, since they feel responsible to compensate for the salary they are being paid. Therefore, teaching effectively can gradually enhance the level of education.

2. Teachers are going to be more relaxed if they are paid sufficient money, and this comfort can be transferred to students. In essence, they will not have to be worried about subsistence of life, since their salary is adequate. This matter can result in a mind relief in both teachers and pupils; thus, their performances in school will be higher than it is normally expected, leading to a better educational system.

8. Is it better for the professor to require students to learn a subject as much as possible in a short period of time?

overburdening students with heavy syllabus and asking them to get the concept of a subject in a short span of time is sowing the seeds of psychological problems in students. When teaching students in an educational institution, professors should make sure that their teaching strategies ensure the all-round development of students. It doesn't make sense to put students under immense pressure by such rigid policies because no two students learn in a same speed; some are fast-learners and others learn at a snail's pace. Under such a circumstance, peer pressure will traumatize those who cannot keep up with their fellow-students. Of course, professors should be held accountable for this negative development.

Forcing students to develop proficiency in a topic in a short period of time will drive them away from meeting the main objective of education---exploring latent talents and real aptitudes. In the case of putting students under time pressure, professors will deprive students of relating the subject to their interest. They will never find time to browse through papers, conduct a research, or any other activities that leads them to understand anything beyond the basic and nurture their talents. In this situation, they will only learn the subject superficially and they may even resort to cheating and plagiarism for doing their homework and projects. It is evident that imposing a hectic schedule and tight deadlines, professors never give their students rooms for improvement. These poor results will damage reputation and credibility of the professor, since students' performance reflects the professor's capabilities

9. Do you agree or disagree with the following statement? All children should be required to learn a second language in school.

موافق

۱. یادگیری زبان جدید می تواند بهشون اعتماد به نفس بده و تاثیر مثبتی روشون بذاره که توان انجام هر کاری رو دارن
۲. یادگیری زبان جدید می تونه در توسعه روابط اجتماعی بشون کمک کنه و بتونن دوستان بیشتری پیدا کنن که نهایتا منجر به رشد بهتر شخصیتشون میشه

Considering the fact that most academic resources such as journals and books are written in different languages, second language acquisition is the need of the hour for students to clime the ladder of success

Learning a second language will improve their ability to interact and mingle with people coming from other nationalities in international gathering

Being bilingual or multilingual will improve their employability and job worthiness when they grow into adult a few years down the lane.

Speaking in two or more language boosts brain activities, delaying mental disorders such as Alzheimer's and dementia

10.Do you agree or disagree with the following statement? It is easier to become an educated person today than it was in the past.

Receiving high quality education has never been as convenient as it is today mainly due to the technological advancement. The emergence of new technologies and Internet-based education have offered countless options to students to choose their own preferred approach. Gone are days when educational systems used to cast every student in the same mold and make physical attendance mandatory. In this age of possibilities and options, people enjoy the benefits of customized, individualized education. It has made possible for staying-at-home mothers and working people to attend classes conducted over the Internet from the comfort of their home or workplace at the time convenient to them. Students with special needs also have reaped the benefits of this system. There are many assistive technologies designed for disabled students. It is not hard to see that progression has removed barriers faced by our parents and grandparents in their childhood to be an educated person.

Modern parents, unlike those in the past, are of great help for children in the process of education. When meticulously looking to the parents' attitude toward academic education, we can observe significant changes. Parents no longer force their children to follow in their footsteps; rather, they encourage and help them to boost their academic accomplishment. They support their children financially and emotionally. This is especially true of female students. They are no longer deprived of education because of false notion of male supremacy or apprehension of families to send their daughter to co-educational schools. Parents also are increasingly involved in "teacher-parents associations" to monitor their children's progress to help them in their hour of need.

۱ - تعداد دانشگاه ها و مدارس بیشتر شده در مقایسه با قبل. قبلنا قحطی و گرسنگی بود، دولت نمیتونست بودجه صرف دانشگاه اینا بکنه. پس تحصیل کرده هام به تناسب دانشگاه کمتر بودن

۲ - از وکیشن منحصر به دانشگاه نیست. در حال حاضر راحت تر میشه اطلاعات بدست آورد. استفاده از اینترنت، سوشیل مدیا سواد عمومی رو افزایش میده. در حالی که در گذشته مردم مجبور بودن برم کتاب های گرون قیمت بخرن تا به چیز یو بفهمن و این سخت بودش.

11.Some high school teachers (teachers of students aged 14-18) spend most of their class time lecturing (speaking) while their students listen and take notes. Other high school teachers spend most of their class time on discussion and projects that require students to participate by sharing their ideas with the class.

First, students need to come out of their shell by participating in discussions and projects activities prepared by teachers during class to make many new friends. In fact, nowadays learners are overwhelmed by many assignments, upcoming tests and unfinished homework that are painfully shy and introverted. As a result, sharing ideas with the class is a key factor contributing to start communicating with others and create a sense of happiness and satisfaction.

Second, presenting opinions and projects reports taught by educators in the class, students would get hands-on experience and approach, thereby paving the way for obtaining a decent job in the near future. In other words, thanks to practical experiences, high school students by taking part in debates presenting in class widen their horizons and

become more knowledgeable.

:recycle::recycle::recycle::recycle::recycle::recycle::recycle::recycle::recycle::recycle:

Discussion and project

- 1) provide students with more interesting and active atmosphere rather than monotonous space of one person speeches and talks. Increase the ability of innovation and creativity to answer the questions.
- 2) It is one of the indispensable skills to know how to do projects and research in an appropriate way for the students. They could learn it as early as possible and be successful in the future academic fields.

12.All university students should be required to take history courses no matter what their field of study is.

Agree

- 1) History courses provide students with a great treasure of experiences. While people studying the histories of their ancestors, they could get valuable lessons about how to become the conqueror ultimately, and how to make constructive decisions. Contemporary era is the time of less errors and more lessons of past despite wasting time on making the same mistakes.
- 2) Having the courses other than the major field generates the gratifying sense of being well-rounded. When students have to study about the history, they have the additional knowledge of other arenas that precious could be used in order to talk about their country's civilizations and the rich cultures they have had. Thereby, not only could they gain the self-confidence of discussing about their histories due to valid proofs, but they could be aware of their abilities that they could pass courses with different subjects simultaneously.

Learning about history equips students with the ability of predicting the future trends. When meticulously looking to the past events, pupils can easily find out that all events are like pieces of puzzles, and a person who use this priceless treasure will get ahead in life.

No matter the student will become an entrepreneur trying to carve up a niche for himself or a politician to win the election, learning from history will teach them how to be some steps ahead of others.

History has countless benefits to offer us, the most important of which is uniting people. In this age of globalization, international boundaries are becoming increasingly meaningless and world is becoming a global village. This negative development renders traditions, cultures, and customs obsolete. When students, the future of nations, learn about their glorious local history, they find many things to be proud of. This may rekindle their spirit of patriotism and cement national conscious. Better still, being in touch with exotic cultures makes them respectful of other cultures, and maybe xenophobia and other social maladies become a thing of past.

13.Do you agree or disagree with the following statement? All university students should be required to take at least one class that teaches the culture of a country other than their own. Use specific reasons and example to support your opinion.

From an educational standpoint, learning about a new history and culture is an effective way to quench student's thirst and curiosity to discover their surroundings. Needless to say, it is in human nature to discover new worlds and cultures. in the case of acquiring information about exotic civilizations, pupils get much pleasure from learning about a country 's historic events, foreign invasion, and dominant religion and architecture, to name but a few. on the other

hand, if the subject of a class is about aforementioned information of one's own country, the outcome of the class is nothing but boredom that students feel because of repetitive information that they already know.

Socially speaking, teaching foreign cultures is synonymous with putting efforts to have an inclusive society. No doubt, universities and schools are most powerful entities in every society and as they make headlines. When students are taught foreign history in classrooms, they can develop a deep affection for other nations by learning more about them. This mentality will not be confined to students. They will affect their families and friends. As this trend becomes widespread, we will no longer see xenophobia and discrimination against minorities, and exclusive societies will become a thing of the past.

When students are exposed to exotic cultures, they will develop proficiency in foreign languages to some extent. Moreover, they can develop intercultural communication skills by means of participation in these classes. This, in turn, boosts their career prospects and stands them in a good stead throughout their professional life.

14. Some people think it is the best approach for students to learn if school starts the day at an early time in the morning. But some think the school should start the day at late time. Which one do you prefer?

Early

ذهن بازدهی بیشتری در اون ساعت داره و فرش تر هست پس بازدهی بچه ها بالاتر می‌ره
می‌تونن از تایم‌شون استفاده بهتری بکنن چون زودتر مدرسه تموم میشه و مثلاً می‌تونن کلاس‌های جانبی بدن و مهارت‌هاشون رو تقویت کنن

برای دومی

چون سلامتی بچه‌ها مهمه و خواب تأثیر زیادی داره؛ باید خواب درستی داشته باشن تا سلامتی‌شون حفظ بشه و بتونن سر کلاس اکتیو باشن

15. If you need to take a course, which professor's course would you like to take?

1. a professor who was voted the most popular

2. a professor who has just won an award for an outstanding research

گزینه دوم

استادی که برای یک کار خفن جایزه برده پس اصول ریسرچ رو خوب میدونه و تجربه خوبی توی این زمینه داره. این تجربه می‌تونه به منه دانشجو کمک کنه که کم‌کم منم ریسرچر خوبی بشم. پس با درس برداشتن با اون استاد می‌تونم اصول ریسرچ رو یاد بگیرم مثلاً به استاد داشتیم خیلی مقاله داشت و به تازگی برنده جایزه X شده بود. من که از ریسرچ و مقاله نوشتن هیچی نمی‌دونستم اول بهم نوشتن outline رو یاد داد بعدش بادی مقاله رو یاد گرفتیم و در نهایت نحوه رفرنس دهی و ادیت رو بهم یاد دادند.

همچنین استادی که یک جایزه مهم علمی برده به طور قطع محبوبیت داره چون خیلی از دانشجو‌ها و حتی استادای دیگه به دنبال کار کردن با اون فرد هستند. چون می‌تونند اون فرد می‌تونه باعث پیشرفت‌شون بشه و کار الکی و وقت تلف کنی انجام نمیده

دوم: استادی که به این مقام مهم رسیده توی صنعت هم شناخته شده هست پس فرصت خوبییه که با درس برداشتن با اون رابطه خوبی برقرار کنیم و بعداً از طریق استاد وارد بازار کار بشیم.

1- Thanks to the experience of other students participating in voting the professor, taking the course with well-known professors can be more beneficial.

2- Moreover, popular professors are more kindly and friendly; therefore, efficiency of learning would be increased drastically during their classes.

امتیاز را داره که بشه نمره و نتیجه خوبی از کلاس گرفت یعنی بار علمیش خوبه و تأکید شده که اطلاعات و تجربه کافی داره برای تدریس و دادن اطلاعات

و چون جو آموزشی دوتانه‌ای داشته و بچه‌های قبلی راضی بودن و دوستش داشتن پس بدون استرس میشه درس خوند و تمرکز بیشتری و یادگیری بالا میره

16. Do you agree or disagree? A university's academic reputation is the most important thing a student should consider in deciding which university to attend.

۱- دانشگاه های بالا پروژه های تحقیقاتی بیشتری دریافت میکنند و این میتواند برای آینده دانشجو خوب باشد

۲- اساتید و دانشجوهای تاپ در این دانشگاه ها هستن و شخص میتواند از اونا بهره مند بشه

موافق

- هدف از حضور در دانشگاه، یادگیری یک رشته تخصصی هست، بنابراین دانشگاه های دارای اعتبار علمی بالا در اولویت خواهد بود. چون مشخصه که در زمینه آموزش اون رشته و مقاله و تحقیق موفق عمل کرده.

- یکی دیگه از اهداف حضور در دانشگاه تامین شغل در آینده است و در بسیاری از فرصت های شغلی، اولویت با فارغ التحصیلان دانشگاه های معتبر از لحاظ علمی است.

موافق

۱. شغل بهتری میتونن به دست بیارن و....

۲. میتونن برای ادامه تحصیل به دانشگاه بهتری برن

17.A city wants to help teachers of its high school students (age14-18) improve their teaching. It is considering two plans:

1. Choose a small group of excellent teachers; these teachers will attend a class led by an expert for additional training in how to teach effectively, and they will then come back to their schools and provide that training for other teachers in school.

2. Provide additional training in teaching effectively for high school teachers, using online material that each teacher will study individually.

یکی اینکه اینترننت کمک می‌کنه معلم ها با دانش روز ارتباط راحت تر و بهتری بگیرن، یعنی دسترسی داشته باشن به منابع و ریسورس های مختلف و به روز و با متدهای جدید آپدیت بشن و دانش خودشون رو ارتقا بدن

دوم اینکه استفاده از اینترننت ایده های جدید رو در آموزش به معلم ها معرفی میکنه، پس میتونن در روش های تدریسشون خلاق تر و productive تر باشن، این کمک می‌کنه بچه ها درس رو بهتر و عمیق تر متوجه بشن

گزینه دومی

یک، دریافت مواد آموزشی آنلاین صرفه جویی در زمان چون در کمترین تایم به نتیجه میرسه و نیازی نیست مثل حالت اول دو دوره را بگذرونه

دومی، اطلاعات چون مستقیم توسط همه معلمها و آنلاین دریافت میشه از دقت و صحت بیشتری برخورداره، پس دانش آموزها هم دریافت کننده گان اطلاعاتی دقیق هستن برخلاف اولی که ممکنه بخشی توسط معلم های گروه آموزش دیده فراموش بشه یا نادیده گرفته بشه

میتونی مثلاً به دلیلا بالا اینو اضافه کنی که بچه ها توی این سن به خاطر اینکه باید برای آزمون های ورودی آماده بشن باید اطلاعات دقیق و درست رو به دست بیارن.

و اینکه بچه ها در این سن باید سریعتر به مواد آموزشی برسند که استرس ناشی از موقعیتشون کمتر بشه که سنشونم گفته باشی

18.In many places, students aged 12- 18 are typically taught different subjects by different teachers, while younger students are usually taught by only one teacher all day long. Some people believe it would also benefit younger students to be taught by several different teachers every day. Do you agree with this view? Why or why not?

معلم های مختلف هرکدم در کار و حرفه خودشون professional هستن، و کاملاً مسلط هستن، با روشها و متدهای جدید آشنا هستن و خلاصه تسلط بالایی دارن و میتونن به بچه ها کمک کنن که درس رو بهتر بفهمن و productive تر باشند

داشتن معلم های مختلف مهارت communication رو در بچه ها تقویت میکنه، هر کدوم از این افراد ویژگی های شخصیتی خاص خودشون رو دارن، بچه ها یاد میگیرن و ابسته به یک شخص خاص نباشن، ایده هاشون رو ر حضور افراد مختلف پرزنت کنن، بتونن با کارکترهای مختلف ارتباط برقرار کنن و خلاصه این مهارت رو به عنوان یک مهارت پایه ای یاد بگیرن

19.If university plans to add a new course that is not being offered to students, which of the following courses, in your opinion, would attract most students?

1. Sound engineering and recording
2. History of rock music
3. Film studies

2

۱- کلاسهایی که در مورد تاریخ و موسیقی هستند معمولا برای دانش آموزان جذاب هستن چون این تو این کورسها بحث و دیسکاشن کلاسی زیاد هستش

۲- این کلاسها میتونن برای دانش آموزان امیدبخش باشن چرا که میتونن از سختی هایی که آهنگسازها و خواننده های راک از ابتدای ظهورشون تا پذیرفته شدنشون تو سط جامعه تحمل کردند، درس بگیرن .

۳- این دروس خیل راحت تر و عمیقتر توسط دانش آموزان فهمیده میشن، چون اکثر دانش آموزان با موسیقی راک و خواننده هاشون آشنایی دارند و براشون ملموسن و علاقه بیشتری برای یاد گرفتن چیزهای بیشتر از شون نشون میدن

2

First, today a majority of students are big fans of music, and history of rock music can attract their attention to this class, leading them to a great sense of satisfaction to learn about their desirable issue.

Second, because today students are bombarded with science and educational courses as boring and hard lessons, taking history of rock music can be a good chance to get ride of arduous subjects and get familiar with music as a cheerful course.

20.The university has provided students who are going to enter university with two summer vocation programs. Which one do you think is better for students?

- 1) Take some college courses in advance.
e.g. some courses that are related to students' major.
- 2) Visit some history museums or historical relics.

دومی

به دانشجو ها کمک میکنه بعد از تایم های درس و امتحان یکم استراحت کنن و انرژی هاشونو برگردونن تا بتونن بهتر روی درسها در سال تحصیلیشون تمرکز کنن

باعث میشه در حوزه های دیگه ای به جز رشته اشون اطلاعات کسب کنن و دانششون رو گسترده تر کنن و تک بعدی نباشن

21-A university recognized first year students have poor study skills in its university. Some in the university believe the best way to address this is to ask all first year students have to pass course on study skill. Others don't agree with this requirement. What is your opinion?

موافق

به دانشجو ها کمک میکنه که با متد های مختلف مطالعه آشنا بشن که این بهشون کمک میکنه موقع پاس کردن بقیه درسها مشکلی برای مطالعه نداشته باشن و . ۱
بتونن عملکرد آکادمیک خوبی داشته باشن

دانشجو هایی که تا الان مطالعه خاصی نداشتن رو به این تشویق میکنه که علاوه بر درسای دانشگاه، سراغ مطالعه زمینه های دیگه برن که خوب این میتونه . ۲
باعث باشه بتونن مهارت های دیگه ای رو هم با خوندن مطلب تو زمینه های مختلف کسب کنن که میتونه به آیندشون کمک کنه

Disagree.

The advent of technology has made a world village that students can easily explore and find the instructive information they need by just a click on a button instead of participating in classes that are time consuming.

2. Taking part in study skills would fill students with stress and anxiety because students like to have more sparse time to do other activities such as conducting a career out the campus.

سوال میگوید دانشجویانی که مهارتهای مطالعه ضعیف دارند براشون کلاس های آموزشی بزارن

دلیل اول را میگوید نه خودشون میتونن با سرچ اینترنتی راحت اطلاعات بگیرن ، خب اگر بلد بودن که دیگه ضعیف نبودن

دلیل دوم را میگوید هدر رفت وقت چون دانشجوها دوست دارن تایم ازاد داشته باشن . خب نشونه تنبلی و ضعیف بودنشون را بهبود نمیده برای این نوع سوالها بنظرم موافق سوال را بگیرم بهتره

دلیل اول را بگی این کلاس ها خوبه چون بیشتر دانشجوها روش های سرچ و مطالعه موثر را نمیدونن و با این کلاس ها میشه نحوه آموزش اکثرونیکی با متدهای جدید را بهشون نشون داد

دومی هم بگی چون دانشجوها مهارت مطالعه مفید را نمیدونن هدر رفت زمان دارن که با کلاس های آموزشی بهشون یاد داد چطور از وقتشون به نحو احسن استفاده کنن تا بیشترین کارایی را برای داشته باشن

21.Which one is the most important for teacher of high school? The ability to help students plan for their future; the ability to find the student who need the most help and to give that help; or the ability to encourage students to learn on their own outside of the classroom.

یکی یکی

1. باعث میشه از فشار و استرسی که فرد تحمل میکنه کم بشه. چرا که فقط تو اون مدت به انجام یک پروژه فک میکنه و تمرکزش بالا میره و کیفیت انجام کارهاش افزایش پیدا میکنه

2. وقتی پروژه ها رو یکی یکی انجام میده، بعد از انجام هر پروژه روحیه اش بالا میره با دیدن نتیجه کارش، و این باعث میشه که پروژه های بعدی رو با خیال راحت و با انرژی انجام بده و نتیجه پروژه قبلی براش یک انگیزه میشه

سومی

1. وقتی معلم دانش آموزان رو تشویق به یادگیری بیرون از کلاس میکنه، اونا رو ادمای مسئولیت پذیری بار میاره که باید روی پای خودشون بایستند و متکی به دیگران نباشند و کارهاشون رو خودشون جلو ببرن

1. با تشویق شدن به یادگیری بیرون از کلاس، دانش آموزان نه تنها میتونند دانش عمیقتری بدست بیارن و محدود به مباحث تئوری کلاس نباشن، بلکه میتونن شخصیت اجتماعی خودشون رو هم تقویت کنند چون تو این مسیر از افراد زیادی پرس و جو میکنن و اونا رو وارد اجتماع میکنه و دیدشون رو بازتر میکنه

22.Do you agree or disagree with the following statement: It is easier to teach students in primary school than it is to teach students in Do you agree or disagree with the following statement: It is easier to teach students in primary school than it is to teach students in university?

Primary school

1.Childrens ability in learning is more than older people because children's' brain capacity is more adaptable in receiving information. For example, teaching a foreign language to children needs less effort compared to students in university.

2. The lessons that are usually taught to children are simple and do not need thorough knowledge for teachers to get prepared the day before. But in university the course material are tough and students may ask difficult questions.

Primary school

First, primary school students are naturally happy individuals, making a sense of satisfying and interesting job position. So, teaching them is easily and enjoyable.

Second, academic materials connected to primary school students are not difficult and boring, so teachers usually do not have trouble teaching primary school courses, however, lessons related to university students are not convenient.

Teach in the university

1) university students are aware of class rules and how to behave in while teachers are teaching, thus, it is less probable to make distractions.

2) university students have gotten the suitable strategy for learning better after the classroom while it is needed to explain about those methods for primary students that would have a tough process.

23.High school students should be required to study many different subjects at same time or they should study only three or four subjects at a time.

Only three or four

1.براحتی علایق شغلی و تحصیلی رو پیدا میکنند، چرا که فرصت بیشتری برای تحلیل و بررسی هر موضوع دارند.

2.ظرفیت ذهن انسان محدوده، تعداد زیادی درس باعث میشه که دانش آموز نتونه تمرکز بکنه و در نتیجه نمیتونه به خوبی درسهاش رو پاس بکنه و از درس زده میشه.

24.Do you agree or disagree with the following statement? Some lessons for young students (5~8 years old) increase their interest to learn, including video games. But some people believe it will distract young students.

من برداشتم این هست که میگه بعضی از درس هایی که توش ویدئو گیم دخیل هست می تونه باعث شه بچه ها درس رو بهتر یاد بگیرن،

موافق

1.بچه ها اصولا به تکنولوژی و بازی علاقه دارن و این علاقه به بازی کردن تهییج می کنه اون ها رو به فرا گرفتن بیشتر و بهتر اون درست

2.ویدئو گیم باعث میشه ذهن بچه ها خلاق تر بشه و با دید وسیع تری به درس نگاه کن، و این باعث میشه که عمق و ارزش واقعی درس رو یاد بگیرن و بنابراین محتمل هست که بیشتر هم علاقه داشته باشن به اون درس

25.Do you agree or disagree with the following statement? Good teachers admit they make mistakes or don't know something.

موافق:

1. اشتباهاتی که معلمان در کلاس انجام میدن، چه رفتاری چه آموزشی، روی دانش آموزان تاثیر میذاره و اگر به این اشتباهات اعتراف نشه و معلم اون اشتباهش رو نپذیره، این اشتباه میتونه تا همیشه با دانش آموز بمونه. از اونجا که ویژگی یک معلم خوب آموختن صحیح دانش هستش، بهتره به اشتباهات خودش اشاره کنه.

2.از اونجا که دانش آموزان به شدت تحت تاثیر معلمان خودشون هستن، یک معلم خوب با بیان اشتباهاتش میتونه به دانش آموزان درس مسئولیت پذیری و نقد پذیری رو یاد بده

**26. Do you agree or disagree with the following statement?
Schools shouldn't allow young students to use calculators during exams.**

Agree

1. It will prevent teachers to evaluate students in all aspects especially when students use advanced calculators.
2. Students will rely on their own abilities instead of being dependent to calculators. This can help brain development of young students.

Disagree

1. Calculating by the students own selves takes unnecessary time from them, while they can spend that time on solving problems and answering questions thoroughly.
2. Calculations without using calculator would make students stressed out, so they would not be able to better concentrate during the exam.

موافق:

1. باعث میشه که دانش آموزان به یادگیری مفاهیم پایه ریاضی بیشتر دقت کنن و اونا رو دست کم نگیرن. دقیقاً برعکس مجاز بودن ماشین حساب، که باعث میشه خیلی از مباحث پایه ای رو نادیده و بیهوده در نظر بگیرن.

2. آوردن ماشین حساب باعث بی نظمی سر جلسه میشه. صدایی که ایجاد میکنه، به همراه نداشتن ماشین حساب توسط برخی دانش آموزان و استرسشون، کار نکردن و... همه باعث به هم زدن تمرکز دانش آموزان میشه.

مخالف:

1. وقتی دانش آموزان مجاز باشن ماشین حساب ببارن، با توجه به بیشتر شدن وقت دانش آموزان سر جلسه، اساتید میتوننن سوالات مفهومی و سخت تری طراحی کنن تا بتونن بخوبی دانش آموزان رو از لحاظ یادگیری مفاهیم ارزیابی کنن

2. استرس دانش آموزان رو میاره پایین. چون میدونن تمام محاسباتی که انجام میدن دقیق هستش و لازم به تحمل استرس و صرف زمان ندارن و بهتر میتونن مباحث مهم تری که یاد گرفتن رو تو امتحان بیان کنن

27. Some professors prefer to give regular quizzes. Some prefer to give surprising quizzes. Please talk about the advantages and/or disadvantages of surprising quizzes.

Disadvantage:

1. Consistent stress over the semester for each section.
2. Students have to put forth a lot of time on a that specific course. Thus, students are not able to give time to other tasks.

Advantage

1. Students are always prepared and will study thorough throughout the term
2. By studying for each lesson that whether they would have a test or not they can achieve a better outcome in the final exam
3. A couple of Quiz scores will be added up so students can give a good reputation to their teacher in comparison when students only have a final exam.

مزایا:

1. باعث میشه دانش آموزان همیشه آماده باشن و درسهای هر جلسه رو بخون و با آمادگی قبلی بیان سر جلسه که این باعث میشه مطالب جدید رو هم خب یادگیرن چون دروس به هم مرتبط هستن.

2. دانشجویان هیچ کلاسی رو میس نمیکنن. چون میدونن هر جلسه ممکنه کونیز برگزار بشه و به خاطر از دست ندادن نمره هر جلسه در کلاس حاضران و این به نظم کلاس کمک میکنه

معایب:

1. استرس دانشجویان بالا میره از اول جلسه چون همش نگران و درگیر کونیز احتمالی میشن و این تمرکزشون رو به هم میریزه.

2. فلکسیبیلیتی رو از برنامه دانشجویان میگیره. چون هر هفته بایستی وقتی رو اختصاص بدن به کونیزی که معلوم نیست برگزار میشه یا نه و از بقیه دروسشون میمونن

28. Do you agree or disagree with following statement? Teachers were more appreciated and valued in the past than they were nowadays.

Disagree,

First, technology has not yet been developed enough to be completely supplanted as a means of education, and societies are still in need of teachers' services.

Second, teachers' unions around the world have powerful leverages over regulators and oppose changing the traditional methods of learning.

مخالف:

۱. با پیشرفت هایی که امروزه صورت گرفته در زمینه های مختلف، مسائل بسیار پیچیده تر و سخت تر شده اند و لذا درک این مطالب برای افراد و دانش آموزها بسیار سخت تر و دشوار تر شده. بنابراین با توجه به اینکه تیچرهای امروزی نسبت به قدیمی تر ها اپدیت تر و از سطح دانش بالاتری قرار دارند، دانش آموزها احساس نیاز بیشتری بهشون دارند و بیشتر ارزش شون رو میدونن و معلم ها مورد تکریم بیشتری قرار میگیرند

۲. سطح فرهنگ مردم نسبت به قبل بالاتر رفته و این باعث شده که عزت و احترام بیشتری برای معلم ها در نظر بگیرند. در گذشته مردم زیاد به علم و دانش توجهی نداشتند و بسیاری از والدین بجای فرستادن فرزندان به مدرسه و کسب علم از اونا در کارهای روزمره استفاده میکردند تا بتونند مخارج زندگی شون رو تامین کنند و لذا ارزش و احترامی برای علم و به دنبال ان برای معلم قائل نمیشدند. ولی امروزه مردم آگاه تر شده اند که کسب علم و دانش جهت موفقیت فرزندانشون نیازه و بیشتر به علم بها میدن. این قضیه باعث شده که به معلم ها به عنوان انتقال دهنده علم و دانش بهای بیشتری داده بشه و بیشتر بهشون احترام گذاشته بشه.

29. Do you agree or disagree with the following statement:

It's the best way for teachers to help students become more interested in a subject by explaining how this subject can help students live better outside the school.

موافق

وقتی ربط مباحث آموزشی را با دنیای بیرون میبینن بیشتر کنجکاو میشن در موردش بدونن و باعث میشه بیرون از کلاس هم برن در موردش تحقیق کنن

باعث میشه مباحث آموزشی واسشون ملموس تر بشه چون به تصویر بیرونی از اون مبحث دارن

موافق

۱. وقتی بدونن درسی که میخوانن چه کاربردی در زندگیشون داره، با انگیزه ی بیشتری تلاش میکنن تا یاد بگیرن

۲. وقتی بدونن این مورد رو، از همون موقع توو کلاس تفکر میکنن که آیا این درس با توجه ب این کاربردها جزو حیطه ی علاقه شون هست و میشه ب عنوان منبع درآمد بهش نگاه کرد یا نه..

30. A new teaching method, professor record a video (lecture) in advance for students to learn, class time used to answer questions and have discussions. Do you think this is an effective way and why?

درسته که سوال و بحث تو کلاس باعث شیر کردن اطلاعات میشه و در یادگیری بچه‌ها تاثیر داره من فکر میکنم که دیدن ویدیو درسی قبل از کلاس ایده خوبی نیس:

۱ (انگیزه دانش آموزان برای حضور در کلاس کم میشه. خیلی از دانش آموزان برای یادگیری مطالب جدید میان سر کلاس و وقتی که مطلب رو دونسته باشن انگیزه کمتری برا سرکت در کلاس دارن این در حالیه که خود کلاس و بحث و یادگیری در کلاس تاثیر بیشتری داره.

۲ (دانش اموزا باید تایم بیشتری بزارن برا یادگیری دیدن يك ویدیو که میتونن از اون وقت برا کارای دیگه ای استفاده کنند که بهره وری بالایی سر کلاس داشته باشن. خیلی از دانش اموزا بخاطر درس و مدرسه استرس زیادی رو تحمل میکنن . بهتره ك اون ها تایم داشته باشن که ورزش کنند/ تفریح کنند و .. حالا تصور کنید هر پرفیسوری بخواد برا هر لکچر يك ویدیو آماده شده بده که دانش اموزا ببینن، در قورت اونا وقت کارای دیگه ندارن.

31. Agree or disagree: Subjects such as art, music and drama should be part of every child's basic education

موافق

1. یادگیری هنر باعث تقویت قوه تخیل و خلاقیت کودکان میشه. چرا که اساس هنر استفاده از خلاقیت و ابتکار هستش. و این باعث میشه این قوه شون که در فرایند یادگیری بسیار مهمه تقویت بشه.

2. یادگیری هنر و موزیک لازمه اش کارگروهی هستش و کودکان رو درگیر فعالیت گروهی میکنه و بهشون سوشالایز کردن، کارگروهی رو یاد میده که در تمام مقاطع زندگی شون بر ااشون مفیده.

3. قرار گرفتن هنر و به خصوص موزیک در آموزش روزانه، دروس رو از یکنواختی و خسته کنندگی که مشکل کودکان هستش رو در میاره و در عین آموزنده بودن به تفریح مفید برای اوقات فراغت شون هستش

32. Do you agree or disagree? It is difficult for teachers to be both popular (liked by students) and effective in helping students in learning. Give your reasons and specific examples.

Disagree

To begin with, teachers can easily cement their interaction with students to be liked, providing a friendly relationship, leading to students' participant in classes actively to overcome their educational obstacles.

Moreover, popular teachers usually are in possession of a specific teaching style to attract students' attention in the class conveniently by applying novel educational strategies such as videos and group activities.

1-students are usually eager to be present and active in classroom when the teacher is popular.

2-popular teachers establish friendly relationships with students, leading to students asking their questions without stress. This ends in increasing learning rates

وقتی دانش آموزان به معلمی رو دوست دارن سر کلاس با دقت بیشتری به حرفاش گوش میدن این باعث میشه به صورت ناخودآگاه کارایی کلاس بالا بره و معلم به راحتی حتی مباحث سخت رو به دانش آموزان درس بده

از طرفی میشه گفت دانش آموزان در کل معلم هایی رو که خیلی خوب درس میدن دوست دارن چون این کارآمد بودن در درس دادن به صورت غیر مستقیم باعث میشه که دانش آموزان حس خوبی و دید مثبتی نسبت به اون معلم پیدا کنند

33. Do you think it's a good idea for university to ask a student to leave school if he was caught cheating in exams? Explain your response in details.

Agree

First, it is not fair for other students spending enormous energy and time studying to get a high mark while other students do cheating and evaluate by the same result of exams.

Second, dishonest behavior cannot be accepted from students educating in academic centers. By preventing students cheating at exams, other students do not this behavior.

disagree

اولا بخاطر یہ اشتباه نباید چنین مجازاتی برای بچه در نظر بگیرن و فرصت تحصیل رو ازش بگیرن. بلکه باید با فرهنگسازی و آموزش های صحیح جلوی تقلب کردن بچه ها رو بگیرن. این کارها فقط موجب اثرات سو در روحیه بچه ها میشه که شاید بموجب اون بچه ها رفتارهای غلط خطرناکی تو جامعه از خودشون بروز بدن مثل اعتیاد، دزدی و...
دوم اینکه احتمال این وجود داره که اون بچه بخاطر ضربه روحی و اجتماعی که متحمل شده مشکلاتی برای سایر همکلاسی ها، معلمان یا حتی مدرسه ایجاد کنه.

34.Do you agree or disagree? It is difficult for teachers to be both popular (liked by students) and effective in helping students in learning. Give your reasons and specific examples

مخالف

۱. وقتی معلم پاپیولار باشه، دانش آموزها بیشتر از کلاسش خوششون میاد و این علاقه به استاد باعث میشه ک بیشتر در کلاسش حضور پیدا کنند و در هنگام تدریس بیشتر توجه کنند که این ها باعث میشه بهتر یاد بگیرند. بنابراین به این صورت پاپیولار بودن معلم میتونه باعث تدریس موثرتر بشه.
۲. وقتی معلم پاپیولاره بچه ها باهانش بیشتر باهانش communicate و interact میکنند سر کلاس. بنابراین بعد ی مدت رابطه خیلی خوبی بین معلم و بچه ها شکل میگیره ک باعث میشه سرکلاس راحت تر باشند و راحت تر سوالشون رو از تیچر بپرسند. لذا این رابطه صمیمی ایجاد شده به خاطر پاپیولار بودن تیچر باعث میشه ک بچه ها بیشتر درگیر باشند و بیشتر و بهتر درس رو یاد بگیرند از این طریق

35.Do you agree or disagree with the following statement? Students do not respect teachers as much as they did in the past.

Overprotecting your children in front of teachers

Often, you see parents overprotecting their children. These parents are very permissive and let their kids do whatever they want. This situation, along with teachers' lack of resources, makes it very difficult for students to respect them.

Excessive permissiveness

Currently, education and teaching methods are moving away from authoritarianism and allowing for better relationships among teachers and students. This allows teachers to be more accessible for their students.

The problem arises when teachers' roles are distorted and they attempt to put them at the same level as their students.

The example of the parents

In many cases, when parents don't agree with teachers' academic decisions, they take away the teachers' credibility. Parents might even get aggressive and angry. If parents don't respect the teacher, their children won't either.

Some people believe that a person needs to possess natural physical ability in order to be successful at sports. Others believe that any person can become successful at sports through hard work. Which do you agree with and why?

Disagree

First, athletic abilities are not hard-weird as other skills derived from strenuous efforts. People progressing at sport spend a long period of time exercising regularly.

Second, becoming successful at sports needs strong passions in these field. Having physical ability naturally cannot ensure individuals to continue building their self-stream and setting their targets.

مخالف

۱. در دنیای امروز با توجه به پیرفت علم، تکنولوژی و دستگاه های ورزشی و متدهای تمرین، در هر رشته فرد با آموزش و تمرین درست میتونه مهارت های لازم را کسب کنه و حتی نقاط ضعفش رو برطرف کنه، مثلا خیلی از افرادی که بدن نحیفی دارن میرن باشگاه های مجهز و با استفاده از برنامه غذایی بدنشون رو واسه رشته ای که میخوان تقویت میکنن

۲. امروزه گستره رشته های ورزشی انقدر زیاد شده که هر فردی با هر فیزیک و توانایی میتونه ی رشته ای رو پیدا کنه که متناسب با ویژگیهایش باشه

36.Do you agree or disagree with the following statement?

Students do reading by their own personality is as important as, or more important than reading assigned by teachers. (agree)

1- Reading by themselves, students can gain information how to choose their books to be useful for them by relying on their own. To clarify, teachers often enforce an assignment without explaining how they have chosen the profitable resources to study. While students are required to read by their owns, they acquire indispensable knowledge about the factors they have to consider for their reading choices. Conspicuously, they will be aware of researching skills in order to find more beneficial study materials. As a result, not only will the students be skillful in gathering fruitful acquaintances, but they also will believe in their researching abilities leading to higher self-dependency.

2- Discovering the desired field of study, particularly for the future, is the main result of personality-assigned readings. To be more specific, giving pupils the opportunity to read whatever they want is an effective method to encourage students to read. In this way, readers will be enticed to choose various types of subjects to read which increases their background knowledge that is useful in all content areas. The more an individual reads, the more he will be challenged. Hence, the reader will become familiar with his own pleasure field of study or even future job positions. Therefore, the self-assigned method opens the door to have broader oversight towards the world and a glimpse into the future field of study and profession. However, teachers-assigned reading based on their own personality which might be in contrast with students' passion.

3- Moreover, pupils who get down to reading matters have supreme self-confidence in comparison with those confined to educational materials given by instructors. To be more specific, since students often choose books and articles according to their own taste outside the class, they will become specialists in specific readings that are enjoyable for them. Thus, their level of self-esteem will boost exceedingly because they are sure that they possess extensive knowledge of particular subjects and can response to various questions that others may come up with. Consequently, self-reading is far more substantial than class assignments handed out by educators.

37.Do you agree or disagree with the following statement?

The success of a school largely depends on the resources it has such as textbooks and journals.

Agree

First, academic centers such as schools should be fully equipped with latest and many references such as books because students and educators have access to a wide spectrum of information to study and become well-educated.

Second, a school can be successful when attract many top students and elite teachers, therefore, by providing various resources can capture the heart of people attend school drastically.

38.Some schools require students to finish a reading list during school breaks. Talk about the advantages and disadvantages of this requirement.

In my point of view, one of the most important advantages is students having a ready and agile mind for the next class, since reading helps their mind gets familiar with the course.

talking about its disadvantages, students probably lose the opportunity of engaging in social interactions. we all know that breaks are the best times when students can get along with each other and improve their social skills which are crucial for their success in future life

Pros: students during their vacation do not waste their time and broaden their awareness deeply by reading a list of materials.

Cons, school breaks should allocate to entertainment and students do whatever they want. So, reading a list makes many stresses, making exhausted students from education.

Adv: there are many reading skills including speed, comprehension and verbal qualifications that students could acquire them.

Disadv: students need to rest during the holidays and recharge for the remained studies and doing so prevent them from doing their favorite entertainments.

39. Some people prefer to write many short assignments for a semester, other prefer to write one or two long assignments for a semester. Which do you prefer? Explain why?

I prefer to many assignments during each semester

first, when there are several assignments during the semester, I would probably get better marks since if i get a low grade on one of them, i will get motivated and make up for it in the subsequent assignments.

Second, in each assignment of aspect of the course would be bold for me and i am prone to learn more.. However, while having single assignments, I might not pay attention to divers points

40. Do you agree or disagree with the following statement? Students can get as many benefits from organization or club activities as they can get from their academic studies.

Agree

First, students should get life lessons such as communication skills from education as well as academic studies; therefore, organization or club activities are beneficial for students.

Second, a majority of academic and science courses are arduous for learning, causing many stresses and strains; thus, students can take advantage of club activities to make a sense of happiness and satisfaction.

مخالف

۱ - هدف اصلی educational centers یادگیری و آموزش هست که دانش آموزها well-educated بشن و دانش خودشون را ارتقا بدن و در ادامه مقایسه کنیم با سایر مخالف که اگر فعالیتهای کلاب اضافه بشه دانش آموزها نمیتونن به اندازه کافی از انرژی و وقتشون برای یادگیری بهره ببرن چون waste-timing

۲ - درس های اکادمیک باعث میشه بچه well-rounded بشن یعنی مهارت ها و تجربه های مختلف شغل را کسب کنند (فایده دراز مدت) (بتونن آینده شون را شکل بدن پس قطعاً خیلی مفید ترن از کلاب ها که اوقات خوش زود گذر را فراهم میکنن.

41. Your university decided to allow local communities to listen in the campus, they could enter into the class, but can't ask questions and don't have assignments. Do you agree or not agree?

Disagree

First, it is not fair for students tolerate a crowded class because their efficiency of learning will decrease dramatically. Second, all of teachers are not excellent time-managers to handle the class, and local people talk with each other, so the class would not have a high quality of education.

Agree

- 1) it is a good publicity for university to attract top rank students. Since community consists of school student's parents, by attracting them their children's will attend to the university in the future
- 2) university could strength its relationship with the city and that will bring a lot of career opportunity for both students and professors in the outside world

Agree

- 1) a huge number of people are interested in some special subjects but could not afford to enroll in the universities—> good opportunity for them
- 2) because they don't ask anything, they won't take the main students time to use the class efficiently

Disagree

To begin with, since these people don't have any commitment to the class they participate in, they can act as a potential distraction for those who enthusiastically pursue their study as an official student. To be more specific, when participants are not allowed to be engaged in class discussion or carrying out projects, they become bored and begin to talk to other students ,leading them to tune out their lessons.

Furthermore, the primary objective of education is nurturing people's talent by involving them in debates and assigning them special projects; thus, local individual's presence in classes will not be beneficial for them. In the other words, when they don't have permission to ask question and conduct projects, they can not enjoy the benefits of taking classes so that participation in the class can only be the sheer waste of time which could be spent in a worthwhile way.

موافقم
باعث میشه با ترند روز و مشکلات به صورت تخصصی آشنا بشن، سطح آگاهی‌شون نسبت به مشکلات جامعه بالا می‌ره و میتونن راه حل ارائه بدن در سطح عمومی و خلاصه جلوی یکسری از معضلات رو بگیرن

:recycle::recycle::recycle::recycle::recycle::recycle::recycle:

موافق
حضور کمیته ها و گروه های محلی باعث میشه ارتباط بین دانشجو ها و اساتید و اونا ایجاد بشه که این میتونه برای هردو طرف مفید باشه
گروه ها میتونن برای تصمیم هاشون و مشکلاتشون بعد از ارتباط گرفتن با دانشگاهیان ازشون کمک بگیرن
و چون خیلی از بازدید های دانشگاهیان یا پروژه هاشون نیازمند همکاری گروه های محلیه این ارتباط باعث میشه هماهنگی راحت تر صورت بگیره

42. Some countries have approved "home school" as part of education. Do you agree or disagree?

مخالف

۱. فرصت تبادل نظر با بقیه بچه ها و تقویت مهارت های اجتماعی همچون برقراری ارتباط با دیگران از بچه گرفته میشه
۲. انگیزه رقابت وجود نداره و ممکنه در سرعت یادگیری بچه تاثیر منفی بذاره

Agree

First, parents do not have spend a great amount of money on neither private schools to train their children deeply and effectively.

Second, public schools are not in high quality of education, and parents are qualified in teaching their children.

43. Do you agree or disagree with the following statement? Students do reading by their own personality is as important as, or more important than reading assigned by teachers.

Agree

- 1) Most of the students presume reading as an entertainment and they read novels and poetry books in order to get relaxed. They assume reading as a good way to unwind and get ready for the rest of the assignments and works.
- 2) It is even more important than other studies because many students tend to broaden their insights by reading different type of books and seize the knowledge that indeed they could utilize that information in their future life and work.

Reading personality

First, it is widely accepted that when students read individually, definitely their efficiency of learning will increase dramatically. In this condition, learners are not exposed to teachers' striction mandatory, and they can find their own learning method effectively.

Second, reading personally, students are able to explore their passions, and they are independent to select some topics exciting them to select their major or career in the future.

Reading assigned by teachers

معلم ها بر اساس تجربه میدونن چی بیشتر به درد بچه ها میخوره و این منجر به high level of productivity میشه و دلیل دوم اینکه معلم ها از این طریق میتونن جنبه های دیگه آموزش مثل هنر، تاریخ، خلاقیت و ... رو در بچه ها تقویت کنن.

44. Which course about history are you interested in? Science history, art history or history of 20th century?

قرن 20

1. بسیاری از تحولات عظیم بشری در حوزه های مختلف سیاسی، اجتماعی، نظامی، پزشکی و... در این دوره اتفاق افتاده و با خواندن تاریخ این قرن میتونم اطلاعات زیادی در مورد این پیشرفته ها و تحولات کسب کنم
2. یکی از مهمترین اهداف خواندن تاریخ، درس گرفتن از تجارب و زندگی مردم اون برهه زمانی هستش. به دلیل نزدیکی زمانی و سبک زندگی مردم اون دوران به زمان حال، سرگذشت و اتفاقات اون قرن خیلی میتونه واقعی و ملموس باشه و میشه این تجارب رو تو زندگی الان به کار برد

Art history

۱. می تونید با فرهنگای مختلف آشنا بشین
۲. بزرگان هنر در زمینه های مختلف رو می تونید بشناسین

45. Some people think it is the best approach for students to learn if schools start the day at an early time in the morning. But some think the school should start the day at a late time. Which one do you prefer? Use specific reasons and detailed examples to support your answer.

Early time in the morning

First, getting up early in the morning is a key factor contributing to increase energy and concentration drastically; therefore, starting school at an early time is the fundamental approach for enhancing school students' learning

efficiency.

Moreover, starting school the day at an early time, learners have to manage their time to sleep early at night and avoid wasting time and distraction, therefore, becoming a well-organized student is effective way for learning.

اولی

۱. دانش آموز خواب و استراحتش رو کرده و پر از انرژی و این انرژی بوده باعث میشه سرعت یادگیری دانشجو بره بالا
۲. ابتدای روز یعنی دانش آموز هنوز درگیر کاری نشده، بنابراین تمرکزش کامل روی درس خواهد بود و این باعث افزایش بازده یادگیریش میشه

دومی

۱. خیلی وقتا ممکنه پیش بیاد دانش آموز شب قبل دیر بخوابه مثلا در اینترنت پرسه بزنه یا فیلم ببینه و خب این باعث میشه اول روز در مدرسه کسل باشه چون خوابشو کامل نکرده و اگر کلاسش دیرتر میبود میتونست خوابشو کامل کنه و بعد با انرژی بیشتر و سر حال تر در کلاس حضور پیدا کنه
۲. ممکنه محل زندگی دانش آموز با مدرسه فاصله زیادی داشته باشه و بخاطر همین در صورت دیرتر شروع شدن کلاس فرد میتونه با آرامش به کلاسش برسه در حالیکه اگر صبح زود شروع بشه فرد باید خیلی زودتر و شاید درحالیکه هنوز روز نشده از محل زندگیش بزنه بیرون و این هم باعث استرسش میتونه بشه بدلیل اتفاقاتی که اونموقع میتونه در مسیر واسش بیفته و هم اینکه ممکنه برای رفتنش به مشکل بخوره و وسیله نقلیه ای پیدا نکنه در نتیجه همیشه در استرس خواهد بود و این در یادگیریش تاثیر منفی داره

46.It is the best way for teacher to help students become more interested in a subject by explaining how this subject can help students live better outside the school. Agree/disagree?

1. اصلی ترین دلیل درس خوندن دانش آموزان ساختن زندگی بهتر برای خودشون در ایندس، در نتیجه وقتی استاد موضوعات رو با مثال هایی در دنیای واقعی مطرح میکنه، دانش آموزان بیشتر جذب میشند و سعی میکنند تا جایی که میتونند درست یاد بگیرند تا در آینده تو زندگیشون بکار ببرند و زندگیشونو بهبود بدن.
2. وقتی موضوعات با دنیای واقعی سنجیده میشه، تبدیل به موضوعاتی چالشی میشند چرا که هر کسی نظر و تجربه متفاوتی داره که دوست داره با بقیه به اشتراک بذاره و همین باعث میشه دانش آموزان بیشتری در بحثهای کلاس شرکت کنند که این موضوع خودش باعث یادگیری بیشتر میشه.

47.The most important goal for education is to teach people how to educate themselves. Do you agree or disagree?

Agree

To begin with, when people are educated how to teach themselves, they will be more motivated to continue to study and learn new things. In other words, it is totally accepted learners have no tendency to learn something from educators or others in the long run. In this vein, when people learn how to teach themselves by their own methods, their efficiency of learning would be increased drastically. Thus, this method is really more worthwhile for people since they are eager to solve dilemmas and questions enthusiastically.

Moreover, human beings are hard-wired to learn anything by their own abilities as independent individuals, in particular, for learning and educating; therefore, it is really significant for people to be thought how to educate by themselves. As a result, this freedom condition helps individuals explore their passions and pursue their own desirable major and career. Montessori system is a famous case in point; an Italian teacher and writer who developed a new way of teaching young children, the Montessori method, which encourages each child to develop at his or her own speed, to learn through playing, and to be confident and independent. Her method is used in Montessori schools in many countries.

48.Some people prefer to take small classes (fewer students), such as the professors can remember students' names. Others like big classes (lots of students), which one do you prefer?

I prefer small classes

At first, in small classes with fewer students, professor can allocate enough time to every student, so it will improve the efficiency of class

Secondly, small classes provide a good environment which students can share their acknowledge, so they can gain benefits from class

Big classes

To begin with, in today' complicated world, the new generations are painfully shy and they are not able to come out of their shell and communicate with strangers; therefore, big classes provide a worthwhile chance to start communicating with many classmates and make many new friends. In other words, academic centers are not just a place for learning sciences and take exams, but also individuals should practice and learn how to interact with a wide variety of people with different cultures and behavior. Thus, student can socialize in big classes make friend having in common and overlapping interests.

Moreover, taking big classes, students have a multiple opportunities to compete with a wide range of students having different intelligences and perspectives. To be more specific, in a class including many learners, individuals have more tendency to share their ideas and get in-depth views from others, making a considerable effort to win in examinations. As a result, a competitive atmosphere in class encourage students to be active and participate in discussions and debates to present their skills and breadth knowledge, thereby creating a active environment for learning.

کلاس کوچک

۱. وقتی افراد کمتری در کلاس هستن فرصت کافی برای مشارکت همه بچها در کلاس وجود دارد و در نتیجه در بحث ها یا فعالیت ها میتونن شرکت کنن و این هم باعث افزایش درک و فهم موضوعات میشه و هم اینکه در اثر مشارکت بچها، مهارت های مختلفشون مثل صحبت کردن و حتی برقراری ارتباط تقویت میشه
۲. کلاس کوچک با تعداد افراد کمتر معمولا منظم تره و آرامش بیشتری توش حاکمه، در نتیجه بچها تمرکز بیشتری خواهند داشت و این در سرعت یادگیریشون هم تاثیرگذاره

49.Do you agree or disagree with the following statement? Universities should require every graduating students to take public speaking courses. Give specific examples and details to support your answer.

Agree

To begin with, university students occasionally are overwhelmed by many hard assignments; therefore, take public speaking course as a university requirement paves the way for get rid of stress and tension. In other words, in order to get rid of stressful condition of scientific courses, academic institute can offer public speaking such as presenting a lecture, discussing a topic in classroom as enjoyable course for student to pass this practical skill.

Moreover, university students who have the ability of speaking in front of different people as excellent public speakers are at great advantages to find a decent job in upcoming years over those who do not; thus, university should ask graduation students to take public speaking course. In fact, a vast majority of students are painfully shy who cannot come out of their shell. As a result, if academic centers help students to become a perfect person who can present himself in front of others by public materials mandatory, this person would be socialized. In this vein, having graduated from university, individuals are able to win in competitive companies and show their abilities as an invaluable presenter.

50.Which of the following do you think would be the most effective way that a teacher can use to make students more interested in classes?

- 1. Use more technological ways**
- 2. Ask students to work in groups (group discussion)**

3. Introduce more real-world news and current affairs (real-world examples)

مورد دوم

۱. همکاری دانش آموزا با هم باعث میشه جو دوستانه ای در کلاس به وجود بیاد و اتمسفر مثبتی داشته باشه و در کنار یادگیری مطالب دوستای تازه ای پیدا کنن، و این ذهنیت مطلوبی از کلاس رو واسشون تداعی می کنه

۲. مطالعات نشون داده تبادله نظر مستقیم بین افراد باعث میشه تمرکزشون بالا بره و به یادگیری شون کمک کنه و از طرفیم در تبادله نظرات گروهی دانش آموزا می تونن نقاط ضعف خودشون رو تقویت کنن، و این باعث میشه حس خوبی به کلاس داشته باشن

51. Do you agree or disagree with the following statement? Teachers should not make their social or political views known to students in the classroom. Use specific reasons and examples to support your answer.

مخالف

1. لازمه که دانش آموزان (دانشجوها) علاوه بر مطالب درسی با مسائل مهم اجتماعی سیاسی هم آشنا بشن و وقتی معلم در این مورد دیدگاهش رو میگه امکان بحث و تبادل نظر با دانش آموزان فراهم و اطلاعاتشون بیشتر میشه و متوجه اهمیت این مسائل هم میشن.

2. باعث ایجاد این حس در دانش آموزان میشه که اونها هم بعنوان بخشی از جامعه حق اظهار نظر دارن و بعدا میتونن مشارکت فعال در این امور (حتی بعنوان یک شهروند عادی) داشته باشن.
...بجور حس اعتماد به نفس و یا مسولیت پذیری.

موافق

چون این باعث میشه وقت کلاس درس با مسایل جانبی تلف بشه و دانش آموزان به جای درس خواندن بیشترین تمرکزشون به این جور مسایل کشیده بشه بحث راجع به این جور مسایل ممکنه باعث بیان اختلاف نظرها در کلاس درس بشه و ممکنه بین دانش آموزان و حتی بین دانش آموزان و معلمان اختلاف ایجاد بشه

Agree

1) there would be different groups in the classroom who advocate a special political ethnic groups and it may trigger to arguments about them and the class atmosphere will be deviated to those debates in this regard students and teachers would come into conflict with each other that has adverse effects on their relationships.

2) students should concentrate on the subjects which are related to their studies, by having these discussions, students will be distracted and involved in them. As a result, the productivity would decrease.

Disagree

First, teachers should share their perspective especially in social and political aspects to students because they are the best role model as well-educated persons for students' life. In other words, thanks to experience, teachers have spent a long time studying, teaching and communicating with various people. As a result, teachers by speaking about their view in political and social issues can open the opportunities to students make and select the best decision in their community such as voting.

Second, in academic classes should exist a wide variety of topics to discussion that avoid boring classes, teacher by making their own view in social and political views can attract students' attention to classrooms. In fact, tedious classes are not tolerate for students, should a teachers talk about their view in events happened in society, learners are eager to continue the classes and participate in classrooms enthusiastically.

52. A city wants to help teachers of its high school students ages (14-18) improve their teaching. It is considering two plans:

1-Choose a small group of excellent teachers; these teachers will attend a class led by an expert for additional training in how to teach effectively, and they will then come back to their schools and provide that training for other teachers in school.

2-Provide additional training in teaching effectively for high school teachers, using online material that each teacher will study individually.

مثلا به عنوان یک دلیل همیشه گفت چون این دانش آموزا در مقطعی هستن که باید رشته دانشگاهیشون رو انتخاب کنن خیلی مهمه که اطلاعاتشون آپ تو دیت باشه و اینکه معلما میتونن دائم اطلاعاتشون رو به صورت آنلاین به روز بکنن و این اطلاعاتو ب دانش آموزا انتقال بدن در حالی که روش اول این خاصیتو نداره

2nd option

1. Learning from experts, who would be well-trained, would be time-effective and more efficient for other teachers. To explain, excellent teachers would learn everything better, accurately, and in the minimum time and become expert, thus the other teachers would take the advantage of this. In other words, teachers who have become mastered during the training, would better be able to pass their accurate data to the other teachers articulately. On the contrary, not only it would be time-consuming for the teachers to train personally but also not everything they learn would be authentic; it would take lots of time to understand what exactly a content in material tries to say, and also some of the teachers probably would not absorb the knowledge accurately from the material which are not as subtle as experts in training. However, in group-based training they can share their thoughts and ask whatever remains vague for them resulting in high efficiency in minimum time.

2. This method would courage the students into peer-teaching which is very effective especially for the university time. More specifically, education is a form of learning in which skills, habits, and knowledge of one group are transferred to other generation; this approach would courage the other teachers to pass this hierarchy-based training system to their students, which would courage the students to peer teaching which is very effective for students especially when they are in high school time-- a very important time duration to learn how to teach and learn from other students. Peer teaching would be very helpful for the students when they attend in university because in university time, professors only introduce subjects and it is students' own duty to learn it completely.

53.For schools, assessing teachers' teaching efficiency is a very important issue. But is it better for other teachers to assess or let students assess teachers?

دوستان، برای این سوال، اگر برای یکی از دلایلمون بگیریم که در صورتیکه ارزیابی معلما با دانش آموزا باشه معلما آگاهانه تر و با دقت تر رفتار میکنن و باید در نظر بگیریم که حتی اشتباهات کوچک معلما باعث نتایج خیلی بدی میشه، و بعدش در ادامه همین دلیل بگیریم به علاوه این دانش آموزا هستن که با معلما به صورت مستقیم آموزش میبینن نه معلمای دیگه.

دومی هم اینکه باعث افزایش حس ارزشمندی و اعتماد به نفس در دانش آموزا میشه ...
خوبه؟

اولی که عالیه

دومی هم اگر بیشتر توضیح بدید بهتر میشه، مثلا اینکه باعث میشه دانش آموز بپذیره مستقل شده و میتونه بصورت پابلیک نظر بده و ...
بنظرم تو بادی اول همون یه دلیل هست که داری در ادامه توضیح میدی و مشکلی نداره

54.Do you agree or disagree with the following statement? Parents today are more involved in their children's education than parents were in the past. Use specific reasons and examples to support your answer.

Disagree

First, parents today are exposed to hectic work and life that spend a great amount of their time at workplace; therefore, parents are not able to engage in their children' education in comparison to those lived in the past. In fact, in today's complex life, products' prise are increasing dramatically and individuals expend hours at office from early in the morning to late at the night because they have to earn more money and support their daily life. As a result,

coming back at home, parents are exhausted and are not able to involve in children's homework or educational tasks. On the other hand, in the past, parents often staid at home and had more free time to help children education.

Second, thanks to new technology, nowadays the new generations have access to up-to-the-minute information from the internet, and they are more well-informed than ever before; thus, parents today are less engage in children' education than those were in the past. In other words, young people today can solve their academic questions and dilemmas by themselves and do not need parents' assistance.

55. Some students enjoy taking distance-learning courses on the computer or by television. Other students would rather take all of their courses with a teacher in the classroom. Which of these options do you think is better? Use specific reasons and examples.

Take all the courses with a teacher in the classroom

- 1) The atmosphere of the classroom make students concentrate better on the lessons/ the eye-contact of the teacher with the students will inhibit them from doing something distracting and better get the lessons.
- 2) Students have the opportunity to ask the special parts that they could not understand in this regard they could have better performances in the exams. In addition they could have discussions on a special subject of lessons with their friends and better get the mean of lessons.
- 3) interact with teachers and friends, increase their social skills.

First, taking courses with teachers and participating in the classroom, students definitely have more opportunities to improve their social skills and come out of their shell. In fact, in today's complex lifestyle, learners are overwhelmed by new technology and electronic devices; therefore, a majority of students are painfully shy. As a result, taking their courses with educators and involve in classroom activities, students start communicating with classmates and make many new friends as a sociable person.

Second, sharing idea and opinion with others in the classroom help students broaden their understanding and their efficiency of learning would increase dramatically when they take courses with teachers. In other words, during the classes, students keep up with new ways to tackle some challenging questions with others, and they learn how to overcome with some obstacles and get a wide spectrum of information from other perspective.

گزینه اول

۱. تایم سیوینگ داریم. یعنی زمانمون صرف رفت و امد به کلاس نمیشه

۲. هر تایی که بخوایم میتونیم لرنینگ رو داشته باشیم، یعنی لازم نیست حتما سر وقت سر کلاس باشیم و حتی در سفر هم میتونیم لرنینگ داشته باشیم

۳. راحت تره چون میتونیم خونمون بشینیم و با کلی لم دادن و استراحت کردن لرنینگ رو داشته باشیم و از طرفی خیلی وقتا چویس های بیشتری هم برای کورس ها داریم چون از پیش آماده شده هستن خیلیاشون

56. As a student of university that has a long break between university semesters, the university requires all students to do one of the following for one month during the break:

1- Students must take a course on the subject that has no direct connection to their majors of study (For example, a student majoring in engineering may take course in fine arts or social science.)

2- Students must volunteer to work in the university' s city or their hometowns to improve some aspects of

life of the city or their own town. (For example, students may help local primary school children with their homework.)

Which one do you think is more beneficial for students in their university? Why?

Given detailed examples and reasons. Use your OWN words, do NOT use memorized examples

Second

The very ultimate goal of education, especially during the university, is preparing individuals for better performance in the workplace, thus one month practical experience in a city can make this goal almost satisfied. In other words, in today's competitive world, people need to know what is behind all those theories they study at the university because after graduation, it is time for the future occupation. In this regard, any opportunity during the university time for becoming familiar with working in the real world can play a pivotal role in students' better training for the better future job.

Another worthy note is that a period of improving some aspects of people's lives in a city voluntarily, would encourage the students into sense of humanitarianism. More specifically, in this world where most people are only concerned with their own benefits and life, helping each other is needed more than ever. With this in mind, when the students try to improve humanity life, such as helping school-age students, without being paid, it would make a great feeling, satisfaction, and happiness resulting in the loving helping others.

57. Do you agree or disagree with the following statement? Students are more interested in politics today than they were in the past.

Agree

1/ there is more technology that facilitates gaining information about politics and politicians. Instead of waiting for a weekly newspaper to read approximately two lines about the political environment conducted in their society, they have access to various magazines, videos, and online news about a wide spectrum of analysis about the political situation.

2/ by the passage of time, students have been getting aware of the undeniable role of politics in their personal life. As a compelling example, the worsening political relationship between the US and Iran has been deprived students of attending US universities. Consequently, they are following this news more than the past to make decisions wisely and do not plan on applying for those universities in order to face serious problems in the future.

Disagree

First, in today's complicated educational systems, students today are overwhelmed with arduous courses, requiring more time and energy; therefore, following political issues wastes their time, and students are not interesting in politics. In fact, pursuing political news is a kind of distraction for students, causing busy mindset, and they cannot concentrate on their academic materials. In the past, learners had more free time, and they were eager to know what happen in their country politically.

Second, thanks to new technology and electrical devices, students do not have a tendency to politics because they are more satisfied with new and funny gadgets. The breakthrough in technological equipment provides students with fascinating cellphones' application either playing games or learning new information. In this vein, students try to get rid of stressful and unhappiness political events. As a result, students of the past did not have access to some enjoyable activities, and they were interested in politics.

Disagree

1/ there is increasing complexity throughout time in the politics which require a great deal of time to be allocated to follow different opinions and analysis. To be more specific, students get confused concluding from these numerous

amounts of events, happening among politicians. And are more likely to focus on their own business instead of politicians lies.

2/ politic has not any financial outcome in the short-term. And nowadays the turbulent economic environment requires more concentration on revenue-producing activities to enable students to overcome everyday financial obstacles.

فکر میکنم آگه اینجوری به قضیه نگاه کنین که چرا گذشته راحت تر بود بهتره، مثلا:

۱ -توی گذشته هیچ سرگرمی و راهی برای تخلیه هیجانی به جز سیاست وجود نداشت، دنیای آدمها و وسعت دیدشون ختم میشد به دیدن مناظرات سیاسی و چون معمولا این بحث ها با هیجان همراه هستن دانش آموزا زود تند و سریع جذب میشدن ، درحالیکه در دنیای امروز پر از دغدغه و فعالیت و تفریح و غیره هست که میشه این تخلیه هیجانی رو بهش جواب داد،

دوم اینکه در گذشته سیاست تاثیر زیادی روی زندگی دانش آموزان داشت. توی گذشته جمعیت کم بود و جوامع کوچیک توسط یک سری حکومت های دیکتاتوری کنترل میشدن که جهت میدادن به نوع نگاه سیستم آموزشی و اونها رو کنترل میکردن. مثلا آگه یک قانون های اعمال شده رو فالو میکردی صد در صد از طرف اون نظام حاکم پاداش میگرفتی. پس وقتی میتونستن دانش آموزان از طریق قانون به شرایط بهتری برسن در طولانی مدت باعث جذب سیاست میشدن.

58.Do you agree or disagree with the following statement?

Primary school teachers should not give children (aged 5-10) assignments more than 30 minutes, because there are enough instructions to learn in regular school classes

ایده غیر انسانی: مخالفم

۱. نوشتن تکلیف های طولانی به بچه کمک میکنه که تمرکز کردن توی مدت طولانی رو یاد بگیره. این روزها تکنولوژی خیلی پیشرفته شده و این تکنولوژی ها همگی عاملی برای کاهش تمرکز هستنند. بچه از بازی های کامپیوتری باشه چه تلویزیون و ... باعث میشه بچه ها نتونن مدت طولانی به جا بشینن و به کسب علم بپردازن و بدتر اون در آینده هم به مشکل میخورن سر کار نمیتونن بشینن...

۲. شخصیت بچه ها توی همین سن شکل میگیره و نوشتن تکلیف های طولانی بهشون کمک میکنه صبر و بردباری رو یاد بگیرند.

ایده انسانی: موافقم.

۱. تکلیف بیش از سی دقیقه باعث استرس و تنش میشه توی این سن و سال

۲. مشق نوشتنهای طولانی و طاقت فرسا باعث میشه بچه از درس و علم زده بشه. امروزه روش های مدرن تدریس اومده و توی این روشها همه تاکید کردن که یادگیری باید اینتراکتیو و بازی و اینها باشه و با ذکر جزییاتی مثل وای بچه ها چقدر درر که توی این سن حساس هستنند و هر چه انجام بدیم رد سنگینی توی ذهنشون میذاره.

مخالفم

آموزش خیلی از مفاهیم در دوران کودکی نیاز به زمان و تمرکز داره، وقتی بچه ها این فرصت رو داشته باشن که کاری رو در مدت طولانی و تایم بیشتری انجام بدن در عین حال که متمرکز میشن روی کار میتونن اون آموزشی که بهشون داده میشه رو بهتر و عمیق تر یاد بگیرن و در این پروسه مهارت های خودشون رو برای آموزش های بعدی افزایش بدن و حتی یادگیری مفاهیم به صورت عمقی می تونه منجر به خلاقیت و کشف ایده های جدید بشه و حتی این تایم می تونه منجر به این بشه که بچه ها همون رگولار اینستراکشن ها رو هم بهتر بفهمن .

دلیل دوم اینکه دادن اینجور تکلیف ها منجر میشه بچه ها نظم و استمرار رو یاد بگیرن که یکی از اساسی ترین مهارت ها نه فقط در آموزش که در زندگی هست، اینکه بتونن کاری رو در زمان مشخص تموم بکنن حس مسئولیت پذیری و اعتماد به نفس رو در اونها تقویت میکنه.

Agree

1) Students in those low ages are beginners. By having hard and time-consuming homework they will lose their passionate about the rest of educations they would have. By the development of educational system students in those ages learn most of the lessons at the classroom rather than at home.

2) Students should take advantage of the plays and games related to their age. By having difficult assignments, they would miss the opportunity of those plays and it could harm their personality. They are not capable of so much difficult tasks.

Agree

First, primary school students need to spend many time on outdoor activities and socialize with their peers because they have sufficient class time to learn basic and important materials, on the contrary, doing many homework offered by teachers will deprive students of improving communication skills.

Second, when assignments of young school children are not more than 30 minutes, they will be more enthusiastic to do them and their efficiency of learning will increase dramatically; therefore, instructions doing during class are enough and would not be boring.

59. Agree/disagree: Educating children is a more difficult task today than it was in the past because they spend so much time on cell phone, online games, and social networking Web site.

من دلیل اول رو نوشتم که بچه ها امروزه با بازی ها و وبگردی ها مغزشون فعالتر میشه و از همه بخش های مغز استفاده میشه و میتونن مفاهیم رو زودتر یادگیرن نسبت به گذشته. پس آموزشون سخت نیست.

برای دلیل دوم نوشتم که آموزش های مدرن جوریه که دانش آموز همه مطالب رو قراره توی مدرسه و بدون این وسایل (تلفن و تبلت) بگرونه و وقتی میره خونه دیگه کاری مربوط به مدرسه نداره که انجام بده پس اگر هم بره و بازی بکنه و وبگردی بکنه تاثیر منفی در آموزش دادن بهش نخواهد داشت. برای مثالش گفتم ما قبلا 4 ساعت میرفتیم مدرسه و مهم بود که بخوبی تایم بازی و تکالیف رو جدا کنیم تا کارهای مدرسه بهشون توجه بشه ولی الان برادرم 8 ساعت میره مدرسه و همه کارهای آموزشی لازم رو توی مدرسه انجام میده و وقتی میاد خونه دیگه وقتش برای خودشه حالا اگر بره بازی هم بکنه آموزش دادن رو بهش سخت نمیکنه

Agree,

1) addict to cellphones and other electronic devices/ could not concentrate on their studies/ distraction

2) electronic devices are harmful for mental progression/ disable them from concentration/ an inhibition from being focused on the context of books.

60. When giving feedbacks to students, some teachers would like to talk to their students in person, while some teachers would give written comments to students. Which do you prefer and why?

61. Some students like teachers who often supervise their study and work, while others like teachers who allow them to study independently and check their work occasionally. Which one do you prefer? Explain your reasons.

62. Which one of these abilities do you think is the most important for a high school teacher teaching students ages 15-18 to have?

- The ability to give students advice to plan for their future
- The ability to find which students need help and provide them with help
- The ability to encourage students to learn by themselves outside of the classroom

گزینه سوم:

توانایی یک معلم در تشویق کردن نوجوانا برای یادگیری در خارج از کلاس مهم هست چون بچه ها رو توانمند میکنه که خودشون مستقلا برند مطلب جدید یاد بگیرند. امروزه کسی وقت نداره بره کلاس و حتی شاید توانایی مالی نداشته باشه که معلم بگیره و کلا بهینه نیست. ولی اگر خود فرد توانایی داشته باشه که بره دنبال یادگیری مسایل هم بهینه تر هست. علاوه بر اون در مقاطعی از زندگی دیگه کسی نیست بهت چیزی یاد بده و ادم مجبوره خودش به مطالب پی ببره. مثال دانشجوهای تحصیلات تکمیلی

تشویق بچهای نوجوون به یادگیری در بیرون از کلاس باعث میشه بچه بره داخل اجتماع و با مردم تعامل کنه. این تعامل باعث میشه مهارت های اجتماعی رو یاد بگیره که توی مدرسه و دانشگاه يادش نمیدند و البته خیلی هم ضروری هست. این باعث میشه هوش اجتماعی و عاطفی نیز دولوپ بشه.

توانایی اینکه به دانش آموزان توصیه کنه برای برنامه ریزی آینده شون

1- این سن حساسی هست، اصلاً درباره آینده فکر نمیکنن که بخوان براش برنامه ریزی کنن، وقت شون و با گشتن تو اینترنت و رفیق بازی هدر میدن، پس >---
معلم باید اینجا بیاد...

2- سن مناسبی هست که بخوان نقاط ضعف شون و برطرف کنن، معلم میاد توصیه میکنه برای برنامه ریزی. برای اینکه بخوان برنامه بریزن برای آینده شون باید خودشون و بشناسن، نقاط ضعف پیدا میشه و برطرف میشه

3- معلم کسی که تجربه زیاد داره، روحیه دانش آموزا و میشناسه، میتونه این برنامه ریزی و اصلاح کنه و چکش کاری کنه

The ability to give advice about planning for future

1- being able to help high school students about their planning for futures for teachers is crucial since in this case, they have a perfect opportunity to guide students to make plans for their career > this ability will open new windows for students to find out about different aspects of finding jobs and be professional in a competitive world > teachers will have a chance to familiarize students with several challenges and difficulties about professions > the teachers can provide different courses for students to teach them about the most demands jobs in societies, giving them the chance to think about their area of interest, and as a result, providing students with an excellent opportunity to focus on their lessons which would be beneficial on their future job

2- Teachers can help students to be more productive in their future life > teachers by this ability, can help students to improve their different skills which are critical for future life, likewise, the independence, self-reliant and so on. > teachers can encourage students to work on their characteristics due to increasing their efficiency in their work or their life plans

63.Our degree requires you to take one course, which one would you choose?

- a. Energy and environment
- b. Health and nutrition
- c. Solar system

64.You have been very busy and unable to prepare for the exam tomorrow. You can either stay up late to study and sleep less or just study less and get full night's sleep. Which will you choose?

65.Some students think that they should be graded based on participating in the discussion class, while others think that they should be graded based on written work, such as paper. Which opinion would you prefer? Why?

66.Imagine that you have been accepted by two different universities: one university is well-known for its excellent academic program, but it's expensive, while the other is less well-known, but has offered you with scholarship to pay for your tuition fee. Which university would you prefer? explain why.

67.Many people think that students study course materials more effectively by taking exams, while others think that students learn more effectively through doing other activities such as writing paper or completing projects. Which do you think is more effective for students to learn?

68.You will need to accomplish an assignment to do a presentation. Which will you choose?

a. Act out a scene from a play (with a partner)/b. Explain your review of a novel you recently you read/c. Read a selection of poem

69.Teaching is a challenging profession. Even the best teacher can make mistakes. What are the common mistakes a teacher can make?

70.Do you agree or disagree that hiring experienced teachers is a deciding factor for the success of a school?

71.Do you agree or disagree with the following statement? Schools need to encourage students to be more creative and use imagination to be successful person.

72.Do you agree or disagree with the following statement? Students learn more when teachers assign a lot of homework. Use specific details and examples to explain why.

73.Which type of professor do you prefer: an interesting professor with a strict grading policy or a boring professor with a loose grading policy?

74.When students have questions about an assignment for class; some prefer to ask their professors for help, others would rather ask fellow students. Which do you prefer?

75.Now teachers tend to assign group assignments instead of individual assignments. Talk about one advantage and one disadvantage of doing so.

76.Nowadays students usually take exams in the class, but some universities allow students to take exams at home. Talk about the advantages or disadvantages of taking exams at home. Give specific reasons to support your answer.

77.Your friend went straight to work after high school and skipped university. But now ten years later, he decides to go to university. Please talk about at least one challenge he will face when he goes to university at an elder age.

78. One of your friends decided to study more courses in order to graduate one year earlier. Do you agree or disagree?

79. Your university decided to allow local communities to attend classes on campus; they could enter into the class but can't ask questions and don't have assignments. Do you agree or not?

80. Now many people are willing to take care of and educate their children at home. What do you think about homeschooling?

81. Even if you are older, you can get a university degree. Do you disagree with this view?

82. What is the common mistake parents make when they are educating their children?

83. Now many people are willing to take care of their children at home, what do you think about homeschooling?

84. Your degree requires you to take one course, which one would you choose?

Energy and environment

Health and nutrition

Solar system

85. Which one would you like to choose for your final project? Having a presentation

Writing a paper

Preparing a video

86. You have been very busy and unable to prepare for the exam tomorrow. You can either stay up late to study and sleep less or just study less and get full night's sleep. Which will you choose?

87. Many people think that students study course materials more effectively by taking exams while others think that students learn more effectively through doing other activities such as writing papers or completing projects; which do you think is more effective for students to learn?

88. There is going to be a students' TV show. Which show would you like to watch. Please Give your reasons.

- Interview school leaders
- Students' debate on political and social topics
- Comedy about school life

89. Some students prefer to study for exam at night. Other students prefer to study during the day. Which one do you prefer? explain why.

90. Some people speak out in class, others prefer to listen and quietly observe. Which do you think leads to greater success in school? Explain why you think so.

91. Imagine that you have been accepted by two different universities; one university is well-known for its excellent academic program, but it's expensive while another is less well-known, but has offered you with scholarship to pay for your tuition fee. Which university would you prefer, explain why.

92. Students are asked to write a final project about the famous historical city where you live. Which way do you choose?

video the famous buildings
visit the old people
Research and write a paper

93. You will need to accomplish an assignment to do a presentation. Which will you choose?

- Act out a scene from a play (with a partner)
- Explain your review of a novel you recently read
- Read a selection of poem

94. Some students think that they should be graded by participating in the discussion class while others think that they should be graded only by their written work such as papers. Which opinion would you prefer and give your reasons.

95. Do you agree or disagree that it is important for young people to learn some skills like cooking, sewing and taking care of children?

96.What would you most like to take a course in?

Mathematics

Painting

Science

97.Do you agree or disagree with the following statement? It is never too late to get a degree in university.

98.If university plans to add a new course that is not being offered to students, which of the following courses, in your opinion, would attract more students? Sound engineering and recording

History of rock music

Film studies

99.Some people suggest students eat and drink during classes. Do you think it is a good idea?

100.Some people learn more in the morning. Some others learn more in the afternoon. Which is better for you?

101.There are many events at school which are negative when we confront them initially while they become positive after we experience them. Please give an example of events that were negative at first and became positive later for you.

102.Teaching is a challenging profession. Even the best teacher can make mistakes. What are the common mistakes a teacher can make?

103.Your degree requires that you choose a history course. Which of the following courses would you prefer?

Art history

Twentieth-century world history

Science history

Choose ONE of the three courses. Use specific details and examples to explain why.

104. Do you agree or disagree with the following statement? Students learn more when teachers assign a lot of homework. Use specific details and examples to explain why.

105. Do you agree or disagree with the following statement? It is important for children to learn to draw or paint.

106. Do you agree or disagree with the following statement? Schools need to encourage students to be more creative and use imagination to be successful person.

107. If you are a teacher of a tutor group and you are going to take students to a study trip, where would you take them to? A. science museum B. local farm C. theater performance

108. Some countries have approved "home school" as part of education. What is your opinion on this?

disagree

it is crucially important for students to participate in traditional classes since in this way they can go through discussion with their classmates and interact with them but in home school program pupils cannot meet any peer and this lowers their social skills

parents are not qualified and educated enough to teach children. they are not equipped with teaching skills. therefore, home schooling prevent pupils from learning their lessons effectively

Homeschooling provides students with customized individualized education, which has been absent until recently. By means of this educational strategy, pupils are no longer taught by traditional instructions which cast everybody in the same mould. In fact, they will enjoy the benefits of person-specific education under parental supervision.

When asked to what they attribute their poor performance at school, the overwhelming majority of students mention the difficulty of attending in class regularly. But, this is not the case with homeschooled students. From the comfort of home they attend classes and they are the only person who chose their schedule without conforming to schools' strict curriculum. This new instructional method enables students to attend their classes at the time convenient to them.

109. Some young children (ages 3-6) are very well prepared for learning in school before they ever begin attending elementary (primary) school classes. Some parents want to do more to make sure that their young children will be ready to learn in school. In your view, which ONE of the following actions is most important for parents to take, and why?

1. Providing more books written especially for young children so the children can begin to learn to read

2. Spending more time reading aloud to the children while they listen

3. Having more conversations with the children so they can practice speaking with adults

Use specific reasons and examples to support your answer. Make sure to use your own words. Do not use

memorized examples.

The third approach

Socially, Having friendly conversation with their offspring, parents can guard their children against one the most prevalent undesirable behavior in school environment-social withdrawal.the first months of the school and dealing with adults, teachers, and the dean is challenging for students so much so that if they are not prepared enough to interact with these adults, they will end up becoming a socially aloof person. Thanks to the inalienable blood relation and emotional bond, parents can prepare them for communicating with adults by speaking with them.

From an educational standpoint, this intimate conversation practice is beneficial, specifically when it comes to talking with teachers about their special talents. Needless to say, the primary objective of education is exploring and nurturing untapped skills. In this vein, students possessing good interacting skills can easily talk with their teachers about their gifts. On the other hand, those who are paralyzed by fear in the case of interacting with instructors will become regretful of not having their talents met.

110.Teaching quality is very important to a university, what about other significant factors? Which one would you choose in the first place and why?

1. Size 2. Price 3. Location

111.How can you ensure that you can finish the assignment on time when the studying workload is heavy? Please include details in your answer.

112.Some schools require students to finish a reading list during school breaks. Talk about the advantages and disadvantages of this requirement.

113.Some people prefer to write many short assignments for a semester, other prefer to write one or two long assignments for a semester. Which do you prefer? Explain why.

114.Some people prefer to have classes during the day and do part-time jobs in the evening while others prefer to have classes in the evening and do part-time jobs during the day. Which do you prefer?

115.Some people like to have a break or get a job during summer vacation. Others think it is better to take a class. Which do you prefer and why?

116.Do you agree or disagree with the following statement? It is never too late for an old person to receive higher education and to get a university degree. Use specific reasons to support your answer.

117.Do you agree or disagree with the following statement? The most important lessons cannot be learned in classrooms.

118.Do you agree or disagree with the following statement? College education should only be available to people who have done well in secondary school.

119.Do you like to be taught by experienced teachers or by new teachers?

120.Do you agree or disagree with the following statement? It is good for students to attend a university or college in a foreign country. Explain why.

121.Is it easier to be a teacher than to be a student?

122.Describe your favorite teacher. Explain why you like him or her. Include reasons and details to support your response.

123.Some students take notes very often during class. Other students do not take notes or rarely take notes. Which do you think is better?

124.Some students prefer to take an essay question where they must write an essay to a question. Other students prefer to take a test with objective/multiple-choice questions. Which type of exam question do you prefer? Give reasons and examples in your explanation.

125.Describe a good study habit you have that is different from other students.

126.Some college students like to spend their free time studying another course or doing schoolwork. Others like to join a club and enjoy club activities. Which do you think is better and why?

127. Do you agree or disagree with the following statement? University students should learn how to manage their time more efficiently.

128. Some people think it is better for students to study in a classroom building. Others think that it is better for students to study on the Internet. Which do you think is better and why?

129. Do you agree or disagree that students should be required to go to school before they are 16.

130. Some students prefer to go to universities or colleges in their hometown. Others prefer to go to universities or colleges in new cities or towns. Which do you prefer and why? Include details and examples in your explanation.

131. Do you prefer to take courses related to a specific career, or do you prefer to take a variety of courses?

132. One of your friends is going to study math as his major. What suggestions would you give to this friend?

133. Do you agree or disagree with the following statement? Students nowadays work harder in their study than students in the past.

134. Some people prefer to listen to music while they are studying or working. Others prefer to stay in a quiet place while they are studying or working. Which way do you prefer and why? Include reasons and details in your response.

135. Some people believe it's essential for a person's education to learn to play a musical instrument. Others don't believe music education is important. Which view do you agree with? Explain why.

موافقم

۱ - همون طور که خیلی از محققان گفتن، یک بخش رشد و توسعه مغز انسان به موسیقی مربوطه، پس مهمه که یادگیری موسیقی توی برنامه آموزشی باشه.

۲ - یکی از دلایل تحصیل کردن افزایش اعتماد بنفس هست. نواختن موسیقی باعث ایجاد یه سری خصوصیات مثبت توی فرد میشه. اعتماد بنفس و عزت نفس جز چیزایی که هستن ممکنه اضافه بشه، درکنار اینا اون حس خوب ناشی که از ترشح اندورفین توی بدن هنگام نواختن موسیقی باعث میشه که اون شخص حس خوبی به زندگی داشته باشه.

۳- یادگیری موسیقی اغلب نیاز به تلاش و ممارست دارد که این ویژگی توی فرد میتونه باعث بشه در ادامه زندگی آدم تلاشگری بشه یا این خصوصیت تقویت شه

۱- موسیقی باعث افزایش تمرکز و کارکرد بهتر ذهن میشه مثلا انیشتن نوازنده ویولن بوده

۲- موسیقی باعث تخلیه احساسات چه غم و چه شادی میشه و روانشناسا معتقدن برای روحیه انسان مناسبه

Agree

1-Playing musical instruments as an entertainment can release our minds that is suitable for learning hard lessons

2-People who play a musical instrument usually have an innovative brain

136.Many schools do not allow students to take their laptop computers into the classroom. What do you think are the advantages and disadvantages of having laptop computers in the classroom? Use specific details and examples to support your opinion.

137.Many schools require their students to complete at least 40 hours of community service. Do you agree or disagree with this requirement? Use specific details and examples to support your opinion.

138.Do you agree or disagree with the following statement? The success of a school largely depends on the resources it has such as textbooks and journals.

139.Do you agree or disagree with the following statement? Teachers should encourage students to start using computers from primary school. Give details and examples to support your response.

140.Do you agree or disagree that assignments handed in after the deadline should receive a lower score?

141.What are the advantages and disadvantages of allowing students to eat in class? Use specific details and examples to support your opinion.

142.Describe one way to improve the system of education in your country. Use specific details and examples to support your opinion.

143.Some people think the best way to study is to attend a lecture. Others say that it's better to read by yourself. Which way do you prefer and why?

144.Which of the following three subjects would you choose to learn? Math, painting, science. Explain what you want to learn from this subject.

145.If you are asked by your teacher to do community service, which of the following would you choose? Explain why. 1.helping children with their homework 2. teaching adults to use the computer 3. cleaning city park

146.Do you agree or disagree with the following statement? Students should spend as much time studying the history of the world as studying the history of their own country.

147.Do you agree or disagree with the following statement? School decided to close the computer lab/room, because all students have their own laptops.

148.Do you agree or disagree with the following statement? Schools should no longer require students to do experiments, but should show students the videos of experiments

○ **Parent/Raising/Children**

1.Parents give their children weekly money to buy whatever they want. Some people think this can cause bad habits and ideas about money in children. Others think the opposite. What's your opinion?

we MUST teach our kids about money

financial literacy starts at home.

most parents are unwilling, overwhelmed or ill-equipped to teach their children good financial habits.

In a rapidly changing world,

managing money / navigating life

financial skills/ financial lessons/financial concepts/ financial behaviors/ financial rules

children as young as three years old can grasp financial concepts like saving and spending.

a parent can give their six-year-old kid some money and allow them the freedom to choose what to buy or how to spend it.

raise a generation of mindful consumers, investors, savers and givers.

If kids develop good financial skills from an early age they will obviously be ready for the financial challenges of adulthood.

Showing children the basics such as how to budget, spend and save will establish good money habits for life.

Most importantly, it is very important to teach your children that 'Money Doesn't Grow on Trees'.

These little eyes are watching you

Children learn a lot about how to handle money by watching their parents. Be careful to set a good example.

Set a healthy example for them and they will be much more likely to follow it when they get older.

Teaching your kids about earning money the right way may seem obvious, but it carries a deeper life lesson that they must learn.

Children must be taught from an early age to earn money in an honest and responsible manner and most importantly, not get lured into earning it by fraudulent means.

many wealthy parents teach their kids is that different ways to earn money

موافق:

1. در این دنیای پر از تبلیغات که خیلیاشون کودکان و نوجوانان رو هدف قرار دادن و consumerism رو ترویج میدن، دریافت پول هفتگی باعث میشه که به خاطر این تبلیغات وسیع و نداشتن آگاهی از نیت این تبلیغات و قدرت تشخیص اهدافشون، پولشون رو صرف هزینه های غیر واجب بکنن و اونارو فردی مصرف کننده پول بار بیاره نه سیو کننده و این خصلت میتونه وارد بزرگسالیشون بشه و اونارو نسبت به پولشون بی مسئول بار بیاره.

2. دادن پول هفتگی به بچه ها هیچ نتیجه ای نداره جز القا کردن این تفکر که پول راحت تر از اون چیزی که فک کنی بدست میاد و اونارو از مشقت و سختی های کسب درآمد غافل میکنه و چون هیچ سختی و انتظاری برای پول نمیکشن و از پیش تعیین شده که بهشون پولی بدون انتظار میرسه، باعث میشه که تو بزرگسالی هم بدون خارج شدن از comfort zone شون انتظار داشتن منابع مالی داشته باشن و همون تفکر money grows on tree رو به اونا تحمیل کنه

2. Do you agree or disagree with the following statement: children should spend most of their time on studying and playing, they shouldn't be required to help family with household chores, such as cleaning and cooking.

مخالف

۱ - کمک کردن تو کارهای خونه بهشون یاد می ده که چطوری کار تیمی رو یاد بگیرن و این نتیجه می ذاره روی مهارت های اجتماعی شون
۲ - با کمک کردن تو کارهای خانه مثل آشپزی کردن می تونن بفهمن که به چه زمینه هایی غیر از زمینه های علمی علاقمند هستند و در آینده شغلشون رو درست تر انتخاب کنن

مخالف.

1. یادگیری ابلیتی هایی جدید با انجام کارهای خانه که در آینده به دردشون میخوره ولی در کتاب ها و بازی ها یادشون نمیگیرند. مثلا بدرد زمانی میخوره که میخوان مستقل زندگی بکنند، یا برای کسب آرامششون خوبه توی زمان های پرفشار زندگی (کاری مثل آشپزی)

2. محبت و رابطه عاطفی بین فرزندان و والدین، که با انجام کارهای منزل تقویت میشود. چون با هم حرف میزنن حین کارها، تعاملاتشون بیشتر میشه، با روحیات هم آشنا میشن .

3. Do you agree children can have a pet at home?

Disagree

Taking care of pet may distract children from being concentrated on their school homework. Besides, it is more recommended for children to spend their time playing with friends instead of pets, to help them improve their social skills.

Yes.

Parents are not always at home, so a pet would be the best friend for their kids to make the happy, make enjoyable moments for the by playing and take them away from feeling loneliness and isolation.

It is the best chance for parents to allow their kids learn the responsibility.

Agree

1. By raising a pet they would learn to become responsible and able to stand on their own feet. In this way they would know what kinds of needs a pet requires from food, water and bathing.

2. keeping pets are enthusiastic for children .They can fulfill their leisure time and play with the pet.

موافق

۱ . میتونه همدم بچه ها باشه، چون توی جهان امروز خانواده ها اکثرا تک فرزند هستن، یه حیوون خانگی میتونه تا حدی نقش یک همراه رو برای بچه ها بازی کنه و نیازی های عاطفیشون برای همبازی رو برطرف کنه

۲ . میتونه باعث مسئولیت پذیریشون بشه، چون باید از یه موجود زنده نگهداری کنن، و حواسشون بهش باشه باعث میشه مسئولیت پذیری رو از بچگی یاد بگیرن

4. Should we praise children for doing well or punishing them for bad behavior?

Praise

First, by praising our children for doing well we show them how much we love them and how important it is to try your best to do well on your tasks

Secondly, they would be motivated to continue their successful activities in order to be praised by their parents

Praise.

Praising the would motivate them work harder and do much better due to the fact that they would try to achieve another praise.

Praising would increase their confidence in contrast to punishment which kills their potentials talents because they lose their confidence and doubt their true abilities. So, it might cause them behave worse.

5.do you agree or disagree with the following statement? children can learn from playing video games.

Agree

- 1.Children who grow up playing video games are more competitive. This quality is the result of their efforts to battle against virtual or real opponent during the game
- 2.Gaming consoles foster their imagination. During the game, they face countless dilemma from which there is no escape without taking initiative.

Disagree

- 1.Video games glorify violence and crime. Children playing digital games for hours on end end up becoming notorious criminals, as they want to translate the violence of the virtual world into the reality
- 2.Children are glued to their gaming consoles for ridiculous amount of time. They lose track of time when playing these game. Worse still, they create an isolated zone and do not come out of it, nor do they let others in.

6.Do you agree or disagree with the following statement? Nowadays, children rely too much on the technology like computers, smart phones and video games for fun and entertainment while playing simpler toys or playing outside with friends would be better for children's development.

به نظرم ریزن های چه موافق چه مخالف می‌تونه مثل هم باشه:
موافق.

۱. با بازی کردن تو محیط واقعی بچه ها مهارت های اجتماعی‌شونو بالا میبرن و دوست پیدا میکنن.
۲. می‌تونن خلاقیتشونو گسترش بدن و با وسایل ساده چیزای پیچیده بسازن و از قسمت های مختلف مغزشون استفاده کنن.

دلایل مخالف را یکم سخت گفتید
شاید اینا بهتر باشه :
مخالف

- ۱ - تکنولوژی جدید نیاز ضروری هر فردی تو جامعه است که بهتره از بچگی با بازی های رایانه ای این مهارت را بدست بیارن

- ۲ - بازی های کامپیوتری و کجت ها دنیای جذابی برای بچه ها بوجود میارن که این سرگرمی باعث زندگی شاد و لذت بخشی براشون میشه چون می‌تونن آنلاین هم با دوستاشون بازی کنن و رقابت کنن که هیجان انگیز و لذت بخش براشون

Agree

First, playing outside with peers, children can develop their communication skills vividly; therefore, children should learn how to interact with others that is really valued than digital entertainments. In other words, in the advancement of technology, children have gone overboard in using technological devices deprived children of communicating with various people. On the contrary, going out and playing with toys is a crucial factor proving children with a high opportunity to become sociable and make many new friends.

Second, in today's sedentary lifestyle, children should have outdoor activities and play with friends rather than spending a long time playing games with gadgets, making a healthy lifestyle. In fact, a majority of experts believe that the new generations are exposed to many health problems such as insight problems and obesity caused from the lack of relevant exercise and dependence on modern technology. As a result, spending sufficient time playing with friends, children will have sense of satisfaction and happiness coming from physical and mental health.

7.Which of the following do you think is the best way to make children behave better?

- 1) limiting the types of television programs and movies that children watch;
- 2) spending more time talking with children;

3) supervising and monitoring their interactions with their peers.

صحبت کردن

1. با صحبت کردن می‌تونیم به بچه‌ها آموزش بدیم به‌طور واقعی که چه رفتاری قابل قبول هست و تاثیر همچین روشی خیلی میتونه زیاد باشه. توو مثال هم بگیریم، یه مدت بچه‌ها رو تحت نظر داشتیم، و بعد متوجه شدیم بچه‌ها به خاطر این سختی و نظارتی که من داشتم داره پرخاشگر میشه، بعد رویه رو عوض کردم و سعی کردم باهاش صحبت کنم، خیلی تاثیر گذار تر بود.
2. با صحبت کردن رابطه عاطفی شکل می‌گیره و حس امنیت می‌کنن نه حس دیکتاتوری . وقتی به لحاظ عاطفی رابطه بین بچه و بزرگسال تقویت شه، اونوقت بچه به اون فرد اعتماد می‌کنه و حرف هاش براش سند میشه ولی هی بهش بگن این کارو نکن، با دوستات فلان کار نکن، تلویزیون نبین، اینا باعث میشه که عدم اطمینان و اعتماد بوجود بیاد..

8. Do you agree or disagree with the following statement?

The best way for parents to teach their children about responsibility is to have them care for animals.

(Agree)

- 1) Taking care of the pets, children learn to be alert to provide their needs, that boosts their sense of responsibility. Parents, who want to foster their children's responsibility, should prepare a condition that requires offsprings' entire attention. To be more specific, they should provide children with a situation that forces them to confront their concern for other members. While children have to take care of their pets, they feel a mental awareness to prevent them from getting into trouble. As a result, they make their hard effort to not to delay in their duties to feed, play, and clean them. Evidently, this manner readies them for taking the responsibility of more important duties.
- 2) In addition, social responsibility can be strengthened by taking care of an animal, so parent can teach their children this crucial subject by providing the experience of having a pet for their juveniles. To be more specific, social responsibility requires individual to allocate time to their friends and families, otherwise social bonds will get weak. Animals are not an exception and they need their owner to take time for them, otherwise they gradually get sad and bored with their owners. Thus, if parents give their children the opportunity to take care of a creature, they will learn the concept of responsibility.
- 3) First, pets are lovely and taking care of them is an exciting way to teach children about a taxing duty . To put it simply, to be responsible children should learn different skills such as time management, being vigilant, have perseverance, and be sympathetic, to name but a few. As a result, it is necessary to facilitate this strenuous task; otherwise the children would fail in their responsibility giving rise to depression and lack of confidence.
- 4) Moreover, although failing in taking care of the animal can cause sadness, it is an innocuous way teach responsibility and could have valuable lessons for children. In this sophisticated world, there are many methods to teach responsibility but most of them can have detrimental effect on children's health. For example, should parents teach responsibility through teaching culinary skills, they put their children subject to danger of burning. However, the worst case of failing responsibility in taking care of animals is the death of that animal. In addition, death of these animals due to the failing responsibility could have a long life lesson for children.
- 5) Second, caring for a pet by children can be a series of challenges, dealing with those problems and finding a solution to solve them could improve their quality of responsibility. If a child has this responsibility to care for an animal, he should always be aware of the animal's condition. The animal might die of hunger, thirst, and sickness due to its owner's neglect. When this happens, the child experiences unpleasant feelings, which may have an adverse effect on his spirit and life.

9. In Modern time, parents learn more FROM their children, (others believe!!!) Children more from their parent.

به نظرم میتونید جواب رو اینطوری بدین که چون توی زمان حاضر تکنولوژی خیلی سریع پیشرفت می‌کنه و معمولا بچه‌ها از پدر و مادرشون به روزتر هستن توی خیلی از موارد برای همین میشه اینطور برداشت کرد که بچه‌ها توی خیلی از مسائل به پدر و مادرشون چیزای جدید رو یاد می‌دن. میشه روی همین موارد مانور داد.

تکنولوژی، به روز بودن به دلیل وقت گذرانی بیشتر توی اینترنت حتی آزاد بودن وقت بیشتر برای بچه‌ها و دسترسی نسل امروز به منابع اطلاعاتی بیشتر که باعث بروز بودن بیشترشون میشه.

میشه روی مد این مسائل هم نظر داد. اینکه مد و ترندهای دنیای امروز رو بچه‌ها بهتر از پدر و مادرها درک می‌کنن.

من نمیدونم جوابم درسته یا نه

موافقم:

یکی اینکه اونا رفتارشون رو از رفتار پدر و مادرشون تقلید میکنند، چون آدمايي که بیشتر میبینن و باهاشون هستن پدر و مادرشونن. مثلا اینکه در مواقع عصبانیت چه رفتاری داشته باشند...

دلیل دوم هم اینکه اونا دانش خودشون رو در مورد خوب بودن یا بد بودن جنبه های مختلف از پدر و مادرشون میگیرند، چون به اون صورت توانایی خوندن کتاب های خیلی علمی و استفاده از منابع دیگه رو نداند. مثلا اگه پدر و مادر خوردن غذاهای سالم رو مفید بدونن بچه ها هم به دلیلی که پدر و مادرشون بهشون یاد میدن خوردن این غذاها رو مفید میدونن...

موافق

1. همون پیشرفت سریع تکنولوژی و اینکه بچه‌ها بیشتر باهاش سروکار دارن و استفاده شم میدونن.

در دنیای مدرن فعلی دیگه مثل گذشته انتقال تجربه و دانش فقط از طریق سینه به سینه و نسل به نسل نیست و ممکنه در بعضی زمینه‌ها بچه‌ها اطلاعاتشون بیشتر باشه از والدین و بتونن بهشون یاد بدن.

2. امروزه بچه‌ها کنجکوتر و جسورتر از قبلن و در زمینه‌های مختلف دوست دارن اطلاعات کسب کنن و اصطلاحا تک بعدی نیستند بواسطه تغییرات دنیای مدرن، سیستم آموزشی و نوع آموزش و الگوهاشون... و میتونن خیلی از دانسته‌هاشون به والدینشون یاد بدن. سلام.

اینجا که گفتین بچه‌ها تو دنیای در حال تغییر زیاد زندگی میکنند، رو بهتر بود به تکنولوژی و اینا ربط میدادی. اینکه اینا از بچگی با تکنولوژی بزرگ شدن و اینا(دلیل خودتون رو به جور دیگه میگما). چون بچه‌ها تو این دنیا هستن، پدر مادرها هم تو این دنیا هستن دیگه، جای دیگه ای نیستن::smile: مثلا تو دلیل اولت حداقل من، خوب متوجه نشدم که بچه‌ها، چجوری این برتری "نگاه به مساله از زاویه مناسب" رو بدست آوردن و اینکه پدر مادرها با مشاهده موفقیتشون میتونن خوب یاد بگیرن. شاید چیزی که تو ذهنتونه کاملا درسته ولی به ولی به نظرم یکم سخت بود درکش.

دلیل دوم به نظرم خوب بود ولی من فک کنم دلیل اولتون رو باز کنین و واضح بگین به دومی نزدیک میشه.

در کل به نظرم دلیل اولتون مشکل داشت.

اینجا the parents چرا the parents میارین؟ parents درست نیست؟ چون به نظرم جنرال صحبت میکنین.

یکی هم biased about درسته؟ من خودم برام سواله و سوالی میگم .

چون biased towards/in favor of/against دیده بودم .

فک کنم منظورتون این بود که پدر مادرها نسبت به افکار خودشون پایبندن و اینا... به نظرم میشه از conservative هم استفاده کرد چون مخصوصا اینکه بحث تغییرات رو آوردین و بچه‌ها با این تغییرات خودشون وفق میدن و چیزهای زیادی یاد میگیرن ولی پدرمادرها محافظه کارن نسبت به تغییرات.

البته شاید خودتون نخواستین بذارین ولی یکی دوجا پانکچویشنی هم مورد داشت. مثل, as a result,

دلیل اولم اینه که چون بچه‌ها تو دنیای امروز جوونی شون رو گذروندن عادت کردن که هیچ چیزی ثابت نیست و همه چیز دد حال تغییره مس اونا راحت تر می تونن ذهنشونو تغییر بدن با افکار و طرز فکر دیگران رو ببیزین در نتیجه خلاقانه تر می تونن مشکلاتو حل کنن. پدر و مادر ک با افکار تعصب آمیزشون اجازه پیشرفت رو از خودشون گرفتن مشکلات رو پیچیده می کنن. پدر و مادرها در کنار فرزندانشون یاد میگیرن که open مایند بشن و پذیرای نظر افراد دیگه چرا که می بینن بچه‌هاشون موفق ترن و با روش خلاقانه تری میتونن مشکلات رو حل کنن که نتیجه ی داشتن ذهن باز هست. بنظرم اینکه تکنولوژی رو نیارم اشکالی نداره چون دارم کاملا به طرز فکرشون و اینکه چه شکلی بزرگ شدن اشاره میکنم .

در مورد دلیل دوم متفاوته نسبت ب دلیل اول. اینکه بچه‌ها توی محیط های آموزشی مختلفی اسکیلهایی رو یاد می گیرن که پدر و مادر ها اونا رو یاد نگرفتند چونکه اصلا اونا توی گذشته وجود نداشتن مثل کار با کامپیوتر یا ایهای مختلف. و اینها کاملا برای پدر و مادر ها جدید اما از اونحایی که خودشون درگیر مسائل و مشکلات مالی و .. هستن فرصت دنبال کردن این محیط های آموزشی رو ندارن. پس فرزندانشون که اینها رو یاد گرفتن خیلی حرف برای گفتن با پدر و مادرشون دارن بصطلاح چیزی برای یادگیری به اونها دارن. در حالیکه پدر و مادرها چیزی برای آموزش ب بچه‌هاشون ندارن که برانشون جدید و جذاب باشه .

As a result مگه نمیخواد؟

خواهش میکنم.
منم اتفاقاً میگم میخواد کاما رو و میگم نگذاشتین

As a result the parents learn something new from their children.

موافقم

۱. با توجه به سرعت تغییرات در دنیای مدرن، بسیاری از امور دستخوش تغییرات زیادی خواهد بود که برای این موضوع، نیازمند یادگیری آن هستیم. اما باید به این نکته توجه داشت که سرعت یادگیری در افراد با افزایش سن کاهش می یابد. به عبارت بهتر کودکان نسبت به والدین شان علاقه مندی بیشتری در یادگیری دارند در نتیجه در یادگیری این تغییرات مشتاق تر هستند که در نتیجه آن افزایش دانش آنها نسبت به والدین شان می باشد. برای مثال برادرزاده من در کار کردن با موبایل خیلی بهتر از پدرش است حتی گاهی اوقات پدرش از او می خواهد تا بعضی برنامه های جدید را برای او نصب کند و به او نحوه استفاده از آنها را به او آموزش بدهد:grinning:

۲. با توجه به مشغله های زیادی که والدین در دنیای امروز با آن مواجه هستند زمان کافی برای یادگیری ندارند. در مقابل کودکان همواره در حال یادگیری هستند چه زمانی که در مدرسه هستند و چه زمانی که در حال کار کردن با بازیهای کامپیوتری و جستجو در اینترنت هستند.

I agree with the first one. In my opinion, nowadays, children are more up to date than their parents and all because of technology and the internet. In most case scenario children are fast in grasping the changes in the modern world than their parents. They also know more about world fashion trends, new technology, news, And fake news! And all because of they more on the internet than the others. They can quickly learn about many topics that their parents might not know anything about it, and that makes them more efficient in this case.

Disagree

1) parent's experiences lead to pragmatic solutions and choices about children's future job or studies that does not replaced by any technology and recent discoveries.

2) Although in modern world children are provided with a countless number of online resources in order to find solutions, they do not know how to search about them. by considering that these days parents are more knowledgeable and up to dated, they could teach their children about how to use the new high-tech devices.

Agree

1. Children are open to access new and different perspective thanks to live in this ever-changing world, while the parents are so strict and biased about their own point of view. As a result, the parents learn something new from their children, watching they are successful because they look at a problem from a best viewpoint which is obtained by combining various attitudes.

2. Children are learning various skills their parent did not learned in their young ages. Besides, parents do not enough time to attend an instructive class now as a result of being overwhelmed with various problems. Accordingly, children have different skills to teach them to their adults, while adults do not have any new skill to teach their children

Agree

First, in rapidly changing world, children are actively overwhelmed by new technology and get a wide spectrum of information from the Internet; thus, the new generations are more well-informed than their parents, and parents learn deeply new electrical methods and skills from their children. In fact, thanks to the advanced devices, children are more patient to spend and get knowledge by gadgets and teach parents easily and conveniently.

Second, in today's complex life, a majority of families often have just one child, and parents do and accept every think that their children want and believe; therefore, parent learn more from children than ever before. In other words, adults today are not able to stick on their opinion and idea in front of their children, gradually parents are persuaded that their children are more knowledgeable than those were in the past, and they try to learn new things from their children.

10. Do you agree or disagree with the following statement? Except for doing homework, parents should limit the use of children under the age of 13 on electronic devices such as computers and mobile phones.

agree

1. children under the age of 13 should learn and experience many different real events around them / use the electronic device for much time lead children to avoid from family, real life, and they form a solitary person...
2. it may be so dangerous for their culture attitude/ different movies about many immoral event or uncultured event can affect their mind or behavior

Disagree

- 1) children are talented, they could learn different skills by the use of computers/ those abilities are essential for having successful academic educations/ in this age they have more free time and better could be involved in learning
- 2) those children who are deprived of using electronic devices by limitations, would insist on using them more and more. in this regard, parents should acquaint children with the harmful effects of extraordinary use of those devices but not limit them.

موافق

۱. بدلیل اینکه کودکان زیر ۱۳ سال ذهن بسیار تأثیر پذیری دارند ممکنه بواسطه امکاناتی که ابزار الکترونیکی در اختیار قرار میده (مثل اینترنت، بازی، فیلم) تأثیر منفی بپذیرن، مثلا بازی های خشن و جنگی میتونه ذهن و روحیه کودک رو تحت تأثیر قرار بده و شکل گیری کودک رو با مشکلاتی در آینده اش مواجه کنه
۲. کودکان زیر ۱۳ سال عموماً قدرت تصمیم گیری پایینی دارند و در صورت کنترل نشدن خیلی راحت میتونن به چیزایی عادت کنن که بعد جدا شدنشون سخت باشه، در نتیجه در صورت کنترل نشدن به استفاده زیاد از این دستگاه ها اعتیاد پیدا میکنن و اساساً از دنیای واقعی فاصله میگیرن که باعث میشه به عنوان مثال در برقراری روابط اجتماعی در آینده دچار مشکل بشن.

مخالف

۱. در دنیای امروز که تکنولوژی حرف اول رو میزنه و بسیاری از کارها از طریق اینترنت و دستگاه های الکترونیکی انجام میشه، هر چقدر بچه ها زودتر کار با این دستگاه ها و روش های استفاده ازونا رو یاد بگیرن ی قدم جلوتر هستن
۲. اساساً با توجه به جذابیتی که این دستگاه ها دارند ایجاد محدودیت میتونه نتیجه عکس بده و بچه ها با توجه به سن کمشون که کنجکاوی هم از ویژگیهاشونه به شکل های نامناسب برون سراغشون
۳. این ابزارها میتونن بسترهایی رو فراهم کنن که از طریق اونها آموزش ی سری چیزا برای بچه ها ساده تر و شیرین تر بشه، حتی خیلی از بازیها که با این دستگاه ها انجام میشن میتونن قوه تخیل و ایده پردازی رو در بچه ها تقویت کنن

11. Which one of the following values is the most important to share with a young child (5-10 years old)?

1. Being helpful
2. Being honest
3. Being well organized

گزینه سوم:

یاد دادن نظم به بچه باعث میشه رفتار های درست رو یاد بگیره. رفتار درست در سرنوشت ادما خیلی اثر میذاره و شخصیت ادما رو شکل میده. وقتی بچه نظم رو یاد بگیره خواه نا خواه رفتار های درست دیگه مثل احترام به دیگران رو یاد میگیره. در جامعه هم جواب احترام احترام هست
دوم: وقتی بچه منظم باشه چون فکرش منظم هست موفقیتش در آینده تضمین میشه. در خیلی از مشاغل در دنیای امروز نظم حرف اول رو میزنه و بالاترین اولویت رو داره. تفکر منظم رو نمیشه به یه ادم بزرگسال یاد داد باید از بچگی این امر شکل بگیره و مغز ادم شرطی میشه.

Being well organized

- 1) children are more capable of internalizing the good and beneficial characteristics and this feature is the base of a large number of prosperities in the future.
- 2) in these days lifestyle parents are more careful about their children and they register their children to different type of classes. As a result, it is indispensable for parents to teach their children how to acquire different skills by being well organized and having a good schedule for their plans and avoid being under the high pressure of an enormous amount of works they have to do.

12.Do you agree or disagree with the following statement? Technology has made children less creative than they were in the past.

ساید موافق رو انتخاب کردم. دلیل اول اینه که در قدیم بازی های بچه بیشتر بر اساس خلاقیت بود و خدشون بازی طراحی میکردن اما امروزه تکنولوژی هایی مثل ps4 خلاقیت رو از بچه ها گرفته و اونا دنبال آماده و طراحی شده هستن. دلیل دوم هم این هست که با وجود اینترنت اگر موضوعی یا تحقیقی داشته باشند به جای فکر کردن و پیدا کردن ایده در اینترنت براحتی سرچ میکنند .

13.Some parents think they should protect students from making mistakes. Some think they should let them make mistakes. What do you think?

14.Do you agree or disagree? Children should listen or read news at an early age.

15.Children will be unwilling to learn musical instrument since they need to keep practicing. What should parents do? a. Force children to learn musical instruments. b. Let children choose whether to learn musical instrument

16.Which idea do you agree with? Children born with talents should be treated in a different way, or they should be treated in the same way as average children.

17.Do you agree or disagree that it is important for young people to learn some domestic skills like cooking, sewing and taking care of children?

18.What kind of activity do you think that children do to cultivate a sense of responsibility?

- a. keeping a pet
- b. doing house chores
- c. helping take care of their younger sisters or brothers.

Use specific details and examples in your response.

19.Do you agree or disagree?

The best way for parents to teach their children about responsibility is to have them care for animals.

۱. یکی از جنبه های مسئولیت پذیر بودن اینه که یک تسک و کاری که به ما سپرده میشه رو بهش متعهد باشیم همیشه و در همه ایام به کارمون ادامه بدیم. وقتی که مسئولیت مراقبت و پرستاری از حیوان بما سپرده میشه ما یاد میگیریم ک باید بصورت مداوم فکر و ذهن مون درگیر نیازهای اون حیوان باشه تا این نیازها رو برطرف کنیم و این کار دو بصورت مداوم و پیوسته انجام بدیم همیشه و هر روز...

۲. یکی دیگه از بعدهای مسئولیت پذیری اینه که مسئولیت تمام وکمال کاری که بما سپرده میشه رو قبول کنیم و اگه در انجام کار اشتباهی کردیم مسئولیتش رو بپذیریم. وقتی که از به حیوان هم مراقبت میکنیم ممکنه در مقاطعی بخاطر سهل انگاری در مراقبت مشکلاتی رو برای اون حیوان بوجود بیاریم که در این مواقع بایستی مسئولیت اون مشکل رو بپذیریم و درصدد بهبود حال حیوان بر بیایم. لذا این مراقبت از حیوان بما این جنبه مسئولیت پذیری رو یاد میده

Agree

1.great opportunity to practice determined commitment to fulfill its needs / prioritize emotional & financial needs
Otherwise there would be a bad consequences / put their health on a risk....

2. Great occasion to learn some invaluable social skills, like preparing food, looking after, playing, teaching them how to act in public places while taking them a walk.... all can lead to be independent and responsible for their decisions in their own life

Ex. My parent went on journey/

Our dog remained at the home/ at first it was pretty tough / preparing its special food at special time / play with him...

Turned out to be a turning point /

I went abroad / how i do all my activities all by myself without family support...

Agree

1.when someone should care about some animals and should feed them and take care of them and know if they don't do the task right the animal will be in danger, they will learn to start caring for other people and will find out what will happen if they don't do their tasks right.

2. They will discover their abilities and will earn self-confidence. They will find out that they are capable of being in charge of something and will be encouraged to take responsibilities and can consider themselves as useful and important people.

20.Children will be unwilling to learn musical instrument since they need to keep practicing. What should parents do?

1. Force child to learn musical instrument.

2. Let child choose whether to learn musical instrument.

Let child choose:

1.First, it is widely accepted that efficiency of learning will be increased drastically when individuals, in particular, children explore their passions and do whatever they want. In this way children make strenuous efforts to be successful in playing music.

2.Second, this option provides children with a great chance to enhance their self-confidence. So selecting music instrument by themselves, children will be independent to make their decision.

1st:

1) children are not cognizant enough to choose which way is more beneficial for them and they could find its value in the adulthood

2) parents by obligating their children result in higher productivity of the children in different aspects of their lives such as education and social life.

21. Do you agree or disagree with the following statement? The rules that societies today expect young people to follow and obey are too strict. Use specific reasons and examples to support your answer.

مخالف

- 1- قوانین عموماً خیلی راحت و بدون هیچ تداخلی اجرا میشن و محدودیت غیر نرمالی برای کسی ایجاد نمیکنن و اصن همیشه خیلی سخت در نظر گرفتشن.
- 2- دولت قوانین رو به طوری وضع نمیکنه که استریکت نباشن چون قوانین استریکت باعث کانفلیکت میشه در جامعه. افرادی که قوانین رو وضع میکنن افراد با صلاحتی هستن که امار های خیلی زیادی دسترسی دارن و هر قانونی رو که میدارن رو مخصوصاً برای جوون ها از جنبه های مختلف بررسی میکنن که مبادا باعث شه در جوون ها باعث کانفلیکت شه

موافق

1. سرعت تغییر نگرش و دولوپ افکار جوانان خیلی سریعتر از به روز شدن قوانین حاکم بر جامعه هستن. جوانان نسلی هستن که به سرعت افکارشون درحال تغییر هستن به خاطر تغییرات خیلی سریعی که به خاطر گلوبالیزیشن و پیشرفت تکنولوژی اتفاق میفته. این تغییرات لحظه ای جهان رو به روز جوونا رو تشویق به برچیدن مرز ها میکنه ولی قوانین حاکم بر جامعه توسط کسانی وضع شده که متعلق به چندین نسل قبل هستن و جوونها رو درک نمیکنن و تغییرات خیلی کمی که در قوانین به نسبت تغییرات افکار جوانان رخ میده روز به روز جوانان رو محدودتر میکنه.
2. امروزه نسبت جوانان افسرده نسبت به گذشته خیلی بیشتر شده و به بی سابقه ترین نرخ خودش تو تاریخ رسیده. آمار خودکشی ها، افسردگی ها و عدم امید به زندگی همه خود گویای محدودیتی هستن که قوانین حاکم بر جامعه بر جوانان اعمال کرده. زمانی این فشار قوانین بر جوانان بیشتر مشخص میشه که میزان مرگ و میر جوانان خیلی بیشتر از افراد مسنی هستن که با قوانین جامعه کنار اومدن

- ۱- خیلی از قوانین برای حفظ سلامتی روحی و جسمی جون ها ضروریه. و اصن استریکت محسوب نمیشه. مثلاً الکل نخوردن قبل از سن قانونی
- ۲- خیلی از قوانین باعث ادامه تحصیلات جوون ها میشه. که در نهایت منجر به پیروزی جامعه میشه. مثلاً قوانینی که مجبور میکنه همه تا به سنی تحصیلاتشون اجباری باشه و قوانین ضد کار جوون ها قبل از به سن خاصی.. همه این ها در نهایت به نفع فرد و جامعه و استریکت نیست

22. Some people think that older children should be required to take care of the younger children. Others think that this should be done by parents or other adults.

Which do you prefer?

Done by parents.

1. Older children are not familiar with the limitation of taking care of the younger children who are so sensitive and easily damage. Additionally, they younger one may seem taking care like a fun game. Consequently, If the older children are not conscious about the methods of take care of the younger, heart them.
2. Older children are not aware of the meaning of different action of younger children so its hard for older one to take care the younger. When older children want to take care of younger they should act same as their parents. Parents are aware about each of the actions and need of their child. And even adults are aware of these meaning based on their experience. But older children are not same as their parents and the adults to take care based on their recognition or experience.

23. Do you agree or disagree with the following statement? The best way for parents to teach their children about responsibility is to have them care for animals.

موافق:

۱. یکی از جنبه های مسئولیت پذیری اینه که ی کاری رو که ب ما میسپرن رو تا تهش کامل پیش برین و در موافق سختی جا نزنیم. وقتی که مسئولیت مراقبت از حیوان بما سپرده میشه ما در طی این کار با مشکلات مختلفی روبرو میشیم. مثلاً ممکنه حیوان بخاطر غذای نامناسب مریض بشه، یا دچار مشکلات دیگه ای بشه. ما با انجام این مسئولیت یاد میگیریم که در این مواقع سخت و مشکل جا نزنیم و مشکلات پیش اومده رو حل کنیم چون مسئول این کار ما هستیم و باید تا انتها ادامه بدیم.
۲. یکی دیگه از جنبه های مسئولیت پذیری اینه که کاری که بما اساین میشه رو به طور مرتب و منظم و آن تایم انجام بدیم و در انجامش نظم داشته باشیم. وقتی مراقبت از حیوان بما سپرده بشه، از اونجایی که حیوان نیاز به رسیدگی به موقع؛ آب و غذا دادن به موقع داره، مجبوریم مرتب و منظم و سر موقع بهش رسیدگی کنیم و این مسئولیت این جنبه مسئولیت پذیری رو که باید در کارمون منظم و مرتب و آن تایم باشیم رو یاد میده.

مخالف

- ۱ (با داشتن یه حیوان خونگی خیلی مواقع باید کارایی براش انجام بشه که از عهده بچه ها خارج باشه، مثلاً ببرنش دکتر، یا نظافتش کنن، یا براش غذا تهیه کنن، البته میتونن تو اینکار ها به پدر مادرشون کمک کنن، چون بچه ها باید رو جنبه های دیگه ای زندگیشون بیشتر تمرکز کنن، با داشتن پت، شاید نتونن همه مسیولیت اونو

بعده بگیرن، و وقتی یه مشکلی برای پت پیش بیاد نتیجه عکس داشته باشه و بچه رو سرخورده کنه که نتونسته ازش خوب محافظت کنه و اعتماد بنفسش بیاد پایین ۲ (بودن پت میتونه مکمل خوبی برای اوقات فراغت باشه و یه نوع تفریح و سرگرمی، نه مسئولیت، از طرف دیگه بچه با انجام یسری کارهایی که تو زندگیش نتیجه مستقیم داره مثلاً تصمیم گیری برای انتخاب دوست یا فعالیت مورد علاقه یا انجام یسری وظایف تو خونه، میتونه مسئولیت پذیری یادبگیره و اوقات فراغت و تفریحش رو با پت بگذرونه

First, doing such beneficial activities right on their own time like feeding their pet, taking it to the animal healthcare center and taking it into the park, students are thoroughly capable to learn perform their preordained tasks on their own time which easily satisfies one of the most significant criterion of being responsible.

Second, since it is mandatory for them to feed their pet a certain amount of meal or give it a specified dose of drug considering the meticulous standard index, they conspicuously learn to do their duties precisely which verifies another feature of how to be responsible person.

Third, doing all of the activities which are considered prerequisites of taking care of pets on their own, children explicitly learn how to be autonomous in their assigned tasks and just blame themselves when an unanticipated incident occurs which noticeably the third characteristic of being a responsible person.

24.A/D: It is important for young people to learn some domestic skills such as cooking,taking care of children...

Agree

Learning such kinds of skill will give them the opportunities to stand on their own feet and become independent of people surrounding them. E.g. since i knew cooking, i was confident enough that I won't need others to cook me. Moreover, these kinds of skills will help people to know their talents better, they may even look at all these skills as a future career and earn money out of them. E.g. since i knew how to babysit, and i found out that I this skill suits me well, I became a babysitter when i was a student and earned whole lot of money.

25.some people believe that parents should pay their children a small amount of money to do jobs around the home(such as washing the dishes or taking out the garbage), while other people believe that parents should not pay their children to do these tasks. which view do you agree and why.

مخالف

اینطوری همه چیو با مقیاس پول می سنجه و نگاه مادیش بشدت تقویت میشه. هم تو خانواده و هم بیرون تو جامعه کاری، کمکی نمی کنه تا بهش پول بدن...

بخاطر مشکلات اقتصادی دیگه نمیشه در کنار پول تو جیبی و سایر مخارج بچه ها، برای این کار. هم ی بودجه جدا در نظر گرفت

موافق:

۱. پدل دادن به بچه ها در ازای انجام کارهای اضافی خونه باعث میشه ک money management رو یاد بگیرن. در واقع چون برای بدست آوردن پول زحمت میکشند، یاد میگرن ک پول درآوردن راحت نیست و باید قدر پول رو بدن و پول هاشون رو هدر ندن یا خرج های الکی نکنن و صرفه جویی کنند یا بعبارتی درآمد و پول شون رو مدیریت کنن.

۲. وقتی ب بچه ها پول میدیم، این پول انگیزه میشه براشون که بیشتر و بهتر کار کنند و لذا کارها رو بهتر و پرفکت تر انجام میدن.

26.Do you agree or disagree with the following statement? Parents should teach children how to be independent at a very young age.

Agree

First, nowadays young people are greatly depended on their parents for each activity such as making important decisions. This significant life lesson helps children enhance their self-reliant to select the best way between a high variety of items.

Second, It is totally accepted that in low age, children are able to learn thing from their parent, in particular, how to stand on their own feet and become a self-governing person to deal with financial and emotional problems in daily life.

27.Do you agree or disagree with the following statement? Children now are often required to spend most of their free time doing homework, participating in school-organized activities, or exercising; however, children should do whatever they want to do in their free time.

موافق

-اینطوری علاقه و استعدادشون بهتر کشف میشه... چون بیشتر وقت خودشونو یا مدرسه هستن (سر کلاس های تعریف شده) یا کلاس هایی ک والدین خارج از مدرسه ثبت نامشون کردن.. پس اگر زمان مشخصی هم رها باشن، میرن سراغ فعالیتی که علاقه دارن و بهتر می تونن انجامش بدن..
-باعث میشه برنامه ریزی و مدیریت زمان یاد بگیرن.. چون وقتی بقیه براشون برنامه ریزی می کنن، بچه اصلا این مهارتو یاد نمی گیره..چون همیشه مشخصه که چند ساعت کجاست و در زمان مشخص کجا باید باشه و چیکار کنه.. ولی وقتی بهش بگن مثلاً این دو ساعت مال خودته، باید فکر کنه چیکار می تونه بکنه، چقدر زمان طول می کشه..چی لازم داره.. و اینطوری مدیریت یاد می گیره.

مخالف

-بچه ها تو سن رشد هستن و مدرسه و خانواده باید حواسشون به آموزش و پرورش درست اونا باشه. چون بچه ها ناآگاه هستن، نمی تونن درست از زمانشون استفاده کنن، بنابراین باید براشون برنامه ریزی کرد..
-کلاس هایی که در مدرسه تعریف میشه و کلاس های ورزشی و خارج از مدرسه که خانواده در نظر می گیرند باعث میشه بچه ها هم از لحاظ درسی پیشرفت کنن و هم از لحاظ تفريح، لذت لازم ببرن و بنابراین نیازی به آزاد گذاشتن اونا نیست.. چون به همه جوانب رشد و نیازهاشون توجه میشه..

28.Some parents think they should protect students from making mistakes. Some think they should let them make mistakes. What do you think?

29.Do you agree or disagree? Children should take part in sports team to be more socially developed.

30.In your opinion, which of the following behavior is the most negative one displayed by children?

Being selfish
To speak impolitely
Being loud

31.Do you agree or disagree? It is important for a child to spend a short period of time living far away from home, visiting relatives and friends.

32.What do you think is the most important thing that parents should teach their children? Please include details in your response.

33.Do you think it is a good idea for parents to give kids monetary reward if they have good grades in school. Please include details and examples in your explanation.

34. Do you agree or disagree the statement that we should let children use the computers or other electronic devices as early as they can?

35. Do you agree or disagree with the following statement? Children should be required to help with household tasks as soon as they are old enough to do so. Use specific reasons and examples to support your answer.

36. Which is better for children? To grow up in a big city or to grow up in a small town?

37. Parents today should spend much time for their children to determine their future, children should be allowed to choose their choices.

38. When parents can't afford time to accompany with their children, they could choose to send their children to child-care center where many children are cared together; or they could send their children to an individual caregiver. Which one is better?

○ Relationship/friend/family

1. agree or disagree? Competition among friends usually has a negative effect on friendship.

agree

1 competition will bring bitterness for both winner and loser, when competitors are friend

2 contest will have weakened friendship bonds by changing individuals priorities

Agree

Naturally, human being has an inherent zeal to win every competition, even at the expense of relationship with his near and dear ones. This insatiable desire propels people to remove every barriers standing in their way of success, no matter if these obstacles are their friends or a person out of their social circle. when people enter a contest with their friends, they forget their good memories and defeating their competitors will become their number one priority. under such a circumstance, going beyond selfish needs and doing things for the sake of friends, the qualities on which every friendship is funded, will become a thing of past.

From a psychological standpoint, competing with a friend is nothing but being under burdensome pressure, affecting the both sides of contest negatively. when entered a competition, one will do whatever it takes to defeat his friend. It

is often seen that the weaker side of the competition are engaged in morally and ethically questionable practices, such as stealing money to have the same lifestyle as their friends, talking behind their rivals back, and hindering their friends success, to name but a few. These aforementioned actions will sow the seed of disagreement and quarrels, as they feel that their rivals are the only reason for engagement in these unethical behaviors and they are to blame for their involvement in anti-social behaviors

موافق:

۱. رقابت باعث میشه اعتماد بین طرفین از بین بره و به همدیگه اعتماد و اطمینان نداشته باشند. در واقع، وقتی که بین دو طرف رابطه به رقابتی وجود داره، در شرایط مختلف، هر پیشنهاد و نظری که از طرف مقابل برسه رو قابل اعتماد نمیدونن چون طرف مقابل رقیبشون هست و پیشنهاد رسیده از اون رو ممکنه مخالف با موفقیت خودشون بدوند. بنابراین، این رقابت در مدت زمان رووی اعتماد بینشون تاثیر منفی میگذاره که این خودش باعث دوری دو طرف و سرد شدن رابطه دوستی شون میشه

۲. وقتی بین دو دوست رقابت وجود داره، این رقابت باعث میشه دو طرف خودشون رو به دیگری ترجیح بدن در شرایط حساس که به کمک همدیگه نیاز دارند، هر شخص خودش رو اولویت قرار بده و منافع خودش رو ارجح بونه. در این صورت که در شرایطی که ب کمک هم نیاز دارند ولی کمکی ب هم نمیکنن، باعث کدورت و ناراحتی بین شون میشه و در مدت زمان طولانی باعث از بین رفتن رابطه دوستی شون میشه.

2. Do you agree or disagree? The extended family (grandparents, cousins, aunts, and uncles) is less important now than it was in the past.

موافقم

۱. به دلیل مشکلات امروز از جمله مشغله کاری افراد وقت کمتری واس دید و بازدید دارن و این ارتباط کم باعث سرد شدن روابط بین اعضای فامیل شده، و این روابط دیگه اهمیت سابق خودشو نداره و باعث کم اهمیت تر شدن extended family شده

۲. با آموزشای جدید و توسعه قابلیتای فردی، افراد واس انجام کاراشون احساس نیاز کمتری به دیگران از جمله افراد خانواده و فامیل دارن و این باعث میشه درجه اهمیت extended family امروزه کمتر بشه و فرد بیشتر متکی به خودش باشه

مخالف:

1. امروزه به خاطر شرایط شغلی به وجود آمده و تنوع شیوه زندگی، برخلاف گذشته، افراد در شهرهایی دور از محل تولد خود زندگی میکنند. و به طور کلی میشه گفت که هر فرد اقوام دور و نزدیک زیادی در شهرهای مختلف داره. که این خودش یه مزیت به شمار میره و باعث میشه خیلی وقتها همین اقوام که در شهرهای متفاوت زندگی میکنند در مواقع ضروری یک پشتوانه و حمایت کننده قوی باشن. مثل دانشجویی که دور از شهر خودش تحصیل میکنه و به واسطه بودن عموش تو اون شهر از کلی حمایت برخورداره و پیش اونا زندگی میکنه، در حالی که تو گذشته این ممکن نبود و طرف باید تنها از پس مشکلات برمومد.

2. تو گذشته افراد شغلای خانوادگی داشتند و اکثر اقوام در یک شغل یا تعداد محدودی حرفه، مشغول بودند. الان با تنوع شغلها و انتخاب های متفاوت توسط اقوام هر کدوم شغل متفاوتی دارن. و این تنوع شغل و حس خانوادگی و تعلق خاطر بینشون باعث میشه که افراد بتونن از تجارب این اقوام استفاده کنن و حتی تنوع انتخاب برای شغل دارن، چرا که میتونن پی این اقوام مشغول به کار شن.

3. امروزه به خاطر تغییرات بسیاری که نسبت به گذشته اتفاق افتاده بچه ها از پدر و مادر خود روز به روز دورتر میشن و نظارت و کنترل پدر مادر دیگه مثل گذشته قابل تحمل نیست. برای همین خیلی از جوانان، نوجوانان، یا حتی افراد تازه ازدواج کرده، مشکلات خودشون رو بیشتر با اقوامشون درمیان میدارن و نقششون در کمک کردن به افراد بیشتر از گذشته شده و این اهمیت بیشتر اقوام درجه 2 رو نشون میده. مثل جوونها یا نوجوانهایی که مشکلات خودشون رو با دایی، عمو، پدربزرگ و... درمیان میدارن و دیگه خانواده اون محوریت گذشته رو نداره

مخالف

1. این نوع روابط خانوادگی باعث حس آرامش و دلگرمی میشن (غیر قابل جایگزین) و به همین خاطره که امروزه آدمها با وجود مشغله های فراوان و... تایم های مشخصی رو برای این نوع روابط در نظر میگیرن و همچنان بهش اهمیت میدن. مثلا مسافرت یا دورهمی و جشن های مشترک دعوت میشن و اوقات خوبی کنار هم دارن و اینکه با علایق و سبک زندگی همدیگه بیشتر آشنا و معاشرت ها صمیمانه تر و بهتر خواهد بود.

2. قابل اعتماد و تکیه کردن هستن

چه از نظر سپردن بچه مثلا چه مشورت کردن و یا کمک گرفتن از شون در سختی ها پشتوانه هستن و چون مردم اینو میدونن همچنان اهمیت میدن به این روابط.

Disagree

First, having recognized the importance of the extended family in the complex lifestyle, people now decide to pay more attention to their close families have a strong relationship to create a sense of happiness and satisfaction.

Second, in the modern world, there are various financial problems in individuals' life that the extended families can be more beneficial as an excellent financial assistant to solve this issue; therefore, the extended family is definitely more important now than ever before.

3.State whether you agree or disagree with the following statement. Then explain your reasons, using specific details in your explanation. People are more likely to enjoy themselves at concerts or films if they go with a group of friends.

مخالف

1. هماهنگ شدن با یک چند نفر برای رفتن به سینما یا کنسرت کار وقتگیر و گاهی خسته کننده ای هستش و باید سانس رو انتخاب کنن که تو اون وقت همه خالی باشه و این خودش خسته کننده و حوصله سر بر هستش.

2. حضور دوستان تو سالن کنسرت یا سینما با صحبت کردنشون میتونه دیسترکشن ایجاد کنه و طرف نتونه به خوبی فیلم یا کنسرت رو دنبال کنه

3. مردم وقتی تنها به اینجور جاها میرن آزادی بیشتری دارن، اینکه چی بخورن، یا اینکه با تنها بودنشون شانس برقراری ارتباط و سوشالایز کردن با افراد دیگه رو پیدا میکنند و دوستان جدیدی پیدا میکنند. در حالی که وقتی با گروه دوستان هستن به همچین چیزی فک نمیکنن

4.Do you agree or disagree with the following statement? When classmates or colleagues communicate about a project in person instead of by e-mail, they will produce better work for the project. Use specific reasons and examples to support your answer.

مخالف

۱. وقتی همکارا دور هم جمع میشن، بیشتر وقت صرف گپ زدن میشه و وقت خیلی کمی صرف پیش بردن پروژه میشه

۲. اگه با ایمیل در تماس باشن این فرصت رو بوجود میاره که اگه اختلاف نظری دارن، فرصت مناسبی واس انالیز تمام جوانب ممکنه داشته باشن تا بتونن پیشنهاد و راهکار بهتری واس پیش برد پروژه ارائه بدن، در حالی که اگه دور هم باشن و اختلاف نظری باشه باعث تنش میشه و کار پروژه رو مختل می کنه

موافق

۱. حضوری و با هم روی پروژه کار کنن این فرصت رو بشون میده که اگه اختلاف نظر یا چالشی هست در پروژه، با تبادل اطلاعات در کمترین زمان ممکنه بتونن کار پروژه رو سریع تر و بهتر پیش ببرن

۲. مطالعات نشون داده که کار تیمی و حضور در یک تیم باعث خلاقیت افراد میشه، پس اگه حضوری روی پروژه کار کنن این امکان وجود داره که ایده های خلاقانه ای واس پیش برد پروژه بتونن ارائه بدن

موافق

۱-در وقت و انرژی انها صرفه جویی میشه چون توضیحات پروژه با تایپ و ایمیل بسیار زمان بر هست

۲-تمرکز بیشتری روی پروژه دارن و ایده های بهتری میتونن برای پیشرفت پروژه ارائه بدن

۳-با سرعت بیشتری میتونن پروژه رو به اتمام برسونن در نتیجه در هزینه ها صرفه جویی میشه

By e-mail

First, thanks to new technology, communicating by e-mail for a project, group members can save their time and have a definitely better result than connecting in person. In fact, each program need many time and focus to get a correctly result. In this vein, classmates or colleagues during projects are deeply overwhelmed by many tasks and duties that they do not have sufficient time to communicate and talk about projects in person. As a result, keeping touch with electronic approaches such as sending message or e-mail, members can take advantage of them to overcome with obstacles and dilemmas at short spell.

Second, when members of group connect with each other by e-mail to talk about a project, their outcomes would be better than react in person because there are less arguments between them and their efficiency will enhance dramatically. In other words, when members of a group communicate about a project face to face, there are a wide variety of insignificant subjects and topics to talk and discuss so that produce many misunderstands. Thus, co-workers' work quality would be increased by connecting with e-mail to solve their problems.

5.Do you agree or disagree with the following statement: Your friends are the most important influence in your life. Use details and examples to explain your opinion.

1- People are inclined to imitate the behavior of their peers, and their friends are no exception
2- Most of the time, individuals feel competitive with their friends, which this competition can have a profound impact on their personality.

1. Friendship is not a cost and benefit relationship, so trusting a friend is much easier than colleagues or business partners
2. Mostly, friends are in the same age group and they have same preoccupations, so they can share their feelings and personal issues freely, which is not the same for their relationship with parents or teachers.

6.Some people believe that spending time away from people we care about helps us improve our relationship with them, because being away from these people makes us realize how important they are to us. Other people believe that to improve our relationships with the people we care about, we should spend as much time with them as possible, because spending time apart can damage or harm a relationship. Which view do you agree with and why? (Spend time away)

1) While people are in far distances from each other, they will better understand their loved ones' helpful behavior in tough situations that strengthen their friendship. To put it simply, the more a reliable person is not available, the better they will be aware of their closed ones' positive points. Evidently, individuals, experiencing troubles without their intimated one's help, will face a strong need for them. Indeed, They want to talk, to share their critical problems, and to ask for their advices. Far distant from closed ones, people will be cognizant of their close members invaluable features. However, they will not be conscious of their worthy relationships when they always benefit from their near friends since they assume that it is a permanent condition.

2) Although people in a close relationship benefit each other, they also come into conflict that may hurt their relations when they are in close distances most of the time. All the people in the world, even bosom friends, have different opinions with each other. As a result, they are required to be in far distances from each other to prevent from getting into problem with contentious discussions. To clarify, coming into controversial negotiations, people try to convince the counterpart which could ruin their relationships.

3) when adopting separateness, individuals will no longer take their loved ones for granted.

4) Giving space in a relationship makes people feel the importance of their counterpart. This may stop them from hurting their partner's individuality and making them feel trapped.

5) Stopping togetherness is of a great help for scrutinizing oneself and redefining priorities and necessities. They will realize some demands can be fulfilled by their own, and they should cease overburdening their partner with sky-high expectations.

7. Which one do you think is important to long-lasting friendship?

1- Help you when you need

2- Share same interest and hobby

3- mutual trust

third

1) To begin with, mutual trust binds two best friends forever since we can depend on our reliable peers in any arduous situations, as we know for sure, they will give us a hand no matter what conditions we are stuck in. To be more specific, there are some times we confront acute problems, and we may become utterly helpless. Indeed, trustworthy companions are the ones who can assist us through the crisis without judging or wanting anything in return. Therefore, "Trust" may be a five-letters word, but it is the key of any lifelong friendship because you are sure that there is always someone out there for you.

2) Moreover, when there is absolute trust between two individuals, they do not have to wear masks and can be themselves at any time, contributing to make an eternal friendship. To delineate, in real friendship based on great trust, people are warranted that the opposite person has accepted all of their manners, whether these attitudes are appropriate or erroneous. Indeed, they do not need to disguise the inner dark parts of their personality. Therefore, since this kind of friendship makes both partners relax, they can proceed their relationship for a long time.

3) To begin with, mutual trust constructs safety in a relationship which is a crucial factor of perennial friendships. In this regard, trust between two friends leads to show the demonstration of dependability of both which brings about safety. Feeling safety between two parts of the companionship means being safe to be with friend, safe to make plans and to share theme selves with each other. These feelings keep two persons promised in their connection and makes it long-lived.

4) Secondly, trust is the fruit of honesty in a relationship which ensures the durability of it. In fact, a healthy friendship is built on honesty which, in turn, results loyalty in the relation. Vividly, when two friend feel loyal to each other, they feel eager to continue their companionship with shared purposes and willingness to have enjoyable moments with each other. Trust among them is the result of loyalty leading to the motivation of tightening the connection. Therefore, two parts of a relationship develop their link which improves the continuity of friendship.

5) Shared trustworthiness is an essential feature for an endurable friendship, by terms of creating reliability that cements their relations. Friends, especially the close ones, expect nothing but trust since they want to share their disguised secrets, problems, and other critical situations with their intimated ones. Relying on their friends, people find closeness and sympathy in their relation that is strengthening for their friendship because they presume their friends as a closed one with whom they can talk without worry about disclosing their secrets.

8.friends should be able to disagree with each other and still maintain their friendship

agree

1- because this is the first step to learn and use freedom of speech and understanding that disagreement doesn't mean enmity.

2- this is so natural that sometimes two persons don't agree with each other in some cases. Consistency with different types of people and their beliefs is an important behavioral skill which anybody should practice so they become sociable and can protect their friendships

1.can learn how get along with each other so enhance social skills

2.Give insight into different aspects of special subjects and broaden each other's horizons, that is beneficial for friends.

9.Do you agree or disagree with the following statement? People easily learn from the friends beside them.

موافق

چون همواره وقت در کنار دوستان میگذرونن پس در معرض اخلاق و خصوصیاتشون قرار میگیرن پس یاد میگیرن از شون

دوستان چون هم سن و سال هم هستن، تاثیر پذیری از شون بیشتره

یا اینکه چون ی حس رقابتی بین دوستان وجود داره پس در کنارشون کار هاشون رو یاد میگیرن تا اون هم موفق شن... پس یاد گیری کنار دوستا راحت تر اتفاق میافته

10.agree/disagree?when classmates or colleagues communicate about a project in person instead of by e-mail, they will produce better work for the project.

ایمیل

۱. باعث صرفه جویی در وقت میشه. لازم نیست کلی وقتمون رو برای رفت و امد و اینا بذاریم و از این وقت برای کار میشه استفاده کرد. مثالشم مثلا بگیم رفتم حضوری پارتنر کار گروهیمو ببینم کلی وقتم تلف شد و خسته شدم دیگه نشد کار کنم.

۲. ایمیل رو هر زمانی از روز میشه زد و در دسترس تره. بعد مثالشم گفتم من شب که کار میکردم به یه مشکلی خوردم که خب امکانش نبود برم پیش همکارم، ولی با ایمیل میشه مثلا اینجور وقتا کار کرد.

مخالف

یکی به خاطر این که ملت درگیر کار و زندگین و خیلی سخت ترن می تونن هماهنگ بشن که فردی همدیگه رو ببینن وصحبت کنن درباره یه پروژه و در نتیجه تو یه بازه کمی و تحت فشار مجبور می شن که نتایجی که از اون پروژه داشتن رو بهم بگن و خب اون فشار باعث تاثیر منفی می شه دوم این که به خاطر حضور تکنولوژی، ملت با استفاده از ایمیل می تونن به راحتی ریسورس هایی که از توی اینترنت درمیارن برای یه پروژه رو باهم دیگه به اشتراک بذارن و باز این هدایتشون می کنه به یه کار بهتره در مقایسه با این که فردی به هم نشون بدن که منابعشون چیه

11.Do you agree or disagree with the following statement? The ability to maintain friendships with a small number of people over a long period of time is more important for happiness than the ability to make many new friends easily. Use specific reasons and examples to support your answer.

موافق

- حفظ رابطه دوستی با تعداد کم تر به آرامش روحی فرد بیشتر کمک می کنه تا اینکه به آسانی وارد روابط مختلف بشه.

- شناخت بیشتر و عمیق تری ب وجود میاد و بیشتر میتونن به هم کمک کنن و در نتیجه خوشحال تره. وقتی با تعداد بیشتری دوستی میکنه، میزان شناختش از هرکدوم کمتره و کمک خاصی بهش نمیکنه و چ بسا وقتشو میگیره و خسته ش می کنه.

مخالف

۱. شرایط زندگی افراد الان طوری که ممکنه برای کار یا تحصیل مهاجرت کنن و از دوستاشون دور بشن پس مهمه که بتونن توی محیط جدید با افراد دوست بشن. اگر فرد توانایی دوست شدن با افراد جدید رو نداشته باشه، افسردگی میگیره و نمیتونه نیازهاش رو برطرف کنه.
۲. افراد جدید با خودشون تجربه های جدید میارن در حالی که قدیمیا همش در مورد مسائل تکراری با هم حرف میزنن. پس توانایی دوستی و شناخت آدمای جدید یعنی امکان تجربه کردن چیزهای نو و خارج شدن از محدوده ی امن شخصیت.

12. Do you agree or disagree with the following statement?

Nowadays, it is not important for people to have regularly family meals together

و حرفشون وقت زیادی بذارن و دیگه در این پروسه فشرده وقتی برای این کارا نمی‌مونه و بهش اولویتی داده نمیشه معمولا

دوم اینکه ساختارهای اجتماعی تغییر کرده و دیگه مثل گذشته نیست، این روزا بیشتر جوونا به جای تکیه بر خانواده و گذروندن وقت با اونا، ارتباط با دوست‌ها و همکاران رو ترجیح میدن، برای همین اهمیت اینجور مناسبات در خانواده ها کمتر شده

13. Some people think that we should keep away from others to improve our relationship, because being away from people reminds us of how important they are. Others think we should always stay with others to have good relationship because we can communicate with them more often. What do you think?

یکی اینکه بگیم نزدیک بودن باعث میشه اینا ساپورت عاطفی و مالی و کلا حمایتی داشته باشن و این ر دنیای امروز لازمه چون باعث آسایش خاطر ذهنی میشه، وقتی نزدیکن به هم دسترسی دارن و خلاصه در مواقع ضروری میتونن هم رو ساپورت کنن، از هم تجربه بخوان و این باعث ایپروو شدن میشه

یکی دیگه هم اینکه وقتی بهم نزدیک باشند همدیگه رو بهتر درک میکنن، حضور آدمها باعث میشه از مشکلات همدیگه بهتر باخبر بشن و میتونن بهتر و دقیقتر بهم کمک کنن، ایده های بهتری بهم بدن، و خلاصه دوستیشون رو تقویت کنن

اولی که عالی ، ولی دومی به نظرم میتونه زیباتر بشه که با اولی هم شبیه نشه

دومی، لازمه ارتباط قوی در کنار هم بودن و ایجاد کردن خاطرات بیادماندنی ، با سپری کردن زمان بیشتر با هم باعث میشه رابطه شون قوی بشه ، چون میتونن با هم سفر برن و خاطرات مشترک و لذت بخش ایجاد کنن

بین درواقع واسه دومی اینجوری توضیح میشه داد که وقتی نزدیک هستی خیلی خوب میتونی همه موارد رو آنالیز کنی، بالا پایین کنی، face impression ببینی، بفهمی طرف مقابلت دقیقا چه مشکلی داره چون اساسا هر رابطه ای در خطر misunderstanding هستش و حضور فیزیکی آدمها می‌تونه این خطر رو کم رنگ کنه.

People should keep in touch with others to cement a relationship

To begin with, human beings are hard-weird to communicate with others in order to be a helpful supporter during challenging tasks; therefore, a long-lasting interpersonal action is possible when individuals assist in overcoming problems. In other words, the fast-paced evolution of world had led to a hectic lifestyle requiring people to stay with each other to find the roots of problems and make better solutions to tackle obstacles in life either physically job or financially support. In this vein, there has been no shortage of debates among psychologists that if people have difficulty doing some arduous duties and their close members are not present to help, their relationship will be ruined in a short spell.

Moreover, in today' complicated world where the realms of communications are reducing drastically, people should try to stay with each other in terms of emotional problems as good listeners to make a enduring connection. In fact, it is widely proven that today people are exposed to depressed and unhappy ones due to lack of trust and honesty. As a result, talking about emotion with each other face-to-face rather than battling up feelings is key factor contributing to make a happy and permanent relationship.

14. Do you agree or disagree with the following statement?

Friends should be able to disagree with each other and still maintain their friendship.

Use reasons and examples to support your position.

Agree

True friendship is about compromising with each other. ex. My best friend and I are most of the time on different viewpoint about different problems, but we still get along with each other. that makes us realize we are made for each other and we are true friends.

In this case, they can be themselves and act as they are during their fellowship without being worried about their friendship breakdown, which definitely plays a pivotal role in any friendship enhancement.

15. Do you agree or disagree?

It is impossible to always be completely honest with your friends.

Agree

۱. در مسائل رقابتی به هم کمک نمی کنند، چون میترسن موقعیت دوستشون از خودشون بهتر بشه در آینده

۲. در مورد مسائل شخصی دوس نداریم دوستامون چیزی بدونن، و وقتی در اون موارد سوالی می پرسن به دروغی تحویلشون میدیم

Disagree

۱. همیشه در مسائل رقابتی به هم کمک می کنند، چون اگه خودشون به موقعیتی نرسن و دوستشون بتونه برسه میدونن که دوستشون در آینده کمکشون میکنه

۲. واس داشتن درک کاملی از همدیگه کوچکترین مسائل شون رو صادقانه با هم شیر می کنن تا بتونن در مشکلات بهتر همدیگه رو درک کنن

برعکس حالت agree

The first and foremost reason lies in the very fact that human being bears an approval seeking behavior. This insatiable desire to be validated by others, in particular friends as his nearest social circle, makes it impossible to be honest with friend since telling every little negative aspect of their features, either physically or personality traits, can upset them enormously.

Furthermore, conventional wisdom has it that the no friendship will last forever; thus, telling some valuable secrets about personal life and other truth can be used exactly against them when people are no longer in a relationship that once they were in. In this regard, sometimes being honest with friends will cost at the expense of their personal secrets

16. Do you agree or disagree with the following statement? People easily learn from the friends beside them.

(Disagree)

1. Most people make friendships so superficially that is less likely for them to learn anything from their friends. In this regard, nowadays individuals have many friends in order to fulfill their time or meet their needs. These relationships do not have deep effects on individuals or are not such noteworthy to learn from their mutual side. Therefore,

persons cannot be affected by their friends and learn anything from them. Social media friends or a group of friends in telegram are good examples of this statement. People have relationship in these groups and indeed, they have fun with each other. But, they would not be able to learn something special from each other since they have not made a deep connection.

2. Human beings mostly make friendship to unwind themselves in tough periods of time that hinder them from learning. Individuals want to have fun with their close friends and recharge themselves, while learning, when it comes to acquire knowledge, opposes with being entertained with friends. To enlarge upon the concept, learning from others needs to pay entire attention to the focused subjects. Therefore, individuals lose their joyfulness because of mentioned procedure.

3. Some individuals bond a relationship with whom they are in the same level, that prevents them from learning. A host of people do not tend to learn from their friends who are akin. To clarify, majority of people are afraid of the competition that can be formed in a friendship, and they cannot actually tolerate to be underestimated by their peers when it comes to comparing the level of knowledge and scope of abilities. Conspicuously, in intended condition they believe that gaining knowledge from superior people is undervaluing their own skills and literacy, so they try to make friends with those that are similar to them, both in dexterities and level of education, resulting in learning nothing from them.

4. People do not necessarily learn from their friend since they do not see them as a perfect person. Vividly, people will learn from those whose actions are flawless or have sufficient knowledge about particular subjects, but most of the time, people are aware of the mistakes made by their companions, so they cannot learn any valuable material from their peers.

5. Moreover, we are currently overwhelmed handling hustle and bustle of life and have some difficulty spending quality time with our companions, so we are unable to learn readily from them. To elucidate on, we should work long hours so as to provide the necessities of life, even sometimes, we may have to work on holidays to earn sufficient amounts of money. Therefore, we cannot set aside adequate time for our peers and hang out with them, depriving us of learning valuable things in their companionship

17. Some people prefer sending messages while others prefer making phone calls directly, which one do you prefer?

18. Recall an argument that you had with others and describe the details of the conflict.

19. Your friend has a close family member who is sick and you would do something to comfort her. Describe what would you do to comfort her family member's illness and explain why you think it is helpful. Use specific examples and details to support your opinion.

20. Do you like to make a plan with friends about social activities in advance or plan it when you attend it?

21. There are many disagreements between friends. What is one of the effective ways to resolving the disagreements. Use your examples and details to explain.

22.If you are going to choose a roommate which of the following quality is more important to you.

a. Cleanness b. Friendliness c. Quietness

23.Do you agree or disagree with the following statement? It is more important to maintain relationship with family members than with friends.

24.Some people get to know a person by the first observation while others prefer to get to know a person by long time observation. Which one do you prefer and explain why.

25.Do you prefer to be friends with peers or friends of different ages?

26.If your good friend has made great achievements, such as running prizes, how would you celebrate it for him?

27.Do you agree or disagree with this statement? We should help our friends only when they ask for help.

28>Your friend has just moved to a new city and is nervous about making new friends. What advice would you give your friend?

29>Your friend wants to come to your country. What things do you suggest he do and not do to be polite and respectful?

30.Recall an argument that you have ever had with others and describe the details of the conflict.

31>Your friend will move to a school and worried about making new friends there. What kind of advice will you give him to help him make new friend in the new school? Why?

32.Friends may disagree with each other, and still maintain friendship. Do you agree with or disagree with this idea, why?

33.Which of the following three activities do you prefer to do with a group of people rather than alone? Eat a meal/ Listen to music/ Do homework

34.There are two invitations. One is a party with your friends and the other is having a dinner party with your parents. Which one would you prefer and why?

35.Some people think it is more important to spend time with family rather than study or work. Which opinion would you prefer? Why?

36.There are many disagreements between friends. Which is one of the effective ways to resolve the disagreements. Use your examples and details to explain.

37.Do you agree or disagree with the following statement? It is more important to maintain relationship with family members than with friends.

38.Some people get to know a person by the first observation while others prefer to get to know a person by long time observation. Which one do you prefer and explain why.

39.Your friend is always late for group events; what suggestions do you have for him?

40.Do you prefer big family or small family? Please give your answer with specific examples and details.

41.Do you prefer to use e-mails to communicate with your friends and family members or do you prefer to use the telephone?

42.In your country when do people give gift to each other? Describe the occasion and types of gifts.

43.Which one of the following characteristics does your friend value most: cheerfulness, kindness or intelligence? Please choose one and use specific reasons and examples to support your opinion.

44.Some people like to get advice from parents or grandparents, while some people like to get help from their peers. Which do you prefer and why? Please include specific reasons and examples to support your answer.

45.What do you do to deal with homesick when you are away from home? Please include specific reasons and examples to support your answer.

46.Your friend often feels nervous when speaking in front of large group of people. What suggestions would you give to your friend to overcome this fear?

47.Some people prefer to celebrate special occasions like birthdays with their friends, others prefer to be alone at such occasions. Which do you prefer? Use examples and details to support your response.

48.Describe an activity that you enjoy doing together with your family. Explain why. Please include reasons and details in your response.

49.Describe a special friend in your childhood. Explain why this friend is special to you. Include reasons and details to support your response.

50.Describe one of your friends. Explain how you met and became friends.

51.Some people like to spend their spare time with friends, some people like to spend it alone. Which one do you prefer?

52.Talk about an activity you enjoyed doing with your family when you were a child. Describe the activity and explain why it was enjoyable to do this activity with your family.

53.Do you prefer to learn from current people and events or from people and events in the past?

54. Some people prefer to solve a challenge all by themselves. Others prefer to depend on other people's help. Which do you prefer and why? Include details and examples in your explanation.

56. Which person do you want to know more about? Explain why.

57. Describe a person that you look up to as a role model. Explain how this person influenced your life.

58. Are you willing to carefully choose the gift which your friends like or choose whatever you like?

59. Do you like to travel alone or travel with your family members? Explain why.

60. People often feel home sick when they are away from home. What do you often do to deal with home sickness?

61. Some students prefer to live alone or live with their friends when they study abroad. Other students prefer to live with local family when they study abroad. Which way do you prefer and why?

62. Talk about one of your family members who has similar traits as you. Describe those traits.

63. Do you agree or disagree?

It is better to make friends with intelligent people than with the people who have a good sense of humor.

Agree

1- intelligent people can help their friends to improve in every aspect of life. It is an irrefutable fact that friends play a crucial role in everyone's life, so if individuals chose intelligent friends and spend more time with them, this will provide an opportunity to become like them

2- everyone faces innumerable problems in his or her life. These times he or she can count on his or her smart friends. Because they have a sharp mind and they always have a good solution for problems.

64. Which do you think is important to long-lasting friendship?

-help you when you need

- share same interest hobby
- mutual trust

دومی:

1. علایق و نکته نظرات مشترک و مشابه باعث میشه که دو طرف با همدیگه بیشتر خو بگیرند و بیشتر به سمت هم جذب بشن، و در نتیجه زمان بیشتری رو با هم میگذرونند، بیشتر در مورد مشترکاتشون حرف بزنن که این قضیه باعث میشه که روابط شون مستحکم تر و لانگ لست تر بشن و مدت بیشتری با هم دوست بمون.
2. علایق مشترک و مشابه و اشتراکات در انتخاب ها باعث میشه که کمتر به مشکل بخورن چون نظراتشون همسو با همدیگه است و لذا کمتر دچار اختلاف نظر میشن و این خودش ارگيومنت بين شون رو کم و کمتر میکنه که کمک میکنه به طولانی مدت تر شدن روابط

Long-lasting friendships have some benefits for individuals. Which one of the three choices is the most affecting factor in building long-lasting friendships? why?

- friends help each other in difficulties and crises.
- friends have some similar interests or views in topics.
- friends trust each other completely.

Help you when you need

1) Helping each other in problems or in hard circumstances can lead friendship to be a deep relationship because everyone can be with us when we are happy and everything goes well, therefore it can give a great worth to this friendship and lead friendship to be a long-lasting friendship.
2) When someone be supported by his friend he does not forget that, consequently when there is some conflict between his friend and he, he can remind it and forgive his friend because of those helps he does; so the friendship can be a long-lasting relationship.

65.Do you agree or disagree?

People often buy products not because they really need them, but because other people have them.

Agree.

1. In thee modern era the mass_consumption has become widespread among the population particular the young generation. They are eager to possess whatever their peers have.and they have high expectation. Conversely, in the previous year the young were convinced with their available facilities and did not pay attention the other people possession.
2. The advanced technology provides people with the social media that produce several negative effect. They begin to advertise the newest version of the gadgets by many famous celebrities to intrigue the individuals to purchase the products. Consequently, people are stimulated to maintain the products even they don't need them. Since they want to follow the trend of the community

66.Do you agree or disagree with the following statement?

Competition among friends usually has a negative effect on friendship.

(Disagree)

1) To begin with, competition between friends motivates them to work harder, thereby becoming successful, which plays a vital role in cementing any long-term friendship. No need to say that human beings are always making strenuous effort to become successful and make a close bond with people who are more prosperous than they are so as to enter a rivalry. In this vein, when two friends compete with one another, they both endeavor to gain better results than the other. In other words, individuals show their true potential, talents, and pinnacle of performance when they are in a tight situation like competing with someone with whom they are in a close bond. In such condition, people attempt and achieve goals and results they never expected and probably it was impossible without getting into challenge with their peer. In this line, not only would they realize that their achievements and accomplishment is because of their friend, but they also would tend to stay in a close friendship with that person.

2) Second, competition among friends would make them find their friend's latent problems, and make effort for solving them by attempting to explore their friend's various aspects of life in order to win the rivalry, which will result in becoming close peers eventually. In this complicated world where people conceal their problems and secrets from others, a fair number of friends also do not disclose some of their personal issues, life tensions, and hectic life matters for some reasons such as being afraid of losing their friends, making them upset, or becoming judged by them. Moreover, friends need an accurate plan and a list of their in-compete-friend's affairs and exact position in order to dominate their friend in the competition. In this regard, they would delve into every aspect of their friend's life, leading them toward finding information about their friend's confidential problems and obstacles in life. Thus, they would become supportive and help their friend to solve those problems, leading to a huge improvement in their relationship.

3) Moreover, in today's competitive life, competition among friends helps them to live energetically, getting rid of monotonous life; thus, friends have a feeling of pleasure and satisfaction of their friendship which makes it long-lasting eventually. In today's hectic social and life, people are completely preoccupied with tedious daily tasks at home and various hard projects at the workplace. In this vein, from a psychological point of view, competitive relationship provides friends with a challenging and interesting life, setting a stage for being happy and energetic. As a result, boring daily works expose individuals to many mental problems no longer exists. Having understood the importance of competitive relationship in a healthy life, experts suggested that friends being competitors in some skills or duties can make more enthusiasm and happiness in their lives. Consequently, when both sides are fully satisfied being in a relationship, they put so much effort into making it last in the long run.

67. Do you prefer to report to your parents and friends where you are and what you are doing?

68. Some people sell or give away (to others) the gifts their friends gave them. Do you think this is a good idea? Why?

○ Job/ business/ career

1. Which one do you prefer :

1) a company offering you a job with challenging and interesting project but less vacation days or

2) another company offering you a job that is not so challenging and interesting but more vacation days

a company offering you a job with challenging and interesting project but less vacation days.

1) a job with interesting projects would offer a high enthusiasm to the employees and the boredom will be decreased.

2) although a good holiday entitlement would make people passionate about their career, individuals must consider that they could enrich their resume by doing challenging projects and get promotion in their work.

2nd

1.To begin with, in the hectic work and life, workers need more vacation days in order to get rid of busy life; therefore, companies providing this situation can be more effective although employees have not challenging in their workplace.

2.Moreover, having more vacation days offering by companies, individuals are able to follow their own interests, thereby making a sense of satisfaction and happiness.

2.Do you agree or disagree with the following statement? In the past it was easier to identify what type of career or job would lead to a secure, successful future.

The prospects of professions have never been as ambiguous as they are today due to the widespread instability in national or even global affairs---mostly in economic and political areas. In this modern life characterized by its complexity, there are many external impacts, most of which are beyond one's control, that decide what fate and future a vocation could have. This affectability---vulnerability more accurately--- has never been seen to this extent in the recorded history. Turbulent economic situations coupled with the lack of stability in political atmosphere are to blame for the creation of this situation. Every small decision made by authorities revolutionizes the future of a profession. These changes mostly exact a toll on the future of jobs, and one should be lucky to turn the created situation to one's own advantage. Take, for example, the case of Third World countries. The precarious economic environment has led them to applying some inappropriate decisions creating a sufficient gap between supply and demands. Once-sought-after occupations such as that of engineers have no longer guaranteed future, unlike the medical professionals who have suddenly become on demand. The exodus of creamy layer of professionals searching for greener pastures, start-ups nipped in the bud, brain drain, and the oversupply of graduates in some fields coupled with deficit in graduates in other majors lend credence to the difficulty of identifying lucrative jobs.

The proliferation of new occupations and job opportunities has a pivotal role to play in the creation of convoluted dilemma faced by people when initiating a job. Gone are days when youngsters had limited options of which they selected their future position. They used to take advantage of other's years of experiences to understand whether the job would guarantee their success or not. They also see the triumph of their parents, siblings, and friends and consider them as an epitome of how a person can climb the ladder of success in their chosen field. However, this is not the case with today's obscure job market. There are some newly created professions without any clear future and valuable and authentic information about the fate of these modern occupations. There are neither sufficient experiences nor clear data about the exact needs for some new jobs, making it challenging to decide whether the job leads to a secure position or is doomed to fail. What's more, there are some new study fields and majors in universities that one has never heard of. Since choosing study fields and future position are inextricably linked to each other, countless new majors contribute to the difficulty of identifying a successful and secure job. All these factors require people to exercise caution when selection a job, otherwise it would be only the question of time before they experience job insecurity, getting sacked, and financial breakdown.

Disagree

1) Bearing in mind that we could find a huge amount of information from different resources nowadays, recognizing the proper job is easier. In the era of technology, human being accesses to network that could have the world in their fist. Accordingly, they could easily find every single features about a career and decide about choosing or not.

2) having high knowledge in a job is a prime necessity not only for being successful in that field, but also for diagnosing if it is highly secured or not. These days, by having advanced educations in a field, mankind is able to have high information in some special areas that if she/he could have higher productivity and enforce the chance of being thrived in that works that ensure their future and strengthen their position at work or not. To clarify, human being is able to find the job's security by the details they grasp during their education and by the conditions of the graduated students in that field. They were deprived of this opportunity in the past.

Disagree

First, since that the technology has come a long way and data acquisition about the circumstances of occupations are anyone's reach more than any other time, people can easily procure a great deal of utilitarian information which sometimes can anticipate the future of the heterogeneous jobs and help them assess obtained data objectively and ascertain which kind of profession can guarantee an acceptable job security for them.

Second, now that the entrepreneurs and proprietors do their best to discern thoroughly merits, intelligence and preoccupation of the job seekers, the employees are explicitly able to make the best choice when it comes to diagnosing the most secure job which can be easily traced back to the point that in the status quo they are able to choose a job which is compatible to them. So, the more compatible the employees are with their occupation, the more job security will be guaranteed for them.

موافق

۱. گستره شغل ها محدود بود و همه، همه مشاغل موجود رو میشناختن و در نتیجه تشخیص اینکه کدام شغل امنیت و موفقیت بیشتری در پی داره راحت تر بود
۲. روابط میان مردم صمیمانه تر و صادقانه تر بود (بدلیل امرار معاش راحت تر و در نتیجه رفتاری های کمتر در زندگی روزمره) در نتیجه میتونستن باهم دیگه در مورد مشاغل صحبت کنن و از تجربیات همدیگه استفاده کنن و دید خوبی نسبت به شغل ها پیدا کنن

مخالف

۱. در دنیای امروز هر شغلی رو میشه با سرچ کردن در اینترنت و یا دنیای مجازی کلی اطلاعات در موردش کسب کرد و در نتیجه راحت تر تشخیص داد که شغلی هست که ایمن و منجر به موفقیت بشه یا نه
۲. امروزه شرکت های مشاوره ای در حوزه کاریابی بسیار زیاد هستن که کارشون رو به خوبی و با اطمینان بالایی انجام میدن و هرکسی میتونه برای تشخیص اینکه چه شغلی ایمنه و منجر به موفقیت میشه با این شرکت ها مشورت کنه

موافق: 1- در گذشته چون تعداد افراد اکسپرت کشور کمتر بود، انتخاب شغلی که بشه توش موفق شد راحت تر بود. امروزه همه دانشگاه میرن، همه سواد دارن، هزار تا کلاس و موسسه وجود داره که بشه تو تخصص های مختلف اکسپرت شد، پس تعداد اکسپرت ها خیلی زیاده. وقتی تعداد اکسپرت ها زیاد بشه رقابت زیاد میشه و شانس موفقیت میاد پایین ولی مثلاً تو گذشته طرف میبید مهندس برق کمه، میرفت مهندسی برق رو برای شغلش انتخاب میکرد و میخوند، همونطور که پیش بینی میکرد کارش میگرفت و توکارش موفق میشد. 2- در گذشته چون ثبات اقتصادی داشتیم، راحت تر میتونستیم کاریو انتخاب کنیم که توش موفق باشیم. کارها و بیزنس ها همه وابسته به شرایط اقتصادی کشورن، با تغییر منفی در شرایط اقتصادی به کار میتونه شکست بخوره، مثلاً در گذشته اگه وارد یه بیزنسی میشدیم، میتونستیم برنامه ریزی کنیم تو اون کار پیشرفت کنیم و موفق بشیم ولی الان باتوجه به اینکه اقتصادمون ثبات نداره، نمیتونیم تشخیص بدیم آیا یه بیزنسیو استارت بزنیم توش موفق میشیم یا نه، مثلاً یکی که در گذشته بیزنسنش خرید و فروش فلزات بوده الان دلار گرون شده، ارزش نیست، نتنها موفق نشده بلکه ورشکستم شده، ولی همین آدم تو گذشته همونطور که برنامه ریزی کرده بود روز به روز بیزنسنش و خرید و فروشش بیشتر میشد و پولدار تر میشد و توکارش موفق تر میشد.

مخالف

۱. پیشرفت ارتباطات کار و راحت کرده. یعنی مردم راحت میتونن به سایت های کاریابی مراجعه کنن و نسبت به سطحی که هستن کار متناسبشونو پیدا کنن، هم اینکه تو یه سری سایت های کاری روزمه افراد که مشغول به کار شدن قابل خوندن هست و میشه فهمید هرکي با چه ویژگی ها و خصوصياتي که داشته تو چه کاری موفق بوده.
۲. پیشرفت علم زمینه کاری متنوع فراهم کرده. در گذشته علوم خیلی از هم جدا نبودن و خب فقط تو زمینه های خاصی کار بود ولی الان با پیشرفت علم تو حوزه های مختلف و زیر شاخه های مختلف، بستری برا کار زیاد فراهم کرده.
۳. ارتباطات بینانگاران و رهبران با مردم جامعه مستقیم تر شده. رهبران جامعه خیلی راحت تر مردم رو در جریان وضع بیکاری یا کار زیاد تو یه زمینه قرار میدن و باعث میشن مردم بیشتر نسبت به حوزه ای که میخوان برا کار ادامه بدن، اطلاع داشته باشن.

1. مثلاً مشاور و تکنولوژی جنید برای افزایش اطلاعات برای شغل

2. افزایش تنوع شغل ها با توجه به پیشرفت علم و در نتیجه افزایش حق انتخابها

ریزن اول یکی تکنولوژی و نت که شرایط شغل رو میسنجی و سنجیده تصمیم میگیری
دومی تجارب مشاور شغلی که جایگزین تجارب افراد خانواده شده و براساس کاراکتر و مهارت های فرد در مورد انتخاب شغل خوب کمک میکنه

3. Some companies decide not to allow employees to discuss about business by sending emails or messages on weekends. Some people believe that this policy is great, others believe this policy will discourage employees. What is your opinion and why?

مخالف

۱. چون تایم کاری شرکت محدوده کارمندا نمی تونن تمام کارا رو تو شرکت انجام بدن، پس ناچارا واس اینکه بتون تمام کارا رو برسوندن اخر هفته تایم خوبییه واس رسوندن کارای عقب افتاده
۲. این کار می تونه در کم کردن هزینه های شرکت کمک کنه، چون شرکت با توجه به حضور کارمند در شرکت و ساعتی که کار میکنه حقوق میده، و اگه تایمی که کارمند در شرکت نیست کارمند بتونه با تبادل اطلاعات بخشی از کاراشو اخر هفته انجام بده، در واقع داره به شرکت سود میرسونه و به نفع شرکتته

مخالف

- ۱- کارمندا ایده های جدید دارن که میتونه به پیشرفت شرکت کمک کنه
- ۲- این سیاست کاری باعث تشویق کارمندا میشه و حس اطمینان شادی و اعتماد بنفس انها را بیشتر میکنه
- ۳- باعث میشه کارمندا در هر لحظه به فکر کارشون باشن و تمرکز بیشتری داشته باشن

4. At work or school, you might encounter a problem that requires creativity -for example, you are given a task to complete that is very different from other tasks you do. In work or school situation that requires you to think creatively, would you prefer to work alone or with others? Why?

چون گفته ترجیح بنظرم دلایل کاملا میتونن شخصی باشن

تنها کار کردن

- 1- شخصیت من به این صورت شکل گرفته که از بچگی عادت کردم که تک نفری کارها و مسائلی که واسم پیش میاد رو انجام بدم (درونگرا). اینجوری که وقتی تنها مسائل رو بررسی میکنم (احساس راحتی بیشتر) عملکردم به مراتب بیشتره تا وقتی که با دیگران کار میکنم (خلاقیت بیشتری رو میتونم به نمایش بذارم و همین طور سرعت حل مساله بالاتر میره
- 2- تجربه مندرسه به من نشون داده که سرعت فکر کردنم از بقیه بیشتره. در طی کار کردن گروهی، این تفاوت توی سرعت آنالیز، کار کردن روی مساله رو واسه من بورینگ و خسته کننده می کنه و اجازه نمیده به اندازه ای که هستم خلاق باشم .

کار کردن گروهی

- 1- از اونجایی که این مساله نیاز به خلاقیت داره، افراد میتونن با گفتن ایده و افکارشون، جنبه های مختلف قضیه رو درنظر بگیرن و سریعتر این مساله رو حل کنن. در واقع در حالت فردی ممکنه من از یه نما فقط به مساله نگاه کنم در صورتی با وجود بقیه از چندین زاویه میشه این مشکل رو بررسی کرد
- 2- تعامل با دیگران از لحاظ روانی به من حس خوبی رو القا میکنه. مخصوصا وقتی عضو یه گروهی واسه حل مساله خاصی هستم. در واقع عضو یه گروه بودن به من نشون میده که شخص مفیدی هستم. افزایش انگیزه که از این قضیه به وجود میاد به من کمک میکنه توی گروه بیش از پیش خلاق تر باشم و بتونم عملکرد بهتری رو داشته باشم.

توی کار گروهی این فرصت هست که ایده های جدید به دست بیاری، با بقیه تعامل داشته باشی و حتی ایده های خودت رو ارتقا بدی، چون در مواجهه با یک موضوع دیدگاه های مختلفی هست، افراد این فرصت رو دارن که حتی ایده های خودشون رو به چالش بکشن و به نتایج جدیدتر و بهتری برسن.

دوم اینکه در مواجهه با کاری که نیاز به خلاقیت داره وقتی توی گروه فعالیت می کنی این فرصت رو داری که دانش خودت رو هم گسترش بدی و چیزهای جدیدی یاد بگیری، معمولا در این فرصت ها افراد با سطح های مختلفی از سواد و تجربه دور هم جمع میشن، وقتی با هم بحث و مشورت میکنن هرکدام سعی میکنن مطالبی که بلد هستن یا خوندن رو با دیگران به اشتراک بذارن، و خب مسلما دیگران هم به همون نسبت از این دانش آگاه میشن و در مواجهه با مسائلی که نیاز به خلاقیت داره سعی میکنن دانش و رویکرد جدیدی که یاد گرفتن از هم رو به کار بگیرن.

Work with others.

1. Raise creativity is more easily in the brainstorm condition such as work with others. Clearly, people have various view points about a special topic so they can help the gain of whole group. Additionally, because each of group members think about a special aspect that maybe others do not do it, the team working can lead group members to be more successful.

برای مثالش میشه گفت یکی از همکارام نظر بسیار عالی ای داد درباره یک پروژه که باعث شد خروجی کار ما عالی بشه و تونستیم پروژه با سود زیاد بفروشیم

2. Team working can lead the project and work to do more fast. Undoubtedly, during the solve and do a special project if the project or maybe the individual person get into trouble, the project will progress very slowly. But work with others help people to support each other during difficulty....

بعدها همیشه درباره مرخصی گرفتن و ایجاد مشکل مثال زد و اینکه فلان همکارم به جای من کار و پیش برد و پروژه تموم شد....

5. In a workplace, do you think the employer should constantly supervise the employees or is it better that the employer only checks on the employees occasionally? Please include specific reasons and details in your response.

First, checking employees occasionally reduces dishonest behavior because there is a strong trust between workers and a employer that reduce cheating action.

Second, checking employees at workplace constantly by a manager makes many stresses and tensions that this distraction reduces employees' efficiency.

**6. Do you agree or disagree with the following statement?
A person's job has a greater effect on his/her overall happiness than the social life does.**

(Agree)

1) To begin with, it is obvious that we spend a great deal of time socializing with various types of people at our workplace, far more than the individuals we confront in social gatherings, so the job's environment, including our colleagues, have an enormous impact on our pleasure. To elucidate on, when we start our day by arriving at our factory or office, we have no choice but to communicate with our workmates not only to increase efficiency by working together and have team spirit, but also to interact with others so as to show etiquette and prevent depression. In this line of thought, the people we socialize with in our occupation, which is an inextricable part of a job one chooses, do have strong effect on our happiness since we communicate with them every day, and our mood is heavily depended on their behavior toward us. In contrast, we attend social gatherings once in a while, so we are less likely to be affected by the individuals we meet at those places because the amount of time we allocate to them is not considerable.

2) People's happiness has a definite link with the salary they earn through working, highlighting the fact that their occupations are more influential in their level of happiness than social events. To be more specific, people have to pay all the expenses they face in their lives. As a result, they need a promising career to ensure having adequate earnings. Family caretakers have to prepare accommodation, nutritional products, and clothes for the family members to prevent them from feeling any concern about their essential needs. Those people, who are favored with a well-paid work, are needless to worry about their necessities, which is a substantial factor for happier lifestyle. On the contrary, the social life, even full of interesting events, does not result in bliss without having satisfactory income.

3) Fulfilling responsibilities in jobs is an essential key factor that can lead people toward an active performance and bring happiness to their lives. To be more specific, when individuals have a prestigious job which demands them a set of tasks, they will feel usefulness after performing their duties. In other words, a lot of people's most valuable goal is to serve their society in the format of their occupational responsibilities. When they focus on their duties, they can thrive and perform them very well. Hence, people will be happier because they can have a precise positive feedback from their colleagues or bosses. In contrast, people are not in charge of significant tasks in social events; therefore, they are less likely to receive any warm praise from others, meaning that their level of happiness is not related to social activities.

4) Secondly, working gives people the means to develop, which has a great impact on personal happiness, something unavailable in general social relations. To be more specific, individuals spend the majority of hours at work that keeps them busy and challenges them. Personal career takes precedence over everything else in the life, in which people might accomplish achievements. In fact, job engagements and its challenges comprise great deal of an individual's life, so obtaining success provide for ones a sense of being valued, appreciation and self-improvement which whole collection of them, result in cheerfulness. However, social life is the second priority of persons with no crucial achievements.

7.Which one of the following do you prefer to choose/find a successful job.

1 - Asking the opinions of others (real-life and online friends)

2 - Sending letters to the company

3 - Looking for information on the internet or advertisements on newspaper

First option

Taking advice for commencing a profession will benefit us in many ways. These advantages will be tenfold if the givers are our friends, whether they are living in our proximity or virtual ones in other part of the world. In this age of tough competition, we are often pessimistic to the advice given by ordinary people, as we doubt whether they are altruistic and trustworthy. But our friends do not belong to this category. The emotional attachment among friends ensures that one will be given the right advice. Better still, they will put us in a right track as they are cognizant of our personality and evaluate to realize whether the job suits our characteristic or not. They can even offer their priceless information and experiences to us.

By contrast, the other two approaches will never guide one to secure a successful position. It does not make a sense to send letters to a corporation to get a job. The boring bureaucratic procedures in companies makes it difficult to deliver the letter, let alone to get a reply. Likewise, it does not hold water to expect newspaper or media to be helpful to find a prosperous employment. Media and newspapers seek their own benefits. They print or broadcast news and information in a way to serve the interests of people who pay them money. It is not a wise decision to trust these biased resources, by means of which companies easily present their job vacancies better than what they really are.

3rd

Generally, finding any valuable thing is depended on careful search and discovering a successful job also follows this rule. In deed, people for achieving a good job should try to get information from any available resources. Internet or advertisements on newspaper are two examples of these resources that people can gather information and after a detailed analysis these data choose a well-matched job.

Besides, nowadays, job opportunities is advertised through mass media and individuals have chance to find a suitable job easily and quickly by looking for all advertisement in the mass media such as internet and newspaper.

گزینه سوم

1. چون تو اینترنت و تبلیغات تعداد زیادی از شغل ها با دسته بندی های درست نوشته شده باعث میشه شغل متناسب با توانمندیمو پیدا کنم و موفق بشم و...
2. چون این تبلیغات سر اسریره و همه براش تلاش میکنن پس باعث میشه منم نهایت تلاشمو بکنم و حتی باعث میشه رزومو قوی تر کنم و...

8.Do you agree or disagree with the following statement? In order to succeed in doing a new job, the ability to adapt oneself to the new environment is more important than the excellent knowledge of this job

(Agree)

Adaptation with the new environment means creating a pleasant workplace. Whether like it or not, we are placed in a complex web of relationship with our colleagues and employers. As an employed person, we are surrounded by people with different characteristics and concerns, from an inferior co-worker suffering from accumulated resentment of a failed relationship in his personal life to an employer who has a sense of superiority and looks down upon his staff. Such environment are potential threat for our emotional health. If one has ability to make an adjustment and kills every possible friction, he will further his career. Otherwise, not only will he fail to perform the job properly, but also will develop psychological disorders that cannot be compensated with whatever amount of money.

The cut-throat competition in the job market has made the adaptation a must-have skill. It is quite normal to see hectic schedules, tight deadlines, and unrealistic targets and objectives as integral parts in every organization. Of course, the astronomical remuneration that staff command justifies these expectations. But does possessing only state-of-the-art knowledge about these demanding jobs ensure performing it? The answer is an emphatic "NO". It requires adjustment and adaptation. One should be equipped with the ability to be ready for every possible change and new responsibility. Excellent knowledge is neither necessary nor something that cannot be achieved. There are many training courses in every corporation for junior employees. But the ability to adopt is required from the very beginning day of the work to survive in the competition. If one does not possess it, he will be easily replaced by another who has it.

9. Which one is the most important factor to help you work productively?

- Having an environment which is free of noise and distraction**
- Knowing that you will receive a reward**
- Doing something that you are interested in**

2nd option:

- Naturally, as human being, we are driven by our zeal to be appreciated and rewarded. knowing the fact that our accomplishment may reward us financially or spiritually, we will never miss this opportunity to quench our thirst for appreciation. This is the time when our internal engine gets fueled and our productivity increases tenfold.
- No one is willing to stagnate or being surpassed by others, rather, we fervently want to further our career and climb up the corporate ladder. Nothing can help us to do so better than getting rewards. When we get noticed by our employer, we gain professional recognition, which stand us in a good stead and improve our job prospects. It is not surprising that we do our best to improve our productivity provided that some perks are ahead of us.

Third option:

- When people are interested in their vocation, they; in fact, spend a major part of their everyday life doing things that they enjoy doing. Under such a circumstance, a person having a 9-to-5 job will put his heart and soul into carrying out his responsibilities, thereby making a great contribution to the bottom line of the organization.
- Being interested in one's profession, means that one is proficient in that field or have aptitude for the job. It is not hard to see that an individual possessing aforementioned qualities demonstrate his maximum efficiency.

10. Which one of the following do you prefer to choose/find a successful job.

- 1 - Asking the opinions of others (real-life and online friends)**

2 - Sending letters to the company

3 - Looking for information on the internet or advertisements on newspaper.

دومی

-امروز با گسترش ارتباطات و رسانه ها، شرکت ها سعی می کنند خودشانو ب بهترین نحو معرفی کنن. ما می تونیم با توجه ب توانایی هامون، ببینیم فعالیت و شرایط کلی کدامیک ب ما نزدیک است و نامه بفرستیم ب اون شرکت.. این باعث میشه کار مورد نظر در مسیر علاقه و استعداد ما باشه و موفقیت حاصل بشه.

-امروز پرزنتیشن اهمیت بسیاری داره و کارفرمایان معمولا این توانایی را در گزینش لحاظ می کنند. وقتی بتونیم ی نامه خوب و موثر بنویسیم ک توش بتونیم خودمونو ب خوبی معرفی کنیم، قطعاً تو تصمیم گیری شرکت در انتخاب ما تاثیر مثبت خواهد داشت.

11.Friends or colleagues sometimes need to have a serious talk about a problem such as misunderstanding. Some people prefer to have these important discussions in a public place. Others prefer to have such talks in more private places or at home. Which do you prefer

more private

1.solving misunderstandings may become emotional. for example, I may become angry and shout or I may cry, so I prefer to be in a more private place because I do not want others see me in such situations.

2. in more private places, we can concentrate more and no one would interfere, so our talk would be more effective.

12.Among the following jobs, which one do you is most interesting one and why? Airplane pilot/ actor/ detective

13.Someone choose to work in a small company or organization with a few workers. Others prefer to work in a large company or organization with thousands of employees. Which do you think is better?

14.Which of the following three would you choose to do in summer vacation? Working as a librarian, painter in an art center, or lifeguard in the natatorium.

15.Do you agree or disagree with the following statement? For being successful in business, being outgoing and friendly is very important.

16.Do you agree or disagree with the following statement? A boss or a manager should not form close friendship with their employees.

17.Do you agree or disagree with the following statement? Students should do some part-time jobs before they attend college. Please use specific reasons and examples to support your answer.

18.A big corporation is planning to invest in a factory in your hometown. This factory will create many job opportunities for people, but also will bring a lot of pollution at the same time. Do you agree or disagree with the plan?

19.Some people prefer talking about their opinion immediately when they get the topic, while others prefer to wait and listen to others before they talk about their own opinion. Which one do you prefer and why?

20.If you are an interviewer, which of the following aspects of the job seeker will you consider? Why?

Performance during the interview Education

Work experience

21.Do you prefer to choose regular working hours or work more freely at home?

22.Describe the advantage and disadvantage of business started within the same family.

23.Do you agree that it is better to work for business owned by someone else than to work for the business of one's own family?

موافق

1-طرفین فشار روانی زیادی رو تحمل میکنند و یک بازی باخت-باخت هست. از طرفی بدلیل برآورده نشدن انتظارات و توقعات افراد سرخورده میشن. مثلاً فرد بعنوان کارمند انتظار داره که حقوق بیشتری بگیره، رییس انتظار داره که این فرد ساعات بیشتری رو در مجموعه بدون حقوق کار کنه و به پیشرفت مجموعه کمک کنه. از طرف دیگه مشکلات کار به محیط خانوادگی تسری پیدا میکنه و برعکس. و همین باعث میشه که آرامش در محیط کار و خانواده از بین بره. همچنین کارمندی دیگه با توجه به نسبت فامیلی روی این فرد حساس میشن. نمیتونن بهش اعتماد کنن و باهاش دوست باشن چون این تصور وجود داره که فامیل رئیس هست. شخص در اتمسفر کاری خوبی قرار نمیگیره.

2-وقتی فردی مدتی با فامیل کار کنه، وابستگی و تعلق خاطر بیشتر میشه، این فرد به سختی میتونه بعداً از این مجموعه جدا بشه و خودش مستقل یک کاری و شروع کنه. اعتماد بنفس و تجربه کاریش رشد نمیکنه و در نتیجه در این کار شکوفا نمیشه و همیشه زندگی کارمندی خواهد داشت().

موافق

۱_ در محیط کار بیزینس و تجارت ممکنه به سری اختلاف نظر ها و مشاجره ها پیش بیاد و این روابط خانوادگی رو به خطر میندازه و ممکنه از بین بره و صمیمیت از بین بره
۲_ حس مالکیت رو این اموال و بیزینس به ادم دست میده چون رابطه ها نزدیکه و فامیلیه و در حفظ و ارتقايش باید تلاش کنیم و این باعث ایجاد استرس میشه و اسایش رو از ادم میگیره در محیط کار

موافق

1. در محیط کار اگر کامندی کارش رو به خوبی انجام نده تذکر میگیره و یا حتی اخراج میشه ولی ارتباط خانوادگی مانع این کار میشه که در نهایت منجر به این میشه که پروداکتیویتی شرکت بیاد پایین
2. ممکنه اختلاف نظر در رابطه با موضوعات مختلف مثلاً اتخاذ استراتژی ها وجود داشته باشه که این اختلاف نظر روی روابط خانوادگی هم تاثیر منفی میزاره

موافق

۱. وقتی برای یک شخص دیگه کار میکنیم تایم فراغت بیشتری داریم چرا که شخص مسئوله که ساعت مشخصی رو کار کنه و بعد اون تایم مسئولیتی در قبال شرکت و کار هاش نداره. در حالیکه وقتی برای بیزینس خانوادگی کار میکنیم مسئولیت بیشتری داریم و باید همه بخش ها رسیدگی و منیج کنیم. لذا کار و مسئولیت بیشتر نیاز به صرف وقت بیشتر داره که باعث میشه تایم کمتری برای اختصاص دادن به خانواده و اوقات فراغمون بدیم.

۲. کار کردن برای شخص یا شرکت دیگه باعث میشه دغدغه و استرس کمتری رو تو زندگی تجربه کنیم. وقتی که برای بیزینس خانوادگی کار کنیم همیشه باید نگران موفقیت یا عدم موفقیت بیزینس، عدم انجام بموقع کار ها، مشکلات بخش های مختلف، عدم توازن و تعادل در اقتصاد کشور که ممکنه منجر به ورشکستگی شرکت بیانجامه و هزاران مشکل دیگه باشیم. این نگرانی های مداوم باعث میشه استرس و عدم آرامش رو همیشه تجربه کنیم. در حالیکه این شرایط برای وقتی که برای شرکت دیگه کار میکنیم وجود نداره...

مخالف

۱- زمانی برای کسب و کار خانوادگی کار میکنیم همه اعضا انگیزه و انرژی بیشتری دارند و همه هدفشان موفقیت و ارتقا دادن شرکت می باشد

۲- شرکتی که اعضای آن همه دوست و خانواده هستند مشکلاتی که دیگر شرکت ها با کارمندان خود دارند رو ندارند و مثلا نیاز نیست استراتژی خاصی انجام دهند که کیفیت و راندمان کار آنها بالا برود

۳- وقتی کسب و کار خانوادگی داشته باشیم در سود و ضرر آن شریک هستیم در نتیجه خلاقیت و ایده همه اعضا برای یک هدف کاربردی و سوددهی بیشتر کسب و کار هست

Agree

1. great occasion to practice independence without family financial support and be responsible for our decisions
Ex. Tough spot/Bankrupt/ run out of money

2. great opportunity to get acquainted with some new like-minded people who may stand up for us in our future self-profession,
(get out of our shell/ no family member or support / build up our future)
Ex. Brother / lucrative computer company / partnership with 2 like-minded office mates / establish their own company

Agree

Working for a family member has two main disadvantages:
First, in this case there will be some unrealistic expectation which lead to conflict. For example, in this situation the staff usually expects more salary and the boss expects more sacrifice.
If our business relationship fails, the conflict will transfer to family relationship and ruin it. But if we work for others, we can easily quit the job and find a new one.

Agree.

1. So that people can extend the ability of independency. A cascade of people may think that working for family means relying on them so they would always look for their help while they are in trouble, yet this act deprives them of standing on their own.

2. It would lead to less efficiency of the company if the owners hire their own family as the employees. The owners themselves may not devote any duties or responsibilities to their own family. Due to the family relationship and as result, empathy, bosses may not want to designate any tasks for their relatives, so that they feel convenient. Hence, the whole companies efficiency would alleviate and would lead to a colossal failure.

Disagree

First, in today's competitive job, working in a company managing by one's own family, individuals can progress in their job productively because there is not a detrimental competitive condition among employees. In other words, family members performing in their own company help each other to solve problems and dilemmas actively, leading to increasing efficiency of learning drastically.

Second, when people work in their own family business, they have a happiness and satisfaction workplace due to friendly work space. In fact, individuals communicate with family members during their job position vividly.

24. Do you agree or disagree?

If people have the opportunity to get a secure job, they should take it right away rather than wait for a job that would be more satisfying.

1) Being employed in a secure job, people acquire a sense of relief owing to the fact that they make sure that they are recruited in a position for a long time even though it is far a cry from their expectation and their dream job. On the other hand, opportunities don't present themselves frequently and there is no guarantee for people to be in the situation that they are in today. As a wise man once said "luck never knocks the door twice." In this regard, turning down opportunities and job offers in the expectation of finding employment in a satisfying job may make the situation even worse.

2) Furthermore, satisfying jobs, even by the standards of people with less ambition, are highly demanding, either physically or intellectually, increasing the risk of being dismissed from the job. On the other hand, secure jobs tend to be more routine and easy to handle.

Satisfying job

1. To begin with, waiting for a satisfying job, individuals find it with their major abilities, thereby making the best result. In other words, workers' performance is at great advantages over those who do not. In this vein, having spent a great amount of time in workplaces, individuals try to wait and select an occupation linked to their in-depth knowledge of a job to do their best.

2. Moreover, in order to get rid of the hustle and bustle of ordinary work, people are inclined toward waiting and getting an interesting job creating a sense of satisfaction and happiness to avoid stress and tension. In today's complex jobs, people are overwhelmed by a wide range of duties, unfinished projects and upcoming records. Under such a circumstance, if people wait to find a decent job related to their desires, they have no difficulty doing their responsibilities and enjoy their momentary time at office or workplace.

25. Do you agree or disagree with the following statement? It is better for children to choose jobs that are similar to their parents' job than to choose jobs that are very different from their parents' job.

Disagree

To begin with, children should choose jobs that are really different from their parents' jobs because the new generations will live in a different world with different needs in a society. In fact, in a rapidly changing world where the realms of occupations and careers are altering drastically, children should keep pace with their community requirements to select their jobs. Experts of marketing are of the opinion that jobs and marketing needs would be changed drastically every decade due to the advancement of technology.

Moreover, young people should pursue and explore their own passions rather than follow in their parents' footsteps. In other words, a vast majority of parents manipulate their children into choosing the similar jobs as they have without paying attention to children's abilities, talents and desires. In this regard, should young children find their own decent job, they will definitely be successful.

26. Do you agree or disagree with the following statement? Making sure that people such as the manager or your supervisor know your strengths and accomplishments can help you succeed

Agree

1. To begin with, individuals should definitely show their abilities to managers so that they can overcome obstacles during their duties and find the root of problems independently, thereby making trust between them. In other words, in a specific work or task that people are willing to do with each other, they should have some experts.

and make strenuous efforts due to increasing their efficiency and productivity. In this vein, should a person present and make sure the supervisor that this person is well-rounded, the decision-makers will know accomplishments and promote them in a high position as an elite individual and encourage them financially.

2. Moreover, in today's competitive world where there is a strong competition between people, they should make serious attempt to make sure a manager that they are skilled and well-informed to make a decent position. To be more specific, it is widely accepted that if a person wants to be successful, this person should keep up with the pace of change and have breadth knowledge to win between rivals. In this regard, a manager really pays more attention to a person who is in possession of a wide variety of skills and accept them in their companies or groups

27. Do you agree or disagree that important business meetings should be held in person rather than use technology such as video conference call. Give specific reasons to support your answer.

مخالف

۱. نیاز به حضور فیزیکی نیست و فرد هرکجا که باشد میتواند با استفاده از ویدئو کنفرانس در میتینگ باشد در حالیکه در دیگری نیاز هست هماهنگی صورت بگیرد و میتینگ زمانی برگزار بشه که حضور فیزیکی اعضا امکانش باشد
۲. از هزینه های اضافی برای تدارک میتینگ جلوگیری میشه

Disagree

First, thanks to the-state-of-art technology, business meeting should be held by taking advantage of video conference call to keep pace with the latest technology, thereby making up-to-date employees.

Second, presenting business meetings by using technology such as video conference call , workforce can have access to an invaluable archive to review and share materials with other careers.

28. Which of the following is the most effective way to encourage company's employees to contribute to the communities?

- A. allow some time off to tutor or clean parks**
- B. financially reward the employees**
- C. post volunteer activities on the company's website.**

ببین کلا شرکت کردن کارمندان یک شرکت یا بیزنس در کارها اجتماعی یا داوطلبانه باعث سود زیادی برای شرکتها و بیزنسها میشه. مثلا یادمه خونده بودم باعث بهتر شدن public image شون میشه، جذب استعدادها، کاهش مثلا تکس و ... میشه. واسه همین الان تو این سوال میگویم برای اینکه کارمندان با شرکت تو این کارها باعث سود رسوندن به شرکتشون بشن، مدیران شرکت چطوری اینارو ترغیب کنن؟ گزینه اول مثلا بهشون مرخصی بده ولی عوضش آموزش بدن یا فضای سبز رو تمیز کنن یا مثلا دومی میگویم از لحاظ مالی اسپانسرشون کنه تا بیان تو این کارها اینگیج بشن

Financially reward

- 1) money is motivation. There will be a competition on earning this reward and consequently, the amount of money which the company spends will be minute in comparison to the tremendous contribution of employees
- 2) In this turbulent economic environment, people have to work overtime to make adequate money. So by this mean, the company will decrease its financial challenges and endow them with both enough time and concentration to contribute to the community.

29. Do you agree or disagree with the following statement: a boss or a manager should not form close friendship with their employees.

مخالف

هنگامی که رابطه صمیمیه رئیس مشکلات کارکنان بهتر میتونه درک کنه و جهت اصلاح و رفع این مشکلات قدم برداره

خودت روابط صمیمی در محیط کار بی رییس و کارکنان، انگیزه ای میشه برای کارکنان ک با اشتیاق بیشتری کار کنن

موافق

1. رابطه دوستانه افراد با یکدیگر به یک اندازه نیستش و محیط کار نیز از این قاعده مستثنی نیستش. رئیس اگر بخواد رابطه دوستانه برقرار کنه نوع و مقدار این دوستی با کارمندان مختلف میتونه متفاوت باشه که این تفاوت میتونه حس حسادت و افسردگی رو در بعضیا به وجود بیاره و اونا رو دائما به فکر مشغول کنه و این پرفورمنس گروه رو میاره پایین. در حالی که اگر یک رابطه boss-employee برقرار باشه این حس به وجود نمیاد و گروه از اهدافش دور نمیشه.

2. هیچ دوستی ای همیشه پایدار نیست. رئیس و کارمندی که با هم رابطه دوستانه دارند خیلی بیشتر از رئیس و کارمند با رابطه سنتی، در معرض تنش قرار دارند. چرا که اگه صمیمت بیش از حد میتونه کاملا به تنش تبدیل بشه (طبیعیست دوستی همینه) و این برای هر دو طرف دوستی (کارمند و رئیس) مضره و اونا رو درگیر حاشیه میکنه

30. Which do you prefer? A job in a distant city with a high salary, or a job in your current city with a lower salary.

Working in a distant city with higher salary is way better than having an occupation where one lives and receives lower income.

1. The person will learn being independent and stand on his own two feet. Ex. I live in Northern part of Iran, but for 2 years i went to southern region bcs i was offered a high_income job. Being alone, i learnt how to handle different aspects of life and have become independent.

2. The person will communicate with different people who may have different ideas compared to colleagues who live in his or her own hometown. This will provide him with an opportunity to become successful and even earn more money

31. All people should be required to stop working and retire by age 65. Do you agree or disagree?

Agree

First, Elderly people should spend more time with family members and travel to other places by age 65, so this policy helps retired people have a healthy life.

Second, people by age 65 are extremely exhausted, and they do not have the adequate physical and mental ability to work effectively. Therefore, it is more beneficial to set a stage for people seeking a job and absorb energetic individuals.

بله

1. افراد بالای این سال پرفورمنس و پروداکتیویتیشن پایین میاد و کارها به خوبی انجام نمیشن
2. این افراد شغلهایی رو اشغال کردن که جوونهای بیکار میتونن جاشون رو پر کنن و مشکل بیکاری حل میشه تا حد زیادی
3. نیروی از کار افتاده هستند و تداوم اشتغالشون برای سلامتیشون مضره

32. Your friends are planning to take a part-time job while attending the university. Do you think it is a good idea? Why?

33. Some are willing to own and manage their own company, and some prefer to work in others' companies. Which do you prefer and why?

34. Some students prefer to choose a career before getting into college. Other students prefer to choose a career after taking some university courses. Which one do you prefer and why?

35. Do you agree or disagree with the following statement? a boss or a manager should not form close friendship with their employees.

36. If you can have a part-time job at the university, what position would you choose: a lab assistant, a campus tour guide or a library assistant? Please give specific reasons.

37. Do you agree with the statement: employees should be allowed to listen to music at work?

38. Some people prefer jobs working with computers or other technology, others like jobs working with no such technology. Which do you think is better and why?

39. Do you agree or disagree with the following statement? It is acceptable that someone uses others' influence to get a job.

40. What kind of job will you choose? To choose a job through which you can get a lot of money or to choose a job through which you can get great personal satisfaction? Use specific reasons and examples to support your answer.

41. Which one of the three occupations do you think is the hardest.

(1) Government worker (2) Doctor (3) Police officer. Please state your reasons with specific details.

42. Among the following three professions, which do you think make the biggest contribution to society? Teachers, farmers, doctors.

43. Do you agree or disagree with the following question. In order to stay happy, you must have a job that you love doing.

44.What do you think is the most important quality of a working environment: good leaders, good colleagues, or flexible time?

45.If you were to become a volunteer at the school or in the community, what kind of volunteer work would you do and why?

46.Do you agree or disagree with the following statement? Students should do part-time jobs before attending college.

47.Should students start to plan their career before entering college, or should they do so until they have entered college and studied for a period of time?

48.If you are going to have an interview with a famous people in your community, which of the following people will you choose? a. businessman b. professor c. artist. Give detailed information to support your answer and explain why.

49.Among the following three professions, which do you respect the most: photographers, musicians, painters. Explain why.

50.Among the following three types of work, which would you enjoy doing the most? Helping children with communication problems, doing community work, growing plants in the garden.

51.Should employees be required to wear suits in the workplace, or should they wear casual clothes?

52.Do you agree or disagree the following statement? Older doctors are more knowledgeable than young doctors? Use specific details and examples to explain why.

First, thanks to practical experience, older doctors are more well-informed than younger doctors because they have visited various patients. Thus, Hands-on approaches are really important.

Second, university students in the past studied more books and references related to their major than now, so older doctors are definitely more well-educated than young doctors.

Disagree

1- young doctors has recently been graduated and their knowledge is more updated, while knowledge of old doctors is outdated.

2- In comparison to old doctors, young doctors are more familiar with modern technology and can increase their knowledge using online resources such as google book, science direct, and so on

جوان تر ها
چون که موقع تحصیل از امکانات بیشتری برخوردار بودند و دانش شان پیشرفته تره
و اینکه اونا از نسل امروزه هستن که خیلی چیز ها رو تجربه کردن که میتونه تو تشخیص بیماری بهشون کمک کنه؛ مثل کودکانی که تایم زیادی رو بازی کامپیوتری انجام میدن و میتونه زمینه بسیاری از بیماری ها باشه

دکترهای جوانتر
۱ - نسل جدید دکتر ها به دلیل ارتباط قوی که با افراد مشهور در سطح جهان دارن، اطلاعات بروزتر و دقیق تر در مورد مریضی ها و درمان اونها دارن
They have breadth knowledge because of telecommuting with worldwide scholars.

2- امروزه کورس های دانشگاهی و پزشکی بسیار سخت و گسترده شده که فارغ التحصیلان پزشکی نسبت به گذشته تجربه و اطلاعات علمی قوی تری در طول دوره تحصیل کسب میکنند و
They are well-educated and professional.

با فرض اینکه همه دکترها متعهد هستن و دانششون آپدیته، دکترهای مسن دانش پیشین رو هم دارن که باعث میشه عالم تر از دکترای جوان باشن
2- دکترهای مسن، تجربه بیماری های مختلف و راههای درمان مختلف و نتایجشون رو دارن که از باعث میشه از جوانها جلوتر باشن در علم پزشکی که به علم تجربه

53.Many companies have begun offering flexible work hours so employees can make their own schedule arriving and leaving the office whenever they want-as long as they complete their work on time. Talk about the advantages and disadvantages of this offer.

Advantage

Relieve their stresses about being punctual. They do not need to eliminate their breakfast or get stressed about waiting in traffic congestion for being on-time.

Disadvantage

Lead them to a less disciplined lifestyle. They start waking up late in the morning and become lazy since they feel free about the times in which they have to carry out their tasks.

Advantage

First, people can enjoy the benefits of flexible work hours by participating in enjoyable activities such as music class, art class and so forth to get rid of tedious daily tasks at job.

Second, efficiency of work will increase dramatically by having flexible work hours because they have this chance to interact with other office' employees and experienced individuals to get information and new ideas.

Disadvantages

First, having flexible work hours, employees will be exposed to distractions of others' computing. So, they cannot focus on their duties effectively.

Second, serious discipline problems coming from flexible work hours cause workers to be disorganized one. Since workers cannot do their best, they are a far cry from the expectation of employers and will be faced with the risk of being fired.

○ Location/living/moving

1. Describe one advantage or disadvantage of building universities in small town or rural areas.

2. Some students enjoy decorating their surroundings; others choose to keep their surroundings simple and free of any decorations. Which do you prefer and why?

Students would not require any tools rather than those relevant to their studies meanwhile they are studying. Therefore, it would be better to invest their money, energy and time for the matters corresponding to their studying like notebooks, laptops, etc.

Being surrounded by various stuff, people's attention might be deviated. In other words, they might spend a lot of time looking or using a substance without even being cognizant of the elapsed time.

However, many students can barely follow their studying in a totally empty environment. In fact, they easily fall asleep or lose their passion. Therefore, the way their surrounding environment is decorated is something to think of. If the walls are decorated with some motivational quotes, beautiful and inspirational posters, etc it might lead students to study more fruitfully.

ساده

دکور زیاد باعث میشه حواسشون به اطرافشون پرت بشه و موقع درس خوندن نتونن تمرکز کنن

بهتره به جای هزینه برای دکور پولشونو صرف کارای ضروری تر که به درد ایندشونم بخوره بکنن مثلاً برن کلاس فوق برنامه یا ورزش ثبت نام کنن

3. If you are to choose between two apartments to live in next semester; one apartment is near the campus but slightly expensive, the other is a little far from the campus but cheaper, which one do you prefer and why?

4. Describe what the ONE thing that makes your country different from other countries?

5. Describe the disadvantages of moving to a new place.

6. Nowadays, many people tend to move to a new city to work or study. List some advantages of it.

7. Some people prefer to live in places where climate does not change very much, while others prefer to live in places where climate changes with seasons. Which one do you prefer? Why?

8. Describe your favorite room either of your own house or in other places and explain why.

9. Some people prefer to do shopping in large grocery stores or department stores. Others prefer to do shopping in small grocery stores. Which do you prefer and why? Use specific reasons and examples to support your response.

10. Given the choice, many people would prefer to live in an older or more historic building or house. Others would prefer to live in a more modern building or house. Which would you prefer, and why?

11. Describe a change in your country. It could be a social, economic or political change. Explain how this change influenced people in your country.

12. Some people like to move about and live in different places. Others like to stay at one place all their lives. Which do you prefer and why?

13. Describe the differences between two cities that you have visited before. Give details and examples to support your response.

14. If you were to choose a place to live, what kind of location would you prefer and why? 1. A place close to school 2. A place close to your family 3. A place close to a transportation hub (airport or bus terminal, etc.)

15. If a foreign tourist visits your city, where would you take this tourist? A factory, a university, or a museum? Give reasons for your answer.

16. Do you prefer to live in an area that is noisy but close to shops or public transportation, or an area that is quiet but far away from shops and public transportation?

17. Between the following two places, where would you choose to live? 1. Big and new place but far from your workplace and/or university 2. small and old place but near your workplace and/or university

18. Some people prefer to go and visit the tourist attractions where there are many people. Others like the tourist attractions with fewer people, which one do you prefer?

Tourist attractions with few people

۱. جایی که افراد کمتری واس دیدنش میرن، سر و صدای کمتری داره و در آرامش می تونیم از اون جاذبه ها لذت ببریم و بیشتر خوش میگذره

۲. واس کارایی مٹ رزرو هتل و ... ترافیک کمتری هست و در نتیجه راحت تر محل اقامت پیدا میشه

Many people

۱. جایی که افراد زیادی میرن دیدنی های مهم و خارق العاده ای داره که میتونه بهمون درس زندگی بده. الکی که به چیزی معروف نمیشه حتما به چیز مهم و یک اتفاق مهمه و یک قسمتی از تاریخ بوده که میشه ازش درس گرفت یا طبیعت خارق العاده ای که ادم با یادش میتونه به جهان هستی فکر کنه..

۲. جایی که افراد زیادی میرن فرصت آشنایی با کالچرهای مختلف علاوه بر فرهنگ شهری که رفیقیم را داریم و این تجربه خوبیه که منجر به گسترش روابط میشه. مثلا من رفته بودم استانبول علاوه بر فرهنگ ترک با فرهنگ اروپایی و افریقاییم آشنا شدم چون توریست های مختلف را دیدم و تونستم روابطمو گسترده کنم

19. Some people prefer to go and visit the tourist attractions where there are many people. Others like the tourist attractions with fewer people, which one do you prefer?

اولی

۱ علاوه بر اون جاذبه توریستی، میشه با فرهنگ های متنوعی آشنا شد (چون گردشگران از جاهای مختلف میان دیدن اون مکان)

۲ چون بازدیدکننده زیاده، طبیعتا درآمد بالایی دارن، نمیخوان به شهرت و اعتبارشون لطمه ای بخوره، و میخوان اون تعداد رو حفظ کنن، پس امکانات رفاهی خوبی ارائه میشه. با خیال راحت و آرامش بیشتری میشه سفر کرد و از اون جاذبه دیدن کرد.

اونجایی که مردم کمتری هستن

۱. اینطوری افراد کمتری اونجا حضور دارن چیزی باعث دیسترتک نمیشه و میتونی از جاهای زیادی بازدید کنی

۲. زمانت ذخیره میشه. چون لازم نیست کلی توی صف بمونی برای ورود به خیلی از مکان های تاریخی و ... که باید تیکت بگیری

Sightseeing in historic places will give one a better taste of the city's and nation's past traditions, customs, and rich cultural heritage. The data and information contained in every historic relic range from the invasion of foreign countries and lifestyle preference to the dominance of a particular language, religion, and architecture in the time that the house, monument, or the tool was built. No matter how progression and advancement the city has experienced or to what extent modern dwellers of the city are indifferent toward or even contemptuous of their historical cultures, for a stranger person who watches these locations, there are visible and tangible similarities that bridge this historical gap, enriching one's understanding of both ancient and present-day features' of the city.

Historical attractions are the destination of a large number of curious and inquisitive tourists who have an insatiable desire to discover similarities and differences between different nations and cultures. The gravitational nature of these tourist hotspots triggers a conversation between visitors, setting the stage for exchanging opinions and ideas. There is always a question involved in these communications and interactions: "what do you think of the city and its people?" Once asked during the interaction, the question will unlock the treasure trove of information and first-hand experiences that the both sides have acquired through their curiosity. Having others' perspectives and opinions will give one an in-depth understanding of the city and its citizens. What's more, the officials who offer services as a guide have valuable information to provide as they are usually indigenous people.

20. Imagine that you are going to visit a new city, which one of the following ways do you think is the best way to know the city in a short time?

1. Visit historic sites

2. Go to shops and markets

3. Enjoy the restaurant and spend time in café

Less crowded tourist hot spots

1. crowded tourist attractions are breeding grounds for illegal activities or morally and ethically questionable practices. For example, maimed begging, prostitution, and theft are an inseparable part of every bustling location. These practices mainly target foreign visitors who stick out like a sore thumb among local people. What's more, these places are the potential targets of terrorists attacks.
2. Going sightseeing in less populated locations and tourist sites means saving valuable resources—time and pecuniary reserves— on hotel bookings, staying in long queues and restaurants. When the location is the destination of a large influx of travelers and visitors, every good and service becomes exorbitantly expensive.

اولی

۱ تمام مکان های تاریخی، به نوعی ب دوران حکومت اون اثر اشاره می کنه. با روند حکومت سیاسی و اداری شهر و افکار و عقاید حاکمان شهر در دوران مختلف میشه آشنا شد.

۲ بازدید از مکان های مختلف تاریخی، اطلاعات ارزشمندی در خصوص هنر، فرهنگ و مذهب میده. فرضا مکان های مقدس هم هنر معماری رو ب نمایش می ذاره هم دین و مذهب اون شهر.

21. Some people prefer living in a big city. Other people prefer living in the countryside, away from urban areas. Which do you think is better?

Big city

1. the presence of various cultural activities and recreational facilities such as movie theater, cinema, and concert in urban areas provides individuals with an opportunity to enjoy the benefits of being in these places in their spare time.
2. living in big municipal areas exposes people to diverse assortments of job offers, being related to their field of expertise and their interests.
3. living in cities instead of small towns, children can receive state-of-the-art education and have a good chance to nurture their talents by studying in prestigious schools and universities.
4. moving to big cities offers one a good chance to interact with people from different walks of life. Big urban areas are made up of individuals of different cultures, religions, and races. On the other hand, living in suburbs and towns can be monotonous and tedious as people tend to be like each other.

○ Technology

1. Nowadays robots are widely used in the society. What are the benefits and risks of this?

The benefit of robots in a society is that enhancing the rate of production in businesses dramatically, because robots can work quickly and correctly with less mistakes as human do.

The risk of existing robots in a society is related to increase the rate of unemployment at an alarming pace. In today's

complicated world, human job positions are replaced with robots and machines, leading to increasing job seekers in communities.

2. Do you agree or disagree with the following statement?

It is inevitable that as technology advances, traditional cultures will be lost. It seems that we cannot have these two things together.

(Agree)

1) To begin with, modern technology and traditional values are not compatible since people tend to follow the recent changes and get tired of old things, so they accept new technology and put aside old cultures. In this regard, technology brings about a determined lifestyle which is completely different from the traditional ones. On the other hand, people instinctively like modifications and after a while, they will adapt their lives with them which enforces individuals to construct fresh methods of living that series of them comprise new culture. Therefore, the former culture will be put away gradually, and technology rebuilds a modernized adjusted one. For instance, new generations have the opportunity to get acquainted with a wide range of festivals or feasts and adapt themselves to them; therefore, they will keep distance from ancient obsolete cultures that they have heard from their ancestors.

2) In addition, with the advent of the technology, people's lives have been mechanized, and their concerns have aroused to a great extent, so preserving the old culture seems impossible for them due to the lack of time. To be more specific, holding these ancient cultural need considerable amounts of time, but the main problem is that individuals require to work long hours in order to make subsistence of life, so they cannot find any opportunity to gather and perpetuate traditions simultaneously.

3) First and foremost, by progression in technology, information access will increase all corners of the globe, resulting in traditional culture lost. When technology becomes more advanced day to day, people can be informed about events all over the world. In this regard, after some time, people will become aware of the recent fashion in manifold areas, such as clothes, makeup, and even lifestyle in the world, so all of them tend to be in vogue. Indeed, when people desire to compatible their attitudes toward fashion, which is the result of technological advances, they will set them apart from their original culture.

4) Second, with the genesis of the technology, nowadays individuals are willing to allocate insufficient attention and little time to old traditional values, making them to fade away gradually. Companies, such as mobile phones', computers', and play stations' firms, make their product so attractive and update them frequently to boost their popularity. In fact, as long as adults are busy with their jobs, and children are preoccupied with their schoolwork more than the past, they have the propensity to dedicate their free time to use those devices and become reluctant to pursue some traditional values. Additionally, individuals require to spend adequate time so as to learn to utilize these innovative and ever-changing products, so there will be no time left for maintaining ancient cultures.

3. Do you agree or disagree with the following statement? Although science and technology will continue to improve, the most significant improvement for the quality of lives have already taken place.

موافق:

۱. یکی از مهمترین فاکتورهای تاثیر گذار در کیفیت زندگی مردم بعد سلامت زندگی هست. امروزه با پیشرفت هایی که صورت گرفته در زمینه بهداشت و پزشکی نه تنها مردم آگاه تر شده اند نسبت به عوامل تاثیرگذار بر سلامتشان مثل رژیم های غذایی سالم، پرهیز از غذاهای ناسالم و مضر، عادات غذایی بد و ... بلکه تکنولوژی و پیشرفت در زمینه ی پزشکی و سلامت باعث شده خیلی از مریضی ها درمان بشن، مریضی ها کمتر بشن، و ... و مردم امروزه میتونن به راحتی از یک سبک زندگی سالم برخوردار باشن که این قضیه کیفیت زندگی شون رو بطور قابل توجهی بالا برده

۲. پیشرفت های تکنولوژی و علم باعث شده خیلی تجهیزات و فسیلیتی های مدرنی پا ب عرصه بگذارند که باعث شده مردم راحتی و آرامش بیشتری رو در زندگی تجربه کنند و به سطح رفاه قابل قبولی برسند. مثلا امروزه اکثر کارهای افراد میتونه ب کمک ربات ها و یا بصورت برنامه ریزی شده و سیستمی تنها با چند کلیک انجام بشه. یا تجهیزات تفریحی و اسایشی زیادی برای مردم فراهم شده که میتونن از شون بهره ببرند. مثلا خانه های bms باعث شده کارهای خونه بصورت اتوماتیک بدون صرف انرژی و بکار گیری نیروی انسانی انجام بشه و ...

بنابراین این تجهیزات و امکانات بسیار زیاد، تاثیر قابل توجهی در بالا بردن سطح رفاه مردم داشته اند و باعث شده اند که کیفیت زندگی به سطح مناسبی برسه.

اگره بخوایم مخالف باشیم باید بگیم که هنوز تمام پیشرفت های صورت گرفته تا به امروز برای داشتن ی زندگی با کیفیت کافی نیستند و در واقع اون پیشرفت های مورد نیاز هنوز اتفاق نیافتاده حالا بیایم دو دلیل بگیم مثلا فلان بعد زندگی هنوز نیاز ب پیشرفت داره و پیشرفت های صورت گرفته از فلان جهت مشکلاتی دارند یا فلان مشکلات رو حل نکردند هنوز که این مشکلات خیلی تاثیر گذارند در کیفیت بالای زندگی

خب من اینو بخوام مخالف بگم...یعنی پیشرفت تکنولوژی و علم به بهبود کیفیت زندگی آدمها در آینده کمک میکنه و به نظرم راحت هست..

۱. کوالیتی زندگی ادما به ارتباط با بقیه انسانها و کامیونیکشن ربط داره علم و ساینس اینو راحتتر کرده و راحتتر هم میکنه چون جای بهبود داره مثال انتقال بو یا حس لامسه.

۲. کوالیتی زندگیمون به سلامت و داشتن عمر بیشتر ربط داره تکنولوژی و علم و تشخیص و درمان باعث میشه کیفیت زندگیمون بالاتر بره هر چی میخوایم مثلا بخوریم و چاق نشیم یا کسایی که دیس ابیلیتی دارن بهتر زندگی میکنند

مخالف:

1. یکی از معیارهای بهبود زندگی افراد، بهبود شرایط جسمانی و مبارزه با بیماری هستش. ذات انسان طوری هستش که سلامتی جسمانش به عنوان بزرگترین داراییش محسوب میشه. و یکی از شاخص های اصلی برای سنجش کیفیت زندگی افراد، بهبود این شرایط هستش. با اینکه پیشرفت تکنولوژی به درمان خیلی از بیماری ها کمک کرده ولی بسیاری از بیماریها خود زائیده همین تکنولوژی هستن (بیماریهایی که در گذشته وجود نداشتند). مهمترین بهبود در زندگی با پیشرفت تکنولوژی زمانی اتفاق خواهد افتاد که فقط در جهت بهبود شرایط زندگی افراد باشه (بدون هیچ اثر مخرب دیگه ای). پس هنوز اون بهبود شگرف ناشی از پیشرفت تکنولوژی اتفاق نیفتاده.

2. انسان یک موجود بسار جاه طلب و بلندپرواز هستش. از یک بچه ای که تازه پا به دنیا میذاره و با لمس چیزهای مختلف سعی در کشفشون داره، تا یک انسان سالمند که هنوز خیلی از مسائل براش حل نشدن. اینو میشه از نوشته های علمی تخیلی گذشتگان هم فهمید و تلاششون برای کشف دنیاهای ناشناخته. علی رغم تمام بهبودهای انجام شده توسط پیشرفت تکنولوژی، خیلی از دلمشغولی ها و افکار که منجر به بیماریهای پنهان و آشکار افراد (که به شدت بر کیفیت زندگیون تاثیر میذاره)، عدم پاسخگویی علم و تکنولوژی به این سوالات هستش. خیلی از افراد ثروتمند رو میبینم که پا در اختیار داشتن جدیدترین تکنولوژی ها و بهره مندی از جدیدترین علماها، حس خوشایندی ندارند و این به خاطر میل سیری ناپذیرشون هستش که پیشرفت علم نتوانسته سیرایش کنه. پس پیشرفت تکنولوژی زمانی میتونه ادعای بیشترین تاثیر بر بهبود کیفیت زندگی افراد رو داشته باشه که خیلی از سوالات مبهم رو جواب بده و تا جایی ادامه پیدا کنه که زندگی دقیقاً بر اساس میل و خواسته افراد باشه. چیزی که هنوز اتفاق نیفتاده ولی با توجه به رشد فزاینده علم، دور از دسترس نیست

مخالف

۱-درسته که خیلی پیشرفت اتفاق افتادن در زمینه های مختلف اما کافی نیستند مثل پزشکی که هنوز تعداد کثیری از بیماری ها در مان نمیشن یا فقط عمر بیمارو طولانی تر میکنند..یا درمان بسیار هزینه بره و هنوز تکنولوژی به جایی نرسیده که بتونه کاملاً تاثیرگذار و در عین حال ارزان برای بیمار باشه.پس ما هنوز به پیشرفت نیازمندیم

۲-احساس نبود بسیاری از چیزهای اساسی در زندگی مون با وجود این هه تکنولوژی هنوز حس میشه.چون همه چی به نقطه اوج خودش نرسیده و راه طولانیی مونده تا به اوج دوران پیشرفت تکنولوژی برسیم.مثل احساس امنیت اطلاعات در همین اسمارت فون ها که این همه پیشرفته شدن ولی هنوز از امنیت اطلاعات کافی بهره مند نیستند و با وجود تلاش هایی که شرکت هایی مثل سامسونگ و اپل میکنند همچنان بسیاری از اطلاعات کاربرا فاش میشه.

پس خیلی راه داریم برای اینکه کیفیت زندگی انسان با تکنولوژی به بهترین حالت خودش برسه.

موافقم

یکی از موثرترین المان های کیفیت زندگی بحث سلامت و پیشرفت های پزشکی هست، با گذشت زمان خیلی از بیماری های رایج در گذشته کم شدن، مردم بیشتر به بهداشت محیط اهمیت میدن، رویکردها به سمت زندگی سالم بیشتر شده، اصرار به زندگی بهتر با ورزش و تغذیه سالم خیلی داره تبلیغ میشه و این خیلی عامل موثری در بحث کیفیت زندگی هست علیرغم همه پیشرفت ها

دوم اینکه فراگیر شدن دنیای آنلاین خیلی کمک کرده به داشتن زندگی راحت تر و طبیعتاً با کیفیت بیشتر، امروزه اکثر کارها با دسترسی به دنیای آنلاین قاب حل

هست، دنیای دیجیتال خیلی تسهیل کرده روند کارهای مختلف رو در همه سطحی، چه آموزشی، چه اداری، چه ریسرچ و ادماها آردی به سطح وسیعی از اطلاعات و خدمات از طریق اینترنت دسترسی دارن.

4. Some people like to buy a piece of technological device as soon as it is available in the market. Other people prefer to buy it after it has been adopted by many people. Which do you prefer?

من ترجیح میدم بعد مدتی بخرم بنا به این دلایل 1- وقتی محصولی جدید به بازار میرسه ،اول قیمتش ریزنبل نیست ،یکم صبرکنم بخرم قیمتش افت میکنه و قیمت اصلیشو پیدا میکنه مثالش همین گوشیا که اول میان تقریبا دوبرابر قیمت 6ماه بعدشون 2- اگه صبرکنم بقیه استفاده میکنن و باتوجه به نقدها ونظراتشون از مشکلات اون وسیله آگاه میشم اینطوری بهتر میتونم تصمیم بگیرم آیا مثلا گجت خوبی هست یا نه ؟

من اینو نوشتم

اول وقتی که یک محصول میاد چون انحصار دانش فنی هست اول گروه ولی با گذشت زمان دست زیاد میشه و مونوپولی شکسته میشه و ارزون میشه. م در واقع چون تعادل بین عرضه و تقاضا برقرار نیست اولش گروه ولی وقتی شرکت های دیگر شروع به تولید اون محصول در اشل بیشتر بکنند به تدریج قیمت میاد پایین مثلا گوشی هوشمند. امیوارم پرت نباشه

دلیل دوم هم همونی که دوستان گفتند که عیبای محصول دربیاد

1.New technological devices coming in the market are prohibitively expensive, it is definitely cost-effective buy a new piece of gadget after they are experienced by others.

2.Purchasing new technological devices after they are updated by others, people can be sure about their application and usage because new brands that are available in markets have some defects.

5. Some people say that internet provides people with a lot of valuable information. others think access to much information creates problems. which view do you agree with?

اگر توی این سوال با اولی موافق باشیم و در جواب بگیم که:

۱ -به کمک اینترنت مردم به راحتی به صورت آنلاین میتونن آموزش ببینن ۲- با استفاده از اینترنت مردم میتونن از اخبار گوناگونی آگاهی پیدا کنند که از اونها میتونن در برنامه ریزی هاشون برای آینده استفاده بکنند.
این دلایل آف تایپیک نیستند؟

بنظرم دلایلتون آف نیست، ولی اگر مرز بین این اطلاعات را گسترده کنید راحتتر میتونید بسط بدید مثلا:

اولی، آموزش های تخصصی و علمی آنلاین برای حوزه های دانشگاهی و مدرسه که افراد دسترسی به مقاله ها،ویدیو ها و مستندهای علمی دارن، -well educated شدن افراد

دومی، اطلاعات عمومی با ارزش که از اینترنت میگیرن مثل خبرهای متنوع جهانی و داخلی، مهارت های فردی و کاری که اطلاعات با ارزشی هستن برای ارتقا شغل و well-rounded شدن افراد.

6. Which of the following technological developments has made the greatest impact on students' lives? a. electronic books b. online classes c. smartphones

7. Talk about at least one advantage/ disadvantage of not being active on social website and social media.

8. Which of the following functions of smart phones is the most beneficial to students? Taking photos/ Listening to the music/ recording lectures

9. Some people prefer to wash dishes by a dish washer. Others prefer to wash dishes by hands. Which do you prefer and why?

10. In your opinion, what is the most important invention in your life? Computer, television or telephone?

11. Do you agree or disagree: cell phone changes our lives greatly.

12. Choose ONE of the forms of the technology in the list and tell why it has great impact on people's lives in your country? Airplane, computer or television. Use specific reasons and examples to support your response.

13. What do you think is the most important advancement over the past 20 years in your country? Use reasons and specific examples to explain why you think that is important.

14. Do you agree or disagree with the following statement? Playing computer or video games has a negative influence on teenagers.

15. What are some of the benefits that cell phones bring to people?

16. What are some important effects of the worldwide availability of the Internet on modern people's life? Use specific details and examples to support your response.

17. Do you agree or disagree with the following statement? The Internet plays an important role in your life. Use specific examples and details to support your answer.

18. Nowadays robots are widely used in the society. What are the benefits and risks of this?

19. What is the most useful function of cell phones for students?

- taking photographs
- listening to music
- recording videos

First, recording videos provides students with a big opportunity to record lectures to get rid of taking notes as a distraction way during class time. Cellphones are beneficial because students are able to pay full attention to materials thought by teacher to get information deeply.

Seconds, videos recorded by cellphones as invaluable archive, students can review them at short spell conveniently for their final exams. Thanks to the recorders of cellphones, learners today get high marks in their final exams.

سومی

۱. با این کار بیشتر متمرکز میشن سر کلاس چون دیگه نیازی نیست نوت برداری کنند و حواسشون پرت نوشتن و نوت برداری بشه.
۲. ریکورد کردن باعث میشه که بعدا بتونن با استفاده از این ریکوردها درس ها و نکات مهمش رو در زمان کمتری برای امتحاناتشون مرور کنند و نتیجه بهتری بگیرند.

20. Some people like to keep a record of their own experiences by uploading pictures and other information to social-networking sites. Other people prefer not to create such records. Which approach do you prefer, and why?

First, individuals should always bear in mind that publishing their data in social media provides the hackers with the great opportunity to abuse this information. In contrast with general belief, programmers and specifically high-talented hackers are able to penetrate individuals' accounts and extract their private data readily. In many cases, sacrifice persons are asked an astronomical amount of money in return for unsharring their images. Take one of my intimate friends--who is a renowned singer in our city--for example, he had shared some of his private images with his girlfriend on his account, and he was of the opinion that individuals in possession of private accounts are not susceptible to be attacked. Unfortunately, his account was hacked, and the hackers messaged that if you do not pay us our requisite money, we will publish your photos. Finally, he paid the money to preserve his reputation. It is obvious that one has not reliant on these media's privacy completely. As it can be grasped, we should take risks before uploading our data.

Second, no one can cast doubt on the fact that publishing our images on the internet environment may give rise to health problems in others. In our ongoing era, people's interest in boasting their assets or luxuriant home, car--to name but two--has been increased. These groups are usually inclined to share their experiences like the images that they have taken in the assortment of countries or their marvelous recreations with their friends in social media. Regardless of whether or not that various strata of society are not on the same level. Some of them are the leisure class and the others are working class. Consequently, when people, who have not an appropriate economic condition, view such photos become depress and not only have they to endure their unapt economic problems but also have to get involved with some mental disease.

(Should not create)

1. Abusing

Always a chance of misusing their personal info» host of anonymous people may threaten them by saying that they will publish their private data» Ex. Their attempts to extort astronomical amounts of money from these individuals in exchange for their pics.

2. Health problems

These people may be criticized by envious friends of theirs for the lifestyle they have chosen» it is probable that this matter will jeopardize their mental health since individuals can get depression by paying attention to their unfounded claims.

**21.The most important problems in today's world will be solved in our lifetime.
Do you agree or disagree?**

1. مشکلات مهم امروزه مسائل بزرگ و زمان بریه و تو عمر ما حل نمیشه >مشکلات الودگی هوا و خاک و...
2. تکنولوژی های لازم برای حل اون مشکلات هنوز کشف نشده و علم ما خیلی کمه خیلی مونده تا کشف بشه به سمت بیماری ها و درمان دارو خیلی سخته دومیو دولوپ کنیم به زمان ربط ندیم و فقط بچسبیم به تکنولوژی

مخالف:

۱. درسته که تکنولوژی هر روز پیشرفت میکنه و باعث میشه یک سری از مشکلات موجود حل بشه، ولی همین راهکارها باعث بوجود اومدن مشکلات جدید تر میشه. مثلا برای حل مشکل ترنسپورتیشن به مقاصد دور ماشین ها و هواپیما ها اختراع شدند ولی همین وسایل نقلیه باعث بوجود اومدن مشکلاتی از قبیل الودگی و ترافیک و...
۲. بعضی از مشکلات قابل حل نیستند چون که وجود یک سری از مشکلات منافعی برای افرادی خاص در جامعه داره که به خاطر حفظ منافعتشون اجازه حل شدن مشکلات رو نمیدن و با استفاده از قدرتی که دارند مانع حل شدنشون میشن. مثلا فساد های مالی در جامعه

موافق:

۱. پیشرفت تکنولوژی کمک میکنه که بتونیم روز به روز به ایده های جدیدی جهت حل مشکلات موجود برسیم.
۲. سطح آگاهی و فرهنگ مردم نسبت به گذشته خیلی بیشتر شده و این کمک میکنه که خیلی از مشکلات توسط خود مردم حل بشه.

22.Do you agree or disagree with the following statement? Although science and technology will continue to improve, the most significant improvement for the quality of people's lives have already taken place.

مخالف:

1. یکی از معیارهای بهبود زندگی افراد،بهبود شرایط جسمانی و مبارزه با بیماری هستش. ذات انسان طوری هستش که سلامتی جسمانش به عنوان بزرگترین داراییش محسوب میشه. و یکی از شاخص های اصلی برای سنجش کیفیت زندگی افراد، بهبود این شرایط هستش. با اینکه پیشرفت تکنولوژی به درمان خیلی از بیماری ها کمک کرده ولی بسیاری از بیماریها خود زائیده همین تکنولوژی هستن(بیماریهایی که در گذشته وجود نداشتند). مهمترین بهبود در زندگی با پیشرفت تکنولوژی زمانی اتفاق خواهد افتاد که فقط در جهت بهبود شرایط زندگی افراد باشه(بدون هیچ اثر مخرب دیگه ای). پس هنوز اون بهبود شگرف ناشی از پیشرفت تکنولوژی اتفاق نیفتاده.
2. انسان یک موجود بسار جاه طلب و بلندپرواز هستش. از یک بچه ای که تازه پا به دنیا میذاره و با لمس چیزهای مختلف سعی در کشفشون داره، تا یک انسان سالمند که هنوز خیلی از مسائل براش حل نشدن. اینو میشه از نوشته های علمی تخیلی گذشتگان هم فهمید و تلاششون برای کشف دنیاهای ناشناخته. علی رغم تمام بهبودهای انجام شده توسط پیشرفت تکنولوژی، خیلی از دلمشغولی ها و افکار که منجر به بیماریهای پنهان و آشکار افراد (که به شدت بر کیفیت زندگیون تاثیر میذاره)، عدم پاسخگویی علم و تکنولوژی به این سوالات هستش.خیلی از افراد ثروتمند رو میبینیم که با در اختیار داشتن جدیدترین تکنولوژی ها و بهره مندی از جدیدترین علمها، حس خوشایندی ندارند و این به خاطر میل سیری ناپذیرشون هستش که پیشرفت علم نتونسته سیرایش کنه. پس پیشرفت تکنولوژی زمانی میتونه ادعای بیشترین تاثیر بر بهبود کیفیت زندگی افراد رو داشته باشه که خیلی از سوالات مبهم رو جواب بده و تا جایی ادامه پیدا کنه که زندگی دقیقاً بر اساس میل و خواسته افراد باشه. چیزی که هنوز اتفاق نیفتاده ولی با توجه به رشد فزاینده علم، دور از دسترس نیست.

مخالف:

- ۱-درسته که خیلی پیشرفت اتفاق افتادن در زمینه های مختلف اما کافی نیستند مثل پزشکی که هنوز تعداد کثیری از بیماری ها درمان نمیشن یا فقط عمر بیمار و طولانی تر میکنند.یا درمان بسیار هزینه بره و هنوز تکنولوژی به جایی نرسیده که بتونه کاملاً تاثیرگذار و در عین حال ارزان برای بیمار باشه.پس ما هنوز به پیشرفت نیازمندیم
- ۲-احساس نبود بسیاری از چیزهای اساسی در زندگی مون با وجود این هنه تکنولوژی هنوز حس میشه.چون همه چی به نقطه اوج خودش نرسیده و راه طولانی مونده تا به اوج دوران پیشرفت تکنولوژی برسیم.مثل احساس امنیت اطلاعات در همین اسمارت فون ها که این همه پیشرفته شدن ولی هنوز از امنیت اطلاعات کافی بهره مند نیستند و با وجود تلاش هایی که شرکت هایی مثل سامسونگ و اپل میکنند همچنان بسیاری از اطلاعات کاربرا فاش میشه. پس خیلی راه داریم برای اینکه کیفیت زندگی انسان با تکنولوژی به بهترین حالت خودش برسه.

23.Do you agree or disagree with the following statement? Life today is easier and more comfortable than it was when your grandparents were children. Use specific reasons and examples to support your answer.

1-health

پیشرفت علم منجر به کشف دارو و واکسن برای بیماری های مختلف شده. بنابر این خیلی از بیماری های که در گذشته باعث میشد خانواده به مدت طولانی درگیر بشن الان در کوتاه مدت درمان میشه. همچنین بیماری های که منجر به فوت بود درمان پذیر شده و خانواده و مردم راحت تر شدن.

2-technology

ظهور تکنولوژی باعث آسایش روانی و جسمی برای مردم شده. مثلا ظهور اینترنت باعث شده که اگر یکی از اعضای خانواده دور از بقیه باشه تماس تصویری

بگیرن و دلنگ نباشن. از طرفی به جای اینکه پیاده و یا با ماشین برای خیلی از کارها مراجعه کنن با اینترنت کارشون راه بیفته

3-culture

با ارتباط بیشتر مردم با همدیگه، به مرور زمان متوجه اشکالات فرهنگی شون شدن و در جهت اصلاح این اشکالات فرهنگی تلاش کردند. مثلا در گذشته زنان نمیتونستند دانشگاه برن و یا مردان حتما باید شغل پدرشون و انتخاب میکردن و ادامه میدادن.

جواب از دید موافق 1- بله علم و تکنولوژی به حدی پیشرفت کرده که بشر از پس درمان کلی از بیماریها که تو قدیم درمانی نداشتن برآمده. در طول تاریخ جمعیت زیادی از ادما در اثر بیماریهای ساده تا بیماریهای واگیر میمردن ولی الان دیگه اون داستان ها نیست مثلا با یه واکسن، بایه قرص درمان میشن، مثلا تو گذشته جمعیت خیلی زیادی از مادران باردار تو زایمان جوشونو از دست میدادن ولی الان با کمک پزشکی و علم این عدد خیلی خیلی کم شده و دیگه به اون صورت ریسکی نداره. 2- با پیشرفت علم و تکنولوژی ارتباطات خیلی راحت شده و باعث بهبود کیفیت زندگی مردم شده. در زمان های قدیم آدما اگه از هم دور میشدن تقریبا باید فراموش میکردن طرف دیگه زنده است، چون مثلا راه ارتباطی با نامه بود، دوسه ماه طول میکشید مثلا نامه از این کشور به اون کشور برسه، الان بایه اینترنت و اسکایپ و... با لمس یه دکمه میتونیم با آدما ارتباط برقرار کنیم و احساس دلنگی برا عزیزانمون نداشته باشیم 3- حملو نقل راحت شده به زندگی آدما کمک کرده، در زمان های قدیم گاهی سفر ها چند ماه تا سال طول میکشید، سفر کردن با پای پیاده و اسب الاغ بود، الان با هواپیما و قطار به سرعت ادما سفر میکنن و سختی نمیکشن 4- در مورد آموزش همیشه گفت مثلا پیشرفت کرده بعد بگیم تو خونت نشستی ای لرنینگ داری

24. Agree or Disagree? Telephone and email have made communication between people less personal.

It means that some think that telephone and email communication do not allow others to make meaningful relationships.

Less personal would imply a disconnect between the two people that they cannot relate on a personal level

Disagree

1- people keep in touch with each other easily

2- it is much more cheaper than traveling and meeting each other in person.

25. Increasingly, robots and computers are being used to do work that humans once had to do for themselves. Some people believe the effect of this change will be mostly positive and helpful for humans. Other people believe that robots and computers will take too many jobs away from humans who are currently paid to do them.

○ BOOK/READING/NEWS/TV

1. It is important to know about events happening around the world, even if it is unlikely that they will affect your daily life.

موافق:

۱. دونستن در مورد حوادث و رویدادهایی که در سرتاسر دنیا اتفاق میافته اگرچه ممکنه در زندگی ما تاثیری نداشته باشه، ممکنه اطلاعات بدست اومده ازش باعث کمک به دیگران بشه و بتونیم از طریق اون اطلاعات و آگاهی مربوط ب اون حوادث مشکلات افراد دیگه رو حل کنیم

۲. آگاهی از حوادث مختلف کمک میکنه up-to-date بمونیم در رابطه با رویدادهای مهم جهان. تحت این شرایط، وقتی اطلاعاتی در مورد رویدادهای مختلف داشته باشیم این امکان رو ب ما میده که بتونیم در شرایط مختلف یا بحث خاصی حرفی برای گفتن داشته باشیم. مثلا، وقتی دوستانمون در مورد ی بازی مهم فوتبال صحبت میکنند، اگه ما اخبار مربوط ب اون رو دنبال کرده باشیم میتونیم در این مورد نظر بدیم. حال انکه این اطلاعات و نظر دادن تاثیری در زندگی روزانه ما نمیگذاره، ولی ب ما این امکان رو میده که بتونیم در این بحث دوستانه نظر بدیم.

2. Students can learn as much by watching films as they learn by reading books.

To begin with, movies are not as instructive as books in broadening students' knowledge. In fact, movies' priorities are different from the goals of writers of books. While films serve the purposes of the producers, and educational facts, at best, stands below it, the goal of books is enhancing pupils' knowledge. Writers of books are aware of the methods of teaching a pupil and they are expert at leading pupils' mind toward a state of learning. Therefore, watching films is not as educative as reading books.

In addition, movies are less educative in the perspective of reading skills and grammar. To be more specific, when pupils study their books, they encounter with a massive amount of grammar tips in each page, and through reading it, they will learn (or review the grammatical details they have learnt) new rules. Undoubtedly, films have educational value too: they teach the usage of materials, they can improve listening skills, and they can teach something faster than reading a book. However, with all these in mind, they do not have an equal value in educational perspective because they are unreliable, fictitious, and informal. Thus, the purity of the data that transferred into pupils' mind is incomparable to watching a movie because they teach students grammar tips and improve their reading skills which is not found in movies.

To begin with, films include numerous visual contexts that can increase the students' efficiency in learning. It is clear that the majority of contexts that are in books are not real thus learners cannot imagine the topics easily while movies depict them in real life, which are meaningful for students as a result it will be easy to understand. Under such circumstance, films have engaged students' aural and optical ability. It helps them to profoundly concentrate on the concepts of movies that can be relevant to their lessons.

Second, preparing fun space by implementing movies will considerably boost the rate of awareness. Nowadays, new technologies lead society to make the best out of their lives without any problems. Movies as a form of advanced technologies can help people to release their negative energies which carry out a comfortable atmosphere. As it is proven, the better space will be prepared by instructors, the more the ability to learn easily will be reinforced. Since, it leads students to have fresh mind and a healthy lifestyle. In this situation, students can severely decrease their stress and overcome their anxiety that conduct them to follow their programs effectively.

The fast-paced stimulation of visual contents makes them a valuable source of knowledge for modern-age students who are notoriously short in time. The demanding and complex nature of modern education coupled with countless arduous tasks assigned to students, has made reading books to get all information a thing of the past. Students need another source of knowledge to grasp what they need in some circumstances---when being under the pressure of a tightened time frame. For instance, when it is a too costly investment to read a 500-page book in a week, why should not student watch a movie about the book all in a two-hour video with the same amount of information?

The attractive and funny nature of movies has made them an excellent source of knowledge for modern students, even if they have much less information compared to printed materials. Grown up immersed in technology with an entertaining attitude toward learning, today's digital-native students have a better focus on visual contents than on books. Even watching a comedy or a mainstream blockbuster film can educate students as much as a psychological book full of scientifically proven fact does. The visual effects, attractive scenes, and the music on the background make it easier for students to stay focused, contrary to printed information requiring efforts to visualize scenes described in written words.

In an educational environment, learning some concepts and courses is not plausible without the help of visual contents such as documentaries and movies. For example, how is it possible to learn about outer spaces and planets without seeing movies and documentaries about galaxies and stars? If the printed data are adequate for this purpose, then why NASA invests vast sums of money to produce movies and documentaries? As a student having affinity for astronomy, watching the movie Interstellar had the same educational values as thick astronomical books.

3. Do you agree or disagree with the following statement? When people spend a lot of time watching sports on television or following their favorite team, does it have negative effects on their lives?

Agree.

1. Spending a lot of time on TV would cause serious physical health problems. Eye sore, backache
2. It would lead to mental problems. Aggressive behavior toward their friends and families
Bc have built an idealistic world full of sports and so on, so gets nervous while faces the real life.
3. Would not be an efficient worker. Do his/her job carelessly in order to watch TV as soon as possible. Screws up the duties—> more time needed to fix the shortcomings—> not efficient

مخالف

داریم در دنیای پر از تنش و استرس و بدون سرگرمی زندگی میکنیم، دیدن این فعالیت ها در طولانی مدت باعث میشه استرس کم بشه و آدم ها در لایف استایلشون بتونن تعادل ایجاد کنند .

دوم اینکه دیدن ورزش و ... در طولانی مدت به افراد یاد میده چطور جنبه های مثبتش رو در خودشون پرورش بدن مثلا یاد بگیرن چطور در کار تیمی عمل کنن، یا چقدر برای موفق شدن باید تلاش زیادی بشه .
:

4. Do you agree or disagree with the following statement? It is important to read or watch the news presented by people whose views are different from your own or presented by people whose views are similar to your own?

Different.

1. Make the right decision.
People are familiar with the ideas which are similar to theirs, yet knowing the opposing views help them to understand the situation thoroughly, estimate the validity of each view and then opt for the right choice within those situations which making the right choice is crucial in their lives.
2. Should people know the counter ideas, they can defend their own belief. Sometimes people think differently in a paradigm, but there are some situations that people have misunderstood the notion, and that can bring about chaos in a company. Hence by getting familiar with opposing ideas, one can revise the wrong speculations about the case and fix misbehaviors.

موافق

۱. خوندن و دیدن اخبار باعث میشه در جریان اتفاقاتی که در پیرامونمون یا در جهان میفته با خبر باشیم و با آگاهی از اون ها تصمیمات زندگیمون رو بگیریم چون ممکنه در شرایط زندگیمون تاثیرگذار باشن و چه با گزارش دهنده اون خبر همفکر و عقیده باشیم و چه نباشیم وقتی گوشمون رو نسبت به اون خبر تیز میکنه باعث میشه بریم و تحقیق کنیم و کامل اخبار رو از دیدگاه افراد مختلف پیگیری کنیم تا به ی نظر جامع برسیم

۲. وقتی اخبار رو پیگیری کنیم و نسبت بهشون عکس العمل نشون بدیم این حس بهمون القا میشه که عنصر مهم و تاثیر گذاری هستیم و چه زمانی که اخبار رو از دیدگاه افرادی که باهاشون موافقیم و چه زمانی که از دیدگاه افرادی که باهاشون اختلاف دیدگاهی داریم پیگیری کنیم کمک میکنه که نسبت به خبری که فرد میده عکس العمل نشون بدیم حالا چه موافق و چه مخالف و عملا اینجوری هم نسبت به پیرامونمون حساس میشیم و مهم میشن واسمون و هم اینکه چه بسا زمانی که عکس العمل نشون بدیم ما هم برای دیگران اهمیت پیدا کنیم چه برای موافقان و چه برای مخالفان و اینگونه است که فرد اعتماد به نفسش هم میتونه در زندگی بالا بره

5. Do you agree or disagree with the following statement? People are more interested in reading negative news stories than positive ones. Explain why. Use specific examples and details in your response.

Disagree

First, people today are very exposed to many terrible disasters and economic catastrophes happening in their daily life, so they try to read positive stories to get rid of tensions and get more energy.

Second, reading positive news stories provides people with a big chance to cultivate their mind and get new ideas to keep up with new methods and strategies innovatively.

:recycle::recycle::recycle::recycle::recycle::recycle::recycle:

First, since the negative news is mostly about war, inflation or other annoying happenings, people are not inclined to pursue them due to the fact that they consciously consider the detrimental aftereffects of such unpleasant news for their mental and physical health.

Second, people usually tend to be aware of news which is considered utilitarian, can explicitly help them be prosperous in their life and as the negative news does not contain any practical issue for them to learn or does not benefit them, they would rather easily neglect it and consider it just waste of time. Furthermore, from the psychological perspective people almost always are so enthusiastic to be aware of the news about the incidents on which they can have a considerable impact to alter them in the favor of themselves or their fellow men and now that the negative news does not enjoy this momentous feature, they thoroughly overlook it.

6. Do you agree or disagree with the following statement : Sometimes people think nowadays the media (TV, newspaper, Internet) are less concerned about the accuracy of news than in the past, and the incorrect information may cause more problem to the public.

Agree

1-Nowadays media are dependent to different political parties, so their news mostly are biased.

2- for media, financial issues are of great importance. Therefore, when there is conflict between their financial benefits, they simply put away the truth

7.To protect the health of young children, ads for candy and junk food should not be shown on television. Agree or disagree?

موافق

- 1- هدف تبلیغات فروش بیشتر کمپانی ها هست، بنابر این با استفاده از جلوه های ویژه و کم رنگ کردن معایب اون باعث میشن که بچه ها ترغیب به خرید بشن در حالیکه شیرینی و جانک فود باعث بیماری های متعدد میشه
- 2- این تبلیغات بین برنامه کودک پخش میشه و والدین نمیتونن بچه ها رو محدود کنن که این تبلیغات و نبینن و تحت تاثیرش قرار نگیرن.

موافق

- ۱ - باعث ترغیب بچه ها میشه برای مثال وقتی بچه شکلات های خوشگل و رنگ و وارنگ را میبینند مشتاق به خوردن اون شکلات ها میشند
- ۲ - وقتی کودک تبلیغ یه جانک فود را تو تی وی میبینه متقاعد کردنش برای این که این غذا برای تو بده خیلی سخته برای مثال فرض کنید یه سلیبریتی محبوب اون تبلیغ را بازی کنه

Disagree

1-Children should see these ads and know about them, and then their parents should train them and say them what is actually useful for them and children will understand

2- these products can be seen by children everywhere, you cannot limit your children. This problem cannot be solved by eliminating ads from tv

8.agree or disagree: the content of advertisements in a particular country can tell you alot about that country...

agree. 1- content of advertisements is usually based on culture and people demands. so they are representation of that country. 2- they represent the economic level of that country

Disagree

- most of advertisements are not based on reality and all of them are exaggerated. Because Companies just consider their benefits, they may tell lie in their advertisement.

- most of advertisements are like each other, and people can not distinguish differences among them according to countries.

موافق

۱. شناخت فرهنگی و سلايق مردم:

تبليغات امروزه بسيار هدفمند شده اند، و مطالعات فرهنگي و روانشناسانه ي زيادي پشت هر تبليغي هستش و هدف بر اين هستش چيزي كه توي تبليغات ديده ميشه بيشترين شباهت رو به زندگي واقعي افراد داشته باشه تا ماكزيم تاثيرگذاري رو داشته باشه و مخاطب بتونه باهانش خوب ارتباط برقرار كنه. پس تبليغات ميتونه يك نماينده خوبي براي توصيف فرهنگ و آداب و رسوم اون كشور باشه. مثلا من دوستم پارسال اومده بود ايران با ديدن تبليغات چند دقيقه اي بين يك فيلم متوجه شد كه مصرف الكل بين مردم ايران جايي نداره، چون با اينكه بخش زيادي از دنياي تبليغات به نوشيدني هاي الكي مربوط هستش، نبودش در تبليغات ايران، كاملا نسبت به اين موضوع آگاهش كرد (بدون اينكه قبلا بدونه). يا من خودم با ديدن تبليغات امريكا متوجه شدم كه مردمشون به اتومبيلهاي SUV علاقه دارند.

۲. شناخت از ظرفيتهاي انساني و پيشرفت تكنولوژي اون كشور:

بخش اعظمي از تبليغات هر كشور مربوط به كالاهاي و خدمات داخلي اون كشور هستش و با ديدن اين كالا و خدمات در تبليغات ميشه به توانايي هاي انساني و پيشرفت تكنولوژي اون كشور پي برد

۳. آگاهي يافتن از PURCHASE POWER PARITY مردم اون كشور:

معمولا target customers هر كالايي عموم مردم اون كشور هستن، و با ديدن قيمتهاي كالاهاي كه در تبليغات ارائه ميشن، مخصوصا كالاهاي بيسيك، ميشه به يك شناخت خوبي از قدرت خريد و وضعيت معيشتي مردم رسيد

9.Students can learn as much by watching films as they learn by reading books.

مخالفت:

1. فيلمها معمولا براي سرگرمي و يا بر اساس اهداف خاصي ساخته شده اند تا باستفاده از زبان، عمل و رفتار شخصيتهاي فيلم يك سري افكار رو انتقال بدن. تو اين شرايط دانش آموز فقط يك observer هستش كه ميخواد چيزي كه براش ارائه ميشه رو ببينه و هيچ وقت نميخواد جاي كاراكثر هاي فيلم باشه چون اونا رو واقعا داره ميبينه و اينجاست كه نميتونه قوه تخيلش رو دولوپ كنه. ولي با خوندن كتاب، دانش آموز خيلي راحت ميتونه با تمام شخصيتهاي داستان ارتباط برقرار كنه و خودشو جاي اونا قرار بده. همزمان ميتونه كسي باشه كه داره با بيماري صعب العلاج مبارزه ميكنه و در همون حين ميتونه كسي باشه كه داره تدارك مراسم عروسيش رو ميبينه. در واقع كتاب خوندن به دولوپ كردن قوه feeling كمك ميكنه و فيلم دانش آموز رو فقط يك observer بار مياره. كه قطعا با احساس و درك شرايط، بيشتر ميشه ياد گرفت تا مشاهده يك چيزي كه برامون ترسيم كردن.

2. فيلمها معمولا کوتاه هستند و شايد در عرض يك يا چند ساعت تمام بشن و به خاطر ماهيت جذابشون يکجا ديده ميشن. ولي براي خوندن يك كتاب (حتي كتاب فيلمي كه تو 2 ساعت ديده شده)، شايد هفته ها وقت صرف بشه و اين وقفه هاي بين مطالعه مجدد كتاب فرصت خيلي خوبيه براي فك كردن راجب تمامي مطالب خونده شده قبلي، نسبت دادن اونا به زندگي خود و...

3. يكي از موارد بسيار حياتي براي دانش آموزان يادگيري توانايي خواندن و نوشتن و كسب مهارت ويژه در اين اسكيلاست. يك رابطه عميق بين نوشتن و خوندن وجود داره. با خوندن كتاب، علاوه بر تقويت مهارت خواندن، مهارت نوشتن نيز به شدت تقويت ميشه و verbal ability دانش آموزان بهبود پيدا ميكنه. چيزي كه تو مشاهده فيلم اين اتفاق نميفته. چرا كه اين مكالمات روزانه دانش آموز در مدرسه كلاس، بين دوستان و ... دقيقا همون چيزي هستش كه تو فيلم هستش و چيز بيشتر ياد نميگيره

موافق : يعني فيلم ها مي تونن به اندازه خواندن كتاب ها موثر باشند بلكه بيشتر

۱ -فيلم ها دو تا حس sense of sight و sense of hearing رو درگير ميكنند براي همين تاثيرشون زياده. به صورت ناخودآگاه تو ذهن student ميرد و طرف احتياج به تلاش براي memorising نداره. محققان نشان دادند كه تاثير subconscious learning خيلي بيشتر از conscious learning

- 2-تو بعضی مباحث کتاب ها به خوبی نمیتونن مبحث رو به صورت کامل پوشش بدهند و خیلی مباحث miss میشه ولی تو فیلم میشه این نواقص برطرف بشه و student بهتر بتونن یاد بگیرند مانند کارهای عملی بعضی رشته های فنی و حرفه ای و مهندسی و...
- ۳ - تمرکز طرف موقع فیلم دیدن بیشتره نسبت به کتاب خواندن. کتاب خواندن کسل کننده اس ولی فیلم passion ایجاد می‌کنه و بازدهی رو میره بالا

1. Everything in book-based materials is more detailed compared to films, which would teach much more context about a specific subject to learners.
2. Books are written by professional authors and professors, films on the other hand, can be made by even amateur teachers, thus students would learn much authentic contents in books; learning much is not about the quantity, it is always about the quality

10. Do you agree or disagree with the following statement?

It is important to know about events happening around the world, even if it is unlikely that they will affect your daily life. Use specific reasons and examples to support your answer.

موافق:

۱. مطلع شدن و دنبال کردن اخبار و رخدادهایی که در سراسر جهان اتفاق میافته بسیار مهم است چرا که اگرچه در زندگی امروزی ما تاثیری نداشته باشه ممکنه در آینده در زندگی فرزندان و نسل های بعدی جامعه تاثیر گذار باشه. بنابراین با دانستن این اخبار و اطلاعات میتونیم تاثیر مثبت و یا شرایط مثبتی و بهتری رو برای آیندگان فراهم کنیم
۲. دانستن اخبار و ریدادهای جهان اگرچه تاثیری بر زندگی خود فرد نداره، این شخص میتونه این اطلاعات رو در اختیار افراد دیگه ای که در حال حاضر بهشون نیاز دارن قرار بده...
۳. آگاه شدن از رویدادهای مختلفی که در اقصای نقاط جهان اتفاق میافته با وجود اینکه در زندگی روزانه افراد تاثیری نداره باعث میشه اطلاعات عمومی فرد افزایش پیدا کنه و کمک میکنه فرد اپدیت باشه. اپدیت بودن میتونه در مواقعی مفید باشه برای افراد. مثلا وقتی در یک جمع، دوستان در مورد مسائل سیاسی بحث میکنند، آگه ما اخبار و حوادث سیاسی رو دنبال کرده باشیم میتونیم حرفی برای گفتن و بحث کردن در این جمع داشته باشیم

Disagree

- 1) Wasting time/ we could better concentrate on our responsibilities in the best way rather than know about events, these are more beneficial for us in the future/ distracting
- 2) There are an enormous amount of hopeless events in these days turbulent world/ would make individuals disappointed about the humanity and cause bitter time/ bad emotional effect

11. Some people like to buy new and expensive books while others prefer to buy old and cheap ones. Which would you prefer?

12. Do you agree or disagree with the following statement? With the popularity of the technology that focuses on entertainment, people read fewer books than before.

13. Talk about a type of movie you do not like. Explain why you do not like this type of movie.

14. Watching TV is not a good use of time. Do you agree or disagree?

15. Some people think that the library should be quiet. Some people think that social activities should be provided for students to meet friends and have meetings. What do you think?

16. School campus newspapers need to add a new section, which ones you think will make students feel interested: 1) local restaurant reviews; 2) tips on travelling; 3) film recommendation

17. Some people think with the development of technology and Internet, libraries will disappear while others think libraries are always necessary. Which idea do you agree with, and please give specific details to support your opinion?

18. Do you agree or disagree with the following statement? One of the best ways to learn about a country's culture is through watching television shows in that country.

19. Describe one of the most popular websites in your country? Explain why it is popular with details or examples.

20. Which of the following ways is the best in getting to know Italian culture?

watching Italian movies
learning Italian cooking
attending Italian lectures or classes

21. Many people prefer to read books in electronic format on a computer screen or other devices. Some other people prefer to read books on paper printed copies. Which way do you prefer? Why?

22. Do you agree or disagree with the following statement?
With the popularity of the technology that focuses on entertainment, people read fewer books than before.

23. Some people prefer to buy new books while some people would like to buy used books. What is your opinion?

24. Which do you think is better: watching the news or reading the news? Explain why.

25.Which of the following areas of current events do you most like to read about? Politics

Sports

Arts and films

26.Some people prefer to learn about current events from watching television news programs. Others prefer to read about current events in newspaper or on the Internet. Which one do you prefer? Why?

27.Describe one thing you didn't want to do but you were asked to do. Explain what the result of that thing was. Include reasons and details in your response.

28.Among the following three types of books, which do you like the least? Mystery novel, science fiction, biography.

29.Which do you prefer, reading paper books or reading electronic books? Explain why.

30.Do you agree or disagree with the following statement?

Because of the growing popularity of entertainment technology, fewer people take the time to read books for pleasure.

Disagree

First, although people have more entertainment by technology, individuals take advantage of their cellphones or laptop to read electronic books conveniently.

Second, reading books would not be replaced with entertainment of technology because human being are hard-wired to study and get knowledge from books.

موافق

1. این تکنولوژی های جدید برای سرگرمی، دارای جلوه های ویژه و نوع آوری های خیره کننده ای هستند و افراد بیشتری رو جذب خودشون میکنن و طرف

دوست داره تایمش رو با این بازی ها پر کنه تا مطالعه کردن حوصله سربر و یکنواخت

2. این تکنولوژی های جدید، این قابلیت رو فراهم آورده تا افراد دور هم این بازی ها رو انجام بدن و به خاطر این قابلیت و علاقه انسان به گذراندن تایم با

دیگران بیشتر به این سمت کشیده شده اند تا تنهایی کتاب خوندن

31.Do you agree or disagree with the following statement?

One can learn a lot about another person by book and movies that person like.

ساید انتخابی: موافق

1) Having known about various books and diverse movies people are keen on, one can determine their level of literacy. To elucidate on, there is a direct connection between the types of written and visual materials individuals

select and their level of education. In essence, they pick out aforementioned stuff according to their treasury of knowledge and understanding, so we can actually specify to which extent they are well-educated by being aware of what they read and watch.

2) By being aware of designated books or films of someone, his perspective on the life can be inferred. Vividly, people follow the stories that are match to expectations about that context and naturally avoid opposing ones. This is because it is pleasurable for individuals to look at world as they want. As result, realizing what films and books can help others to find out the way they look at world.

3) As people try to cumulate their daily information by reading books or watching movies, a great amount of information of one's might be gathered by accurately considering one's beloved book or movie. In this regard, a large part of individual's knowledge obtained by reading books which is selected based on his personality. Besides, movies contain attractive and detailed information about countries or peoples that through watching them, one can gain a lot of data with its scenes. Therefore, the initial resource of someone's knowledge is constructed by these two accessible sources.

4) Firstly, according to books and movies that one read and see their minds will be shaped, so a lot of things can be learnt from them. In fact, people learn new ideas and scopes of thinking by using these media. When individuals regularly get involved by a specific genre of movies and books, undoubtedly, their thought will be guided through highlights of that genre. Hence, by examining the books, a massive cluster of information can be achieved.

5) An effective way to learn about someone's feelings is to acquire information about which books and films they like. Gaining knowledge about the type of books and genres of movies, individuals come up with numerous details about their emotional state of mind. For instance, people who are in emotional break-ups have a thirst for romantic movies and they inclined to study relationship tips for more appropriate interactions with opposite gender. Thus, we can readily realize people's mentality and senses by means of books and movies they are fond of.

6) Another beneficial way to expand our knowledge of someone is to know about their fields of study which is possible though knowing about what movies and books they prefer. Ordinary people do not choose particular scientific books or movies as an entertainment unless they have the prime knowledge that they obtain in the universities, and those who have inclinations into interstellar documentaries have basic knowledge about how they function. Therefore, films and books can be implications of determining a person's academic degree.

32. Describe a piece of news or a news story that you have been interested in recently. Explain why you think it was interesting. Include reasons and details in your response.

33. Do you agree or disagree?

Movies are worth watching only when they teach something about real life.

مخالف

۱- فیلمسازی یک هنر و ممکنه با دیدن یک فیلم فقط حس فیلمساز به ما منتقل بشه، مثل فیلم های انتزاعی و تجربی

۲- بعضی از فیلم ها تخیلی یا ژانر وحشت یا فان هستند و فقط برای سرگرمی و لذت مخاطب ساخته شده اند و باعث میشه از استرس روزمره دور بشیم

مخالف

۱ - ما فیلم می بینیم که از دنیای رورمره فاصله بگیریم، نه بخاطر اینکه صرفا بخوایم چیزی یاد بگیریم. با اینکار قصدمون اینه که فشار و استرس زندگیمونو برای لحظاتی فراموش کنیم. برای مثال فیلم های طنز معمولا چیزی برای یادگیری ندارن و یا اینکه در فیلم های عاشقانه طی یک روال تکراری دو نفر به هم میرسند. ولی همین فیلم ها باعث سرگرمی و آرامش میشن.

۲ - برخی فیلمای هستن که جنبه زیبایی و تکنولوژی بشون بیشتر از مفهوم فیلم ارزشمنده.

موافق

۱. وقت آدم محدود و ارزشمند هست از طرفی فیلم ها به دلیل محتوای بصری و حالت داستانشون میتونن بهترین روش برای آموزش سبک زندگی درست و با کیفیت باشن. بنابراین با استفاده از این پتانسیل و درنظر گرفتن محدودیتی که از نظر زمانی داریم، مشغله های بیشمار فقط وقتی که چیزی در مورد زندگی واقعی یاد میدن ارزش دیدن دارن.

دوم اینکه تاثیر بد و مخرب فیلم هایی که چیزی برای یاد دادن در مورد زندگی واقعی ندارن مثلا فیلم های علمی تخیلی یا ژانر وحشت. فیلم های علمی تخیلی یا ژانر های وحشت میتونن تاثیر بدی روی ذهن و روان انسان داشته باشن و باعث بشن آدم مدام در تخیلاتش باشه. فیلم های خشن به باز تولید چرخه خشونت کمک کنه. فیلم های وحشتناک تاثیرات عمیق ترس و وحشت رو ایجاد کنه. فیلم های علمی تخیلی انسان رو از روال عادی زندگی روزمره دور کنه و به جای تلاش برای رسیدن به موفقیت های کوچیک و پیوسته روزمره که یک کسل کنندگی ذاتی داره به هر حال. آدم رو مدام غرق در تخیلاتش بکنه، و سرگرم فکر کردن درباره اتفاقاتی که هرگز نیفتادن و نمیشن.

34. Some people like to watch or listen to news every day while others do that occasionally. Which do you prefer and why? Use specific reasons and examples to illustrate your point.

35. Some people like to read paper books while other like to listen to audio books. Which do you prefer and why?

36. Which type of movie is not enjoyable for you to watch: action, romance or science fiction movies? Please give your answers with specific examples and details.

37. There is going to be a students' TV show. Which show would you like to watch. Please Give your reasons. a. An interview with school leaders/b. Students' debate on political and social topics/c. Comedy about school life

38. Which of the following areas of current events do you most like to read? a. Politics/ b. Sports/ c. Arts and films

39. Do you prefer watching TV programs for knowledge or just for entertainment?

First, by watching TV programs people can have an easy, unprecedented way of access to various sources of knowledge.

Second, in terms of money and time, TV-viewing can be considered as an efficient way of accumulate knowledge in a short period of time.

knowledge

Television program providers equip people with useful scientific documentaries, which play a pivotal role in broadening people's knowledge.

Most of the movies presented in the television are created based on real life and decisions are being made in different situations; thus, people by watching television programs would be able to broaden their horizons about their real lives and interaction with others.

**40.Do you agree or disagree with the following statement?
Printed books have had greater effects on society than television.**

Agree

1. Since printed materials have abundantly been available for several centuries, people used such books to acquire knowledge, while television has emerged relatively recently.
2. Schools, where people learn a great deal of information, educate students by books. Since the learnings from the school years play a pivotal role in how people act in society, books have had a great impact on society

مخالف

۱. از اونجایی که مردم این روزا زمان زیادی رو صرف تلویزیون نگاه کردن میکنند، در نتیجه بیشتر اطلاعات و دانششون رو از تلویزیون بدست میارن و در نتیجه خیلی بیشتر تحت تاثیرش هستن (میشه ریز هم به این اشاره کرد که وقتی برای کتاب خونن نمیمونه)

۲. برنامه ها و شو های تلویزیونی معمولا از افراد تاثیر گذار و مشهور توی برنامه هاشون استفاده میکنن که خب این باعث باشه خیلی روی مردم بتونن تاثیر بذارن چون مردم اونارو الگو قرار میدن.

41.Do you agree or disagree with the following statement? It is more enjoyable for students to read works of fiction (such as novels and stories) than nonfiction.

Fiction

1. Reading such materials gives students a chance to take a break from the real-world, adult life. They usually feel misplaced in this linear, logical world, and engaging in fiction works is a best way to escape this rigid and routine life.
2. spending time reading unreal stories and novels is synonymous with fostering imagination and creativity. involved in fiction works and living vicariously through the main character of the story, students can develop their out-of-the-box thinking.
3. The surprising and unpredictable nature of non-real reading materials makes these works popular among children and teenagers. Contrary to non-fiction books always ending with a strong and predictable moral lesson, novels have always something shocking to offer as the story goes by.

42.Do you agree or disagree with the following statement? Movies and television strongly influence the way people behave? Use reasons and specific examples to support your answer.

-movies and TV shows make negative behavior glamorous. They demonstrate violence, bad language, sex, drinking, and drug in a positive light. Prolonged exposure to these digital contents will affect their way of living. They arrive at the conclusion that the solution for every problem is resorting to violence. It does not matter whether the main character is a hero or an anarchist. It will take its toll on viewer any way. For example, Western youngsters watching the movie Batman were reportedly engaged in gun crime. When asked about their intention to commit crime, they

mentioned the hero of the movie beating up the bay guys to subdue them.

-movies and commercials' close association has taken advantage of human need to show off and flaunt to promote consumerism and a materialistic world. What we see on TV screen or cinema is not a simple show or a movie. They try every trick in the book to promote a luxurious and extravagant lifestyle to make truckloads of money. They drive home the notion that the life that people are leading is not worth living and equate happiness with having the same life as the characters of the movies and shows. People watching these programs get the wrong impression that they should work hard and spend the last penny of their hard-earned money to find happiness. When they don't manage to find it, they demonstrate depressive symptoms and feel emotional insecurity. These mental problems affect their overall behavior.

43.Do you agree or disagree with the following statement? It is important to read or watch the news presented by people whose views are different from your own rather than the news presented by people whose views are similar to your own.

/agree/

1. Following the news prepared by the people who are not the same opinion with them, people will avoid assessing the news in a biased way and consider all of the facets into account when they want to make the ultimate decision.
2. Reading the news from the contrary perspective, people can get familiar with other views which do not bear close resemblance to theirs, associate with their antagonists and even ameliorate their perspective using the heterogeneous

idiosyncrasies.

44.Do you agree or disagree with the following statement? Most advertisements make products seem much better than they really are.

1. امروزه دولتها جریمه های سنگینی برای کارخونه ها و شرکت های تبلیغاتی وضع کردن که اگر کالاهاشون رو بزرگنمایی کنن با جریمه های سنگین روبرو میشن. برای همین شرکتها و کارخونه ها عملا به این تبلیغات روی نمیارن و ریسک نمیکنن و تبلیغاتی که امروزه وجود داره دقیقا مطابق با واقعیت خود کالا هستن.

2. امروزه به خاطر دسترسی روز افزون مردم به اینترنت و شبکه های مجازی، مصرف کننده ها خیلی راحت میتونن به اقیانوسی از اطلاعات کالاها موجود در بازار دسترسی پیدا کنند. چرا که خیلی از کاربران و مصرف کننده های حقیقی نظر خودشون رو راجب کالاها مصرفی میکنن و خریدار با استفاده از این نظرات ابجکتیو، به حقیقت کالا پی میبرن. شرکت های تبلیغاتی با دوستن این حقیقت، هیچ وقت کالایی رو بزرگنمایی نمیکنن چون میدونن نه تنها مردم باور نمیکنن، بلکه اثر منفی داره و اعتبار و اعتماد کارخونه زیر سوال میره

**45.Do you agree or disagree with the following statement?
Movies are worth watching only when they teach something about real life**

Disagree

- 1) In today's hectic days we are living, individuals prefer to have fun with watching movies like comedy films to change their mind after a long working day, dose not matter teach something about real life.
- 2) There are a plethora of movies which may do not increase our knowledge about our daily lives, like science-fiction films , but improve our imagination which can flourish creativity.

Agree

1. Since in the contemporary era that is the question of time, watching the movies which are not informative and do not present people such precious instructions about the real-life is utterly waste of time which can people dedicate to more invaluable activities and prosper in their life.
2. The movies which are associated with the fiction and do not provide information about the real world for their

audience can definitely keep them away from the facts and actual incidents and engage them with illusion and daydreaming. So, they are so detrimental and avert them from the route of prosperity and distract them.

3. As the movies which are not related to the actual issues are usually bound up with the insanity, terrifying events and violence they conspicuously lead to showing misbehaviors and can engender a lot of psychological aftereffects for their spectators.

1. دور نگه داشتن افراد از زندگی واقعی و اونها رو در زندگی خیالی نگه داشتن

2. ایجاد مشکلات روانی و رفتارهای بد در جامعه

46. Do you agree or disagree with the following statement? It is better to stop reading and listening the news for a period of a few days or weeks.

○ BEHAVIOER AND PERSONALITY AND PREFERECE

1. Because people are busy doing so many different things, they do very few things well. Agree or disagree?

موافق

هیچ انسانی کامل نیست. افراد دارای مهارت و استعداد در زمینه های محدود هستند.

امروزه مشغله ها زیاده و همیشه تو زمان محدودی که در اختیار افراد هست، بتونن زمان کافی به انجام با کیفیت همه کارها اختصاص بدن.

مخالف

پیشرفت تکنولوژی و افزایش دسترسی به برنامه های آموزشی مختلف، باعث میشه با اختصاص زمان کم تر، با روش های استاندارد انجام کارها آشنا شد و همه رو به خوبی از پیشون براومد.

توسعه شبکه های اجتماعی باعث گسترش ارتباطات اجتماعی شده و افراد تجارب خودشونو به اشتراک میذارن و بقیه در انجام کارها از روش های به نتیجه رسیده، پیروی می کنند و سعی می کنند خطاهایی که باعث شکست شده را تکرار نکنند.

Agree

They are less concentrated.

Disagree

Doing many different tasks make their mind more active.

2. Current celebrities (like musicians, actors) set a good example as a role model for the young people

Disagree

1/ most of nowadays celebrities have unforgettable misbehaviors in a society that lead juveniles to imitate them and repeat those adverse behaviors.

Such as drug addiction which has become common recently.

2/these renown individuals just give up school and become flourish and prosperous owing to their luck and appearance despite their illiteracy; hence, the young will follow their path and do not put effort into study for their courses in school and college.

Disagree

1. Most of the public figures and famous characters don't have a successful and prosperous life as they endure extreme pressure in their lives caused by stressful and challenging profession they have. In this vein, the vast majority of celebrities are engaged in drug-using and excessive alcohol consumption to escape the hardship they face in their vocation. When youngsters imitate their lifestyle, they will learn celebrities' anti-social behavior.
2. considering famous people as positive role models, young generations will fall into the comparison trap. Most of the celebrities, including actors, athletes, and singers, have a reputation for their physical appearance, good looking, and other fascinating personality and physical traits. When young people compare themselves with these particular groups of society, they are more likely to suffer emotionally as they find themselves without those appealing features that their role models possess.

3. Do you agree or disagree with the following statement? It is better for the younger people to take risk and explore new things than the older people.

Agree

The younger people are more prepared to risk rather than older ones because they have much more time and energy to continue or even compensate if the risk lead to grave consequences

Risk is often accompanied with uncertain events so it needs enough and up-to-date knowledge to deal with them
But older people are not able to be up-to-date like youth

4. Some people prefer to focus on ambitious dreams while others think realistic goals are more important. Which do you prefer?

امییشس

۱. وقتی بلندپرواز تر باشن، تلاششون بیشتر میشه و با انگیزه تر عمل میکنن
مثلا من دلم میخواست فضانورد بشم و این جزو اهداف بلندپروازانه و تقریبا بعید من بود.. ولی چون خیلی دلم میخواست تلاش کردم و چشم درومد الان فضانوردم
مثلا ولی اگه میخواستم واقع گرا باشم، الان خانه دار بودم
۲. اهداف بلندپروازانه ب ادم انرژی و انگیزه و اعتماد ب نفس میده. ب لحاظ روحی ادم رو تقویت میکنه و حس ارزش ب ادم میده

**5. Do you agree or disagree with the following statement?
Because modern life is very complex, it is essential for young people to have the ability to plan and organize.**

Agree

- 1) complicated lifestyle causes stressful lifestyle and preoccupation needed to be solved by a good plan. Being organized could shift humans away from struggling with the chaotic lifestyle and get relieved of the high pressure of the tasks on human being. Being disciplined have profound effect on the mental health that hectic life could bring for mankind.
- 2) It is enormously difficult to become successful in the future goals in these days precarious lifestyle. Individuals in order to achieve their goals should be well-organized. Humans are highly passionate about being prosperous in their lives and this goal could not come true, rather than being a planned person and not to be distracted by the hustle and bustle of this world. Prosperity needs to have a high-effort making and planning for future intends.

6. Do you agree or disagree with the following statement?

Because modern life is very complex, it is essential for young people to have the ability to plan and organize.

Disagree

1. To begin with, although life has become more complicated, thanks to the art of technology, there is a wide range of new gadgets and equipment producing many specific plans for young people who even are not in possession of the ability to make plans. To be more specific, youngsters have access to internet and online programs producing and designing many novel and excellent plans for them just by clicking on the bottoms of keywords.

2. Moreover, in a rapidly changing world, having the ability to plan and organize makes various stress; thus, young people should be free for doing whatever they want in each moment without tension. In other words, advanced plans would bring about bustling activities that individuals have to do and complete them thoroughly.

7. Sometimes we are assigned to work in a group on a project. Do you agree or disagree with the following statement? The group will be helped more by a person who will be willing to do what other group members want than by a person who often strongly insists that things should be done in a way that is different from what the group wants to do.

(insist)

1) When adamantly persisting on their own ideas different to those of the team, these group members encourage creativity and out-of-the-box thinking. In every group collaboration, nothing is more harmful than employee apathy and lack of enthusiasm. Asking team members to follow just what they have been told from the above is a recipe for compromised productivity. A person holding opposite views to what have been introduced as protocols and goals can reverse this situation. Having a person stubborn resistant around, other members get influenced and start thinking clearly without any external pressure. Under such a circumstance, any idea from the brainstorm will not remain fruitless since they can easily speak out their mind. When they are asked about the group strategies, they will no longer show indifference by blindly following or by giving a nonchalant shrug.

2) A person opposite to the main goals and rules of the group is of great assistance since they will put strenuous effort to prove they were right. A group is as strong as its members, but members who put their heart and soul into their duties not those who are just there. Slacking off in the workplace or group activities poses threats to the accomplishment on the whole. A member cherishing different view to that of the majority is of great help to put a curb on this undesired development. This person works round-the-clock to make others understand what he or she thinks is true. In this situation, they inspire their surroundings to show a high level of perseverance and stop mediocrity. Whether working toward the group's established goals or those of their own, the rest of the group will show a high level of hard work because of the impression they get from the hard work of the person thinking different from the others.

3) Group will be helped by the people who insist on doing things in a different way from what group wants to do because group members may find more effective solution in this way. To be more specific, doing things in different way create good opportunity for groups to change their ordinary perspective helping them look at projects in differently. After this, members start to focus and develop their solutions based on new perspective, which may result in more effective than that of before. As a result, it is more helpful to have someone insisting on using new revenues for assigning projects.

8. Do you agree or disagree with the following statement? People care more about public recognition than about money. Even if no more money is given, public recognition can still make people work harder.

Human beings inherently crave admiration and acceptance. This is why they naturally prioritize public recognition over monetary incentives, as this arrangement helps them to fulfill their natural zeal to be noticed and appreciated.

People put their strenuous effort and demonstrate a high level of perseverance and dogged determination in their workplace, even if there is no monetary compensation involved for their hard work. They do so because this diligence get them noticed by their co-worker and superiors or even earn them nationwide recognition. This fame, in most cases accompanied by adulation, gives them an indescribable pleasure that cannot be substituted with whatever amount of money. This is because appreciation and tendency toward acceptance is the strongest established need in human nature. After all, as the wise man once said, "There is more hunger for fame and appreciation in this world than for bread."

If looking for a strong reason why people are driven to work hard to gain public recognition in preference to earn astronomical remuneration, we can attribute this choice to the fact that reputation will stand them in a good stead in their chosen field. Individuals know that their position will not perpetuate forever; company's financial meltdown, laying off, and other unpleasant policies constantly pose threat to their seemingly guaranteed position. Considering money as a fleeting and temporary commodity, people work hard and round-the-clock to make a name for themselves so as to be sought-after in the job market. What's more, no one wants to be dictated forever by their superiors and endure the micromanagement of their employer; They want to carve up a niche for themselves in their field to be their own boss. It is evident that public recognition is of great assistance for this purpose, not the given money that is temporary. This is why those who are the first person in their workplace and the last person out are famous not necessarily well-paid.

خاطر ادبیات خاصش هست
برداشت من این بود که بین پول و مقبولیت اجتماعی، کدام انگیزه بیشتری به فرد می‌دهد برای کار کردن سخت‌تر؟
در صورت موافقت با p r
1. افراد تلاش بیشتری برای مقبولیت اجتماعی می‌کنند تا پول، چون بهشون حس رضایت نسبت به خود و در درجه ی بعد، اعتماد به نفس می‌دهد که باعث میشه عملکرد بهتری در تمامی جنبه های زندگیشون داشته باشن
2. افراد قضاوت دیگران در هر سن و مرحله از زندگی باشن براشون مهمه، از این واهمه دارن که به خاطر ویژگی های بشون در جامعه شناخته بشن
پس تا در توانشون هست، برای pr تلاش می‌کنن و نسبت به پول بهش الویت میدن

موافق
۱. وقتی شناخته شده باشن، بیشتر توو چشم هستن و این باعث میشه سخت تر کار کنن تا یوقت مردم نظرشون نسبت ب اون ها تغییر نکنه
۲. وقتی p r خوبی داشته باشن، انگیزه کار کردنشون خیلی بیشتر میشه و باعث میشه سخت کار کنن چون از سمت مردم تشویق میشن
مخالف
۱. اینکه آدم پول نداشته باشه ولی p r خوبی داشته باشه ک برای آدم نون و آب نمیشه .
یعنی ممکنه دریافت پول کمتر نسبت به اون سطح از پابلیک ریکاگنیشنی ک طرف داره باعث شه که اصلا نسبت ب اون کار زده شه... پس پول براشون خیلی مهم تره چون اگه پول نباشه چیزای دیگه ب چشم‌نمیاد
۲. مردم این باور رو دارن ک پول حلال مشکلاته و وقتی باشه بقیه چیز ها باهاش ب دست میاد حتی

9. Do you agree or disagree with the following statement? A good leader should spend more time listening to other people's ideas than taking his or her own ideas.

Agree

- مدیر با نظرات متنوعی روبرو خواهد شد که کمک می‌کنند تا نتیجه اقداماتش موفقیت آمیز تر بشه.
- سایر اعضای گروه احساس مهم بودن و مورد توجه بودن می‌کنند و اینکار اونهارو ترغیب می‌کنه تا با میل و انگیزه بیشتری کار بکنند.

10. Do you agree or disagree:

It is better to travel abroad to visit different countries when you are younger rather than when you are older.

موافق
1. توی سن جوانی آدم ها دنبال تجربه های جدید هستن، پس برای دیدن و بهره بردن از کشورهای جدید بسیار با اشتیاق هستن. در این صورت، دستاوردهای بیشتری از اون مناطق میتونن داشته باشن. مثلا تشنگی بیشتری برای پیدا کردن علت و عوامل اتفاقات گوناگون مربوط به یک کشور دارن.
2. فرصت بیشتری توی زندگیشون دارن تا آموزه های سفرشون رو وارد زندگیشون بکنند و روند زندگیشون رو تغییر بدن، چرا که سفر فرهنگ و دانش های گوناگونی رو به آدم یاد می‌ده .

موافق

۱. وقتی تو سن کمتر بریم مسافرت، میتونیم با فرهنگ ها و آدم های مختلف آشنا باشیم و در ارتباط باشیم که این باعث میشه که تجربه خوبی جمع کنیم که بهمون در آینده میتونه کمک کنه. مثلاً با آشنا شدن با فرهنگ های و آدم های کشورهای مختلف خیلی راحت تر میتونیم توی شرکت چند ملیتی کار کنیم (چون با فرهنگ های مختلف آشنا هستیم و میتونیم توی اون فضا با بقیه کار کنیم) که شرکت های به مراتب بهتری هستن و مزایای بهتری دارن.
۲. وقتی تو سن جوونی سفر می کنیم به کشور های مختلف، این فرصت برامون هست که اون کشور رو کامل بگیریم و یا تمام جاذبه هاش آشنا بشیم. در واقع سن آدم که بالاتره انرژی تحلیل میره و ترجیح میده، تو سفر هایی که میره جاهای محدودی رو ببینه ولی وقتی توی جوونی میره سفر کلی انرژی داره و تو سفر به کشور های مخالف سعی میکنه همه جا بره و سفر بهتری رو برای خودش رقم بزنه

مخالف

فرد در دوران جوانی خود درگیر تصمیمات مهم و تأثیرگذاری در زندگی است. بنابراین با فراغ بال نمی تواند به کشورهای مختلف سفر و از دیدن جاهای مختلف لذت کافی را ببرد. معمولاً افراد در سنین پایین تر از استقلال کمتری برخوردار هستند و همچنین محدودیت مالی دارند. در سنین بالاتر با استقلال از خانواده خود و با درآمد خود می تواند آزادانه با لذت بیشتری سفر کند.

موافق

- 1- وقتی یک نفر توی جوونی به جایی سفر میکنه و نقاط مثبتش رو میبینه و مقایسه میکنه با نکات منفی کشور خودش، ممکنه که بخواد که بره در کشور دوم زندگی کنه و این برایش عملیه کاملاً. در حالیکه برای یک فرد مسن این اتفاق تنها باعث میشه حسرت زندگی گذشتهش رو بخوره و حتی از اون مسافرت برایش تبدیل به یه خاطره بد بشه.
- 2- با مسافرت به جاهای جدید انسان چیزای جدید یاد میگیره. یک جوون میتونه چیزایی که یاد گرفته رو توی زندگی خودش پیاده کنه و نهایتاً یک تغییر مثبت رو توی زندگیش رقم بزنه در حالیکه یک فرد پیر دیگه عادت کرده به زندگی و عاداتش بر اثر سالها تکرارشون. بنابراین برای بهره بردن از یکی از تأثیرات مهم مسافرت بهتره که تا جوون هستیم بریم مسافرت.

11.University students are often encouraged to study fields in which significant job growth (a large increase in job opportunities) is expected; these fields currently include science, technology, engineering, and math, do you believe students should consider studying fields related to these subjects even if they are more interested in other subjects? Why or why not?

مخالف.

1. علاقه داشتن به هر زمینه دانشجویان رو مشتاق به کسب آگاهی و علم بیشتر در اون زمینه میکنه، که خود به خود فرصت های شغلی برای اون دانشجو هم افزایش میابند.
2. دروسهای تکنولوژی، ریاضی و مهندسی بسیار خسته کننده هستند، که به زور خوندن آنها نتیجه عکس خواهد داشت و دانشجو رغبت و توان برای ادامه تحصیل نخواهد داشت. از درس زده میشن

12.Do you agree or disagree with the following statement? In today's world, it is more important to work quickly and risk making mistake sure that everything is correct.

To begin with, working with slow manner, individuals can evaluate all aspects of their tasks and take advantage of invaluable other people's experinces,both spectaculare failures and remarkabe suceeses, leading them to acquaire fascinating insight and in-depth knowldege. on the other hand, making decisions and carying out duties only on the basis of some quick thoughts and hasty judgements, one gains only a superficial information.

Furthermore, taking enough time to get work done wih high accuracy will assure people remarkeble achievements, giving them a considerable degree of sense of satisfaction and accomplishment. to put in other way, the more people spend time doing their work, the more they will enjoy the benefits of having their job done correctly.

من واسه این یه دلیل و گذاشته بودم:

که براشون امنیت شغلی میاره که اونم تو این دوره زمنه که به خاطر متقاضیان زیاد اولین اشتباه ممکنه اخیانش باشه یکی دیگشم این که وقتی ادم مطمئن باشه از درست بودن کارش استرسش کاهش پیدا میکنه که همین باعث میشه productivity و performance و افزایش پیدا کنه و در اخر به یه endresult خوب برسی

13. Some People like Participating in performance like theatrical or musical show. others Prefer to be in audience watching those Plays. Which one do you prefer?

موافق

۱. مشارکت در این برنامه ها باعث میشه مهارت های مرتبط با بازیگری یا نوازندگیمون تقویت شه چرا که مجبوریم تمرین کنیم
۲. با مشارکت در این برنامه ها مهارت های اجتماعیمون هم در اثر رابطه با همگروهی ها افزایش پیدا میکنه
۳. مشارکت در این برنامه ها میتونه به تقویت خلاقیت و ایده پردازیمون بشه چرا که برای اجراهای مختلف و ایجاد تفاوت در برنامه ها مجبور به ایده پردازی هستیم

یکی اینکه میشه گف تلنت کافی توی این رشته رو ندارم و کلا اینترست نیستم توش
دو اینکه ترجیح میدم بین حضار باشم و بدون هیچ استرس و مسئولیتی از نمایش لذت ببرم

14. Do you agree or disagree with the following statement? Because the world is changing so quickly, people now are less happy or less satisfied with their lives than people were in the past. Use specific reasons and examples to support your answer?

Agree

First, the fast-paced evolution of the world has affected human beings lifestyle negatively, making busy schedule and hectic life; therefore, people today are less happy than those were before. In fact, individuals today have to work hard to make money; thus, they are overwhelmed by many hard tasks at workplace or unfinished duties at home. In this condition of unhealthy life, people suffer from depression or dissatisfaction during their daily life; however, people of the past had more free time to enjoy each moment.

Second, in the modern world where the realms of technology and media are expanding dramatically, people extremely show off their real life, causing unhappiness and dissatisfaction for others in community. In other words, the present generations exaggerate real events in life in order to post on social media, sad but true, this dishonest behavior is increasing in each society increasingly. Although some photos and clips, not all, are real, leading to a sense of disappointed and sadness in a given community.

Diagree

1. quick chang of the world helps humans to live vividly, while living in ther past was too boring.
2. Quick change of the world makes more novel experiences for humans like invention of new technology, which provides a convenient life-style nowadays.

مخالف

1. از اونجایی که دنیا به سرعت در حال تغییر و پیشرفته، تکنولوژی های جدید زندگی رو بسیار راحت تر کرده و این باعث شده افراد رضایت بیشتری از زندگی داشته باشن
خیلی از مشکلات گذشته حل شده مثلا الان مردم میتونن با عزیزانشون که از شون دور هستن به راحتی در تماس باشن، با هواپیما خیلی سریع به همه نقاط دنیا سفر کنن در حالیکه در گذشته سفر به مناطق دور سخت بود و بسیاری از بیماری کشنده درمان شدن و خیلی پیشرفت های دیگه که مشکلات حل کرده و منجر به رضایت بیشتر از زندگی شده و مردم شاد تر هستن
2. چون عدالت و رفاه اجتماعی نسبت به گذشته بیشتر شده مردم خوشحالترن، در گذشته بیشتر قبایل و کشور ها هنواره در حال جنگ بودن و مردم آرامش نداشتن یا افراد ثروتمند و پادشاهان بر مردم عادی غلبه میکردن و در نتیجه اونا از زندگی ناراضی بودن و یا حتی چون مردان به زنان برتری داشتن بطوریکه زنان از حقوق اجتماعی بسیاری محروم بودن و این باعث میشد زنان از زندگیشون ناراضی باشن ولی الان تا حد قبل قبولی این مشکلات رفع شده و مردم بیشتری از زندگی رضایت دارن و خوشحال ترن

15. Do you agree or disagree with the following statement? Leadership comes naturally: one cannot learn to be a leader.

agree

first, more important features of leader is devotion and it's not something that can be achieved by learning
second, basically Leadership is seen as having to make a fast and suitable decisions for unprecedented events and I think that's inherent not about your learning.

disagree

first, leadership has a set of constant rules that build main body of management, thereby if you learn them and make the pliable decisions in facing problems you can be a leader.

second, all human beings have the same creation, and with the right education, they can become leaders.

Disagree

First, human beings are not hard-wired to be a leader; therefore, leadership can be learned through experience. In other words, individuals faced with a wide variety of ups and downs in their job condition or lives are able to manage a community or group as an excellent leader. In this vein, it is widely proven that decision-makers are inclined toward the opinion that one person can promote to leadership level who challenged with many problems and have suitable communication skills. Thanks to hands-on experience, a experienced leader can manage a group to find and overcome the roots of arduous in their positions and simultaneously create a friendly job environment. Consequently, believe or not these invaluable experiences are not inherent.

Second, being a leader requires in-depth knowledge and insights come from education and hard study. With this in mind, a majority of successful and well-known leaders studied in specific field related to leadership. In this condition, people study and ready various references educated by elite managers and professors to help how should manage a group and how interact with them successfully.

مخالف:

الان دانش گسترده امکان یادگیری و تجربه همه چیز رو ساده کرده، کورس های آموزشی آنلاین و متريال جديد کمک میکنند که آدم یاد بگیره اصول مدیریت رو و دوم اینکه مدیریت یک بحث مهارتی هست و نیاز به تسلط همه جانبه داره، پس میشه با تجربه کردن فضاهای کاری مختلف و کار کردن در محیط های حرفه ای بهش مسلط شد.

ذاتیه

چون لازمه لیدر بودن فداکاریه و این ذاتیه و آموزشی نیس
دوم که رهبری باید ایجاد آرامش و اعتماد به مردمش بده و اینا هم با آموزش حاصل نمیشن

16. Some people have ambitious dreams and keep pursuing them, but others think we should always focus and try to achieve realistic. Which do you think it is better and why?

To begin with, in today's complex world, focusing on ambitious dreams pave the way for getting rid of the hustle and bustle of ordinary life. In fact, should individuals concentrate on unreal things, they can create a sense of happiness and satisfaction.

Moreover, paying more attention to ambitious dreams, people make many strenuous efforts to achieve their goals. To be more specific, dreams assist people follow their targets actively and work deeply to obtain at least a half of them.

17. Some people want to change their appearance, even by surgery. Do you agree or disagree? Give your reasons.

18. Some people believe that we should not discuss the private activities of the popular people, like movie stars and singers. Do you agree? Why?

19.Do you agree or disagree with the following statement? Current celebrities (like musicians, actors/actresses, athletes) set a good example as role model for the young people.

20.In every culture, there are some customs or traditions from the past that young people no longer follow. Describe a custom or tradition from the past that is no longer common but you wish was still popular today. Give specific reasons why you wish that was still popular.

21.Your friend has to work a lot. Please suggest a hobby to help him spend his weekend in a more delightful way. Explain why. Please include details and examples in your explanation.

22.Describe what you were like when you started attending school.

23.Do you agree or disagree with the following statement? It is easier to be an adult than it is to be a child.

24.Some people prefer to solve a challenge all by themselves. Others prefer to depend on other people's help. Which do you prefer and why? Include details and examples in your explanation.

25.Some people prefer to have their schedules fully and specifically arranged. Some people, however, prefer to leave themselves a lot of free time. Which do you prefer and why?

26.Do you agree or disagree with the statement? It's never acceptable to interrupt other people when they are talking.

27.Some people like participating in performance like theatrical or musical show. Others prefer to be in audience watching those plays. Which one do you prefer?

28.Female and male university students should have separate residence halls. Do you agree or disagree?

1. gender segregation in university hall can hinder the process of interaction with the opposite sex, depriving students of a monumental chance to communicate with opposite gender

2. The possible inequality in distribution of facilities in these two separated parts can accuse university of being biased in favor of a specific gender

Disagree

1)First, when both genders are in the same place, male and female can take advantage of competitive behavior and action to be more active in their tasks and study enthusiastically.

2)Second, male and female possess different mental and physical ability. So if these people have the same residence hall, they can help each other to overcome educational obstacles or arduous daily tasks easily.

29. Some people believe that we should not discuss the private activities of the popular people, like movie stars and singers. Do you agree? Why?

30. Some people prefer to give their opinions immediately. Others prefer to wait and listen to others' opinions before giving their own. Which one do you think is better?

31. Do you agree or disagree:

It is better to travel abroad to visit different countries when you are younger rather than when you are older.

(پيري)

1- Traveling abroad to visit various countries requires enough free time far from the job and daily life engagements which is founded in older ages. In this regard, due to less occupancy of elder people and their motivation to spend their most of time in peacefulness, they have more incentive to have a trip to other countries. Otherwise, limited free time confine the young to spend a lot of time having fun and travel since their ages require them to work more and having more incentive to make a lot of attempts which makes them involved. Therefore, foreign traveling to visit many countries, because of its necessity of having a lot of vacation, is almost preferred in adulthood.

2- A sufficient amount of money makes outbound traveling in elderly people more demanding than at young ages. In fact, taking trips to various foreign nation needs money without considering about the consequences of spending it in the future. This feature is somewhat available in adult ages because of their life experiences and their wide attitude toward life. Moreover, youngsters have the greed to invest their money in business activities to boost it alongside the fact that they have confined money reservations compared to older adults. Therefore, it is substantially wiser to experience senior international traveling instead of young age trips.

3- To begin with, the majority of elderly people often face loneliness, so they can have social interactions with many individuals by traveling to various regions or countries, meliorating their mood eventually. To be more specific, older people usually feel quiet alone since they have been retired or are in their homes most of the time, leading to mental diseases such as depression, so socializing with others can minimize the solitude they are experiencing and promote their mental health. Indeed, youngsters do not deal with this type of problems since they participate in social events or go to work on a daily basis, so emotional crisis can happen for older ones, which can be solved by taking journeys.

4- Moreover, it is highly recommended to travel in older ages since aged individuals enjoy a treasure trove of experience and are less likely to make mistakes in confronting erratic situations while taking trips. To delineate, juveniles often lack sufficient experience and profound wisdom, making them just off the boat, so they cannot make up their minds to decide well in unexpected conditions which may occur in journeys. In contrast, elderly people have

seen ebbs and flows of life and have a wealth of experience, so they can administer various events happening all of a sudden in expeditions.

32. Taking a lot of time making an important decision is a good quality of a person. agree or disagree?

مخالف

1. از دست دادن موقعیت های خوب.

در واقع باعث میشه اون موقعیت از دست بره مثلا تایمش بگذره یا حتی در موقعیت های ساده تر و کم اهمیت تر هم تصمیم گیری براش سخت بشه...

2. وسواس فکری و از دست دادن انرژی و تمرکز

باعث میشه هربار که بخواد تصمیم مهمی بگیره مدت ها فکر کنه و کل جوانب رو بسنجه حتی موارد غیر ضروری و جزئی رو و این وسواس فکری انرژی زیادی ازش میگیره و نمیتونه خوب تمرکز کنه و راندمان کارش در نهایت میاد پایین پس این خصوصیت خوبی نیست و در نهایت بهش لطمه میزنه.

تاپیک سنتنسس کمی دقیق نیست فکر کنم.

بنظرم همون موقعیت های چالشی و خطرناکم که گفتید یه دلیل دیگه میتونه باشه؛ مثلا مورد اول اشاره کنیم به شغل یا فرصت های مهم زندگیش و اینجا اشاره کنیم به موقعیت هایی که خطرناکه و عواقبش شدیدیه برای خودش یا اطرافیانش..

33. At work or school, you might encounter a problem that requires creativity -for example, you are given a task to complete that is very different from other tasks you do. In work or school situation that requires you to think creatively, would you prefer to work alone or with others? Why?

تو تیم:

1. همفکری و کارگروهی خودش همیشه یک پله مهم برای خلاق بودن افراد هستش. چون با همفکری و انجام کار گروهی، طرف میتونه از پرسیکتیوهای مختلف که از نظرات دیگران بدست میاد به قضیه نگاه کنه این خودش نه تنها باعث بهتر انجام دادن کار میشه، بلکه باعث بیدار شدن قوه تخیل و خلاقیت انسان میشه.

2. انسان همیشه یک موجود رقابت طلب بوده و هستش. یکی از مهمترین اثرات کارگروهی peer pressure هستش و همیشه این رقابت باعث به جلو رانده شدن افراد میشه. اگر کار گروهی نیازمند خلاقیت و نوآوری باشه، طرف با دیدن نوع آوری و خلاقیت همگروهی اش، که در عین حال رقیبش هم حساب میشه، سعی میکنه بیشتر خودش رو جلوه بده و باعث میشه بیشتر خلاقیت خودش رو به کار بگیره.

انفرادی:

1. وقتی به صورت گروهی کاری انجام میشه، طرف ذهنش بایاس دار میشه و تحت تاثیر افکار و خلاقیت همگروهی هاش قرار میگیره و نمیتونه بیشتر قوه تخیل و نیروی خلاقش رو به کار بگیره و اون نتیجه ای که به خاطر انجام یک خلاقانه قرار بود کسب منه رو دست نمیاره.

2. خلاقیت یعنی ریسک کزدن و امتحان راههای مختلفی که نتیجه اش معلوم نیستش و چه بسا خطرناک هم باشه. وقتی افراد در تیم کار میکنن، چون همیشه یک نظارت بر کار افراد وجود داره، اعضای تیم، رهبر، یا ناظر تیم میتونه یک مانع بزرگ برای خلاقیت و در عین حال ریسک کردن افراد باشه. چون همیشه به دنبال انتخاب سکيور ترین راه ممکن هستن. برای همین کار کردن گروه باعث میشه من نتونم خلاقیتم رو خوب به کار بگیرم و ازش استفاده کنم

34. Describe a behavior that many people may do in public that you find inconsiderate.

Some people want to change their appearance, even by surgery. Do you agree or disagree? Give your reasons.

35. There is a project at school which needs a leader. What qualities the leader should have in your opinion? Please talk about it and give details.

36. Some people prefer to do shopping in large grocery stores or department stores. Others prefer to do shopping in small grocery stores. Which do you prefer and why? Use specific reasons and examples to support your response.

37. When learning to use a new product, some people prefer to read the instruction manual. Others prefer to figure out how to use the product on their own. Which do you prefer and why? Give details and examples to support your response.

38. Do you agree or disagree with the following statement? Some people think the stories of famous people on TV have no relevance to ordinary people.

39. Some people prefer to make detailed plans for the future. Others prefer to concentrate on present things and don't make any plans at all. Which way do you prefer? Please use specific reasons to support your answer.

40. Do you agree or disagree with the following statement? Wealthy people should be required to help poor people. Please answer the question with specific examples and details.

41. Describe a character in a book, film, or poem, explain why you like him or her. Please use specific details.

42. Some people prefer to make decisions quickly. Others prefer to take their time. Which do you prefer and why? Use specific reasons and examples to support your response.

43. Some people prefer to be a leader in a group project, while others prefer to be a supporting member in a group project. Which do you prefer and why? Use examples and details in your explanation.

44. Some people believe old people should not take risks and participate in adventurous events as the young people. Do you agree? Why?

45. Some people prefer to do one job or project at one time. Other people prefer to do several jobs or projects at the same time. Which do you prefer and why?

46. Do you agree or disagree with the following statement? Personality changes as one grows older.

47. Do you like to go to one place and stay there for a long time for your vacation, or different places and spend little time at each place?

48. Do you agree or disagree with the following statement? People who are 18 years old are not mature enough to vote.

49. Do you like to prepare for something in the beginning or wait just before the due date?

50. When they meet a problem, some people prefer to seek advice or help from people who are older than they are, while others prefer to seek advice or help from people of the same age. Which do you prefer and why?

51. Is it a good idea to keep a pet such as a dog or a cat? What can you benefit from such an experience?

52. Some people like to collect old things such as newspapers. Others throw things away after they have used them. Which do you prefer and why?

53. People should not participate in activities that they are not talented in them.

54. Do you agree or disagree with the following statement? It is impolite for tourist to take anyone's picture without their permission.

55. Some people prefer to do difficult things first and then do simple, others want to do simple and then do difficult. Which way do you like? Why?

○ EXPERIENCE/SUCCESS

1. In order to be successful, one has to make enemies. Do you agree and disagree?

موافق

1. وقتی تو یک رقیبی برا خودت میتراشی انگیزت بیشتر میشه، شور و هیجانت برای قدم برداشتن جهت موفقیت تحریک میشه
2. وقتی رقیبی و دشمنانی برای کارت در میان خود به خود اونا ایرادی کار رو نشونت میدن با انتقاداشون و تو موفقیت با هزینه کمتری طی میکنی

مخالف

1. یکی از عوامل موفقیت داشتن آرامش روانی هستش. رقابت کردن با شخص یا اشخاصی، میتونه این آرامش رو بگیره چرا که انرژی زیادی رو صرف فکر کردن به رقیبیش میکنه
2. میتونه سقف ارزوها و موفقیت طرف رو محدود کنه و نتونه به موفقیت زیادی برسه. چون با رقیب ساختن برای خود، تنها هدف طرف به تدریج به شکست اون رقیبش تبدیل میشه و این نهایت دستاوردش میشه و خیلی زود به حس مضر self-satisfaction میرسه و نمیتونه بالاتر از این موفقیت رو برای خودش تصور کنه

Agree

1. A fierce competition with an enemy pushes people forward in their ways and keeps them focused on their goals
2. Having an enemy helps people to cover some of their own faults by ascribing them as results of their enemies' vicious acts.

disagree

1. Although competition helps people to keep on their way, sometimes unnecessary conflicts with rivals takes considerable amount of time and energy.
2. Having enemies might make it harder for people to establish new relationships due to villain picture that would-be enemies create in the minds of others.

2. A/D: One of the characteristics of successful leaders is the sense of responsibility for accepting their mistakes.

Yes

1. It would build strong trust between him/her and people who vote him/her
2. Accepting mistakes yields better outcome. They would render a better performance in their job as a leader. Results: satisfying the people's needs.

3. In order to be successful, a person must be open to new ideas and willing to change his or her mind.

Agree

1. Achieving goals highly depends on an individual's ability to adapt with a new mindset, and then distort it in a way that is suitable for what the goal demands.
2. Without being knowledgeable about the new ideas, it is less likely one will be able to deal with unforeseen

predicaments that require immediate solution.

مخالف

۱. برای موفقیت شما باید زمانی را در دوره ی جوانی برای شکل دادن مسیر ذهنی تان اختصاص دهید نه اینکه در هر لحظه ای خود را تغییر دهید. (مثال میزنم از درس هایی که در مدرسه بهمون دادن و باعث شد خیلی از اخلاقای بدمون که اطرافیانون رو ناراحت میکرد رو کنار بزاریم و کلا میگم به نظرم بهترین موقع وانش اونوقتست!)
۲. اگر شما بخواهید با هر انتقادی خود را تغییر دهید تمامی وقتتان را بر روی اصلاح خود گذرانده اید به جای تلاش برای موفق شدن! (مثال میزنم از یه پیرمردی در محله که یکم جنس هاش گرون بود ولی انقدر خوش برخورد بود که در نهایت چندین فروشگاه در شهرمون زد و متمرکز بود روی پیشرفت شغلیش...به جای اینکه به هر نصیحتی گوش بده و قیمت جنساش بیاره پایین و از سود خودش کم کنه!)

موافق:

۱. برای رسیدن ب موفقیت گاهی نیاز به داشتن ایده های خلاقانه و مبتکرانه داریم. وقتی ایده های جدید رو با روی باز میپذیریم، این ایده ها ممکنه خلاقانه و نوین باشند و ی مشکل اساسی رو برای ما حل بکنند. مثلاً دانش آموز میتونه از ایده های همکلاسی هاش استقبال کنه و این ایده ها میتونن راه گشا باشند در حل مسائل مهم و یا پروژه هایی ک زمینه ساز موفقیت بیشتر در درس و آینده شخص اند.
 ۲. وقتی ایده های جدید دیگران رو میپذیریم و دیدگاه مون رو در اثر اونا تغییر میدیم، این کار میتونه باعث بشه مسیر اشتباه ممکنه ک ما رفته ایم رو ب ما گوشزد بکنه و جلوی اشتباهات بیشتر که باعث اتلاف وقت و انرژی و .. میشه رو بگیره و از این طریق ب موفق بیشتر مون کمک کنه چرا که در این صورت میتونیم بهینه تر از وقت و انرژی ای ک برای انجام هر کاری میگذاریم، استفاده کنیم.
- ریزن اول به این میرسه که فرد دنبال ایده های جدید هستش متناسب با مسائل جدید. یعنی روی این بخش سواله که فرد باید مایل باشه که نظریات و ذهنیاتش رو تغییر بده. یعنی یه حالت فلکسیبل داشته باشه در مواجه با مسائل جدید. این فک نکنم معنیش با محدود بودن ایده ها یکی باشه! یعنی شایدم در دلشون یکی باشن ، ولی بهش پرداخته نمیشه. فقط به اون بخش میپردازیم که باید منعطف باشن .
- برای مثالشم میتونیم بگیم که یه آقایی کارخونه مانیتور سازی داشت وقتی که دنیای تکنولوژی پیشرفت کرد ، این هنوز همون کارشو میکرد و مشتری هاش کم شدن و ضرر مالی کرد. بعدش اومد مطابق با شرایط جدید روند کارشو تغییر داد و مدل جدید مانیتور ساخت و موفق شد!

4.Do you agree or disagree with the following statement? Successful people try new things and take risks rather than only do what they know how to do well.

دلیل اول را میتونید همراه با ریزن خودتون بگید که چون تجربه و اطلاعات مختلف در حین ریسک کردن بدست میاد باعث میشه فرد خلاق بشه و راه حل های مختلف برای مشکلات پیدا کنه

دلیل دوم هم فرد با ریسک کردن میتونه اعتماد بنفس پیدا کنه چون یاد میگیره تصمیم های بزرگ بگیره و مستقل باشه

5.Talk about a memorable experience you had in a restaurant or cafe. Explain what happened and why it was memorable. Give specific details in your response.

6.Are the living standards of people today better than the past?

7.Talk about an experience of learning something new. What difficulties do you have to overcome in order to learn it?

8.Describe a special experience that has changed you in life. Give reasons why it changed you with examples/details.

9. Describe a period of time in your life that you enjoyed the most. Explain why.

10. Describe an important day in your life. Explain why it is important.

11. Talk about one activity you will do in the near future. Explain why you want to do this activity.

12. Describe a time when you tried to do something that you have never done. Explain what you did and why you did it.

13. Describe a most unforgettable success in your life. Explain why it was important to you. Include reasons and examples to support your response.

14. Do you agree or disagree with the following statement? Power and money is the symbol of success.

15. Describe a day that you enjoyed the most or was the most special to you. Include reasons and details to support your response.

16. Describe one thing you didn't want to do but you were asked to do. How was the result? Please explain with details.

17. Describe one or two ways your life may change five years from now. Please include specific reasons and details in your response.

18. Describe a time that you were disappointed. What happened and what was your response.

19. In order to be successful, one has to make enemies. Do you agree and disagree?

20. Things always change in an unexpected way. Please describe a thing you have recently done that, ten years ago, you never imagined you would do.

21. Many people have some fresh and challenging experiences. Talk about one of your own experiences and how you think about it.

22. Do you agree or disagree with the following statement? For a person to be successful, good luck is as important as hard work.

○ **SPORT**

1. Some people go to take exercise outside or go to gym each day while others take exercise or go to gym when they have free time. Which do you prefer?

Every day

1/ doing exercise activities every day help people to maintain an athletic build. However, attending the gym irregularly does not contribute to this goal.

2/ doing exercise every day make people more disciplined since they had to plan their tasks during the day in order to have enough time to go to a gym.

هر روز

-اینکه بذاریم هر وقت فرصت شد، نه تنها تاثیر مثبت نخواهد داشت بلکه تاثیر معکوس میذاره. فعالیت بدنی با فاصله زمانی زیاد، چه بسا خستگی و صدمه به دنبال داشته باشیم

2. Do you agree or disagree with the following statement? Watching sports programs on television is not a good use of time.

3. Some people prefer outdoor activities such as basketball. Others prefer indoor activities such as yoga. Which would you prefer and why?

4. Some people believe that a person needs to possess natural physical ability in order to be successful at sports. Others believe that any person can become successful at sports through hard work. Which do you agree with and why?

5.What is your favorite outdoor place to do exercise in a nice day?

6.Some kids like to play games outdoors, and some like to play inside homes. What did you prefer when you were a kid and why?

7.Some people go to take exercise outside or go to gym each day while others take exercise or go to gym when they have free time. Which opinion would you prefer to and give your reasons?

8.Do you agree or disagree? Physical exercise is more important for older people than young people.

Agree

Older people are retired, and they stay at home for a long time; therefore, elder people need routine physical activities to maintain their health life for a long run.

Moreover, older people do not have a sense of satisfaction and happiness, doing physical exercise is a key factor contributing to create a sense of well-being.

موافق

1. سلامتی اونها بیشتر در خطر و به ورزش های کمی بیشتر نیاز دارن.
بدنشون ضعیف شده استقامت و توانایی بدنی و... باید پسری ورزش های سبک یا مختص اون رده سنی مرتب انجام بدن و بیشتر در معرض ابتلا به بیماری هستند
مثلا فشار خون و... یا پوکی استخوان.
کلا چون ماهیت دوران پیری هست...
از طرفی اگه بیمار بشن دیرتر بهبود پیدا میکنن و خب ورزش چه به پیشگیری چه درمان بیماری هاشون کمک میکنه.
2. جوون ها کلا تحرکشون بیشتر و بدنشون قوی تره و نیاز به ورزش در اون ها کمتر هست.

۱ - اول اینکه افراد پیر نسبت به افراد جوون بیشتر در معرض خطر به سری مریضی ها هستند، مثل آلزایمر، پوکی استخوان و افسردگی که با تحرک و فعالیت فیزیکی میتونن باعث کاهش احتمال بروز همچین بیماری هایی بشن(تحقیقات محققان)
۲- افراد مسن در هر لحظه الگوی افراد جوون هستند و روی رفتار شون تاثیر دارن. پیگیری و اصرار افراد پیر به انجام فعالیت های فیزیکی این موضوع رو به افراد جوان میفهمونه با گذشت زمان آدم همچنان میتونه به خودش برسه و اهدافش رو دنبال کنه

9.Which would you prefer: doing exercise every day or only when you are free?

10.The university currently requires all the students to take the physical education course to get graduate. Which of the following choice will you choose? Soccer/ dancing

11.Do you think participation in extreme sports like rock climbing and parachute jumping is foolish or brave behavior?

12. In order to stay healthy, many people choose to exercise. Some people tend to exercise individually such as running and riding bicycles, etc. Some people tend to participate in group exercises such as team sports. Which one do you prefer and why?

۱- یکی از فاکتورایی که روی سلامتی تاثیر میذاره شادی است. مثلا وقتی ادما ورزش دست جمعی میکنن معمولا اهنک میذارن و میرقصن. بعلاوه اینکه هر کسی هم یک رنگ لباس میپوشه که خود این رنگارنگی هم باعث شادی میشه و در نهایت این شادی باعث میشه ادما سالم بمونن.
۲- ورزش گروهی باعث میشه که ادما زمان بیشتریو ورزش کنن که این باعث سلامتیشون میشه. مثلا ادم وقتی تنهایی ورزش میکنه، هروقت که خسته میشه دیگه گیو آب میکنه ولی وقتی توو به جمعه، تا وقتی همه ورزش میکنن، ادم انگیزه داره و مجبور میشه ادامه بده و اینا دیگه.

13. Playing sports as children encourages people to become overly aggressive later in life.

○ BIG DECISION BY UNIVESITY OR GOVERNEMTN

1. Do you agree or disagree with the following statement? Governments should make it possible for children to attend preschool (early childhood education programs, for example, for three-year-old children) at no costs for children's families. Use reasons and examples to support your position.

موافق
بچه ها آینده سازان یک کشور هستن. اگر از بچگی شروع ب درس خواندن و معاشرت کنن، این فرهنگ به راحتی تا بزرگسالی درشون نهادینه میشه. در نتیجه پیشرفت و رشد کشور را هموار می کند...

با دادن پول بچه های پیش دبستانی بار مالی از رو دوش خانواده برداشته میشه و در نتیجه استرس کمتری خواهند داشت که ساعت های بیشتری کار کنند و پول بیشتری در بیارند...

2. Your school wants to improve the quality of students' life in the dormitory. Which one of the following do you think the school should build in dorms?

- 1. Quiet study area (A quiet place for study)**
- 2. Exercise room for students to keep physical well-being**
- 3. Room for entertainment (like watching movies)**

دومی
به طور کلی فعالیت بدنی تاثیر مثبت و مستقیمی در انرژی افراد دارد و دانش آموزان چون درگیر درس هستن، کم فرصت ورزش و فعالیت بدنی دارن. پس چه بهتر که اتاق ورزش ایجاد کنن.
معمولا مدارس کتابخونه دارن و از طرفی تکنولوژی دیدن فیلم و تفریحات این جنسی هم در دسترسشون هست. بنابراین بهتره که اتاق ورزش ایجاد کنه تا در کنار افزایش فعالیت جسمی، باعث اجتماعی تر شدن بچه ها هم بشه.

حالت اول ، په جای ساکت برای مطالعه

- ۱ . په محیط برای دانشجو ها بوجود می یاره تا بتونن درساشون رو بخونن و تکالیفشون رو انجام بدن چون اونجا تمرکز بهتری دارن
- ۲ . از دعوا و بحث بین دانشجو ها جلوگیری میکنه، چون معمولا په سری ها تو اتاق میخوان درس بخونن ولی په سری های دیگه کار پر سر و صدا (مثلا ساز زدن) انجام بدن، در نتیجه وجود همچین فضایی میتونه از این بحث ها جلوگیری کنه

3. Most people can solve important problems in their lives by themselves or with the help of their families. Help from the government is unnecessary. Use reasons and examples to support your response.

Disagree.

1. ppl need government's help when they face the problems, tackling of which needs a great financial support. Ex. When they face natural disasters.

2. Problems associated with family dispute are solved by government interfere using some related legislation.

1- Governments can help bankrupt (or insolvent) people by providing them with financial aids such as loans and tax reliefs.

2- Government can eliminate barriers by passing laws to support its citizens who are dealing with particular problems

کمک دولت ضروری.

با دنیای جدید و مدرن بعضی مشکلات انقدر وسیع و پیچیده هستند که لازم هست دولت ها سرمایه گذاری زیادی لازمه مثلا آلودگی محیط زیست. از طرف دیگر دولت ها میتونن قانون هایی تصویب کنند که جلوی خیلی از مشکلات را بگیره و فرد نمیتونه در سطح جامعه اجرا کنه.

۱ - قوانین دولتی برای برقراری عدالت و رفع مشکلات مردم

۲ - حمایت های مالی دولت برای زیرساخت های مهم و اساسی جامعه که رفع کننده مشکل مردم هستند

امروزه ایجاد شغل از اهمیت زیادی برخورداره و در این مسأله مهم صرف تلاش خود فرد و کمک خانواده کفایت نمیکنه. سیاست دولت هم در اجرای قوانین حمایت از تولید و کارآفرینی ضروری هست.

فرد در جامعه زندگی می کند و مسایل مهم زندگی متغیر های زیادی داره که از کنترل فرد خارج است. عدم دسترسی به امکانات رفاهی، درمانی و تفریحی مناسب در جامعه از جمله مسایل مهم است که سیستم باید حمایتگر باشه تا کمک خانواده. مثلا بیماری یک مسأله مهم است و صرف تلاش خانواده موثر نخواهد بود و حمایت دولت از طریق تامین امکانات درمانی کاملاً ضروری است.

4. Do you agree or disagree: Internet should be like other services, such as roads, and government should provide it to the public with no cost?

agree:

-Reducing air pollution is the most significant advantages of free internet. by using the internet People can do some tasks without travelling in the city

-Free internet provides more opportunity for society people to acquire knowledge and informations ...

disagree

یک - اینترنت خیلی سرگرم کنندس و وقتی رایگان بشه مردم اکثر تایم اشون نتورک هدر میدن و بازده و کارایی جامعه پایین میاد
وقتی اینترنت رایگان بشه خیلی از شرکت های ارایه دهنده اینترنت کارشون را از دست میدن و در نتیجه نرخ بیکاری بالا میره

5. The government want to improve education levels. Which of the following do you think is the best way?

1. hire more teachers to teach in a small class

2. preschool education before kindergarten

3. to provide some training courses so that teachers can be more professional

واسه این سوال گزینه سومش دلایل به خورده نزدیک به هم میشن ولی خب اگه سعی کنید میشه مجزا نوشتش

۱. وقتی برا معلم ها کورس هایی گذاشته میشه و بهشون آموزش داده میشه، اون ها اطلاعاتی ک در زمینه تدریس شون دارن بیشتر میشه و میتونن به موضوع خاص رو بهتر و جامع تر متوجه بشن و به همین صورت جامع و کاملتر به دانش آموز ها منتقل کننش

۲. در طول این کورس ها، معلم ها میتونند با روش های آموزش نوین و بهتر آشنا بشن و با کمک این روشهای نوین و جدید و موثر تر، درس و مفاهیم رو راحت تر به دانش آموزاشون انتقال بدن و بدین ترتیب کیفیت آموزش رو ببرین بالا

3rd

1/ training course endow teacher with valuable psychological knowledge about various types of personality which improves their communication with students and enhances their performance in the class.

2/ teachers will learn practical issues related to the class such as time management and rules which lead the class to a better result.

آره ادامه دلیل اول می‌نوشتم شاید روشن تر میشد.

می‌خواستم بگم الان دانش آموزا کلا خیلی حساس شدن و شخصیتاشون متفاوت. مثلا یه سری تو فعالیتهای کلاسی شرکت نمیکنن، یه سری درس نمیخوانن و اینا و هرکوم یه سری مشکلات دارن. حالا اگر معلما یه سری اطلاعات روانشناسی بیان تو این کلاس یاد بگیرن میتونن راحت تر با دانش آموزاشون ارتباط برقرار کنن و مثلا با هرکس مطابق شخصیتش رفتار کنن. در نتیجه کمک میکنن تو حل مشکل دانش آموزاشون و درواقع عملکردشون تو کلاس بیشتر میشه.

6. Do you agree or disagree with the following statement?

It's a waste of money for Government to fund space travel or space exploration

1. Now that governments have discerned that the resources of Earth are about to run out, it is necessary for them to invest in other potent planets.

2. Since the technology has come a long way and in the status quo, many of its branches are thoroughly dependent on space, it is so important and not waste of money.

3. Even if there is no resources on other planets to utilize, since the population of human has dramatically increased and also it is likely that an anticipated phenomenon annihilate our planet, it is considerable to find other plants in which human can migrate even for a short time.

7. Do you agree or disagree with the following statement? Government and private companies should share their scientific discoveries with the rest of the world.

موافقم:

- 1- با شیر کردن ساینس و دست آورد، وقتی همه اینکارو میکنن پیشرفت سریعتره و انسان زودتر ب اونچه ک میخاد میرسه
وقتی علمی رو شیر کنیم، اگه در جانی مشکلی داشتیم میبینم بقیه هم چطور اون مشکل رو حل کردن و ایده ها و نظرات مختلفی دستمون میرسه
2- خود اینکار به نحوه ی باعث پیدا کردن بازار میشه که به لحاظ اقتصادی بسیار مهمه، برای مثال من دنبال یک محصول خاص هستم و میبینم یک شرکت بهتر از بقیه و علمی تره ، خوب نظرمو جلب میکنه

مخالف

- _ بعضی از علم ها اگر در دسترس افرادی قرار بگیرن که اختلالات روانی پنهان دارن قرار بگیرن، ممکنه فاجعه آفرین باشه. مثلا روش ساخت شیمیایی یه سم کشنده در صورتی که در دسترس کسانی که صلاحیت ندارن قرار بگیره ممکنه باعث مرگ هزاران انسان قرار بگیره
_ کشف های علمی هر کشور میتونه باعث پیشرفت و توسعه اون کشور بشه و اگر در دسترس بقیه کشور ها هم باشه، علم نمیتونه دیگه باعث توسعه ی یک کشور بشه و بقیه کشور ها هم به همون اندازه توسعه پیدا خواهند کرد. در صورتی که پیشرفت حق کشوری هس ک برای به دست آوردن اون علم تلاش کردن. و با اشتراک اون جو رقابتی برای پیشرفت علم و به دنبال اون پیشرفت کشورها از بین خواهد رفت.

دلیل دوم بنظر من مناسب نیست (که هر علمی باید مختص یه کشور و توسعه اون بشه) ولی اگر اینطوری شروع کنی که برای کشفیات و دستاوردها چون هزینه بر و زمان بر هست و تلاش زیادی مطلوبه نیاید با کشور های دیگه شیر بشه چون بیشتر این دستاوردها باز دهی اقتصادی خوبی میتونه داشته باشه که باید در همون کشور که زحمت کشیده استفاده بشه

-Private corporations and sates should not be stingy with their scientific accomplishments, as making data available to the public will earn the discoverers professional recognition and rise them from obscurity to fame. In this day and age of cut-throat competition among companies and nations, outperforming others in terms of science and technology ranks near the top of every country's priority. Superficially, it sounds it is unjustifiable to share achievements with others to meet the aforementioned objective, but when carefully weighing in mind, it stands to the reason to make discoveries publicly available to outdo rivals. In fact, the recognition gained as the pioneer and inventor of a new discovery will stand the government and the company in a good stead after publicity. Take, for example, the case of Coronavirus crisis faced by all the globe. Countries passionately seek to find a cure for this virus to share all results with other scientists and countries by free. Whatever the development and advancement may be done on the initial

anti-virus later on, the inventor company will always be recognized as the first discoverers. This recognition will earn the government a fortune because of pharmaceutical and medical tourism in the near future.

-Governments and companies need to make their results in scientific fields publicly available, since hiding them is morally and ethically objectionable. In today's world, which is transforming to a global village at a fast pace, international boundaries are becoming increasingly meaningless. "My own country " or even "my own family" are not definitions to separate us from others. We, human beings, need each other with different nationalities, languages, and color skins more than ever before. It seems like that we all have a same and interwoven fate. Having this in mind, the owner of discoveries should consider sharing their scientific data as their moral obligation. There is no point in depriving others of their achievements only because of financial concerns or scientific power. Moreover, the shared data can set the stage for further development, as progression transcends geographical boundaries and require involvement of scientists of different nations. This advancements triggered by sharing results will make the planet a better place to live. After all, without exchanging ideas and discoveries, we would not have gone so far.

8.Do you agree or disagree with the following statement?

Internet should be like other services, such as roads, and government should provide it to the public with no cost.

(Disagree)

1) To begin with, it is crystal clear that providing people with the Internet technology needs a huge pile of money, meaning that leaders are not able to guarantee the speed and ever-availability of Internet freely since its infrastructure needs to be built and to be kept from damages. To be more specific, there are gigantic cables deep down the oceans that connect various networks all over the world, and are made of delicate Nano fibers. These tiny structures have provided us with swift Internet we have today and have eased the communication to a great extent. The main point is that Nano fibers are among the most expensive materials in the market, and installing them in ocean floors requires state-of-the-art and complicated machinery. Additionally, preserving such systems in marine conditions for a long time is difficult since they are more prone to deterioration in comparison with terrestrial regions. This matter means that honchos should spend extra money on retaining these complex structures.

2) Moreover, it is obvious that should governors make the Internet without any charge, there will not be any rivalry between companies so as to offer various Internet credits. To be more specific, nowadays many Internet packages have been suggested to individuals that are totally different in speed and volume. Indeed, public and private corporations are in a cut-throat competition to propose the best online services accompanied by fair prices to their customers. Therefore, people need to spend sufficient sums of cash in order to opt for a reasonable internet access, so rulers can actually mess up all the deals by eliminating the cost of Internet usage.

3) Due to the fact that there are a vast majority of people who misuse the Internet, the government should continue to ask fee for using it. To be more specific, some people tend to use the Web as much as they can, despite their actual need for the data. In this case, if the governors provide free internet access for ones, they will use it up to the last bit, resulting a heavy traffic for other crucial activities like hospitals, research centers, and banks, to name but a few.

4) In addition, overusing the Internet on platforms such as cellphones and laptops can have catastrophic effects on individuals' health, being caused by providing free access service. To be more specific, when the rulers distribute the Internet service gratis, people will be encouraged to stay for long hours in front of screens, which has a traumatic effect on their eyes, let alone the harmful effect on body's posture. As a result, if the rulers ask for fee in return of using the web, people will stop overusing it and use it only in case of necessity.

5) While people pay money for their network uses, the government will have resources to enrich the city with better conditions. To be more specific, country governors are responsible for the country's conditions to be promoted so as

to provide practical facilities for the community. Governors should prepare accommodation, work opportunities, and transportation facilities to name but a few for the society. Country rulers may confront the deficient budget to be taken for rebuilding the historical buildings, improving highways' conditions, and spending for other particular society's needs. Forcing people to pay for the internet, government can allocate the budget to improve country's situations.

6) The community who are endowed with free network conditions will squander too much time on surfing internet, which increases the corruption likelihood. To clarify, people, not concerning about costs of the internet, they will tend to procrastinate on the internet. As a result, they will release too much information about their personal features, purchase huge amount of products from e-markets, and talk about themselves with anonymous ones. These conditions create an opportunity for delinquent people to misuse their uncovered information in terms of exploitation. In other words, they will request injudiciously to earn a great amount of money in order to not to take advantage of their information.

9. Agree/disagree: governments can reduce the consumption of oil and electricity by increasing their prices.

1. since mega factories such as automobiles industries, steel producers account for the vast majority of power and oil consumers, escalating the price of fuels and electricity cannot cut the usage of these power supplies. To be more specific, although increasing the price of oil and electricity can act as a barrier in operation of these big companies, they refuse to decrease their power consumption; rather, they prefer to compensate for this loss by increasing the cost of their products at the expense of people's financial suffering. As a result, raising the price of powers without imposing a ceiling on the cost of commodities yields nothing but making the price of goods and products sky-high.

2. increasing the price of power and petrol can destabilize the country's situation and creates a lucrative market for those who smuggle oil and gas, giving rise to more demands for these products and creates a domino effect. What's more, this unpleasant condition not only solves the problem of excessive use of supplies but also sets the stage for illegal activities across the country. Furthermore, this policy can cause oil and gas scarcity as many people take advantage of the situation and start to hoard petroleum in the expectation to make a killing.

10. Governments should spend more money in support of the arts than in support of the athletics such as state-sponsored Olympics teams.

Use specific reasons and examples to support your answer.

1. تخصیص فاند و مانی به ورزش مهمتره از هنر چرا که باعث میشه ورزشکار ها در عرصه جهانی و المپیک بتونن افتخارات و مدال های بیشتری کسب کنند و بهتر بتونن کشور خودشون رو به جهان بشناسند و اعتبار کشور رو افزایش بدن در دنیا .
2. تخصیص فاند به ورزش باعث میشه ورزش ها شناخته شده تر بشن در جامعه و مردم ترغیب بشن به ورزش که این برای داشتن ی جامعه سالم تر بسیار مهم و تاثیرگذاره و اینطوری جوانان به جای روی آوردن به خلاف و crime ، به ورزش روی میارند ک مفیده براشون

Art

- ۱ . هنر یک جامعه بیانگر فرهنگ، تمدن و تاریخ اون کشوره و معمولاً مردم آگاهی چندانی نسبت به هنر کشورشون ندارند چون در اولویت تفریحاتشون نیستش. تنها government هستش که میتونه این زمینه رو در بین مردم کشور خودش و سطح دنیا مطرح کنه و این لازمه اش تخصیص فاند بیشتری به این زمینه هستش در حالی که خیلی از ورزشها و ورزشکاران همجوری به صورت خودحوش توسط خود مردم و رسانه ها پروموت میشن و حداقل نسبت به ارت هزینه کمتری لازم دارند. در حالی که اگه دولت توی بخش هنر سرمایه گذاری نکنه خیلی هنرها و هنرمندان به باد فراموشی سپرده میشن
- ۲ . از همه مهمتر

Brand/ alcoholic(non-alcoholic)beverages sponsorship of sport events

هستش که از قدیم همیشه وجود داشته و همیشه برای پروموت شدن برندشون توسط ورزشکاران و رخدادهای ورزشی lucrative deal هایی رو با ورزشکارها و

رخدادهای ورزشی میبندند و عملاً هزینه این زمینه از این بخش تامین میشه (مثل ادیداس و مک دونالد و کوکا کولا که همیشه هر ۳ پای ثابت تبلیغات بازیهای جام جهانی و المپیک بوده و هزینه این مسابقات رو تا حد زیادی میدن. حتی خیلی از بازیکنان و ورزشکاران درآمد و حمایتشون از قراردادهای تجاری و تبلیغاتی هستش تا درآمد حرفه ای. حتی خیلی از برندها بزا به تیم ورزشگاه میسازن که اسمش واسه چند سال رو اون ورزشگاه باشه. یا از یک ورزشکار حمایت تمام میکنن تا فقط با برندهای اون شرکت و محصول تو جامعه ظاهر شه.

پس دولت هم هزینه نکنه اونقدر رقابت بیت این شرکتها بالاست که عملاً کمبود بودجه ای تو این زمینه دیده نخواهد شد). ولی این موضوع در art دیده نمیشه و دولت هستش که مجبوره حمایت بکنه و پول زیادی رو صرف این فیلد بکنه.

11. The university is going to increase the price junk food, to make more money, and use the money to add more kinds of healthy food. Do you agree or disagree?

Disagree

First, the main meal of majority of students is junk food as a cost-effective food because healthy food and organic materials are prohibitively expensive. So by increasing the price of this food, students will bother extremely.

Second, many students are totally big fans of junk food as tasty and delicious ingredients. Although organic components are healthy, students prefer and like fast food. So this policy is not in favor of students.

اگه جانک فود دانشگاه گرون باشه دانش آموزا میرن از off campus خرید میکنن اینطوری دانشگاه نمیتونه به هدفش که گرفتن سود بیشتره برسه

اضافه شدن قیمت junk فود لزوماً باعث نمیشه بچه ها بیشتر غذای healthy بخورن به خاطر پول کمترش. به علاوه معمولاً همیشه غذای healthy و ارگانیک و فرش و اینا گرون تره و احتمالاً قیمت نموم شده ش هم برای دانشگاه زیاد باشه.

12. Do you agree or disagree with the following statement? It is better for government to spend money on building modern housing than on preserving historic or traditional buildings and homes.

مدرن

۱ خانه های قدیمی هرچقدر هم ک ترمیم بشن، دیگه اون استحکام لازم رو ندارن. دولت وظیفه داره خونه های مستحکم بسازه تا در مقابل انواع بلایا ایمن باشن.

۲ امروزه حفظ زیبایی ظاهری شهرها و توسعه طراحی های معماری جدید از اهمیت بالایی در جلب نظر مردم خارجی داره. بهتره که دولت روی ساخت خونه های مدرن پول خرج کنه تا در رقابت با سایر کشورها عقب نمونه. اینطوری گردشگر بیشتری جذب می کنه (با ارایه معماری های خاص نو)

۳ دولت وظیفه حفظ انرژی رو بر عهده داره. با بکارگیری روش های نوین و استفاده از مواد جدید، می دونه خونه های مدرن رو طوری طراحی کنه و از موادی برای ساختش استفاده کنه که بتونه بطور موثر در میزان مصرف انرژی صرفه جویی کنه.

حفظ خونه های قدیمی

۱ جذب گردشگر

۲ حفظ اصالت و تاریخ

باعث میشه نسل ب نسل منتقل بشه

مدرن:

۱. ساخت بناها و ساختمانهای مدرن با ارزش تره چرا که میتونه باعث کمک به سیو انرژی و حفظ محیط زیست بشه. در واقع، خانه های مدرن از لحاظ مصرف انرژی بهینه تر اند و باعث میشن که residence هاشون هزینه کمتری رو برای مصارف انرژی بپردازند و همچنین برای خود دولت بهتره چرا که نیاز به مصرف منابع انرژی کمتری برای تامین انرژی کشور وجود خواهد داشت و این قضیه باعث حفظ بیشتر منابع انرژی و ضرر رساندن کمتر به محیط زیست هست. (بهره برداری کمتری از انرژی صورت میگیره)

۲. از لحاظ ایمنی، خانه ها و ساختمانهای مدرن ایمن تر اند و..

۳. میتونند برای دولت و کشور درآمدزایی داشته باشند. در واقع ساختن ساختمانهای مدرن از لحاظ زیبایی و ویژگیهای ظاهری میتونه باعث جذب توریست بشه. به عنوان مثال در کشورهایی مثل دوبی که برج و ساختمانهای مدرنی ک ساخته شده باعث شده بسیاری از مردم از اقاصا نقاط دنیا برای تفریح به اونجاها برن و .. که این موضوع باعث درآمدزایی برای دولت شده و ب اقتصاد کشور کمک میکنه.

نوم:

۱. حفظ ساختمانهای قدیمی و تاریخی از این جهت حائز اهمیت هست که باعث حفظ کالچر و فرهنگ اون کشور میشه. در واقع منازل و ساختمانهای قدیمی نشون دهنده اداب و رسوم و فرهنگ اون کشور که از زمانهای قدیم رواج داشته رو نشون میده و حفظشون باعث حفظ این فرهنگ شده و به نسل امروزه و آینده کمک

میکنه که با فرهنگ نیاکانشون آشنا بشن و هویت اصلی شون به دست فراموشی سپرده نشه
۲. حفظ این مکانها و ساختمانهای تاریخی باعث جذب توریست میشه و به صنعت توریست کشور کمک میکنه و این یک نوع درآمدزایی برای کشور و کمک ب اقتصاد کشوره

Historic buildings

-These ancient constructions have educational values and represent the rich cultural heritage of the country. The data and information that these old sites represent range from invasion of a foreign country and introduction of a new culture to the dominant religion and architecture in various periods. This information will make people proud of their country and appreciate contribution of their forefathers in the glamorous history of their nation.

-The old relics serve as tourist hotspots and attract an influx of domestic and foreign visitors to the country. There are many tourists around the world who have an insatiable desire to discover new historic places. They travel to quench their curiosity no matter how far they have to go or how hazardous they travel may be. Government fund dedicated to conserving old buildings will attract that potential curious visitors and can make truckloads of money by this new source of revenue.

13. In order to attract more tourists, the government could either improve safety by hiring more police or improve its appearance by repairing old buildings and streets. Which way do you think is more effective? (Hiring more police)

1) To begin with, providing travelers with security is more significant than mending historical places and roads since safety is the most essential factor when people choose a destination. Nowadays with the genesis of technology, the Internet in particular, travelers can gain access to the latest information about other countries, especially its safety. In essence, globe trotters tend to shun hazardous places where crime rates are high. If politicians recruit more policemen so as to bring safety to regions, more visitors will take journey to their country, so their tourism industry may flourish to a great extent

2- if government hire more police officers, more facilities will be built by investors attracting more visitors than repairing old buildings. Vividly, the level of security will increase in the country by hiring more police officers. This safety create an opportunity for investors to build facilities that can be used by travelers because tourism in a thriving industry, so more visitors come to a country, which has more facilities.

3- Hiring police, the government will be able to convey the message of increased safety effectively; hence, the number of visitors, sooner or later, will be expanded. When the government hires new police force to enhance the safety of the region, it can define secondary duty for them: advertising. It goes without saying that oral advertising, which someone enthusiastically talks about the merits of something to another one, is one of the effective strategies in attracting customers.

4- Secondly, hiring police in order to improve safety of tourists, avoids crime commitment which is generally occurs in attractive and ancient places, charming for tourists. To be more specific, due to high traffic of tourists to historical or ancient places, some people abuse this situation to steal from tourists or annoy them. Moreover, there is the possibility of theft of invaluable objects or other kind of crime. Thus, government should plan to manage the safety of both tourists or places to not only does guarantee the safety of tourists but also better protect ancient places and his own properties

5- By hiring more police professionals, the government can take a promising step toward a flourished tourism industry, since this policy boosts roads safety, diminishing the accident rate. Whether it is a short distance travel from one tourist attraction to another or a long travel between cities, traveling by cars or public transportation is an integral part of every journey that visitors take. Having considered this, vacationers are wary of visiting countries and cities plagued with traffic congestion and unsafe roads because of lack of law enforcement. The apprehensions of these travelers are fully warranted, since they know the absence of these safety measures poses threat to their lives. Recruiting more police officers to ensure following driving legislation is a wise and practical decision to address this problem. These police officers act as a deterrent against speeding, crossing red lights, drunk driving, and reckless

driving habits. These enforced laws by a powerful police force make tourists understand the country worth to be considered when selecting their destination. This is because they are confident about their guaranteed security when traveling by cars. It is not surprising that countries recognized for their safe roads and streets, which is the direct result of powerful police force, are among most traveled nations.

14.If the government wants to invest in the following three areas, what do you think is the most worthwhile?

Land exploration

Education

Healthcare

Land exploration:

- To find a permanent solution for accommodation of burgeoning population
- To bring more land under cultivation to supply ever-increasing demands for food and crops

Education:

- to guarantee a quality education to prepare well-educated generation for the society to come. These educated people are the foundation stone for the prosperity of the country few years down the road
- Dedicating money to education is the remedy for all social maladies. Illiteracy and poor educational system are the breeding grounds for criminal activities and juvenile delinquency. Boosting this area will keep the rate of crime in check.

Health:

- Every country's power is measured by its population. To be a nation full of talents and productive people, the state should dedicate staggering amounts of money to boost healthcare system.
- allocation money to health issues will bring back much more money for the government. The investment in health-related issues and medical research will present the country as a luminary in medical and health areas. This, in turn, ensures vast sums of money gathered through pharmaceutical tourism.

health

1. allocating money on health care is a foresight and hinders lots of economic disasters, such as halt in most of the business sectors due to pandemics.
2. deficiencies in health care system can make voters sad in short term and turns the public sentiment against the government.

15.At some universities, students take part in making decisions about the issues that affect daily life of everyone on campus, such as how many hours that the libraries should be open each day or what kinds of food should be served in the cafeteria. But at some universities, experts are hired to make this decisions, students almost never involved. Which approach do you prefer and why.

Making decisions by students

First, participating in decisions related to campus, students know each part needs either budgets or improvements because they can deeply analyze their own requirements. It is clear that an expert has superficial information about campus' problems since this person is not overwhelmed with students' daily subsistence and facilities of campus as well as students. Hence, students can be excellent decision makers of campus.

Second, in today's sanction societies, universities' presidents should try to reduce their cost; thus, the significance of engaging students in campus' decision lies behind its role in saving money. Undoubtedly, taking part in making decision about their daily needs on campus, students help universities allocate funds for other crucial projects. Hiring experts for making decision is prohibitively expensive and is not cost-effective for universities.

استخدام متخصص

۱. وقتی دانشگاه یک متخصص رو برای اینکار استخدام میکنه اون طرف موظف هست که تمامی جوانب رو بسنجه و بر اساس متد های آماری و تصمیم گیری که بلده بهترین و بهینه ترین تصمیم رو بگیره. یه فقط به نظر سنجی از دانشجو ها اکتفا نمیکنه مسائل مالی، فرهنگی و ... رو در نظر میگیره هنگام تصمیم گیری
۲. وقتی یه فرد سوم که متخصص هست رو دانشگاه استخدام میکنه، این باعث میشه از اختلاف نظر بین دانشگاه و دانشجو ها میشه چون هر دو به فرد اعتماد دارن (بخاطر تخصصش) و میدونن که بهترین تصمیم رو میگیره. مثلاً شاید در مورد یه مسئله دانشگاه فقط مسائل مالی رو در نظر بگیره، از اون سمت دانشجو ها فقط منفعت خودشون رو در نظر بگیرن

بنظرم شبیه میشه هر دو ریزن ، چون برمیگرده به تخصص فرد استخدام شده

ریزن اول را به تجربه و تخصص فرد استخدام شده ربط بدید

دومی هم به اینکه چون منفعت شخصی نمیره با دید غیر متعصبانه تصمیم میگیره تعادل بودجه و امکانات برای هر بخش را در نظر میگیره برعکس دانشجو ها که به نفع و نیاز های شخصیشون اولویت میدن

دلیل سوم هم اینکه متخصص ها بر حسب حرفه و شغلشون مجبورن تایم بزارن تا نتیجه رضایت بخش را بگیرن پس وقت و انرژی میزارن ، در صورتی که دانشجو ها بدلیل مشغله های درسی نمیتونن وقت بزارن و تصمیم های خوبی بگیرن

16. Your university is going to give out a scholarship of \$5,000. Who do you think should receive the scholarship, students with high academic performance or students that need financial aids?

اونی که نیاز مالی داره

۱. چون ممکنه به خاطر نیاز مالیش نتونه درست تمرکز کنه و موفق بشه و پشتوانه مالی میتونه کمک کنه استعدادهای نهفته اش کشف شه

۲. کسی که نیاز مالی داره ممکنه مجبور بشه بره کار کنه و این باعث میشه از درس خوندن عقب بیافته ولی اگه بورسیه دریافت کنه خیالش راحتتر

کسی که آکادمیک پرفورمنس خوب داره

۱. اینا همواره تلاش کردن در دوران تحصیل و مستحق دریافت همچین بورسیه ای هست که پاداش تلاش هاشون باشه

۲. این افراد اگر همچین بورسیه ای برنده شن برانشون انگیزه ی بیشتری بوجود میاره که بتونن بیشتر از قبل تلاش کنن در جهت کشفیات علم و این چیز میزا.

17. It's a waste of money for the government to fund space travel or space exploration. Give specific examples and details to support your answer.

Disagree

1. For keeping pace with new science, each country or government should allocate money in various fields, in particular, space exploration. In other words, should a country willing to update scientific information and knowledge, it should spend sufficient budget and travel through space to get a wide spectrum of information in astronomy.

2.Second, funding for space traveling, a country be in possession of communicating with elite and high-ranking universities, professors and research institutions and find a better solution to solve earth' issues. In fact, there have been a wide range of environment problems related to climate change, in order to tackle these huge damaging issues, governments should connect with each other and expend money to explore other plants for living or reducing sever environment effects.

Agree

1.First, there is not new thing for exploring in space; therefore, space exploration is money-consuming for the government. In fact, a high number of researchers and discovers have spent a great deal of money and time for finding more stars and plants. At the earliest exploration, there were many things for finding, on the other hand, in the latest years of human exploration in the space exist neither life evidence nor new items. As a result, allocating budgets for space traveling can be wasting money.

2.Second, in today's complex world, there is a wide variety of problems in each society needing money and should be solved by the government' financial support rather than space traveling. In other words, on the earth, natural disasters and human activities have killed people in a given community every year,l. Thus, the government financial assistance is a key factor contributing to create a sense of social well-being and facility. Under such a circumstance, allocating fund for space exploration is wasting money that can spend on other ways such as providing money on improvising famine, poverty and shortage of drinking water in a society.

18.Do you agree or disagree? Internet should be like other services, such as road, and government should provide it to the public with no cost.

Agree

۱. در دسترس بودن گردش اطلاعات از طریق نت این امکان رو فراهم میکنه که همگی ازش استفاده کنن و سطح اطلاعات و آگاهیون بالاتر بره و در نتیجه جامعه ای با سطح آگاهی بالاتر داشته باشیم
۲. می تونه باعث کاهش امار بیکاری بشه، خیلی از شغلا به صورت اینترنتی می تونن باشن و در نتیجه خیلیا که بیکارن و توان تامین هزینه نت رو ندارن، این فرصت بشون داده میشه که از طریق این شبکه به بیزنس راه بندازن

Disagree

۱. این کار باعث افزایش هزینه های دولت میشه، چون خیلیا استفاده درست و بهینه ای در جهت منفعت عموم ازش نمی کنن و در واقع تاثیر منفی بر اقتصاد داره
۲. این کار باعث به وجود اومدن برخی ناهنجاریهای اجتماعی میشه، چون با دسترسی به شبکه های اجتماعی مٹ فیسبوک باعث میشه مردم کمتر به مطالعه بپردازن و در واقع باعث تنبیل شدنشون در جهت مطالعه میشه، و به جایی اینکه در مورد موضوعی مطالعه کنن فقط به مواردی که در شبکه ها می چرخه و منبع مشخصی ندارن اکتفا می کنن، که می تونه پیامدای اخلاقی نامطلوبی واس جامعه در بر داشته باشه

19.One of the most challenge problems in modern society is to have the most up-to-date skills for workplace. For solving this, government decides to give all adults over the age of 25 a training course to learn new skills. Do you think it is an effective way for government to spend its money?

1- giving all adults over the age of 25 a training course to learn new skills is a perfect avenue for government to spend its money since in this case, government will have a perfect opportunity to broaden the knowledge of the people and face with various modern challenges in the workplace.

2-providing a training course for all adults in the age of 25 by the governments to learn the last up-to-date skills is a perfect decision since this approach will help government to develop various projects.

Disagree

1. Wasting time and money by budgeting on these people Because recruiting skilled workers takes less time and costs less.

2. Due to high speed of technology,this solution is not effective. New skills emerge one after the other quickly and people are not capabl of learning all the new skills.

Good idea

۱. افراد بالای ۲۵ سال معمولاً آدم پخته تری هستند و نسبت به کارشون احساس مسئولیت بیشتری دارن، و این یادگیری مهارتای بروز باعث میشه که کارشون رو با بازدهی بالاتری انجام بدن
۲. مطالعات نشون داده این رنج سنی الگوی نسل بعدیه، و با بروز شدن مهارتاشون می تونن الگوهای بهتر و کامل تری واس نسل بعد باشن، که علاوه بر مفید بودن واس بازه زمانی خودشون تاثیر مثبتی در عملکرد نسل آینده خواهند داشت

20. One of the most challenge problems in modern society is to have the most up-to-date skills for workplace. For solving this, government decides to give all adults over the age of 25 a training course to learn new skills. Do you think it is an effective way for government to spend its money?

Ineffective

To begin with, in order to improve people's skills in a given community, the government is not in possession of the ability to allocate a great amount of money to solve all unskilled individuals' problems because educating new skills are prohibitively expensive. In other words, there is a vast majority of adults over the age of 25 in each society that it is not definitely possible for decision-makers to offer educating materials and provide educational facilities in terms of financial support for all those of to become up-to-date.

Moreover, offering training courses for all adults over the age of 25, the government may waste money because each employee should be educated in some new specific skills related to their workplace's need. To be more specific, thanks to new technology, every day establishes new devices definitely requiring new skills to work with them. Thus, all adults and careers do not need to be updated and well-rounded in a wide variety of skills, however, people should be expert in their major or job specifically.

موافقم

۱. جامعه پروداکتیو میشه... مثلاً دوره ی آموزش کامپیوتر گذاشت دولت ایران و شرکت های خصوصی و دولتی کلی پیشرفت کردن و اینا
۲. باعث میشه روابط بین المللی و صادرات افزایش پیدا کنه چون کشورهای دیگه شاید از این اسکیل ب روز و مدرن محروم باشن... مثلاً تکنیک های کشاورزی ایران در دنیا رقیب نداره چون کشاورزی دوره ی رو گذروندن توو ایران ک علم مربوطه رو ب حد اعلی رسوندن و این باعث شده ک کلی از کشورهای دیگه نیازمند ایران باشن برا ی سری محصولات و صادرات رفته بالا... نه تنها کشور بلکه مردم بویژه کشاورزا از این برنامه سود میبره

21. Do you agree that the government should support the scientific research even there's no practical use ?

Agree

- 1- It motivates researchers to work harder in order to accomplish a practical project.
- 2- Numerous projects could be theoretically useful, which means they provide a foundation for upcoming practical research.

Disagree

1. That would kill educational progress. There have to be a good motivation for young people in order to broaden their horizon through their studies. While the young see there are government's support even with no outcome, they would lose their incentives to carry on and try harder to learn different concepts.
2. Lower quality of job opportunities. No specific competition, people would have work but with no sufficient background.

22. Are government doing good in educating people to pay attention to the importance of the food nutrition and healthy eating?

Good

To begin with, in today's complicated world, the government's performance is worthwhile, in particular educating people to understand the importance of their diet in order to get rid of allocating government's budget to cure

various diseases. In other words, today curing diseases requires a great amount of money due to new equipment and novel drugs are prohibitively expensive. As a result, governments preference to teach citizens pay attention to what kind of food they eat to save the money of government.

Moreover, governments have to keep pace with standards of globe hygiene; therefore, governments have taken promising step towards proving public and academic education to help people get familiar with the drawback consequences of unhealthy food and the advantage of the food nutrition. In fact, governments try to protect their rank in sanitation standard of world to show the country is developed, thus, the main their aim is broadened people' awareness in food and health by providing education courses.

موافقم
در سالهای گذشته دولت خیلی سرمایه گذاری کرده و داره صنایع غذایی خونگی رو معرفی می‌کنه، اینا عموماً از مواد غیر صنعتی تهیه شدن، درکنارش در بخش کشاورزی هم خیلی مواد ارگانیک و روش های جنیدی داره استفاده میشه که اکثراً رویکرد های سلامت محور دارن، این پروسه نیاز به آموزش در بخش تولید داره و رایج شدن همه اینها در کنار هم باعث شده مردم خیلی حساسیت بیشتری به استفاده از مواد ارگانیک به خرج بدن و به اهمیت غذای سالم پی ببرن.

دوم اینکه قانون های جدید در بخش آموزش مخصوصاً باعث شده که اهمیت مواد سالم غذایی بین مردم خیلی رواج پیدا کنه، نه تنها در مدارس روی مصرف تغذیه ارگانیک به بچه ها تاکید میشه بلکه در دانشگاه ها هم رویکرد ریسرچ ها و کارهای تحقیقاتی که از سمت دولت حمایت میشه به سمت تولید و مصرف مواد غذایی سالم و استفاده از سیستم های ارگانیک به جای مواد صنعتی هست. و مشخصاً کل این پروسه با حمایت دولت منجر به افزایش سطح آگاهی و سواد مردم نسبت به سلامت غذایی شده

23.Do you agree or disagree that government should pass a law to fine people who use mobile phones when crossing the street.

Agree

- 1) high rate of accidents are caused by the careless individuals who do not look around while going over the street and this law could prevent them from doing so.
- 2) this law and other laws which are related to lower the accidents could rise in calm community and less stress of these kinda happenings.

AGREE

Traffic jam

1. pedestrians walking on the streets while using their cell phones are the chief cause of street congestion and blocking the way of other passers-by; therefore to enact a legislation punishing them could act as a deterrent against this distracted walking.

Safety

2. people crossing streets when using their devices are more likely to cross a red light which creates an extremely dangerous situation for both pedestrians and those who are behind the wheel. passing a law requiring traffic officers to issue a ticket to these people will increase individual safety and eradicates this unsafe behavior

24.Do you agree or disagree that government should pass a law to fine people who use mobile phones when crossing the street?

25.The university is going to increase the price junk food, to make more money, and use the money to add more kinds of healthy food. Do you agree or disagree?

26.If universities are given financial support to develop researches, which one do you think would receive more benefits? a. To predict weather more accurately. b. To clean rivers and ocean.
c. To deal with outer space.

27.Your university has acquired a piece of land next to the campus. There have been three options for the use of the land. Which do you prefer? Why?

- a. the athletic facilities and stadiums.
- b. a park with nature trails
- c. centers for students and hotel for campus guests

28.The university international office is going to hold a social event. Which one of the following choices do you think is the best? a. international food fair b. international music festival c. international film festival

29.The university wants to provide students more entertainments. Three choices are provided below; which do you prefer and why? a. theater performance by student actors
b. concert provided by professional musicians c. lecture by a professor

30.Which of following aspects do you think contributes most to country's success? a. many business opportunities b. well-rounded medical care system c. a developed educational system

31.Which campus improvement do you suggest your school make: swimming pool, cafeteria or dormitory? Please give specific reasons to support your opinion.

32.Do you agree or disagree? Government should not allow violence and bad language in television program.

33.Your university will sponsor one of the following activities for students, an outdoor camp night, a music festival to experience the local culture or a computer game contest in the dorm. Which do you think is the best and why?

34.If universities are given financial support to develop researches, which one do you think would receive more benefits?

- To predict weather more accurately
- To clean rivers and ocean.

To deal with outer space

37.The university decides to remodel the dormitory and add a new space to it. Which space do you recommend adding in your dormitory?

Cafe
Study room
Game room

38.Which of following aspects do you think contributes most to country's success

Many business opportunities
Well-rounded medical care system
A developed educational system

39.Do you agree or disagree? Government should not allow violence and bad language in television programs.

40.Describe a serious problem that your country is facing. Explain why it is so serious.

41.Which of the following activities should the university give rewards to its high performance?

Volunteer service
Athletic achievement
Academic performance

42.The university plans to turn long summer holiday into several short holidays. Do you think it's a good idea?

43.The university wants to provide students more entertainments and three choices are provided below; which do you prefer and why?

A theater performance by the student actors
A concert provided by a professional musician
A lecture by a professor

44. Do you agree or disagree with the following statement?

For the successful development of a country, it is more important for a government to spend money on the education of very young children (five to ten years old) than to spend money on universities.

Use specific reasons and examples to support your answer.

Agree.

1. Provides a space for youngsters to grasp the basic knowledges of their lessons. Later on, they can be more qualified to attend higher ranked universities. As a result, they would come up with novel ideas to improve the technological facilities, which has a direct relationship with the developement of a country.
2. Allocating money for children yields better outcome in finding their talents. So it would be motivative for other offsprings to render a better performance in their future career, which is beneficial for the whole group of society.

مخالف

- خرج پول در زمینه دانشگاه ها مهم تر است؛ چون تحقیقات مختلف انجام میشه و از این طریق بسیاری از مسایل مهم کشور راه حل علمی ارایه میشه. حمایت از این گروه تاثیر عمیق تری خواهد داشت.
- خرج این پول در دانشگاه ها بصورت مستقیم در زمینه اشتغال و افزایش تولید موثر است.
- بچه ها تو این سن بیشتر از حمایت خانواده برای رشد و پرورش برخوردار هستند. در حالی که در مورد دانشگاه ها و جوانان اینطور نیست و نیازمند حمایت دولت هستند

o SPEND MONEY

1. Do you agree or disagree with the following statement? To be successful, a businesses must spend a lot of money on advertising.

spending a great deal of money on marketing products and services, companies attract many potential consumers and increase their market share, winning customer war against their rival. besides introducing the characteristics of products, modern advertisement is aimed at defining individuals's needs; thus, by taking advantage of advertising and conveying persuading messages, businesses have opportunity to define their products and services as an essential need of every individual's life.

Furthermore, using advertising increases companies and businesses popularity, which enhance their chance to recruit plenty of creative and well-rounded experts to boost their profits. Any form of advertising, from celebrity endorsement to handing out leaflet to passers-by, all play crucial rule to make a company or a business to be well known. In this regard, since well-qualified experts have tendency toward working at famous companies, spending money on marketing through ads can make it worthwhile for skilled people to work in these businesses.

2. some people who unexpectedly receive a large amount of money spend it on practical things while others spend it for pleasure only. which do you think is better and why?

I prefer spend it for enjoying and pleasure only

1. It received by chance and I do not have any plan for investing it on something. Although I definitely have a lot of financial problems
2. spending money on enjoyable activities is meant you save your energy and abilities to earn much more money it is like an investment on mental health

3. Do you agree or disagree with the following statement? The more money people have, the more they should give away to charity.

اول اینکه نه، میتونن پولشون رو بذارن توی یک سرمایه گذاری و باهانش پروژه بگیرن و غیره و اینکار خیلی می‌تونه بیشتر از کمک کردن به خیریه ها موثر باشه چون شغل ایجاد می‌کنی و...

دوم اینکه درآمد بیشتر لزوماً به معنی کمک کردن بیشتر نیست، آدمها میتونن شرایط زندگی خودشون رو بهتر کنن و باعث پیشرفت خودشون بشن، مثلاً باهانش جای بهتری زندگی کنن، درس بهتری بخونن، زندگی مدرن تر و کارآمد تری داشته باشن موافق:

1. تضاد طبقاتی توی جامعه باعث یک حس انزجار و نفرت طبقه متوسط نسبت به قشر ثروتمند شده. افراد ثروتمند هرچه بیشتر پول داشته باشن بایستی بیشتر به خیریه ها کمک کنن تا از خودشون یک چهره خوب بسازن و این حس نفرت نسبت پولدارها بین توده مردم از بین بره و به یکپارچگی جامعه بیشتر کمک کنه.

2. افرادی که بیشتر ثروت دارن با بیشتر کمک کردنشون به خیریه ها میتونن در دراز مدت سودش رو ببینن، چرا که دولت اونا رو شامل و قوانین tax deduction میکنه و سال به سال مالیاتشون رو کم میکنه که برای ثروتمندان راه حل بهینه ای هستش. هر قدر ثروت و به تبع اون کمک به خیریه ها بیشتر باشه، این منفعت بیشتر هم خواهد بود و مشارکت در امور خیرخواهانه رو میطلبه

4. If you have more money, do you want to spend your money on objects like clothes and electronic devices or spend your money on experience?

5. Where do you like to go shopping? Explain why. Include details and examples to support your response.

6. Some people would borrow money to buy things they need. Others would save up money until they can afford it. Which would you do and why?

7. One of your friends has suddenly received a large amount of money and has asked you for advice on how to handle this money. What advice would you give to your friend? Give reasons for your answer.

8. Your friend is coming to your country for studying, but he or she is worried about the cost, what are the advices you can offer?

○ ENVIRONMENT

1. If people want to contribute to the society, which of the following is the best way?

- 1- riding bicycle or walking on foot
- 2- recycling the waste
- 3- buy local organic food

با خرید اورگانیک فودها، یک یونیورسالی ترندی ایجاد میکنن که بقیه مردم تشویق بشن به مصرف این غذاها که باعث فراگیر شدن اونها و health-conscious شدن مردم میشه

خیلی از کشاورزان که تولیدات اورگانیک دارن همیشه تحت فشار هستن چون حمایتی از محصولات اونا نمیشه و دولت هم زیاد سابورتشون نمیکنه. با روی آوردن به خرید این محصولات، از قشر زیادی از کشاورزان و افراد درگیر تو این حوزه حمایت میشه و حتی باعث کارآفرینی میشه

دوچرخه سواری:
کاهش آلودگی
کاهش ترافیک
تشویق به ورزش
:

برای دومی هم، باعث کمتر شدن آلودگی محیط زیست میشه و مردم دست از throw-away culture میکشن. مثلاً الان تو کشور ما مردم با جمع اوری بطری ها و دادن اونا به راننده های اتوبوس به عنوان کرایه برای بازیافت، هم آلودگی ای که پلاستیکها ایجاد میکنن کم همیشه و هم مردم تشویق میشن به استفاده از PT که آلودگی رو کم میکنه

با جمع اوری این محصولات برای بازیافت و مشارکت مردم، دولت دیگه لازم نیست پول هنگفتی رو صرف waste disposal کنه و این پول میتونه تو جاهای دیگه مصرف بشه. که این فقط به خاطر مشارکت مردم هستش

2.Do you agree or disagree with the following statement? All animals have the right to be treated and respected as people (Animals should be treated like humans)?

-It is morally and ethically questionable to harm animals. Just because we are the most intelligent creatures and have superiority complex does not mean that we have right to deteriorate animal's health. They are living being too. There is no justification for hurting them and keeping them disconnected from their habitat. These negative and unethical trends should be stopped.

-cruelty to animals will affect animal-human relationship. Superficially, it may sound quite unreasonable, but when carefully weighing in mind, it stands to reason that all aggressive behavior shown by wild animals are the repercussion of human activities. It is also scientifically proven that creatures develop defensive behavior with the passage of time. Maybe human activities itself is the underlying cause of death of thousands of people killed by wild animals.

Watching their surrounding people hurting animals, children are more likely to develop anti-social behavior. Children are like a spongy and they assimilate and absorb whatever they are exposed to. When they see slaughtered animals or ill-treatment of creatures they unknowingly develop negative traits.

Disagree:

1- Animals are not familiar with the subject of morality and they are unable to treat as a human specially during their courtship.

2- If we want to respect them we should consider the authority for them which means establishing animal laws to forbid them to harm others, but who can guaranties that a wild animal won't hurt you if she was hungry?

3.Some modern agriculture methods damage environment, people think providing more food for the growing world population is more important than protecting the environment. Do you agree or disagree?

(Agree)

1- In addition, modern agriculture should be continued because shareholders of the agriculture can fund the investigations of dealing with the environmental pollution problem. In fact, every problem has a solution, but it is possible that because of the deficient infrastructures, researchers stop pursuing searching for the way out. Should the government force investors of modern agriculture, who are earning a massive amount money from selling their

products, to pay for investigations, the research institutes can be equipped with modern instrument. Hence, being paved their ways, scholars will solve the environmental problems. As a result, modern agricultural methods should be continued because it can indirectly lead to a better answer to nature's contamination.

2- Using innovative farming methods, governments would be able to reduce poverty and hunger, which is the crucial problem of recent decades. In this regard, the ever-increasing population requires advanced methods to produce more food in order to provide people their essential needs. In fact, agricultural development can stimulate economic advancement outside of the agriculture sector, leading to higher job creation and raises farm incomes which directly contributes to poverty reduction. Moreover, increasing food supply, on one hand, reduces food prices and on the other hand, provides greater job opportunities, both result in a better economic situation and a solution to malnutrition problems in countries.

3- Moreover, many individuals are suffering from starvation in every corner of the globe, so providing them with sufficient food by means of up-to-date agricultural implements is far more substantial than safeguarding today's natural environment. To be more specific, ample food supplies and increased productivity have led to ever-availability of nourishment and have eliminated the exorbitant prices of some nutritional products. Therefore, having reached to this overriding aim, rulers have reduced the number of people who die from severe malnutrition, and nowadays nations are able to confront tough situations caused by natural happenings such as drought or flood better than before.

4- The other equally significant reason worth mentioning is that the increase in food productions by developed cultivation approaches strongly influences individuals' health. It is crystal clear that inaccessibility to diverse and nutritionally balanced diets is the main contributor to disease. To be specific, malnutrition due to excessive reliance on limited, nutrient-poor food staples and failure to achieve minimum daily energy and nutrient requirements leads to increased susceptibility to and severity of infectious diseases, gastrointestinal disease, and protein and vitamin deficiencies, to name but a few.

5- Placing a great emphasis on the cultivation of crops with modern methods to feed burgeoning population at the expense of the nature , governments can avoid the hazardous human-animal conflicts. It has long been that human beings and animals live separately in their own territories. However, this so-called "peace" hangs by a thread. What if the shortage of food result in the encroachment to the habitat zone of dangerous animals? It is even dreadful to contemplate the lack of food propels us to plan killing a tiger or a lion to bring food on the table. Even if we are lucky to kill a giant animal, what about the terminal disease that can be introduced to human life? Are we prepared to experience another Corona? It perfectly makes sense that resorting to excessive modern cultivation dose more good than harm as it prevents the aforementioned potential repercussions of food scarcity.

4.The government can take a variety of actions to help protect the environment. Which one of the following do you think is the most important for the nation's government to take to protect the environment.

1) Fund the research to develop environmentally friendly energy sources such as solar and wind energy.

2) Preserve the natural places like forests and protect the animals that live there.

3) Enforce laws to prevent the pollution of air and water by large companies

1- To begin with, governors should provide scholars with adequate funding so as to develop renewable energies since these clean energy resources generate a few amounts of greenhouse gasses. To be more specific, these gases, such as methane and Co₂, have detrimental effects on environment, including global warming, acidifying oceans, and thinning ozone layer, to name but a few. Indeed, since green energies, utilizing natural resources, emit minute amounts of environmentally hazardous gasses, honchos should allocate considerable sums of money to clean

energies' research.

2- Moreover, since renewable energies production has less harmful effects on flora and fauna living in their natural habitats, governors need to financially support scientists who are putting so much effort into finding effective ways to exploit clean energies. It is crystal clear that the process of extracting non-renewable energies like petroleum can cause toxic chemical leaks in environment, so many living creatures are endangered. Therefore, having known about detrimental impacts that fossil fuels can have, political leaders should spend budgets on creating a positive atmosphere in which green energies' research can be conducted in the most efficacious way possible.

3- If the rulers allocate money on researches about new forms of energy, the environment will be preserved because facilities used for generating clean energies have no detrimental impact on ecosystem. Vividly, during last decades, enormous damage has been done to the marine ecosystem by facilities used for excavating oil because some structures most place over the petroleum wells. On the other hand, modern energy types enjoy appliances having no adverse influence on surrounding since they generate power by using natural forces and there is no need for excavation. As a result, invest money in development of green energy sources can save many habitats around the globe.

5. Do you agree or disagree? The most important ways to improve the people's health is to clean the environment

Agree

To begin with, people's mentally health is connected to the beauty of the environment when a vast majority of individuals have mentally disease and want to take advantage of the clean environment surrounding their life to relieve stress and tension. To be more specific, in order to get rid of hectic life and work, people are inclined toward going out and benefiting from fresh atmosphere or clean natural resources.

Moreover, in today's complicated lifestyle, human brings are exposed to some bacterial diseases and virus infections linked toward the polluted water, soil and groundwater; therefore, cleaning the environment can provide a healthy life for people. In other words, it goes without saying that today various vegetable, fruits and food materials are cultivated by wastewater or infected water that they are harmful for human health.

باعث کم شدن بیماری می‌شود و دوم اینکه کیفیت زنجیره غذایی بالا میرود و جفتش روی بهبود سلامتی اثر می‌گذارد

6. Do you agree or disagree with the following statement? People today spend too much time on personal enjoyment, and not enough time on more serious duties and obligations. Use details and examples to support your answer.

مخالف

امروزه شرایط زندگی پیچیده تر و سخت‌تر شده و مردم مجبورن بیشتر کار کن و وظایف و مسئولیت های بیشتری هم در کار و زندگی‌شان داشته باشن و کلاً زمان کمتری برای تفریحات فردی نسبت به دهه های قبل دارن
بازارهای کاری امروزه رقابتی تر شدن و مردم بیشتر از قبل وظایف و مسئولیت باید انجام بدن که مبادا شغل و رفاهشون از دست بدن حتی خیلی پیش میاد که تو این شرایط از تفریحاتشون می‌زنن و به کارا و وظایفشون می‌رسن

موافقم

۱. اهداف زندگی امروزه تغییر کرده و فرد ب جای اینکه روو وظایفش متمرکز باشه دلش می‌خواد خوش بگذرونه
مثلاً کارمندهای ی اداره ب جای اینکه روو وظایفشون متمرکز باشن، از ریز کار درمیرن یا توو اداره بیشتر مشغول بازی و وقت کشی هستن چون اکثرشون می‌گن دنیا دو روزه و کار ارزش تلاش و وقت گذرونی نداره
۲. خوش گذرونی فردی باعث میشه از دنیا بیشتر لذت ببرن و این منجر ب طول عمر میشه
ولی اگه روو وظایف و کارهای جدی باشن و زندگی‌شون خشک و بی روح باشه سخته می‌کنن و جان ب جان آفرین تسلیم می‌کنن

مثلا دو تا از دوستانم که هر جفتشون مادر هستن، یکی فقط ب فکر خوش گذرونی و تفریحه با اینکه بچه داره ولی برا بچش پرستار گرفته و خودش میره ددر دودور ولی اون یکی دوستم ۲۴ ساعته پای بچه اش هست و برا این وظیفه مادریش کلی وقت میزاره... اولیه ب لحاظ جسمی و روحی سالم و سرحاله ولی دومیه شکسته و بیمار

Disagree

1- Owing to hectic lifestyle people have to work hard.

2- because of peer pressure individuals tend to reach various achievement such as university degree

7.You live in a crowded city with only one green space-the city park. The government recently proposes to build a housing complex on this only green space. Do you think this is a good idea?

مخالف

۱. حذف تنها پارک شهر باعث میشه چهره شهر عاری از هرگونه سرسبزی بشه و فقط با ساختمان ها پریشه که باعث زشت شدن چهره شهر میشه
۲. اون پارک میتونه محلی برای تفریح و سرگرمی خانواده ها در اوقات فراغتشان باشه که با حذفش عملا این فرصت از خانواده ها گرفته میشه

Disagree

1. People would be deprived of mental and physical health.

Physical—> would not be as firm as before, usually tired

Mental—> families could gather to be more imitate, but now would be more nervous, arguments go up, cannot relax and concentrate

2. Cannot extend their social abilities.

An excuse to meet new people and make friends, children cannot communicate well in their future.

8.Do you agree or disagree? The opinions of celebrities, such as famous entertainers and athletes, are more important to younger people than they are to older people.

سلبریتی ها به خاطر موفقیت ها، زیبایی ها ظاهری و شهرتشون بیشتر جوانی رو که این چیزا براشون جذاب هستش رو تحت تاثیر قرار میدن و به خاطر immaturity نشون نظر این افراد هرچی که باشه رو مهم تلقی میکنن به خاطر بایاس دار شدن ذهنشون به سلبریتی ها به خاطر ویژگیهاشون. از طرف دیگه افراد بالغ و بزرگسالان تحت تاثیر این ویژگی ها قرار نمیگیرن و بهتر میتونن راجب نظراتشون فک کنن و بدون ارزیابی نمیبذیرن و برای همین خیلی وقتا مخالف نظراتشون هستن

Agree

Young individuals usually seek for role models and take celebrities as their models..there fore every attitude of reputed people is highly important for youths and influences them.

Older generations are fully experienced and. always rely on their own experiences while facing opinions; however, young people lack this valuable experiences and accept the ideas of celebrities easily

9.Some companies provide important products or services, but they damage the environment. Some people believe that the government should require more penalty, a higher tax, or a larger fine of these companies. Others think there might be better ways

موافق:

۱. جریمه کردن یا اعمال تکس باعث میشه که بیشتر به دنبال یافتن راههایی باشند که بتونن محصولات با الودگی کمتری تولید کنند تا از این طریق نه تنها مشکل جریمه شدن رو حل کنند بلکه شاید به روشی جهت تولید محصولات با بازده بالاتر هم برسند
۲. اعمال تکس و جریمه به یه کمپانی باعث میشه که هویت و اعتبار اون کمپانی خراب بشه پیش مردم و این روی میزان فروش محصولاتشون تاثیر خیلی زیادی میگذاره. پس جهت جلوگیری از این قضیه، کارخونه ها و کمپانی ها به فکر تغییر روش تولید محصولاتشون میافتند و سعی در بهبودشون خواهند کرد.

مخالف:

۱. روشهایی دیگه و بهتری هستنند نسبت به جریمه کردن و تکس. چرا که کارخونه ها حتی با اعمال تکس و جریمه باز هم حاضرند که اون تکس رو بپردازند و بتونن

محصولاتشون رو تولید کنن و سود کسب کنن. چون محصولات بصورت تولید انبوه هستند در کارخانه ها، پول و درآمد حاصل از اونها بسیار بالاست و قابل مقایسه با تکس و جریمه نیست. لذا کارخانجات با پرداخت تکس، به کارشون ادامه میدن و این تکس و جریمه تاثیر خاصی نمیگذاره روی بهبود الودگی طبیعت.

۲. کمپانی ها و کارخانجات معمولاً میتونن این جریمه ها و تکس ها رو دور بزنین. خیلی از اونها میتونند با پرداخت مبلغی پول به مسئولان رسیدگی به این تکس و جریمه از زیر پرداخت شون در برندن. پس در این صورت هم مشکل الودگی حل نخواهد شد.

من با دلایل شاید موافق بالا موافقم، ولی دلایل شاید مخالفش یعنی اینکه راه های دیگه رو انتخاب کرده ولی اشاره ای نکرده بهش که خب چه راه های دیگه ای... من فکر میکنم راه های دیگه رو انتخاب کنم راحت تره

۱. تبلیغ و توجیه کمپانی ها در مورد اهمیت حفظ محیط زیست .

مثلا جلسات توجیهی برای صاحبان سرمایه و این کمپانی ها برگزار شه و در مورد خطرات انقراض گونه های خاص گیاهها و حیوانات و تاثیرش بر نسل های بعد توضیح داده بشه. مثلا کمپانی های شیمیایی توو استان من ک خیلی پس ماند و اینا وارد طبیعت میکردن و حتی جریمه هم روشون اثر نداشت، در دراز مدت و پس از در معرض گرفتن این تبلیغات و جلسات توجیهی تاثیر گذار فکری ب حال آلاینده های کارخونشون کردن

۲. روش های نوآورانه در تجهیز کارخانه ها جهت کاهش خسارات ب محیط زیست .

دولت میتونه فاند بده و یا حتی مسابقه ای بزاره برای کارخونه هایی ک میزان خسارتشون ب محیط زیست کم شده باشه و در عین حال محصولات با کیفیت بدن بیرون. با این کار نوآوران و خلاقان میتونن روش هایی رو اعلام کنن ک کارخونه کمتر آلودگی تولید کنه.

مثلا کارخونه ی x توو شهر ما ب دلیل روش های نوآورانه ای پیاده کرده بودن میزان خسارت ب محیط زیستشون ب کمتر از معمول رسید و ی فاند دولتی دریافت کردن و کارخونشونو ارتقا دادن تا بهتر و بهتر شه

10. People are encouraged to use reusable bags and bring their own bags when going shopping, and there will be a fee imposed to plastic bags. Describe the advantages and disadvantages of this policy.

11. You live in a crowded city with only one green space-the city park. The government recently proposes to build a housing complex on this only green space. Do you think this is a good idea?

12. Which of the following choice do you think has the greatest impact on environmental protection? a. Governmental Regulations b. Environmental Awareness Groups c. Individual Efforts

13. You live in a crowded city with only one green space-the city park. The government recently proposes to build a housing complex on this only green space. Do you think this is a good idea?

14. Nowadays traffic congestions are increasing, what can we do to reduce the cars in the city?

15. Do you agree or disagree with the following statement? Building zoos helps to protect animals. Please give your answer with specific examples and details.

16. Our society is now facing very serious environment problems. Choose one approach that you believe to be useful to save our planet.

17.Many regions in the world face problems with air pollution. What can be done to decrease the amount of air pollution in these regions? Use details and examples in your response.

o ART/ENTERTAINMENT

1.school used to offer three after-class activities.1)sports 2)art 3)volunteering, but this year, school's extra money may only can offer one activity. Which one do you choose and why?

ورزش

۱. دانش آموزان معمولاً خیلی درگیر درس هستند و به سلامتی خودشان کمتر اهمیت میدن در نتیجه کلاسای ورزشی میتونه به سلامتیشون کمک کنه ، هم سلامت روحی و هم سلامت جسمی

۲. وقتی کلاس ورزشی برگزار میشه و بچه ها توی یه کلاس شروع میکنن به رقابت ، خیلی فرصت خوبی هست که استعداد بچه ها تو ورزش های مختلف کشف بشه بخصوص توی ورزش های تیمی که فرصتش کم پیش میاد برای بچه ها توی دنیای امروز :

sports.

- Offering sport classes, the school would enhance students' physical health dramatically.
- Students are overwhelmed by the pressure and stresses associated with the classes in the school, thus sport classes would be the best opportunity for them to relieve their tensions, thereby increasing their learning efficiency.

2.Older people like board games and card games. Nowadays people like to play mobile or computer games, which is better.

Board games like older people

1. People do not look in the LCD screen of mobiles because it can cause some deleterious effects on their health.
2. They can have eye to eye contacts with their friends. They would also have the ability to understand their friends feelings which is much more enjoyable and enthusiastic than sitting behind a frigid glass

1. Since they are engaged with electronic devices like computer and mobile and they are usually addicted to the electronic devices for a diverse spectrum of applications, they spontaneously tend to play mobile or computer games
2. Thanks to visual and audio attractions which such interesting games donate them, they are easily fascinated by them.
3. Due to the complexity of these beneficial games, people conspicuously are inclined to play them to promote their cognitive intelligence and their capability of solving arduous problems.

Mobile or computer

- 1- they are more attractive because of high graphic quality and sound.
- 2- we can have many games in a small cellphone and play whenever we want, for example when we are held up in heavy traffic.

- 3- We can make a network via the internet and play the games together with many friend

3. Nowadays, people are busy with many things. If you were given a short period of time, what would you choose :

- 1. Learn to play a new sport you never played;**
- 2. Learn to cook food in a different way;**
- 3. Learn to do some hand-made work like clothes**

Learn to play a new sport I never played

- 1) sports provide us with mental and physical health and increase the productivity
- 2) learning new things will increase innovation and the ability to better solve the problems related to our life

First of all, in the complex life, learning to cook food in a various methods for a short spell, individuals are in possession of the ability to eat healthy and homemade food.

Moreover, in the hustle and bustle of ordinary life, people can learn how to cook food in a variety of ways during a short period of time in order to save their money rather than spend a huge amount of money on prohibitively expensive foods prepared in restaurants.

گزینه ۳

۱. میتونم با یاد گرفتن کارهای اینطوری کسب درآمد کنم و پول سیو کنم.

۲. مشغول شدن به کارهای اینطوری میتونه خلاقیت رو ارتقا بده و حتی وقتی ادم مشغول این کارا میشه میتونه مشکلات روزمره اش رو فراموش کنه

گزینه سوم:

یادگیری این کارها باعث میشه ادم استرس کم تری داشته باشه. زندگی امروزه سرشار از چلنج های مختلف هست و بعضی وقت ها ادم نیاز داره با انجام یک کار متفاوت از ان ها فاصله بگیره و ذهنش اروم بشه. یادگیری و انجام یک کار دستی باعث میشه علاوه بر اینکه حس خوب یادگیری یک کار جدید هست چون نیاز به تمرکز داره ادم ناخودآگاه ذهنش از مسایل تنش زا دور میشه.

دوم: یادگیری یک کار دستی میتونه از نظر کار اقتصادی هم کمک کننده باشه. امروزه با توجه به هزینه های سرسام آور نیاز دارند پول دربیارند و کار های دست ساز ارزش افزوده بالایی دارند. پس یادگیری و انجام اون می تونه از نظر اقتصادی مفید باشه. مثلا مردم بعضی از مناطق ایران در اوقات اضافی کار صنایع دستی انجام میدن و از نظر اقتصادی خیلی کمکتون میکنه

4. some people believe that it is better for children to learn how to play classical instruments. others think that modern musical instruments are more appropriate choices. which of these options do you think is better?

Modern

1-Contemporary music instruments are not restricted and are flexible in terms of range of notes you can play.

2-nowadays instruments have more usage than traditional ones. As a very obvious instance, classical guitars are less favorite in different musical genres than modern electronic guitars

5. Nowadays, people are busy with many things. If you were given a short period of time, what would you choose?

- 1. Learn to play a new sport you never played;**
- 2. Learn to cook food in a different way;**
- 3. Learn to do some hand-made work like clothes.**

3

1. پول در بیارن در آینده با چیزایی که یاد میگیرن وبه اقتصادخونواده کمک کنن و روی پای خودشون 2. از تایمشون به صورت بهینه میتونن استفاده کنن و از بیکاری در بیان که مزایای مثبت منتا داره و اینوویشنوشنم تقویت کنن

۱. به عنوان یک اپشن دوم برای شغلشون میتونه باشه. هم منبع درآمده و هم برای خودشون که استفاده کنن روی هم رفته به وضع اقتصادیشون کمک میکنه.

۲. کارهایی که انسان ذهنش رو به کار میگیره و هم زمان باید یک چیزی بسازه باعث پرورش خلاقیت و کارکرد بهتر مغزش میشه
کلا تو این مایه که ساخت, خلاقیت میاره و حس خوبی به ادم میده وقتی که خودش میتونه یه چیزی رو بسازه .

6. you are required to be volunteer in a school beatification day. which of the following would you like to choose?

- 1. planting in campus flowers garden**
- 2. picking up garbage and collect the recyclable material**
- 3. paint natural and out side art**

اولی:

۱. از اونجایی که دانش آموزها overwhelmed هستند و درگیر درس و ... هستند نیاز به آرامش و ریلکسیشن دارند. لر این اساس، گل و گیاه کاشتن باعث میشه ی فضای زیبا و دلنشینی برای دانش آموزها فراهم بشه که بتونن اوقات فراغت شون رو اونجا بگذرونند و refresh minds بکنن و ریلکس بشند.
۲. وقتی ب کار کاشتن گل و گیاه میپردازند ی اسکیل جدید یاد میگیرند که میتونه براشون مفید باشه در زندگی. (مثلا در آینده میتونن برای خودشون از طریق کاشتن گل و گیاه و اینا و فروششون کسب درآمد کنند در کنار درس شون و ی درامدی داشته باشند).

7. Which of the following creative activities do you like to get involved in?

Pottery making

Writing

Art creation

Choose one and explain why.

8. Which kind of extracurricular activity would you like to attend if you have a chance: writing essays for students' newspaper, joining a hiking club or working in the dormitories discipline committee?

9. Do you agree or disagree with the statement: artists and musicians are important to our society.

10. Do you prefer to listen to live music like concert, or do you prefer to listen to recorded music.

11. Describe a tool or object that you rely on often in your daily life. Explain why it is important to you. Include reasons and examples to support your response.

12. What kind of music do you like the least? Give reasons why you do not like this kind of music.

13. Should people be encouraged to visit science and art museums?

14. Describe a historical event that you're interested in most. Explain why you are interested in it and want to know more about it. Include reasons and examples to support your response.

15. What was your favorite toy or game in your childhood?

16. Your school has a hiking club and a debate club. For some reasons, some students need to give up one of them. What advice do you have for your classmates?

o FOOD

1.What kind of food do you recommend to add to the food menu of the campus cafeteria? Use Examples and details to support your response.

2.Do you prefer to have fast food in a fast-food restaurant, or do you prefer to have food in other kinds of places?

3.If a foreign visitor comes to your country, what food will you introduce to him/her? Explain why.

4.Do you agree or disagree with the following statement?

In the past people ate food that was better for their health than they do today. Use specific reasons and examples to your answer

مخالفم:

امروزه سطح آگاهی مردم بالاتر رفته و به ضرر غذاهایی فست فود آگاه ترند و کمتر از این چیزا میخورند. مردم میدانند که با خوردن غذاهای junk شناس مریضی های غیر واگیر مثل سرطان و سکتة بیشتر میشه پس میرن سمت غذاهای سالمتر و رژیم سالمتری رو در برنامه شون میذارند. مثلا مصرف غذاهای چرب کم شده

دوم: تولید مواد سالم بیشتر از گذشته هست. کمپانی های غذایی سرمایه گذاری کلانی روی تولید مواد غذایی ارگانیک میکنند چون هم استاندارد های جدید رو رعایت کنند و هم مشتری بیشتری رو جذب کنند. مثلا تولید سبزیجات: الان سبزیجات با روش های مدرن تهیه میشه قبلا همش علف کش میزدند و مردم سرطان میگرفتند.

5.Nowadays, food has become easier to prepare. Has this change improved the way people live?

مخالف

راحت آماده شدن غذا ها باعث شده هر فردی براحتی و بدون کمک دیگران بتونه برای خودش غذا درست کنه و دیگه همکاری های زمان آماده کردن غذا با دیگران و به خصوص اعضای خانواده یا دوستان یا حتی همکاران وجود نداره و در این دنیایی که عوامل مختلفی مثل شرایط دشوار زندگی و به تبع اون گرفتاری های افراد باعث دور شدن از همدیگه شده همین همکاری های کوچیک که باعث ایجاد صمیمیت و حتی تمرین کار گروهی هم هست از بین رفته

خیر

۱. امروزه استفاده از دستگاههای جدید برا پخت سریع غذا مثل مایکروویو باعث تغییر بافت سلولهای مواد غذایی میشه و مفید بودن اون رو کاهش میده. (البته مطمئن نیستم سریعتر میکنه یا نه
۲. استفاده از غذاهای فرآوری شده که زود آماده میشن مثل همبرگر برای سلامتی ضرر داره

Disagree

To begin with, although preparing food has become easier, people are exposed to a wide variety of diseases because of various damaging materials using in food; therefore, this change has many new drawback consequences on people health.

Moreover, preparing food has become more comfortable, but individuals have to spend many time in their office or

workplace for working and making money to buy expensive food materials and kitchen equipment; thus, this way has changed people's lives in a negative way.

6. Are governments doing good in educating people to pay attention to the importance of food nutrition and healthy eating?

(Disagree)

1- To begin with, the misleading advertisements that promote junk foods and calorie-dense products being shown by media are not under strict supervision of governments, so they have done terrible in encouraging people to consume nourishing meals. To be more specific, nowadays many TV commercials are showing processed foods, consisting of food additives, and are directly persuading people to stock up on them. Were rulers to approve rigid laws preventing televised contents to show such destructive yet intriguing ads, individuals would go on a healthy diet.

2- Governments did not pass efficient laws about giving information to people about healthy eating habits because society does not face with any obligatory procedures about that topic. Vividly, there are many laws about air pollution and companies must obey them to get legal certifications. On the other hand, there is not any law that enforces TV stations or news agencies about propagating sufficient information about healthy eating habits. One of the easiest and most effective ways that the government can do about this dilemma is passing laws for distributing information about healthy eating.

3- Government increases the price of healthy material and decreases the value of harmful meal, hence individuals learn to buy unsuitable food instead of healthy one. Instead of supporting inner farmers, government imports fruits with high prices and people avoid eating fresh fruit because of its costs. In addition, nation is inclined to buy damaging cheap substances like biscuits, chips and unfit oils. In fact, these kinds of price educate people automatically to ignore the significance of the safe and sound eating.

4- Ever increasing rate of food-related diseases such as diabetes, blood pressure, obesity, and so forth is an explicit indicator of insufficient actions of government in educating people the value of healthy food. In this regard, effective education of healthy food's culture demonstrates itself in healthy diets and in turn, is fewer eager to junky food which results in wellbeing of people and lower rate of diseases whose origin comes back to unhealthy food diets. Therefore, emerging epidemic of above mentioned diseases even in young age shows government's weak performance in developing the significance of nutritious food.

5- Governments give prominence to their financial benefits receiving from food factories, so not only do they condone irreparable harm of the food, but they also allow the factories to advertise unhealthy food. Decision-makers are really into statistics and numbers which show that they have superb performance in governing a state and reducing the rate of the unemployment rate in particular. Accordingly, educating people about healthy nutrition can threaten the interest of the factory as well as the status of politicians. Were people not to buy the product of companies producing unhealthy food, government would lose a considerable source of tax and would be on the verge of a huge unemployment crisis. Then, they simply ignore educating people about the implications of their nourishment diet. The example of commercials in my country's national TV could present sufficient proof for this claim. Although everybody is aware of the deleterious effects of some nourishments such as soft drinks, potato chips, and fried food, to name but a few, advertisements of these foodstuffs are ubiquitous in different channels of the national TV in my country.

o DRESS

1.Do you agree or disagree with this statement? People should dress according to the latest fashion.

2.Do you agree or disagree with the following statement? What a person wears can show his or her personality.

3.Describe an interesting style of clothing in your country.

4.Do you agree or disagree: The way people dresses is a good indication of his or her personality or character.

Disagree.

1. One might have been bounded due to the norms of the society.

Some countries have special rules for dressing up which might not be aligned with the individual's desire. Hence, were they free to opt for their clothes, they would wear differently.

2. One might not have been in a given financial position to dress like the way they want. Since wealth is not considered as one's personality, and wealth is correlated with the means that one dresses, anticipating their personality with estimating their clothes is unreliable.

5.Should employees be required to wear suits in the workplace, or should they wear casual clothes?

اولی

۱. وقتی همه ی نوع لباس بپوشن ذهن کارکنان دیگه درگیر انتخاب لباس برای پوشیدن نمیشه و در ضمن هیچ کدوم از کارمندا بخاطر پوشش دیگه متمایز نمیشه و این بار روانی مثبتی داره چون گاهی پوشش باعث توجه بیشتر به بعضیا میشه
۲. لباس یکدست برای کارکنان ی شرکت باعث میشه اون شرکت خیلی شیک و مرتب و منظم بنظر بیاد و وقتی یکی از بیرون وارد اون شرکت میشه این یکدستی و هماهنگی براش جالب خواهد بود و نطرش رو جلب میکنه

6.The majority of schools require their students to wear a predetermined uniform during academic year, while others do not. Which one is better in your opinion and why?

Agree

*applying school dress code inculcate a sense of equality among students. when implemented, school uniform rules will remove socio-economic differences among students; no student will show off his immaculate sense of dressing, and no one be harassed by a bully in school because of inferior set of clothes

*It is economically beneficial for parents and they don't have to spend inordinate amounts of money to buy newly launched clothing brands. It is especially helpful for overindulgent parents catering to every whim and fancy of their pampered children.

* It will boost students' academic performance as they no longer spend time to decide which wardrobes to wear for the next week

Disagree

* forcing students to dress alike will traumatize those who value their freedom and individuality. adolescence is the period of emotional turmoil. teenagers have a strong desire to be free and every mandatory rule is perceived as a chain on their freedom.

* Since not all clothes look good on a person, some students may feel frustrated when they find the clothes unattractive. This is especially harmful for students with body dysmorphic disorder.

7. Do you agree or disagree with the following statement?

The way people dress is a good indication of his or her personality or character.

(Agree)

1) Wearing well-suited outfits, individuals show their well-organized manner that conveys a clue about their personality. People who meticulously choose different parts of their wearing, and they are careful about how well-matched are them, represent their disciplined personality. To elucidate the concept, a number of individuals who have a principled lifestyle, they follow an arranged clothing style to be neat, well-matched, and without any dirtiness. This organized feature reflects one of the central characteristics.

2) Choosing clothes color depends on people's mentality which is an indicator of an individual's personality. In this regard, people commonly choose the color of their dresses based on their morale unconsciously. The color option is done based on a person's mood and emotions. These two factors derive from intrinsic features of an individual's nature. Therefore, current emotions and general characteristics of a person's identity might be predicted based on colour option of clothes.

3) People choose to wear a specific style of clothes based on their attitudes and their ambitions which both comprise their personality. In fact, personal specification of everyone lead to defined attitude and ambitions. Individual's attitudes affect the way people dress and choose a proper style of dress to be viewed or even be justified. In fact, personal aspects and dreams construct a circle of criteria which directly determine the way of dressing. Therefore, outfits reveal someone's view that is based on internal personality.

○ OTHER

1. Talk about two singers who are popular in your country. Explain why they are popular and how they are different.

2. Describe a performer, an actor or a musician, etc. that you think is great. Please give specific reasons why you think he/she is a great performer.

3. If a foreigner comes to your country, what would you advise him to take home?

4. Your foreign friend is considering coming to your country to visit, but he/she doesn't know how to plan the trip. What suggestions do you give him/her?

5. Do you think it is important for people to learn about local history?

6. Some famous athletes and entertainers earn millions of dollars every year. Do you think these people deserve such high salaries?

(Disagree)

1) First, renowned sportsmen and entertainers do not give society a considerable advantage compared to the cash they receive; therefore, they are not worthy of huge piles of money. To be crystal clear, acts of celebrities do not have enormous and permanent impact on people's lives, which do not merit enough to receive high payment. Sportsmen are playing games, and entertainers like actors do not do anything but say a few lines in front of the camera; in fact, they can help the public neither to cope with a terrible crisis nor to enhance the level of people's quality of life. There are crucial jobs in the society that should be allocated more money - like medical doctors and scientists who save individuals' lives and push back the frontiers of knowledge. Indeed, athletes or entertainers only work for their regions so as to earn reputation and they have nothing to do with meliorating the level of welfare, facilities, and amenities of the society; therefore, their income is way more than what they actually accomplish.

2) Most of the celebrities do not deserve huge earnings because they do not know how to spend their money effectively, making them bad idols for the rest of the society. To be more specific, the majority of these sportsmen or performers do not enjoy sufficient social and scientific knowledge and also adequate communication skills since they have poor educational backgrounds. Therefore, they are more likely to waste their money on useless materials or activities rather than beneficial ways such as charities, and their adheres tend to follow them blindly. In this vein, they are promoting an outrageous behavior among their fans, whether young individuals or old ones, so they are not competent enough to get paid millions of dollars annually.

3) To begin with, it is crystal clear that world-class athletes and celebrated performers do not work hard in comparison with other people, meaning that they are not worthy of receiving huge salaries because their occupation is not arduous generally. To be more specific, these types of professions are among the careers in which individuals do not need to bother themselves by working on a daily basis, so all they need is to train sufficiently and accomplish their duties in special days, including entering competitions or performing shows or concerts in front of a whole crowd. Indeed, since they are employed to fulfill tasks in particular weekdays, they can enjoy plethora of free time which make them follow indolence. Therefore, there is no way an individual is truly worth those enormous amounts. No one can turn a blind eye on this fact that there are loads of people struggling to get by day by day- persons who cannot afford medical care, new cars, and decent homes- and famed athletes and entertainers flaunt their lavish lifestyles without even putting enough effort on their jobs.

7. Some famous athletes and entertainers earn millions of dollars every year. Do you think these people deserve such high salaries?

سایید مخالف

۱. این افراد اگرچه عضوی از جامعه هستند ولی نقششون توو جامعه و برای رفاه جامعه اونقدر پررنگ نیست ک بخوان حقوق های میلیاردری بگیرین و به خاطر

همین شایسته نیستن.

درسته که ورزشکارا مدال آور هستن و باعث افتخار کشور هستن ولی خب نبودشون هم آسیبی ب جامعه نمیزنه. به جای این افراد حقوق های میلیاردی رو بدیم ب سیاستمدارا که با فکرشون جامعه رو گل و بلبل میکنن و سراسر فایده و سود هستن

۲. این افراد شایسته حقوق زیاد نیستن چون از این درآمد بالا برای چشم و همچشمی و ترویج اخلاق و الگوی بد شدن استفاده میکنن. بعد میتونیم توضیح بدیم که اکثریت سلبریتی های امروزی براشون ماهیت کارشون و کشورشون مهم نیست و فقط ی سری کارها رو میکنن که پول بیشتر داشته باشن و چون پول بیشتر نصیبشون میشه، اونوقت خیلی کارهای خاک بر سری میکنن... و از اونجایی که الگوی خیلی از جوونا هستن، اونوقت جامعه رو ب سمت کارهای نادرست سوق میده.

مثلا تتلو که چون صرفا پول زیاد میگیره شده سلبریتی و الگوی ی سری بچه و جوون و اینا رو ب سمت گل و این چیزا تشویق میکنه

من به نظرم درآمد بالا لایق دو گروه آدمان:

۱. اونایی که تو شغلشون خیلی زحمت میکشن و به نوعی کارشون خیلی demanding هستن (فارغ از این که چه سودی واسه جامعه دارند. و نفس خود کار. مثل یه کارگر معدن که اصلا بدون اینکه کانتریبیوشونشون رو بدونیم تو جامعه، دین سختی و تلاششون جاستیفای میکنه اون حقوقشونو)
۲. کسانی که شغل و کارشون تاثیر خیلی زیادی تو بهبود جامعه و زندگی مردم و پیشرفت کشور داره (چیزی که تو دلیل اول در نظر نگرفتیم)

حالا برعکس. کسانی که این ویژگی رو نداره شغلشون شایسته حقوق بالا نیستن .

برای همین، شخصیت های ورزشی و سرگرمی لایق حقوق بالا نیستن

۱. شغلشون نسبت به درآمدشون خیلی اسونه > پس لیاقتشو ندارن

۲. کانتریبوشن اقتصادی چندانی ندارن و GDP ای تولید نمیکن پس سود زیادی واسه مملکت ندارن و این حقوق خیلی زیاده براشون

8. Do you agree or disagree with the following statement? Most businesspeople are motivated only by the desire for more money.

مخالف

۱. درسته پول محرک خوبی هست ولی خیلی از تاجران ب دنبال این هستن که به برند شن و شهرت کسب کنن و دنبال پول درآوردن نیستن، انگیزه شون شهرتشون هست

۲. خیلی از تاجران دنبال تغییر در مملکت خودشون هستن و میخوان کشور رو ارتقا بدن با خدماتی که ارائه میکنن و کشور رو در سطح بین المللی شناخته شدن کنن مثلا عمومی من تاجر فرش هست و صرف نظر از پولی که در بیاره، تنها انگیزه اش اینکه ک فرش ایرانی رو ب دنیا بشناسونه و با پولی که در میاد ب اقتصاد کشور خودش کمک کنه

9. Do you agree or disagree? Young people today have no influence on the important decisions that determine the future of society as a whole.

Disagree

1. Politics

To begin with, possessing full time access to social media and other similar technologies has enabled young generation to promote public awareness of the current issues, affecting decisions made by policy-makers. To be more specific, most, if not all, middle-aged or older average citizen are politically illiterate. On the other hand, taking advantage of technologies, youngsters not only are aware of political and economic corruption but also increase public awareness of government's irresponsibility and set the stage for nationwide rallies. These contribution headed by youngsters make the dissent voice grow louder; thereby, putting governments under pressure to change their

policies and take promising step toward reforms.

2.Preserving environment

Furthermore, In today's complex world, young generation ,who are supposed to live long years on the Earth, care deeply about environment and the damages that suffers, leading to enact many legislation preserving environment from enormous changes. To be more specific, young people account for a vast majority of environmentalists devoting themselves single-mindedly to protecting environment. Due to their adventurous spirit to explore polluted area, all of the world become aware of what is going on the Earth. These strenuous efforts force international organizations to pass essential laws to save the nature.

جوون ها بی تجربه هستن، مهارت های کافی رو بلد نیستن و سیاست های اینجوری هم نیاز به تسلط ، سواد و تجربه کافی داره ، همونطور که اکثر سیاست مداران دنیا آدمهای جوونی نیستن
دوم اینکه جوونا وقت ندارن، دنبال دغدغه ها و درس. وزندگی خودشون، خیلی براشون مسائل کلان اهمیتی نداره

10.Do you agree or disagree with the following statement? Famous entertainers and athletes deserve to have more privacy than they have now. Use specific reasons and examples to support your answer.

نیاز دارن که حریم شخصی رو به عنوان یک اصل اجتماعی داشته باشن

دوم اینکه عدم رعایت پرایوسی برای اینها تنش و استرس ایجاد می‌کنه و نمیتونن کارشون رو با دقت و تمرکز انجام بدن

سوم اینکه این افراد رول مدل برای نسل جوون هستن و پخش اخبار در مورد اینا نتیجه منفی در جامعه داره، چون اینا خیلی فالوور دارن و ممکنه به رفتار بدی که ازشون بدون اجازه خودشون پخش میشه باعث افزایش ناهنجاری های اجتماعی بشه، مثلاً بچه ها یاد بگیرن سیگار یا دخانیات مصرف کنن

11.If you want to change one aspect to improve your health, which would you choose? Why?

1. The kinds of food you eat

2. The amount of the exercise you do

3. The amount of the stress in your life

1) To begin with, stress plays a pivotal role in many diseases related to physical health, so by reducing the amounts of stress we experience on a daily basis, our lifespan will be prolonged to a great extent. To be more specific, because of today's hectic world and troubles we confront, our stress is in a dangerous level, which will contribute to many illnesses, such as high blood pressure, obesity, and the like. If we put effort into decreasing anxiety in ourselves, we can live longer since health issues will wipe out eventually.

2) Moreover, stress can be a major cause of mental disorders, which are outrageous for our overall well-being. To elucidate on, when individuals are overwhelmed handling hustle and bustle of life, they may suffer from extreme anxiety, resulting in mental diseases like acute depression, personality changes, and bipolar disorder, to name but a few. These illnesses lower their general health and if not treated, they may have dreadful consequences such as committing suicide. Therefore, by diminishing our level of concern, we can enjoy being in the fine fettle mentally and physically.

3- To begin with, today people are completely overwhelmed by many hard tasks and busy schedules in their workplace or home, leading to many stresses and tensions; therefore, decreasing the amount of stress in life is a key factor contributing to mental health. In other words, in the modern era, a vast majority of individuals spend a great amount of their time at the workplace, meaning that they go to work from early in the morning to late at night to earn money and support their daily life. In this vein, individuals are in conflict with their colleagues or their family members, causing a lot of stresses making many drawback consequences on people' lives such as mental diseases.

Under such a circumstance, hectic lifestyle takes a harmful toll on people' mental health and their life expectancy might decrease, thereby becoming upset and depressed. As a result, people can protect themselves against a lot of stress-related mental illness by making a strenuous effort to relieve their stress and make a deep sense of satisfaction and happiness.

گزینه ۲

۱. اولاً در دنیای امروز که اکثر کارها از طرق مجازی انجام میشود، تحرک بسیار کم شده و این باعث بیماری های مختلفی میشود یا میتونه باعث بیماری های زودرسی بشه که اکثراً در سنین میانسالی یا پیری شایع بوده مثل پوکی استخوان بنابراین نیاز هست برنامه ورزشی یا تمرینی مناسب داشته باشیم
۲. ورزش علاوه بر اینکه سلامتی جسم رو به ارمغان میاره ، باعث آرامش روح و روان هم میشه و در دنیای پیچیده امروز لازم و ضروریه، مثل شنا که تاثیر زیادی هم روی آرامش روان داره
بنابراین با گزینه ۲ عملاً ما میتونیم به گزینه ۳ هم برسیم

12. Drivers have to pay a fee for driving in busy city streets when there is a great amount of traffic.

(Disagree)

1) Paying a fee for driving in the crowded streets cannot diminish the amount of traffic congestion as long as drivers do not have any alternative ways to reach their destinations. Nowadays, traffic congestion in cities have increased to a great extent since individuals utilize their cars more than ever before. While some technology apparatus is available to pinpoint the best routes, quite a few cars are stuck in the crowded streets. This fact indicates that there are no traffic-free streets available to pass; thus, as long as there is no alternative route for drivers to choose, paying a fee is not an effective way for cutting traffic chaos.

2) Firstly, since the government gathers taxes, it is unfair that people become charged because of driving in rush hours. Obviously, one goal of taxation is to meliorate the cities' facilities, public buildings and its infrastructures. Therefore, if there is a problem with driving vehicles in the city, it is the government's responsibility to deal with it. For instance, it can build accessible parking near the city center so as to restore the city's communications to its normal condition. On the other hand, considering this approach to be continued, a massive amount of money will be obtained from people while the problem will be remained unsolved. This fining strategy is nothing except defrauding people and depriving them from one of their indisputable rights, which is a quiet peaceful city. Hence, it is unreasonable that governors punish drivers when streets are bustling.

3) To begin with, it is crystal clear that penalizing individuals for entering crowded regions in rush hours can put firm pressure on that districts' infrastructure, its transportation system in particular. To be more specific, majority of people are providing the necessities of life and cannot think of covering any other additional expenses such as mulcts. Indeed, they turn into taking public vehicles which will cost them less than driving their own cars due to the restriction of commuting in specific hours, ego rail system and buses will be overfilled. Therefore, since transportation system cannot provide average Joes with sufficient vehicles, individuals may confront some troubles so as to reach their destinations in the right time, so both the level of discontent between them and the pressure on public vehicles will be meliorated to a great extent.

4) Moreover, it is obvious that enforcing congestion charges by honchos may have outrageous effects on other businesses in that area. . In this regard, congestion prices taken from drivers, especially in the most crowded hours which is the time for highest load of business activities, will encourage people to refuse to come to these regions; therefore, they prefer to visit out-of-town shopping centers. This event will, in turn, causes fewer sales for shoppers and hit business firms, building blocks of economy, in those districts.

5) Secondly, applying the policy of receiving a fee from drivers in crowded streets makes the economic situation

worsen for the poor. In fact, wealthy people do not care about congestion charges legislation, whereas the poor must watch every penny they spend daily. This plan will expand inequality in society and hit the poor who have to frequently pay the fee which comprises a noticeable part of their income. Therefore, not only will this policy make a tough situation for poor people, but it also brings about the state of discontent with the government since the egalitarianism have not been achieved.

6) This regulation will not work, as citizen usually are intolerant of prohibitive policies. It is almost impossible for people to go to crowded and bustling streets without their own vehicles. They need to go to their workplace, pick up their children from school, and take their sick family member to the hospital, to name but a handful. When they are issued a ticket or forced to pay money for entering special zones, they will be outraged and develop a hatred to authorities so much so that demonstrate aggressive behavior and lose their temper while driving. This, in turn, soar the probability of accidents and breaching laws.

در ارتباط با برین استورمینگ چینی ها تکنیکی دارند که کل سوالات رو با استناد به یکی از این ده دلیل پاسخ میدن و معمولاً هم جواب میده:

- 1- Concentration
- 2- Happiness or relaxation
- 3- Prosperity (in future)
- 4- Responsibility
- 5- Healthy lifestyle
- 6- Cost (cost-effective or money consuming)
- 7- Time (save time or time consuming)
- 8- Role (pivotal role)
- 9- Relationship (make friend)
- 10- Management

دلایلی که همیشه سوالات رو باهاشون پوشش داد

- 1-save money
- 2-time efficient
